MUTUAL LIFE ASSURANCE

THE

SCOTTISH PROVIDENT INSTITUTION

Head Office: 6, ST. ANDREW SQUARE, EDINBURGH.

ITS DISTINCTIVE SYSTEM of **whole Life Assurance** offers the advantage of participation in Surplus at rates which differ but little from the **non-profit** rates usually charged.

Premiums for £100 payable at Death (with right to share in Surplus).

Age next Birthday.	25	30	35	40	45	50	55
During Life	£1 17 5	£2 2 4	£2 8 6	£2 16 6	£3 8 2	£4 3 2	£5 2 3
25 Payments... ...	2 9 8	2 13 11	2 19 3	3 5 11	3 15 11	4 8 8	5 5 8

The **whole Surplus** is reserved for those Policy-holders who prove to be good lives.

Endowment Assurance

SPECIAL CLASS WITH SEPARATE FUND

Policy-holders in this Class share exclusively in the whole Surplus thereof, and Bonuses are allotted from the outset. The rate last declared (1923) was £1 18s. % compound.

Annuities

RATES MAY BE HAD ON APPLICATION.

FUNDS EXCEED £19,000,000.

Branch Offices in Glasgow, Aberdeen, Dundee, Birmingham, Bristol, Cardiff, Leeds, Liverpool, Manchester, Newcastle, Nottingham, Belfast, and Dublin.

LONDON: 3, LOMBARD STREET, E.C. 3; WEST END: 17, PALL MALL, S.W. 1.

Write for Prospectus and Leaflets, mentioning "Whitaker." [311

The name with block at side has been familiar to readers of Whitaker now for 37 years; in 1926 issue it was explained why the use of it was continued when for many years woollens from English, Scotch, and Welsh mills were incorporated. The business continues a personal and private one carried on by the son and grandsons of the founder on the good old English doctrine that buyer and seller should be mutually benefited. No alluring promises, no catch phrases, no advertising fustian, so pronounced in these days. The unsullied reputation of 80 years straight dealing in British merchandize only by a firm who has theoretical and practical knowledge of the woollen trade from beginning to end, must convince most people he is able and desirous to give the best possible value. W. B.

(Schedule of our Standard Woollens.)

HOMESPUNS—Irish and Scotch, peasant-made from all districts; for country wear, sport, and travelling.
SCOTCH CHEVIOTS; for warm, rough suits, and wraps.
IRISH FRIEZES; for heavy travelling, and motoring ulsters.
FLEECES; for warm, soft, woolly overcoats, and capes.
HOMESPUNS; natural cream, brown, and grey.
IRISH TWEEDS; for hard useful wear; winter and summer.
TWEEDS; for ordinary town wear; various weights and mixtures.
WORSTEDS; for business and professional wear.
SERGES; navy, grey, and black; rough, and smooth; all seasons.
CASHMERES; for tropical, and semi-tropical wear.
TROUSERINGS; winter, and summer weights.
FLANNEL TWEEDS; for light summer, and semi-tropical wear.
COSTUME TWEEDS; for ladies' country, and town wear.
OVERCOATINGS; light, medium, and heavy.
MOTOR & TRAVELLING RUGS, pure wool, **21/- to 50/-**
SHETLAND, AND FAIR ISLE jumpers, jerseys, scarves, shawls, socks, gloves, body belts, tams, &c.
SOCKS AND STOCKINGS; hand-knitted; Irish and Scotch.
WELSH SHIRTINGS; for country, and colonial wear.

Owing to present trade conditions, quotations for a year ahead are not possible; they will, however, be marked on patterns for the discerning public, and be competitive. Application should be definite and descriptive of requirements in order that a fitting selection may be sent.

A visit to the warehouse is recommended whenever possible in order to view the extent of the stock, handle the goods, judge of their merit, and make a judicious selection.

SHIPPERS, the TRADE, and PUBLIC supplied at prices corresponding to extent of purchase. Tailoring firms in connection. TERMS:—Cash with order. Carriage paid in U.K.

Warehouse: **31 & 29, GREAT PORTLAND ST.**

Branch: 93, New Bond Street, **LONDON**

Telephone: Langham 2426. (Founded 1846.) *T.A.:* "SELFHELP, LONDON."

PREFACE TO THE LIX^TH ANNUAL VOLUME.

(1927.)

219908

THE 59th Annual Volume, which must henceforward be known as "THE COMPLETE WHITAKER" (to distinguish it from the newly established Abridged Edition), has been almost entirely re-arranged, and the "Subscriber for many years" may feel puzzled, at first, in handling the new issue. The Editor hopes, however, that an examination of the Table of Contents will justify the re-arrangement under which the sections are now presented, and he feels that the references and cross-references contained in the Index will enable even the most impatient of inquirers to obtain the information required with the minimum of delay.

At the request of many readers a Table of "Abbreviations in Common Use" now follows the Index; and among the items of general interest will be found the results of the 1926 Census of Northern Ireland, the Irish Free State, the Commonwealth of Australia, the Dominion of New Zealand, and the Union of South Africa. The Editor has also been favoured with an article concerning New Zealand by the Prime Minister of the Dominion.

Questions of the Day are dealt with in 57 short articles, and these are followed by Annual Summaries of Events, notable Deaths, Wills proved during the past twelve months, Meteorology for the year, Science and Invention, Art, Music, the Drama and a Retrospect of Sport, with a Diary of Events in the ensuing year. Among the summaries is a new article giving details of the meteorological conditions in the Harvest and Holiday months for the past 51 years.

The Editor's letterbox has been unusually full since the last Preface was written, and while expressing his gratitude to those who have taken the trouble to write their suggestions and criticisms, he begs to request those who feel the inspiration but refrain from communicating the result, to take in the next twelve months the more charitable course of assisting to make "WHITAKER" increasingly useful to themselves and to the world at large.

Correspondents are earnestly requested to note the first day of October as the latest date when suggestions should reach the Office, at the address given below.

12 WARWICK LANE, E.C. 4,
LONDON.
November 1st–20th, 1926.

THE DOGS' HOME

OR TEMPORARY HOME FOR LOST AND STARVING DOGS

(An Institution for the Protection of Dogs & Cats)

4, BATTERSEA PARK ROAD, S.W. 8,
and HACKBRIDGE, SURREY.
(For Boarder and Quarantine Dogs Only.)

Patron:
His Most Gracious Majesty the King.
President:
His Grace The DUKE OF PORTLAND, K.G.

OBJECTS:

1. To provide food and shelter for the lost, deserted, and starving dogs of London and the immediate neighbourhood.
2. To restore lost dogs to their rightful owners.
3. When good dogs are unclaimed, to find suitable homes for them at nominal charges.
4. To destroy, by a **merciful and painless** method, all valueless and diseased dogs.

Out-Patients (Dogs and Cats only), at Battersea, Tuesdays and Thursdays, 3.0 p.m.

Since the Foundation of the Home in 1860, **over 1,400,000** *dogs have received food and shelter.*

Dogs and Cats can be received as Boarders at Hackbridge, and Dogs for Quarantine under the Importation of Dogs Order, 1914.

Contributions will be thankfully received by
G. GUY S. ROWLEY, *Secretary.* [15

Humber

Cars, Motor Cycles and Cycles.

THE continued popularity of Humber Cars is due to their splendid road performance at all times. Only essential correctness of design and construction could result in the reputation Humber enjoys in all parts of the world. The Humber is the car to choose, because everywhere it lives up to the claims made for it.

The 1927 Range Includes:

9/20 h.p. 2/3-Seater Tourer with Dickey Seat
9/20 h.p. 4-Seater Tourer
9/20 h.p. 4-Seater Saloon
14/40 h.p. 2/3-Seater Tourer with Dickey Seat
14/40 h.p. 5-Seater 4-door Tourer
14/40 h.p. 5-Seater 4-door Saloon
14/40 h.p. ¾-Coupe with Dickey Seat
15/40 h.p. 5-Seater 4-door Tourer
15/40 h.p. 5-Seater 4-door Saloon
15/40 h.p. 5-Seater 4-door Saloon Laudaulette
20/55 h.p. 6-cyl. 5-Seater 4-door Tourer
20/55 h.p. 6-cyl. 5-Seater 4-door Saloon
20/55 h.p. 6-cyl. 5/7-Seater Laudaulette
20/55 h.p. 6-cyl. 5/7-Seater Saloon Limousine on long wheel-base chassis

MOTOR CYCLES.

All the popular features of the celebrated 3.49 h.p. Side Valve Motor Cycle have been retained in the 1927 range, but the 3.49 h.p. O.H.V. "Sports" Model will meet the requirements of the large body of riders who desire a speedier machine that can be relied upon to give the same uniformly satisfactory road service.

3.49 h.p. O.H.V. "Sports" Model
3.49 h.p. Side Valve "Sports" Model

CYCLES.—The well-known range of Humber Cycles has now been increased by the addition of five new models, including the "Olympia Speed" Model, "All-Weather" Lady's and Gent.'s Humbers, and new Lady's and Gent.'s Road Racers.

Advantageous Deferred Terms.

Dunlop Tyres Standard to all Car and Motor Cycle Models. Dunlop Tyres or Tyres of Dunlop manufacture to all Cycle Models.

SEND FOR FULLY ILLUSTRATED CATALOGUES.

The Nottingham Guardian

THE LEADING BUSINESS MAN'S NEWSPAPER THROUGHOUT THE NORTH AND EAST MIDLANDS, INCLUDING THE WHOLE OF NOTTINGHAMSHIRE, DERBYSHIRE, LEICESTERSHIRE, LINCOLNSHIRE AND RUTLAND.

COVERS an area containing a population of nearly 2,500,000 people engaged in the Lace, Hosiery, Boot and Shoe, Engineering, Chemical, Tobacco, Motor, Cycle, Coal Mining and Agricultural Industries.

As an aid to the stimulation of British Trade with the British Overseas Dominions and Colonies, and Foreign Countries throughout the World, the "Nottingham Guardian" conducts a

TRADE INTELLIGENCE BUREAU

which is of great value and practical utility to manufacturers and business men both at home and overseas, as is testified by an ever-increasing demand for its services and by numerous appreciative acknowledgments of its helpfulness. The purpose of this Bureau is

¶ **To GIVE INFORMATION AND ADVICE to Manufacturers in this country, overseas and abroad, on all matters which may assist in the expansion and development of trade and commerce.**

¶ **To SUPPLY INQUIRERS with Particulars of Trade-marks and the names of manufacturers of patented goods and specialities.**

INQUIRIES should be addressed to the Secretary, "Nottingham Guardian" Trade Intelligence Bureau, Nottingham.

London Office: 59, Fleet Street, E.C. 4.

Chancery Lane Safe Deposit

AND OFFICES COMPANY, LIMITED.

Directors:

Chairman—H. Hamilton Mills, Esq., J.P., Sudgrove House, near Stroud.

Vice-Chairman—Edward P. Little, Esq., Whitemoor, Amberley, near Stroud, Gloucester.

E. F. Broderip, Esq., J.P., Bridgwater, Somerset.

Sir Percival S. Marling, Bart., V.C., Stanley Park, Stroud, Gloucester.

Colonel W. C. Riddell, 147, Coleberne Court, S.W. 5.

Managing Director—Sir E. Vincent Evans, J.P., 64, Chancery Lane, W.C.

THE CHANCERY LANE SAFE DEPOSIT (entrance 61–62, Chancery Lane), established 1885, provides the public with the means of placing in absolute safety, *under the Depositor's own control*, all kinds of Securities, Bonds, Deeds, Letters, Plate, Jewels, and other valuables.

Safes from = = £1 1 0 to £5 5 0 per annum.
Strong Rooms from £5 5 0 to £105 0 0 per annum.
Deposits for Safe Keeping from 5s.

Ladies' and Gentlemen's Writing Rooms, Reading Rooms, &c., for the use of renters free of charge. Letters received and forwarded.

Plate Chests, Jewel Cases, &c., received under seal for safe keeping at moderate rents. Key Registration, including Insurance Policy for £500, on payment of **1s.**

Wedding Presents guarded by official attendants and conveyed for safe custody to the Company's strongholds.

OFFICES, BACHELORS' CHAMBERS, AND RESIDENTIAL FLATS AT MODERATE RENTS.

Nos. 53 to 72, Chancery Lane, and 5 to 20, Southampton Buildings.

DEPOSIT BANK.

The Company receives MONEY ON DEPOSIT in large or small sums, repayable at short notice, and allows Compound Interest thereon, with Half-yearly Rests.

DESCRIPTIVE PROSPECTUS AND FULL PARTICULARS MAY BE OBTAINED FROM THE

Manager, CHANCERY LANE SAFE DEPOSIT,
63, CHANCERY LANE, LONDON, W.C.

Important Statement

The following is an excerpt from a Statutory Declaration

"The only wines used in the manufacture of Wincarnis are "PORTS, MISTELLAS, and other "IMPORTED RED WINES. All "such wines are GUARANTEED "BY THEIR RESPECTIVE "SHIPPERS to be made from the "CHOICEST grapes grown in the "respective districts of manufac- "ture and further to be PURE "GRAPE WINES of EXCELLENT "CHARACTER which contain no "anti-ferment or other deleterious "matter."

17,000 Doctors have recommended—

WINCARNIS

The GOOD Tonic Wine

How to obtain full value from Life Assurance

Results from the 100 Life Offices differ as much as 10% to 65%

Selection of the *right* office for *you* need not be a matter of chance or guesswork. The three salient points to remember when selecting a Life Office are:

¶ The safest and strongest offices give the best results—make your insurance an investment as well as a safeguard.

¶ A wisely chosen insurance yields—with income tax allowance—from 5% to 6% COMPOUND INTEREST, and at the same time affords immediate protection to your dependents.

¶ Investors (for insurance CAN be an investment) may obtain officially sponsored, statistical information to assist them in the choice of an office.

Comparative tables showing the past results and latest official figures of all companies, together with a clear and concise statement of the best method to adopt in selection of an office, are available. These enable you to base your judgment on the relevant and impartial facts. You will be able to appreciate the earning power of your premiums upon the actuarial basis of compound interest, and view Life Assurance in its true light. You will learn of the highly remunerative results obtainable from British Life Insurance at its best.

Send — without obligation — for full particulars, comparative tables and expert advice. In order to obtain comprehensive facts, state your age and amount you desire to save annually. If resident abroad, state also race, occupation, and say if acclimatised.

T. Egginton Paull, Insurance Consultant

THE IMPORTANCE OF ADVICE WHEN INSURING

is not so generally accepted as it should be, consequently,

NINETY-FIVE OUT OF EVERY HUNDRED

insured persons hold relatively inferior policies.

THE REASON BEING

that these important transactions, covering many years, are invariably entrusted either to a "friend Agent," Lawyer, Bank Manager, etc., whose knowledge of this highly technical subject may not extend much beyond the limited information contained in a prospectus or leaflets of the particular office for which an agency is held; or else a salaried official who is necessarily biassed in favour of his employing office.

WHITAKER'S ALMANACK SAYS:—

"The selection of the office best suited to requirements and likely to produce the best results should be carefully made, but the study of any tables or suggestions is not sufficient to enable persons without technical knowledge to gauge the respective merits of the various companies . . . and large sums may be saved or earned by intending proposers through obtaining reliable advice before a proposal is made."

EXPERT INDEPENDENT ADVICE—FREE.

For upwards of 30 years Mr. Percy Avery, consultant and contributer of articles upon the subject to Cassell's Magazine and the late Pall Mall Gazette, has been directing and advising intending assurants, who have adopted his recommendations, some taking policies for as much as £100,000.

Mr. Avery is at all times pleased to confer with and advise applicants desiring Life Assurance of any description or Annuities. No charge whatever falls upon the inquirer, nor are the premiums affected, and applicants may conduct their own transactions direct with the selected office.

Bona fide intending assurants are invited to submit their intentions for fair and independent criticism, and to make known their requirements, giving exact age, in strictest confidence, either personally by appointment or letter.

MR. PERCY AVERY, Consultant, 90, CANNON STREET, LONDON, E.C.4

SPECIAL LOW RATES FOR ESTATE DUTY POLICIES OF LARGE AMOUNTS.

TAX SAVING INVESTMENTS FOR SUPER-TAX PAYERS (WITH OR WITHOUT LIFE INSURANCE.)

CHILDREN'S POLICIES. MILITARY AND NAVAL OFFICERS' POLICIES.

SUNBEAM SUPREMACY

16 h.p. *Six - Cylinder*

20 h.p. *Six - Cylinder*

25 h.p. *Six - Cylinder*

30 h.p. *Eight - Cylinder*

35 h.p. *Eight - Cylinder*

3-litre *Six - Cylinder*

THE present range of Sunbeam models provides a car for every purpose at the lowest price consistent with Sunbeam quality.

All models have overhead valve engines, four wheel brakes, easy and effortless steering, cantilever rear springing, and four-speed gear boxes. With the various types of coachwork there is a choice of 19 different open and closed models. Any of the new Sunbeams can be tried under actual road conditions in your own district. We shall be pleased to arrange a trial run to suit your convenience.

Arrangements can be made to supply any Sunbeam Model on the Hire-purchase System.

THE BURBERRY

Weatherproof of Great Worth
Overcoat of Great Comfort

The Burberry is the ONE coat that keeps its wearer perfectly dry in downpour or drizzle—snug and warm when it's chilly—cool and comfortable on hot or dusty days.

Day In & Day Out

the whole year round, there's hardly a day that isn't a "Burberry" day—an occasion when The Burberry is needed, either as a safeguard against wet and wind, or as an airylight, self-ventilating Overcoat.

Write for Burberrys' new booklet,
"THE BURBERRY"

containing 27 patterns of the various materials from which The Burberry is made, at prices ranging from 4 gns. to 12 gns.

Illustrating the ubiquitous uses of The Burberry; its efficiency as a Weatherproof and its great value as an Overcoat.

Every Burberry garment is labelled "Burberrys."

BURBERRYS HAYMARKET LONDON S.W.1

PHASES OF THE MOON.

●	New Moon	3d. 20h.	27·9m.
☽	First Quarter	10 14	43·3
○	Full Moon	17 22	26·8
☾	Last Quarter	26 2	5·0

Perigee 7d. 3·1h. 227,820 miles.
Apogee 23d. 3·3h. 251,750 ,,
Mean Longitude of Asc. Node, January 1, 96° 57′.

RAIN FELL IN JANUARY, 1926, on 18 days; total fall 1·99 inches; *above* the average by 0·30 inch.

MONTHLY NOTES.

Jan. 1. Dog and establishment licences renewable. King's taxes due. Holiday on Stock Exchange; Bank Holiday in Scotland.

—. Quarter Sessions to be held in the first whole week after Dec. 28 last.

5. Dividends on Consols, &c., due.

9. Christmas Fire Insurances must be paid.

15. Registration Officers to publish New Lists of all Electors on Spring Register.

CONJUNCTIONS, ECLIPSES, AND OTHER CELESTIAL PHENOMENA.

January 2. Day breaks 6*h.* 2*m.* Civil twilight ends 16*h.* 52*m.* Night begins 18*h.* 5*m.* The length of the Day from Sunrise to Sunset is 7*h.* 51*m.*

The ending of Civil twilight is here defined as the time when the Sun's centre is 7½° below the horizon. Day breaks and Night begins when it is 18° below.

Jan. 2, 16*h.* Mercury in conjunction with ☽. ☿ 1° S.

Jan. 3. Earth at least distance from the Sun. Perihelion 91,345,000 miles.

Jan. 3, 20*h.* Annular eclipse of the Sun, invisible at Greenwich. See p. 58.

Jan. 4, 16*h.* Venus in conjunction with ☽. ♀ 0·4° N.

Jan. 6, 22*h.* Jupiter in conjunction with ☽. ♃ 3° N.

Jan. 12, 2*h.* ♂ in conjunction with ☽. ♂ 6° N.

Jan. 16, *morn.* Occultations of η and μ Germinorum by ☽. See p. 60.

Jan. 28. Mercury in Superior conjunction.

Jan. 28, 13*h.* Saturn in conjunction with ☽. ♄ 0·8° S.

In this month the Mornings increase 25*m.*, the Afternoons 45*m.*

Constellations near the South meridian at 22*h.*: Perseus, Taurus, Eridanus, Auriga, Orion, Gemini, Canis Minor, Canis Major.

APPARENT RIGHT ASCENSION AND DECLINATION OF THE PLANETS AT NOON.

Notes on Time Numeration; Tables of the Moon, &c.—According to the practice of recent years, the day as treated in this Almanack is divided into 24 hours, numbered from 0 to 23, the hour following the midnight which begins the day being called 0. This system was adopted in the Nautical Almanac in 1925, and the time was, and is called Mean, whereas it had, when used hitherto, been called Civil Time. Time of the Greenwich meridian in this system is indicated by the letters G.M.T., but the suggestion that this should be called Universal Time (U.T.) is sometimes carried out, these letters being added to show that it is Mean time of the new numeration.

On page 3 of each month the position of the Moon, and other details relating thereto, are given for the *midnight which ends the day specified in the first column*. The second column gives the time of the rising which happens during that day, and the figures in the two following columns

Morning and Evening Stars.

☿ Mercury rises before the Sun in the first part of the month, but will not be visible either then or later.

♀ Venus is an evening star, but sets early. It passes through the constellation Capricornus and sets between S.W. and W.S.W. It may be seen in the twilight near the horizon.

♂ Mars, in the constellation Aries, is moving towards Taurus. It is an evening star, and will be due west about midnight at altitude 20°. Magnitude −0·4 to +0·4.

♃ Jupiter, in Aquarius, sets in the early evening. It will be a bright object in the south-west at dusk at altitude about 15°, and in the closing days of the month will be 5° or 6 degrees nearly directly above Venus. Magnitude −1·6.

♄ Saturn is a morning star to be seen low down in the south-east between 5 and 6 o'clock. Mag. +0·7.

show the time of the southing and of the setting *which next follow that rising*, and these sometimes happen after the midnight which ends the day. In such cases the figures are in heavy type, and it is to be remembered in using this table that these distinctive figures always indicate a time *on the morrow of the day of its line*. A similar system is followed in the Tables of the planets. (See pages 13, 17, 21, &c.) In the ephemerides of the planets on page 3 of each month, italic figures are occasionally used (pages 12, 16, 36) to indicate the change of sign of the declination noted in the heading.

The Julian Period.—In the latter part of the XVIth century, about the time of the introduction of the Gregorian Calendar, Joseph Justus Scaliger, the historian and chronologist, devised a plan for numbering the years which does not require the use of the abbreviations B.C. and A.D. This scheme is known as the Julian Period, and is called so because the years it involves are Julian and not Gregorian, but is not to be associated further with the Calendar made for Julius Cæsar about the year 45 B.C. The Period consists of 7980 Julian years, and its first year coincides with the year 4713 B.C. Hence, if the number of any year B.C. be subtracted from 4714, the remainder is the number of the year in the Julian Period, or conversely. If the number of a year A.D. be added to 4713, the sum is the number of the year in the Julian Period. The number 7980 is the product 28×19×15, these component factors being respectively the number of years in the Dominical or Solar cycle, the Metonic cycle which defines the Golden Number, and the

* The days thus indicated throughout the Almanack are those on which High Tides may be expected. Strong northerly winds in the North Sea and a low barometer with heavy rains in the counties drained by the Thames will probably cause a higher rise of the river, and the low lying riverside districts to be flooded.

Morning and Evening Stars.

☿ Mercury having been in Superior Conjunction in January is now an evening star, and from about the 20th may be seen in the twilight at a low altitude south of west. It will be 4 or 5 degrees to the right of Venus, and lower by about 3 degrees.

♀ Venus is moving northward and setting later night by night, and will be a bright object in the western sky in the evening twilight. Magnitude −3·4.

♂ Mars will be seen in the south when the sky is sufficiently dark, to the right of Aldebaran which it is approaching. Magnitude +0·4 to +0·9.

♃ Jupiter sets soon after the sun south of west. Venus will be near it early in the month, and on the 5th the two planets will be less than the breadth of the Moon apart, Jupiter being the higher.

♄ Saturn not far from Antares is becoming prominent in the morning sky, low in the south-east between 3 and 4 o'clock.

Saturn ♄

Cycle of the Roman Indiction. The year 4713 B.C. was chosen as the first year of the Julian period because it was found by carrying backwards that the year named would have been the first of a period in each of these cycles. Consequently if the number of a year in the Julian Period be divided by 19, by 28 or by 15 the remainders are respectively the Golden Number, the year of the Solar Cycle, or the year of the Roman Indiction (*see* pp. 1 and 50).

It has been said that Scaliger gave the name to the period in honour of his father, Julius Caesar Scaliger, but this seems to be a misconception.

Jupiter is in conjunction on March 1. Because the planet is near the Sun, and therefore above the horizon almost wholly in daylight hours, the Satellites may not be visible this month, possibly not in February and April. See note, p. 16.

CONJUNCTIONS, ECLIPSES, AND OTHER CELESTIAL PHENOMENA.

March 1. Day breaks at 4*h*. 5*m*. Civil twilight ends 18*h*. 23*m*. Night begins 19*h*. 29*m*. The length of the Day is 10*h*. 48*m*.

Mar. 1. Jupiter in conjunction with Sun.

Mar. 3. Mercury at a Stationary Point.

Mar. 3, 14*h*. Jupiter in conjunction with ☽. ♃ 4° N.

Mar. 4, 14*h*. Mercury in conjunction with ☽. ☿ 9° N.

Mar. 5, 10*h*. Venus in conjunction with ☽. ♀ 5° N.

Mar. 9, 15*h*. Mars in conjunction with ☽. ♂ 4° N.

Mar. 13. Mercury in Inferior conjunction.

Mar. 21, 15*h*. Sun enters the sign Aries (Spring Equinox). Beginning of the Tropical Year.

Mar. 24, 8*h*. Saturn in conjunction with ☽. ♄ 0°.1° S.

Mar. 26. Mercury at a Stationary Point.

Mar. 31, 12*h*. Jupiter in conjunction with ☽. ♃ 4° N.

The Zodiacal Light may be seen after sunset in the latter part of this month, the Moon being then absent.

In this month the Morning Twilight increase 68*m*.; the Afternoon 52*m*.

Constellations near the S. meridian at 22*h*.: Gemini, Canis Minor, Monoceros, Argo, Lynx, Cancer, Hydra, Leo, Crater.

APPARENT RIGHT ASCENSION AND DECLINATION OF THE PLANETS AT NOON.

The Julian Day.—For purposes of astronomy the years of the Julian Period are converted into days, for it is convenient to be able to find the interval between two events, such, for instance, as the maximum brightness of a variable star, by simple subtraction. The number of the Julian Day corresponding to January 1 in 1927 and 1928 on pp. 1 and 50 is the number of days that have elapsed up to noon of those days respectively, and arithmetic will show that these correspond with the Julian years if it be taken into account that there is a difference of 13 days between the Julian and Gregorian Calendars, and that the first year of the Julian Period was considered to be a leap-year.

The Julian Day as used in astronomy begins at Noon. After discussion of this point in the year 1925 it was decided that no change should be made.

Morning and Evening Stars.

☿ Mercury may be seen in the evening twilight in the first week of March, farther from Venus than it was last month. It becomes a morning star at the end of the month, but is not likely to be visible.

♀ Venus is a bright object of the early evening sky, to be seen south of west at sunset or soon after at altitude about 20 degrees. It passes through the constellation Pisces into Aries. Magr. −3·4.

♂ Mars continues to be an evening star. It passes about 7 degrees north of Aldebaran on the 12th, and is equal to that star in brightness at the beginning of the month.

♃ Jupiter is neither a morning nor evening star this month.

♄ Saturn is growing brighter, and is almost stationary in the region where Scorpius and Ophiuchus meet. It will be in the south-east in the early hours of the morning.

Dip of Horizon.—The tabular time of Sunrise and Sunset is computed with respect to the true astronomical horizon which is a plane tangent to the surface of the earth at sea-level, but seen from any height the visible horizon falls sensibly below this plane by an amount known as the Dip. Consequently at any place the time of sunrise is earlier, of sunset is later than that given. Approximately the dip of the horizon in minutes of arc is the square root of the number of feet of altitude, and, also approximately, in mid-latitudes, 10 minutes of arc corresponds to a minute in the time of sunrise or sunset with some variation with the time of year.

The order of the four largest Satellites of Jupiter from left to right, as seen in an inverting Telescope, is shown in these columns for the moment stated in the first column. The Satellite is indicated by the planet's disc; the black circle shows that the Satellite is behind the planet, either in eclipse or in occultation, while the sign ● shows that it is in transit across the disc.

CONJUNCTIONS, ECLIPSES, OTHER CELESTIAL PHENOM

April 1. Day breaks at 3*h*. Civil twilight ends 19*h*. Night begins 20*h*. 29*m*. length of the Day is 12*h*. 50

Apr. 4, 8*h*. Venus in conjunction with ☽. ♀ 4° N.

Apr. 6, 5*h*. Mercury Jupiter in conjunction. ☿ 0

Apr. 7, 4*h*. Mars in conjunction with ☽. ♂ 2° N.

Apr. 10. Mercury at Great Elongation. 28° W.

Apr. 20, 12*h*. Saturn in junction with ☽. ♄ 0·1° N

Apr. 28, 7*h*. Jupiter in junction with ☽. ♃ 4° N.

Apr. 30, 1*h*. Mercury in junction with ☽. ☿ 3° N.

A display of shooting s diverging from a point a degrees south-west of Veg Lyrae) is expected about 2 21. The Moon rises shortly fore midnight on that date, the meteors are therefore t seen only in the evening hot

In this month the morni increase 6*m*.; the afterno 48*m*.

Constellations near the Se meridian at 22*h*.: Cancer, Hy Leo, Leo Minor, Crater, Cor Virgo.

The Date of Easter.—Full Moon this month occurs in the morning of Easter Sunday, a it might be supposed, according to the rubric, which ordains that if the Full Moon happens up a Sunday, Easter day is the Sunday after, that the festival of this year should be on April 24 But it is to be remembered that the moon to which the rubric applies is not the moon of t heavens, but to the dates of a day of Full Moon in Tables arranged by the Astronomer Roya Bradley, in the year 1752, for the finding of Easter to suit the Gregorian Calendar then new adopted in the British dominions. These tables differ from those formed by Clavius for simil purpose nearly two centuries earlier, in that they eliminated the use of the Epact, or the da of New Moon, in determining the date of Easter, and made the day of Ecclesiastical Full Moo

Morning and Evening Stars.

☿ Mercury is a morning star, but rises too near sunrise to be visible.

♀ Venus adds to the beauty of the spring twilight sky. It will be in the region of Aldebaran and the Pleiades in the middle of the month. Magnitude $-3{\cdot}4$ to $-3{\cdot}5$.

♂ Mars is still also an evening star, but is becoming fainter rapidly. It will be due west about 21h. 30 degrees above the horizon, near β Tauri at the beginning of the month and in Gemini at the end. Magnitude $+1{\cdot}4$ to $+1{\cdot}7$.

♃ Jupiter rises less than an hour before the Sun, and is not likely to be conspicuous.

♄ Saturn now rises well before midnight, and is in the south-east about that hour. Magnitude $+0{\cdot}5$ to $+0{\cdot}3$.

the essential point to be considered. The tables were arranged so that this would never differ greatly from that of the day of the actual Full Moon. The dates of Ecclesiastical Full Moon are given, or can be found from Tables given in the Introduction to the Book of Common Prayer. This year the date is April 16th, and the rubric quoted from above is satisfied. The last previous year when Easter fell on April 17th was 1892. It will do so again in 1938, 1949, and 1960, the date of Ecclesiastical Full Moon being April 14th, 13th, and 11th in these years respectively, and as each of the eleven year intervals comprises three leap-years, it is clear that April 17th is the same day of the week in all the years, that is to say, a Sunday as in this year.

Fasts and Festivals.

Remarkable Days—Events.

SUN'S LONGITUDE 60° 11 *22d. 2h.*

CONJUNCTIONS, ECLIPSES, OTHER CELESTIAL PHENOMENA.

May 1. Day breaks at 2*h*. Civil twilight ends at 20*h*. Night begins 21*h*. 50*m*. Length of the Day is 14*h*. 4*m*.

May 4, 7*h*. Venus in conjunction with ☽. ♀ 3° N.

May 5, 20*h*. Mars in conjunction with ☽. ♂ 0·4° N.

May 17, 15*h*. Saturn in conjunction with ☽. ♄ 0° 3′ N.

May 20. Mercury in Superior conjunction.

May 25, 23*h*. Jupiter in conjunction with ☽. ♃ 4° N.

May 26. Saturn in Opposition. Distance from Earth, 833,000,000 miles.

May 31, 22*h*. Mercury in inferior conjunction with ☽. ☿ 2° N.

A shower of meteors believed to have relation to Halley's comet. This period comet is sometimes observed in the mornings from May 2 to 6. They diverge from a point in Aquarius, and are bright objects of long flight.

In this month the Morning Twilight increase 44*m*. ; the Afternoon Twilight decrease 44*m*.

Constellations near the Sun at midnight on 22*h*. : Leo, Leo Minor, Crater, Hydra, Corvus, Virgo, Boötes, Libra.

APPARENT RIGHT ASCENSION AND DECLINATION OF PLANETS AT NOON.

The Upper Atmosphere.—By the use of free sounding-balloons carrying self-registering instruments to heights of 20 km. (12½ miles) or more, which when they burst owing to diminishing external pressure act as parachutes to bring the instruments to the ground in safety, it is learned that the temperature falls with increasing height up to about 10 km., and then remains constant at about −53° C. up to the greatest height attained. Above that height the condition of the air is inferred from the circumstances pertaining to the flight of meteors, from which it seems that the temperature remains constant as stated from 10 km. to 55 km., and from that height there is increase up to 60 km. From luminous meteor trails it seems that there is a wind at the height of 80 to 100 km. It is suggested that at about 50 km. there is an ionized layer which reflects radio waves by day and makes long distance radio-telegraphy possible. The layer reflects

Morning and Evening Stars.

☿ Mercury rises shortly before the Sun in the first part of the month, and sets about an hour later in its last few days, but this is not late enough for the planet to be easily visible.

♀ Venus is becoming brighter and sets late. It follows Mars through the constellation Gemini in the latter part of the month, and the two planets form changing configurations with Castor and Pollux. Magnitude $-3{\cdot}5$ to $-3{\cdot}7$.

♂ Mars, at the end of May, is nearly in line with the Twins, to which it approximates in magnitude.

♃ Jupiter, now in the constellation Pisces, is a Morning Star, and may be seen in the dawn, at a low altitude, south of east. Magnitude $-2{\cdot}0$.

♄ Saturn is above the horizon approximately from sunset to sunrise, but low in the sky, above and to the right of Antares. Mag. $+0{\cdot}2$.

radio-waves by night may be at 80 km. It is also suggested that it is the increase of temperature at about 60 km. that is responsible for the bending down of sound waves which make explosions at long distances audible. The gases seen as aurorae are most frequently at a height of about 100 km., but are sometimes much higher.

Heliographic Elements.—The small Table at the bottom of page 2 of each month shows the position of the Sun's axis of rotation from the N. point, and the solar latitude and longitude of the centre of the disc (that is of the Earth), referred to parallels of latitude and meridians on the Sun's surface. These quantities are used in computing the solar latitude and longitude of spots or other markings.

Fasts and Festivals.

The Solar Eclipse of June 29.—The eclipse of the Sun in this month is to dwellers in th British Isles the most interesting event of its kind that has happened for two hundred year From a strip of England about thirty miles in breadth, whose central line runs through Cricciet Colwyn Bay, Southport, Settle, Richmond, Darlington and Hartlepool, the Sun, an hour and half or more after rising, will be totally eclipsed, and given a clear Eastern sky, the corona will b seen from the places named for about 23 seconds, an experience which is generally to be achieve only by making a journey of hundreds, perhaps thousands, of miles. On the central line totali will be shorter in the west, longer in the east, and at places within the strip other than those o the central line its duration will be shorter as the distance of the place of observation from th line increases.

Morning and Evening Stars.

☿ Mercury arrives at Eastern elongation on the 22nd, and may be seen in the late evening twilight in the north-west by west in the middle of the month.

♀, ♂ Venus and Mars are evening stars, near together in early June, and quite close to Castor and Pollux. At 21*h*. almost throughout the month the two planets will be north of west at altitude about 18°. Venus passes a degree (declination) above Mars on the 9th, and will be considerably to the left of its fainter neighbour on June 30. Magnitude of Mars +2·0.

♃ Jupiter is a morning star, rising almost due east at the times given. Magnitude −1·9 to −2·0.

♄ Saturn is in the south an hour or two before midnight, and above the horizon from sunset to dawn. Magnitude +0·2 to +0·4.

From within this strip the phases of a partial eclipse will be seen before and after totality, but immediately outside its limits and from other parts of the British Isles, the Sun will not be entirely covered, and there will be only a large partial eclipse. It will be of great interest and of some scientific importance to know the precise lines of demarcation where totality ends, and the facts as to visibility or non-visibility of the corona in these regions. Precise observations of the length of totality will help to determine the position of these limiting lines, and such observations may serve to correct the lunar tables. Places on or near the southern limit as at present defined are Barmouth, South-east Liverpool, Wigan, Burnley, Patcley Bridge, South Otterington. The Northern limit passes through, or near to, Carnforth, Kirkby Lonsdale, Durham and South Sunderland. (*See* p. 58.)

July 16. Uranus *rises 22h. 32m., sets* 10h. 44m. Neptune *rises 7h. 5m., sets 21h. 32m.*

Sunspots. - Though it is not possible to predict the appearance of individual spots, it may be said with some confidence that there will be many and large groups on the Sun in the current year for there is nothing more certain in Nature than the increase and decrease of the number and area of the sunspots in a period of about eleven years. Maximum may be expected at the end of this year or in 1928, since that will be about 4½ years after minimum. The cause of the waxing and waning is not known, but it appears to be an indication of some periodic change in Nature which shows itself in other ways on the Sun, such as the appearance of prominences and in changes in the form of the corona, and also in some terrestrial phenomena. Certain manifestations of earth magnetism, such as the length of the daily swing of the magnet recording declination, appear to be periodic, and the periods synchronise with that of the sunspots. The number of observed

CONJUNCTIONS, ECLIPSES, AND OTHER CELESTIAL PHENOMENA.

July 1. Civil twilight ends 21h. 23m. In this month there is no closed night in the latitude of London until after the 21st, when the Sun will be near below the horizon at midnight. The length of the Day on July 1 is 16h. 30m.

July 1, 1h. Mercury in conjunction with ☽. ☿ 4° S.

July 2, 4h. Mars in conjunction with ☽. ♂ 3° S.

July 2. Venus at Greatest Elongation. 45° E.

July 2, 22h. Venus in conjunction with ☽. ♀ 3° S.

July 3. Earth at greatest distance from the Sun. Aphelion Distance, 94,453,000 miles.

July 10, 23h. Saturn in conjunction with ☽. ♄ 24′ S.

July 19. Mercury at Inferior conjunction.

July 19, 19h. Jupiter in conjunction with ☽. ♃ 4° N.

July 27, 17h. Mercury in conjunction with ☽. ☿ 6° S.

July 30, 22h. Mars in conjunction with ☽. ♂ 4° S.

Meteors of the Perseid stream begin to appear in July.

In this month the Morning decrease 34m., and the Afternoon 29m.

Constellations near the S. meridian at midnight: Hercules, Ophiuchus, Serpens, Lyra, Cygnus, Aquila, Delphinus, Equuleus, Aquarius, Capricornus, Sagittarius

Morning and Evening Stars.

☿ Mercury sets an hour after the Sun at the beginning of the month, and rises an hour before at the end, but in neither case is it likely to be seen by the naked eye.

♀ Venus is now in Leo, and near Regulus on the 5th and 6th. It is approaching greatest brilliancy, and will be conspicuous in the west in the twilight. Magnitude −4·1.

♂ Mars will be above the horizon for an hour or two after sunset north of west: near Regulus on the 22nd and 23rd. Magnitude +2·0.

♃ Jupiter rises before midnight, and will be a prominent object in the eastern morning sky. It is now in Pisces, and begins to retrograde after the 25th. Magnitude −2·1 to −2·3.

♄ Saturn, which is still in Scorpius, will be seen low in the S. or S.W. as the sky darkens.

aurorae appears to show a similar periodicity, apart from the fact that an aurora display often occurs simultaneously with the appearance of a spot on the Sun. It has been stated as an observed fact that there are more electrons in the air at time of sunspot maximum than at minimum, and there may be effects and changes, similarly periodic, going on around us that have subtle but obscure influence on our health and temperament. No definite relation has been found between the sunspot period and weather cycles, though this has been looked for, and the appearance of a spot on the Sun has no effect on the immediate weather as is sometimes erroneously suggested.

CONJUNCTIONS, ECLIPSES, AND OTHER CELESTIAL PHENOMENA.

August 1. Day breaks at 1*h* 31*m*. Civil twilight ends at 20*h* 44*m*. Night begins, 22*h*. 43*m*. The length of the day is 15*h*. 24*m*.

Aug. 1, 0*h*. Venus in conjunction with ☽. ☿ 8° S.

Aug. 5. Venus at greatest brilliancy. Mag. − 4·2.

Aug. 6. Saturn at a Stationary Point.

Aug. 7, 7*h*. Saturn in conjunction with ☽. ♄ 24′ S.

Aug. 8. Mercury at Greatest Elongation. 19° W.

Aug. 16, 1*h*. Jupiter in conjunction with ☽. ♃ 4° N.

Aug. 18. Venus at a Stationary Point.

Aug. 26, 14*h*. Mercury in conjunction with ☽. ☿ 3° S.

Aug 28. 13*h*. Venus in conjunction with ☽. ♀ 14° S.

Aug. 28, 16*h*. Mars in conjunction with ☽. ♂ 5° S.

Aug. 29-30. Eclipse of Jupiter's Satellite IV. (See p. 59.)

Meteors of the Perseid stream are expected this month; but as the Moon is full near the time of their greatest abundance, Aug. 10-12, observation will be somewhat impeded.

In this month the Mornings decrease 47*m*., and the Afternoons 58*m*.

Constellations near the S. meridian at 22*h*. are those which were in that position at midnight in July. (See p. 28.)

Stellar Magnitude.—The numerical magnitude of a star shows its order in a scale of brightness, the terms of which are in geometrical progression. Stars just visible to the naked eye are of magnitude 6. A 5th mag. is about 2½ times as bright as a 6th, a 4th magnitude the same multiple of a 5th, the precise formula, known as Pogson's law, being that the numerical difference of magnitude multiplied by 0·4 is the logarithm of the ratio of brightness of the two objects, and from this it follows that a first magnitude star is a hundred times as bright as a 6th. The scheme may appear paradoxical because the faint stars have the larger numbers, but this is reasonable because the word "first" implies pre-eminence. It follows logically that a star 2½ times as bright as a

Morning and Evening Stars.

☿ Mercury rises before the Sun, and may perhaps be seen in the E.N.E. about half-past 3 o'clock in the middle of the month.

♀ Venus is at Greatest Brilliancy on the 5th, and may be seen at sunset or earlier about that date slightly S. of W., magnitude −4·2. It becomes fainter and sets earlier, and will not be visible to the unaided eye, at the end of the month.

♂ Mars sets less than an hour after sunset, and will not be seen.

♃ Jupiter rises in the twilight and will be seen south of east as the sky darkens, and throughout the night. It is still in the constellation Pisces. Mag. −2·4.

♄ Saturn will be west of south at altitude less than 20 degrees in the late twilight.

1st should be of magnitude 0, and an object 2½ times as bright as this should be of negative magnitude, *i.e.* −1 and so on. The law above stated readily adapts itself to the use of fractional magnitudes. Capella and Vega, which are nearly but not quite 2½ times as bright as a star of magnitude 1·0, are of about zero magnitude, or 0·2 and 0·1 respectively.

The Historical Year.—A date before 1752 written, for example, as February 25, 165$\frac{6}{7}$ implies a day in the first part of the year 1656 (Julian or Historical). It would have been in the year 1658 (Civil), because before 1752 the Civil and Legal year ended on March 25.

CONJUNCTIONS, ECLIPSES, AND OTHER CELESTIAL PHENOMENA.

September 1. Day breaks 3*h.* 6*m.* Civil twilight ends 19*h.* 34*m.* Night begins 20*h.* 54*m.* The length of the Day is 13*h.* 35*m.*

Sept. 2. Mercury in Superior conjunction.

Sept. 3, 16*h.* Saturn in conjunction with ☽. ♄ 0°.2° S.

Sept. 10. Venus in Inferior conjunction.

Sept. 12, 6*h.* Jupiter in conjunction with ☽. ♃ 4° N.

Sept. 16, 6*h.* Mercury and Mars in conjunction. ☿ 0°.1° S.

Sept. 22. Jupiter in Opposition. Distance from Earth 367,580,000 miles.

Sept. 23, 17*h.* Venus in conjunction with ☽. ♀ 1°.8 S.

Sept. 24, 1°.3*h.* The Sun enters the sign Libra. (Autumn Equinox.)

Sept. 25. Uranus in opposition. Distance from the Earth 1,772,325,000 miles.

Sept. 26, 12*h.* Mars in conjunction with ☽. ♂ 5° S.

Sept. 27, 9*h.* Mercury in conjunction with ☽. ☿ 6°.2 S.

Sept. 30. Venus at a Stationary Point.

In this month the Morning decrease 47*m.*; the Afternoon 1*h.* 6*m.*

Constellations near the S. meridian at 22*h.*: Lyra, Cygnus, Aquila, Delphinus, Aquarius, Capricornus, Equuleus, Pegasus, Pisces.

APPARENT RIGHT ASCENSION AND DECLINATION OF THE PLANETS AT NOON.

Jupiter in Opposition.—Jupiter is specially bright this month because it is at Opposition at a date near to the beginning of October. Neglecting some minor considerations due to the varying distance of the Earth and planet from the Sun about the date, the exterior planets are nearest to us when in Opposition, and since the synodic period of Jupiter is 399 days, the date of Opposition is about 34 days later year by year. Because of the eccentricity of Jupiter's orbit the greatest and least distances of this planet from the Sun differ by 46 million miles, the least distance occurring when Jupiter is in Heliocentric longitude 13°, which is the longitude of the Earth on October 9th in each year. Consequently when the Opposition of Jupiter happens near that date the planet is specially near to the Sun, and to the Earth, and therefore very bright, its

Morning and Evening Stars.

☿ Mercury is at Superior conjunction on the 2nd and sets soon after the Sun throughout the month.

♀ Venus will be 8° below the Sun when at Inferior conjunction on the 10th, and may therefore be seen telescopically when quite near conjunction. She rises after, and sets before the Sun during the first half of the month, but may be seen due east shortly before sunrise in its last few days.

♂ Mars now sets soon after the Sun, and will not be visible.

♃ Jupiter at Opposition on the 22nd will be a conspicuous object throughout the night. In the early evening it will be seen below the Square of Pegasus in the south-east. Magnitude −2·5.

♄ Saturn sets S.W. by W. in mid-evening. Magnitude 0·7.

nearness to the Sun contributing also to that end. Last year (1926) Opposition happened on August 15, and the distance of Jupiter from the Earth was 374,280,000 miles; next year (1928) it will be on October 28, and the least distance will be 369,100,000 miles. This year the distance is less than either of these. These bright Oppositions evidently occur every twelfth year. In 1880, Opposition happened on October 6, and the least distance between Jupiter and the Earth in that year was 366,945,000 miles. The difference in distance at an October and an April Opposition corresponds to an increase of 50 per cent. in brightness.

Conjunctions, Eclipses, and other Celestial Phenomena.

October 1. Day breaks at 4*h* 7*m*. Civil twilight ends at 18*h*. 23*m*. Night begins, 19*h*. 32*m*. The length of the Day is 11*h*. 38*m*.

Oct. 1, 3*h*. Saturn in conjunction with ☽. ♄ 0°.1 N.

Oct. 3, *aft.* Occultation of ♐ Sagittarii (mag. 2·9) by ☽. See p. 6.

Oct. 9, 11*h*. Jupiter in conjunction with ☽. ♃ 4° N.

Oct. 17. Venus at Greatest Brilliancy. Mag. −4·3.

Oct. 18. Mercury at Greatest Elongation, 25° E.

Oct. 21. Mars in conjunction with Sun.

Oct. 21, 13*h*. Venus in conjunction with ☽. ♀ 8° S.

Oct. 25, 10*h*. Mars in conjunction with ☽. ♂ 4° S.

Oct. 26. Neptune in conjunction with Regulus.

Oct. 27, 13*h*. Mercury in conjunction with ☽. ☿ 5° S.

Oct. 28, 14*h*. Saturn in conjunction with ☽. ♄ 0°.4 N.

Oct. 30. Mercury at a Stationary point.

The Zodiacal light may be seen before dawn in the first and last weeks of this month, the Moon being then absent from the sky at that hour.

In this month the Morning decrease 52*m*., and the Afternoon 1*h*. 3*m*.

Constellations near the S. meridian at 22*h*.: Delphinus, Equuleus, Aquarius, Capricornus, Pegasus, Andromeda Pisces, Pisces Australis, Cetus.

Apparent Right Ascension and Declination of the Planets at Noon.

Some Facts about the Moon.—It will be seen from the figures in the Table on this page that the semidiameter of the Moon, on October 10, which happens to be the night of Full Moon, has its largest value during this year. Also (p. 38), that the distance of the Moon from the Earth at Perigee is the smallest of the year, and that the time of Perigee is only six hours after that of Full Moon. These things are related. It is obvious that the Moon should appear large when at Perigee, and it is known from principles of the Lunar theory that when Perigee happens near to the time of Syzygy, which term indicates either New Moon or Full Moon, the satellite is unusually near to us. Perigee in April of this year was near the time of New Moon (p. 14), and on that occasion the perigeal distance was small. The time of Perigee can be correlated with other effects. When it occurs near the time of New Moon the length of the lunation from New to New

Morning and Evening Stars.

☿ Mercury sets after the Sun, but too early to be visible to naked eye.

♀ Venus is a brilliant object in the morning sky during the month. Low in the east about 4 o'clock. Magnitude −4·3.

♂ Mars in conjunction on the 21st, rises and sets nearly with the Sun throughout the month, and will not be visible.

♃ Jupiter is to be seen in the E.S.E. at dusk, and will be a prominent object in the south-east and southern sky during the evening. Mag. −2·4.

♄ Saturn is coming to the end of this Apparition, and sets about two hours after the Sun, S.W. by W.

is short; when it occurs near Full Moon it is long, the range extending from about 29 days 7 hours to more than 29 days 19 hours. When Perigee falls between New and Full Moon, that first part is less than half the complete lunation. The converse of this, Apogee coinciding with first quarter, happened in July of this year, when 15 days 13 hours elapsed between New Moon and Full. The Moon returns to Perigee at intervals in the mean of 27 days, 13 hours, 18 minutes, this period being called an Anomalistic month, so that Perigee occurs near the time of New Moon every fourteenth month. The above statements, true in general, suffer variation in detail because of intricacies of motion due mainly to Solar attraction investigated under the name of the Lunar theory.

The Transit of Mercury.—Mercury is in Inferior conjunction on the average every 116 days, and usually at such times the planet seen from the Earth passes above or below the Sun, because the plane of its orbit is inclined to that of the Earth; but when the conjunction happens about the planes intersect, Mercury will cross the Sun's disc, and be visible on it as a small black spot, well defined, but not large enough to be seen without a telescope. There have been, or will be, transits in November of the years 1894, 1907, 1914, 1940, 1953 and 1960. There are fewer transits in May than in November. The last was in 1924, and the next will be on 1957, May 6, though the planet will make a very close approach to the southern edge of the disc on 1937, May 10. These occurrences have not been used for determination of the Sun's distance, as have been the somewhat

Morning and Evening Stars.

☿ Mercury is a Morning Star after Inferior conjunction on the 10th. It rises two hours before the Sun in the last ten days of the month, and may then be visible between 6 and 7 o'clock, S.E. by E.

♀ Venus is a bright object in the east in the early morning sky. She moves in the line from Regulus to Spica, and will be near the latter at the end of the month. Magnitude $-4{\cdot}2$ to $-4{\cdot}0$.

♂ Mars rises a short time before the Sun, and will not be visible as a naked-eye object.

♃ Jupiter is in the southern sky in the early evening. It is still in the constellation Pisces, and begins to move from right to left after the 20th. Mag. $-2{\cdot}2$.

♄ Saturn sets less than an hour after the Sun at the end of this month.

similar transits of Venus. Observations of the times when Mercury enters on and leaves the disc are of value for determining the orbit, and it has been suggested that they might supply evidence of possible want of uniformity in the rate of rotation of the Earth.

Jupiter's Satellite IV.—The eclipses of this Satellite happen, or do not happen, in alternate periods of nearly three years in duration. A period of eclipse is now ending, and the phenomenon on November 21 is the last of this kind that will happen for about three years. Time observations of these eclipses at the beginning and end of the period are specially useful for determining the elements of the orbit of the satellite.

CONJUNCTIONS, ECLIPSES, AND OTHER CELESTIAL PHENOMENA.

December 1. Day breaks 5*h.* 40*m.* Civil twilight ends 16*h.* 45*m.* Night begins 17*h.* 57*m.* The length of the Day is 8*h.* 9*m.*

From *Dec.* 18 to 25 the length of the Day is about 7*h.* 46*m.*

Dec. 3. Saturn in conjunction with Sun.

Dec. 3. 1*h.* Jupiter in conjunction with ☽. ♃ 4° N.

Dec. 8, 17*h.* Total eclipse of the Moon visible at Greenwich. See p. 58.

Dec. 9, 23*h.* Mercury and Mars in conjunction. ☿ 1°·5 N.

Dec. 17, 10*h.* Mercury and Saturn in conjunction. ☿ 1°·4 S.

Dec. 20, 4*h.* Venus in conjunction with ☽. ♀ 0°·6 S.

Dec. 22, 10*h.* Mars in conjunction with ☽. ♂ 3° N.

Dec. 22, 16*h.* Saturn in conjunction with ☽. ♄ 1° N.

Dec. 22, 20·3*h.* The Sun enters the sign Capricornus. (Winter Solstice.)

Dec. 23, 8*h.* Mercury in conjunction with ☽. ☿ 0°·3 S.

Dec. 24, 4*h.* Partial eclipse of the Sun. Invisible at Greenwich.

Dec. 26, 22*h.* Mars and Saturn in conjunction. ♂ 1°·8 S.

Dec. 30, 11*h.* Jupiter in conjunction with ☽. ♃ 4° N.

In this month the Morning decrease 23*m.*, the decrease being continuous throughout the month. The Afternoons decrease 4*m.* to the 13th, and then increase 9

Eclipse of the Moon.—The word eclipse, being the Greek for an *omitting* or *quitting*, may be used medically for a *faint* or a *swoon*, but astronomically it is applied to the darkening of a heavenly body, by the interposition of another. Eclipses of the Sun or Moon happen at seasons of the year called "eclipse months," which are separated by about the half of 347 days, called the "eclipse year," and are therefore continually changing their position in the solar year.

There are three "eclipse months" in 1927. The first eclipse happened in January, two in June and there are two in this month of December. The first of these, a Total Eclipse of the Moon on the 8th, will be visible at Greenwich shortly after sunset. Usually at the beginning the eclipse portion of the Moon is almost, if not quite invisible to the naked eye, but as the eclipse advances the part of the disc in the umbra is far from totally dark. It exhibits striking gradations of colour, in some parts bluish or greenish, but generally the predominant colour is described

Morning and Evening Stars.

☿ Mercury may be visible before sunrise in the first week in December in the south-east.

♀ Venus is still a morning star but rises later than in November. It will be seen in the south-east about 6 o'clock with Spica on its right, and Arcturus considerably above. Magnitude $-4{\cdot}0$ to $-3{\cdot}7$.

♂ Mars rises in the dawn S.E. by E. It is very distant from the earth, and is not likely to be conspicuous.

♃ Jupiter continues to be prominent in the southern and western sky from sunset to midnight. Magnitude $-2{\cdot}1$ to $-1{\cdot}9$.

♄ Saturn being in conjunction on the 3rd, rises about 2 hours before the Sun at the end of this month. It will be near Mars on the morning of the 27th, but the event scarcely calls for remark. Magnitude 0·7.

"copper," of varying shade. It may be as a coin fresh from the mint or as one after years of service. This illumination of the Moon's disc and its variation is generally ascribed to the refraction of sunlight by the belt of atmosphere round the Earth at the places on the circle where the Sun is rising or setting. On the occasion of a Total Eclipse in the evening of October 4, 1884, the Moon disappeared almost completely, but a "black" eclipse of that kind has not been seen since, though it may be again at some time. The eclipse of this month will happen partly in twilight, but totality will not begin until an hour after sunset at Greenwich (see p. 58), and the colour variations may be striking.

NOTES FOR THE YEAR 1928

BEING BISSEXTILE OR LEAP YEAR, AND 18 AND 19 OF KING GEORGE V.

Jan. 4. Earth in Perihelion. Distance 91,340,000 miles.

In the year 1928 there will be five eclipses. A Total Eclipse of the Sun on May 19, Partial Eclipses of the Sun on June 17 and November 12, and Total Eclipses of the Moon on June 3 and November 27. Those in November will be visible from Greenwich in some small degree, the others not at all.

Mercury may be visible this year, 1928, as an evening star in the first part of February, at the end of May and in early June; and as a morning star in November. *Venus* will not be conspicuous this year, being at Superior Conjunction on July 1. *Mars* is a morning star early in the year, and being in Opposition in December, will then be a bright object in the sky throughout the night. *Jupiter* will be in Opposition on October 29. *Saturn* on June 6, from which the time of visibility of those planets may be inferred.

RISING, SOUTHING, AND SETTING OF PLANETS at intervals of Seven Days. (Noon = 12h.)

Tidal Constants.

THE TIME OF HIGH WATER *at the undermentioned Ports and Places may be* approximately *found by taking the Time of High Water at the* Standard Port *(as shown on* pp. 5, 9, *etc.) and adding to or subtracting therefrom the quantities annexed. The time thus found will be* Greenwich Time *for British, Irish, French and Belgian Ports, and* Amsterdam Time *for Netherlands Ports. The rise of the tide at Springs and Neaps is given in the last two columns.*

EXAMPLE 1.—Required the time of high water at *Aberdeen* on *January 9th*, 1927:—

Time of high water at London Bridge	*5h. 32m.* Morn.
Subtract tide interval	0 50
Time of high water at *Aberdeen*	4 42 Morn.

EXAMPLE 2.—Required the time of high water at Scarborough on *January 9th*:—

Time of high water at London Bridge	*5h. 32m.* Morn.
Add tide interval	2 15
Time of high water at Scarborough ..	7 47 Morn.

It may happen that the "tide interval" to be subtracted is greater than the quantity from which it has to be taken, in which case 24 hours must be added to the London Bridge time; the resulting difference will be the preceding day's afternoon tide where the London morning tide was used. Sometimes the sum "high water at London Bridge" + "tide interval" will exceed 24 hours; in this case, the excess will be the time of high water after the midnight following.

EXAMPLE 3.—Required the time of high water at Aberdeen, *January 16th*, 1927, aft. :—

Time of high water at London Bridge on *January 16th*	*0h. 34m.* Morn.
(+ 24 hours =)	24 34
Subtract tide interval	0 50
Time of high water at Aberdeen, *Jan. 15th*	23 44 After.

54 Tables for Finding the Times of Sunrise and Sunset.

THIS double entry table provides the means for finding, with sufficient accuracy for practical purposes, the times of sunrise and sunset at any place situated between latitude 60° N. and 60° S.

To use the table: In the horizontal line with the Sun's declination in the first column, and under the required latitude in the heading, there will be found figures which added to 12*h.* give the *local apparent time* of sunset. Subtracting these quantities from 12*h.* will give the *local apparent time* of sunrise. To obtain from this the local *mean* time, the equation of time for the day in question which is given on the second page of each month, must be added to or subtracted from these apparent times of sunrise and sunset, as shown in the heading.

To find the corresponding Greenwich mean time, the difference of longitude of the place from Greenwich must be added if the place be West, subtracted if East.

The table is arranged for northern latitudes, but will serve equally well for places south of the Equator, if the declination North in the first column be considered South, and *vice versâ*.

If the figures are required for a declination or latitude that falls between two arguments of the table, they may be found by proportion. The effect of refraction is included.

THE TIME OF SUNSET.

The times of sunrise and sunset given in this Almanack are the times when the centre of the Sun's disc is seen on the horizon from sea-level at Greenwich, computed on the assumption that the horizontal refraction is 34½′. It is doubtful whether there is a precise legal definition of sunrise and sunset. The above has generally been adopted as a correct statement, though in some Tables the instant when the upper limb, or edge, of the Sun is on the visible horizon is given as

LATITUDE.

the time when the Sun rises and sets. The legal question has been more concerned with the distinction between local sunset and Greenwich sunset, rather than with a precise definition. It has been held by a legal tribunal, as would be expected, that the word "sunset" in laws and regulations must be taken to mean the time when the sun sets at the place in question, whether it be stated in local or Greenwich time.

TO FIND THE GREENWICH TIME OF SUNRISE AT CERTAIN PLACES IN THE BRITISH ISLES IN EACH MONTH OF THE YEAR.

The Table gives the number of minutes to be added to or subtracted from the time of sunrise at Greenwich, to find the Greenwich time of sunrise at the place named in the first column, on the first day of each month. The corrections to be applied on other dates and for other places in the neighbourhood of these may be inferred approximately by interpolation.

The sign + means that the time required is later than that at Greenwich. The sign −, that it is earlier.

If these Tables be considered in conjunction with a map it will be seen that the places at which the Sun rises at the *same* moment lie in a slightly curved line across the map, the lines for different moments being approximately parallel. The lines change their inclination to the meridian throughout the year. Similarly for the setting.

3 30	−0 57 07+	15 30	7 30	−0 1 42+	19 30	11 30	−0 55 25+	23 30
3 40	−0 55 43+	15 40	7 40	−0 1 08+	19 40	11 40	−0 56 51+	23 40
3 50	−0 54 12+	15 50	7 50	−0 3 58+	19 50	11 50	−0 58 10+	23 50
4 0	−0 52 35+	16 0	8 0	−0 6 48+	20 0	12 0	−0 59 23+	0 0

The sign on the left-hand side of the *correction* is to be used when the argument is on the left, and *vice versâ*; + means that the correction is to be added to the reduced altitude, and − that it is to be subtracted.

The corrections in Tables II. and III. are always to be added; 1 is to be subtracted from the final result because the quantities in Table III. above have been increased by that amount in order that they may all be additive.

Solar and Sidereal Time.

TO CHANGE INTERVALS OF MEAN SOLAR TIME INTO THE EQUIVALENT INTERVALS OF SIDEREAL TIME AND *VICE VERSA*.

THE length of a Sidereal day is 23*h*. 56*m*. 4·098. of Mean Time. One hour of Sidereal Time is, therefore, equivalent to 59*m*. 50·178. of Mean Time, and one hour of mean solar time is equivalent to 1*h*. 0*m*. 9·86*s*. of Sidereal Time. This may be expressed otherwise by saying that the Mean Time clock loses or retards 9·83*s*. per hour on the sidereal clock, and that the sidereal clock gains or accelerates 9·86*s*. per hour on the Mean Time clock. These quantities—"acceleration" and "retardation"—are tabulated below for the argument (common to both) in the middle columns. If the argument be considered as Mean Time, its equivalent in Sidereal Time is obtained by adding the acceleration. On the other hand, if it is considered to be Sidereal Time, its equivalent in Mean Time is found by subtracting the retardation.

Acceleration.	Argument.	Retardation.	Acceleration.	Argument.	Retardation.	Acceleration.	Argument.	Retardation.	Argument.	Acceleration or Retardation.	Argument.	Acceleration or Retardation.

See p. 77.

Celestial Phenomena for Observation in 1927.

ECLIPSES OF SUN AND MOON.

In the year 1927 there will be *five* Eclipses, three of the *Sun*, and two of the *Moon*.

I. An *Annular Eclipse of the Sun* three hours before midnight of January 3.

The path from which an Annular Eclipse may be seen lies mainly in the South Pacific Ocean south of latitude 40° S. At the beginning of its course, which will be a few minutes before 19*h*. G.M.T., its southern edge will skirt the northern and eastern shores of the north island of New Zealand; nearly three hours later it will cross the southern part of South America, coming to an end off the coast of Brazil near Porto Alegre, where the Sun will be setting. At Adelaide, Melbourne and Sydney the Sun will rise partially eclipsed. At Sydney and Wellington the Greatest Phase will be of magnitude 8 or 9 digits at 18*h*. 58*m*. and 19*h*. 4*m*. G.M.T. respectively.

II. A *Total Eclipse of the Moon* in the morning of June 15 after the Moon has set at Greenwich. The beginning will be visible generally from the Atlantic Ocean, North America, except the northern border, South America and the Pacific Ocean; the ending from America, except some eastern regions, the Pacific Ocean and Australia.

Moon enters Penumbra (G.M.T.)	June 15*d*.	5*h*. 34*m*.
,, Umbra	,,	6*h*. 43*m*.
Middle of Eclipse	,,	8*h*. 24*m*.
Moon leaves Umbra	,,	10*h*. 6*m*.
,, Penumbra	,,	11*h*. 15*m*.

III. A *Total Eclipse of the Sun* in the early morning of June 29. Visible as a large Partial Eclipse at Greenwich and over the greater part of the British Isles. From a path about 30 miles in breadth that crosses N. Wales (*see* p. 24) and the north of England the Sun will be seen totally eclipsed.

The central line of the track of totality begins its course in the Atlantic at a point in longitude about 16° west of Greenwich, latitude 46½° N., where the Sun will rise at the time of mid-eclipse, runs northward and eastward, passing up St. George's Channel, and comes to land at Criccieth in Cardigan Bay at 5*h*. 23*m*. G.M.T., where the totally eclipsed Sun will be seen at 10 degrees altitude. In its path across Great Britain the central line will pass between Colwyn Bay and Abergele, through, or nearly so, Southport, Settle, Richmond, Darlington, Hartlepool, the duration of totality increasing from 21½ seconds in the west to 24½ seconds in the east. Places on the boundary lines of the path are given on p. 25, *q.v.* After leaving Hartlepool, which it will do a few seconds after 5*h*. 25*m*. G.M.T., the central line crosses the North Sea and comes to land on the south-west coast of Norway, Stavanger being within the track from which totality may be seen. The shadow passes in a north-easterly direction through Norway and Sweden, and leaves the northern shore between the North Cape and Varanger Fjord, where the duration of totality will be about 46 seconds on the central line. Passing over the Arctic Ocean and the north-east region of Siberia, central eclipse ends among the Aleutian Islands, where the Sun will then be setting at 7*h*. 26*m*. The longest duration of totality will be 50 seconds at a place in longitude about 75° E., latitude 78° N., at 6*h*. 25*m*. G.M.T.

It is computed that totality will be seen from Liverpool and Durham, and a large Partial Eclipse from other places at the following times:—

	Eclipse begins.	Greatest Phase.	Eclipse ends.	Magnitude.
	H. M.	H. M.	H. M.	
Greenwich ...	4 26	5 ♒	6 17	·96
Cambridge ...	4 27	5 21	6 19	·97
Oxford	4 27	5 ♓	6 18	·97
Liverpool ...	4 30	5 24	6 21	1·00
Durham	4 31	5 25	6 23	1·00
Dublin	4 31	5 25	6 21	·98
Armagh	4 33	5 26	6 23	·97
Edinburgh ...	4 33	5 28	6 25	·98

The magnitude is the fraction of the diameter that is obscured at Greatest Phase. North of the central line the unobscured portion will be on the upper part of the disc, south of the central line it will be on the lower.

First contact will be on the right-hand side of the Sun, between 60° and 70° from its highest point. [*See also* p. 59.]

IV. A *Total Eclipse of the Moon* in the afternoon of December 8. Visible at Greenwich.

At Greenwich the Moon will rise at 15*h*. 48*m*., as the Sun is setting. Three or four minutes later the Moon will enter the Umbra, or shadow thrown by the Earth, and obscuration will begin slightly below the middle point of the left-hand side of the disc. Either the beginning or the end of the eclipse, or both, will be visible (*see* p. 48) from most parts of the eastern hemisphere and the northern part of North America.

Moon enters Penumbra (G.M.T.)	Dec. 8*d*.	14*h*. 53*m*.
,, Umbra	,,	15*h*. 52*m*.
Total Eclipse begins	,,	16*h*. 54*m*.
Total Eclipse ends	,,	18*h*. 15*m*.
Moon leaves Umbra	,,	19*h*. 18*m*.
,, Penumbra	,,	20*h*. 17*m*.
First contact ..... 62° from N. Point to East.		
Last ,, ... 85° ,, ,, West.		

V. A *Partial Eclipse of the Sun* in the early morning of December 24. Invisible at Greenwich. This eclipse, which will happen between 2 o'clock and 6 o'clock in the morning by Greenwich time, is visible only from the southern part of South America and from the South Pacific. Magnitude at Greatest Phase, 0·55.

VI. The Planet *Mercury will be in Transit* across the Sun's disc in the early morning (Greenwich) of November 10. Egress will not occur until more than an hour after sunrise at Greenwich, and may be seen from that place. The times of the phases given below are as if seen from the centre of the Earth and require corrections to make them apply to places on the surface. At Greenwich the times of the phases at Egress will be about 30 seconds later than those given. At Kodaikanal in India the Ingress will be 36 seconds later, the Egress 14 seconds earlier, than the geocentric times.

Ingress, exterior contact	Nov. 10*d*.	3*h*. 21*m*. 24*s*.
,, interior ,,	,,	3*h*. 41*m*. 5*s*.
Least distance between centres, 2′ 9″	,,	5*h*. 45*m*. 59*s*.
Egress, interior contact	,,	8*h*. 27*m*. 54*s*.
,, exterior ,,	,,	8*h*. 29*m*. 35*s*.

ECLIPSES OF JUPITER'S SATELLITES.—The above Table gives the times of Disappearance (D.) and of Reappearance (R.) of the Satellites of Jupiter at Eclipse that will be visible from Greenwich in the year 1927. From May to the Opposition of Jupiter (Sept. 22) the Eclipses take place on the Western side. In this period I., and sometimes II. and III., disappear by Eclipse and reappear at the Eastern edge. The times of these reappearances (Oc. R.) are given, the satellite referred to being that of the *preceding* line. From Sept. 22 to December these Satellites disappear in some cases by occultation at the Western edge, and reappear after Eclipse on the Eastern side. The times of these disappearances are given (Oc. D.), the satellite being named in the *following* line. On Nov. 29 Satellite II. disappears at almost the same instant as it reappears after occultation and may not be seen.

THE ECLIPSE OF JUNE 29 (*continued*).

The predictions of times and places relating to eclipses are subject to errors of the Lunar Tables, but the differences caused by whatever errors of the kind there may be are likely to be too small to affect general observation, except that a person believing himself to be precisely on, or just within the edge of, the shadow track may find himself so far outside as not to see a completely total eclipse. This might be a personal disappointment, but the experience would supply a correction to the Tables. Knowledge of the Moon's place is more accurate now than it was in the years 1715 and 1724, when the last eclipses that were seen total from England happened, but the inscription on a map of the track of the eclipse of 1715, published by Halley, afterwards Astronomer Royal, may be not unsuited to the present year.

Halley's Foreward to the Total Eclipse of the Sun, 1715, April 22 O.S. (May 3 N.S.), published with a map of the track over England: "The like eclipse having not for many Ages been seen in the Southern Parts of Great Britain, I thought it not improper to give the Publick an Account thereof, that the suddain darkness wherein the Starrs will be visible about the Sun, may give no surprise to the People who would, if unadvertised, be apt to look upon it as Ominous, and to interpret it as portending evill to our Sovereign Lord King George and his Government, which God preserve. Hereby they will see that there is nothing in it more than Natural and no more than the necessary result of the Motion of the Sun and Moon; And how well those are understood will appear by this Eclipse."

After some details about several places, the foreword proceeds: "At London we compute the middle to fall at 13 min: past 9 in y^e^ Morning, when 'tis dubious whether it will be a Total Eclipse or no, London being so near y^e^ Southern limit. The first beginning will be there at 7 min: past Eight, and y^e^ end at 24 min: past Ten. The Ovall figure shows y^e^ Space y^e^ Shadow will take up at y^e^ Time of the Middle at London; and its Center will pass on to y^e^ Eastwards, with a Velocity of nearly 30 Geographical Miles in a min: of Time.

"N.B.—The Curious are desired to Observe it, and especially the duration of Total Darkness, with all the care they can; for thereby the Situation and dimensions of the Shadow will be nicely determined; and by means thereof we may be enabled to Predict the like Appearance for y^e^ future to a greater degree of certainty than can be pretended to at present for want of such Observations.—EDMUND HALLEY."

A Total Solar Eclipse may be described as the passage of the shadow of the Moon across the Earth. The shape of the shadow is, in general, an oval or ellipse, and on the occasion of this Eclipse on June 29, a certain diameter of the ellipse as it crosses England is inclined to the

The above is a list of the stars of magnitude 6·0 and brighter that will be seen occulted from Greenwich during the year, with the times of disappearance and reappearance. The occultations if seen from other places will be *in general*, earlier if the place is West, later if it is East, but an occultation visible from one place is not necessarily to be seen from some other. Disappearances usually happen on the East or left-hand side of the Moon, reappearances on the West, so that before Full Moon the star disappears at the dark edge and reappears at the bright, these circumstances being reversed in the latter half of the lunation. The exact position is shown by the angle from N. Point, or the point of the Moon's disc nearest the Pole of the heavens, counting towards the East from 0° to 360°. When Disappearance and Reappearance occur on opposite sides of midnight, the hour of the latter is printed 24.

Alternative names of stars (see pages 66, 67)—Polaris = *α* Ursae Minoris ; Aldebaran = *α* Tauri ; Rigel = *β* Orionis ; Capella = *α* Aurigae ; Betelgeuse = *α* Orionis ; Sirius = *α* Canis Majoris ; Castor = *α* Geminorum ; Procyon = *α* Canis Minoris ; Pollux = *β* Geminorum ; Regulus = *α* Leonis ; Spica = *α* Virginis ; Arcturus = *α* Bootis ; Antares = *α* Scorpii ; Vega = *α* Lyrae ; Fomalhaut = *α* Piscis Australis ; Altair = *α* Aquilae ; Markab = *α* Pegasi ; Achernar = *α* Eridani ; Canopus = *α* Argûs.

[*Continued from* p. 59]

direction of the central line at an angle of about 30 degrees, and mid-eclipse will occur at all places on this line as it passes at the same moment. Mid-eclipse will therefore be at the same time at Southport and Burnley, and at Carnforth and Otterington. The time of mid-eclipse at Criccieth is computed to be *5h. 23m. 17s.* ; at Hartlepool, *5h. 25m. 7s.* ; from which it may be seen that the shadow travels at the rate of about 90 miles a minute. The duration of totality at these places is 21½seconds and 24½ seconds respectively. From places a mile or two from the central line totality will be less than on that line by a fraction of a second, but at 10 or 12 miles the diminution will be appreciable, and the duration of totality will be about 15 seconds at that distance, becoming rapidly less as the limit is approached. Advantage may be taken of the occasion to make a precise astronomical observation.

[See Map published by the *British Astronomical Association*.]

THE objects of the sky, Sun, Moon, Planets, Stars, appear to us to be fixed on the interior surface of a hemisphere of which the observer is the centre. Actually the different classes of objects are at very different distances. The stars are the farthest away, and individual stars are at great and very various distances from us, and are themselves separated from one another by equally large distances. The nearest star to the Sun is nearly ten thousand times as far from it as is the planet Neptune. It is the purpose of modern astronomy to investigate the method of distribution of these bodies in space, their movements, their sizes, their physical condition as to temperature and density, the methods of mathematical physics being invoked to show how these conditions have been brought about. A catalogue (by Backhouse) of stars that are visible to the naked eye, which excludes the groups of the Milky Way, but includes cases where two or more close stars combine to form one which is so visible, contains nearly 10,000 entries. The number actually seen naturally depends on the efficiency of the observing eye and the clearness of the atmosphere, and the estimate will be less generous if the stars to magnitude 6·0 and no fainter, which is sometimes taken as the limit of naked-eye visibility, are counted. The whole number of stars down to this limit of magnitude is 4,300, of which more than 3,000 are visible during the year from latitude 60°. By the aid of the photographic plate objects are detected and recorded which no eye can see, even with the best optical aid. One hundred millions is an under-estimate of the number of stars already photographed, and it may be supposed that this number would be much increased with increased exposure, though 2,000,000,000 has been assigned as a limit to their number. The Yerkes telescope, whose object glass has 40 inches diameter, will just show stars of the 17th magnitude. A star of magnitude 21 has been photographed.

THE STRUCTURE OF THE UNIVERSE.

The stars are divided according to their apparent brightness into series known as magnitudes (*see* page 32), and down to the 9th or 10th magnitude the number of each magnitude is known, for all to this order have been catalogued. For fainter stars the numbers have been derived from counts in sample areas. On the supposition that the Universe is an aggregation of stars in which the individuals of each of the varying degrees of intrinsic brightness are distributed uniformly throughout an endless space, it is to be expected that the number of stars brighter than the 4th magnitude would be about four times as great as the number brighter than the 3rd; the number brighter than the 5th magnitude greater than the number of those brighter than the 4th in the same ratio, and so on indefinitely. When the numbers of stars of different magnitudes obtained by counts are compared, it is found that this star-ratio, as it is called, per magnitude, in the case of the brighter stars, approaches but does not attain the theoretical value 3·98, and that the ratio decreases continually as the stars are fainter, until at the 16th magnitude it is only about two. The explanation of this observed fact is that the universe of stars accessible to vision is limited; either there are few or no stars beyond a somewhat indefinite boundary, or we are prevented from seeing them by absorbing material distributed throughout interstellar space.

It is argued that if the star-ratio remained continuously at its theoretical value for very faint magnitudes, since the number of stars increases at a greater ratio than their brightness diminishes (because of distance), each successive magnitude would be an increment to the total light of the sky, and the background of the firmament would be bright. Since it is dark there is a limit to the Universe.

To a casual glance it is clear that the stars are not uniformly distributed over the sky, but have a tendency to congregate near the great belt of cloud-like forms which encircle the heavens, known as the Milky Way or Galaxy. Applying the method of sounding by "star ratios" above outlined, it is found that the stars appear to thin out less rapidly as we go out in the plane of the Milky Way than they do in the direction of the galactic poles. The deduction is apparent; the boundaries of the stellar systems are more distant in the plane of the Galaxy than they are at the poles. In other words, the stellar system is an extremely flattened organisation, whose general form is, roughly, that of a double convex lens or of a watch. Looking along the galactic plane we find, as we should expect, the stars crowding together, since this is the direction of greatest extension, and the Milky Way is therefore largely a depth effect. But examination of its prominent features, the great star-clouds, the irregularities in its form, and the deep rifts in its structure, shows that its appearance is not wholly due to depth, and that the region is the home of bodies and masses other than uniformly distributed stars.

Statistical study of the distribution of the brighter stars shows that they, too, are arranged in a flattened spheroidal system in which the star-density, more or less uniform at its centre, diminishes as we go outward. It was formerly a general belief that the Milky Way surrounded this congregation of bright stars as a girdle, whether continuous with it or not was an open question. A more modern view pictures the total Universe as a number of clusters, similar to this one of which our Sun is a unit, all lying more or less in the Galactic plane. The greatest condensation of stars as we see them occurs in the bright galactic clouds in Sagittarius, while the opposite portion of the Milky Way is a region of low concentration and brilliancy, from which it is inferred that we are not precisely at the centre of the whole Universe, but that its boundaries are more remote in Sagittarius than elsewhere. The fact that the central line of the Milky Way deviates slightly from a great circle and that the southern Galactic hemisphere is slightly richer in stars than the northern, is generally assumed to indicate that the position of our Sun is a little north of the Galactic plane.

Attempts have been made to estimate the probable dimensions of this Universe of stars. The diameter of our own local system is generally regarded as about 3,000 or 4,000 light years. As to the larger system comprehending all the faint stars we know of, Newcomb derived a diameter of about 30,000 light-years in the Galactic plane, the shorter diameter at right angles to this plane being about ⅛th of this amount, and there have been other estimates of the same order, whilst more recently Shapley, approaching the question from an entirely different point of view, has given 300,000 light-years as the larger diameter of the Stellar Universe, the dimension at right angles to the

The last column of each table shows the brightness, irrespective of distance, compared with that of our Sun, which is taken as a star of apparent magnitude −26·57 on the stellar scale. A star marked thus * is the brightest component of a binary or multiple system; a small star of the Centaurus group is the nearest star to us so far known.

Galactic plane being one twentieth of this. It will be gathered from this that the matter is highly conjectural. There is a type of body called Spiral Nebulae (*see* p. 64) which do not inhabit the region of space about the central Galactic plane, and from various lines of argument are thought to be very distant from our Sun. These are supposed by some to be Island Universes, not forming part of the Galactic system, but this again is a point still under discussion. It is recognised that in the space which comprises the Universe of stars there is dark obscuring matter which it is suggested is the cause of some of the dark patches in the Milky Way. As seen in the sky the Galaxy always passes through the same constellations, sharing with them the diurnal motion, but its direction bears no special relation to the direction of the Ecliptic, Equator, or horizon. Such a relation is not to be expected, for these three planes pertain only to our Sun and Earth, which are minor bodies of the Cosmos of which the Galaxy is a main outstanding feature.

STAR SPECTRA.

Most of the bright stars and many of the fainter have been examined with a spectroscope, and have been divided into classes according to their type of spectrum as indicated by the lines which cross them, the spectral types being named by the letters O, B, A, F, G, K, M, N. The stars of the first two classes, O and B, have spectra characteristic of helium and hydrogen. Planetary nebulæ, some stars known as Wolf-Rayet, in whose spectrum the chief lines are bright, and the bright stars of Orion generally are in this group. Stars whose spectra range between A and F—and it is to be remarked that there is no rigorous line of division between the classes—are white or blue stars, and in their spectra broad absorption lines of hydrogen are conspicuous. In the next groups—F to G, and G to K—lines characteristic of metals appear, fine but numerous, and the stars of this class are yellow. The spectrum of our Sun falls late in the group F to G. The characteristic of the spectra of the remaining classes, M (and N), is the existence of a considerable number of flutings, and the stars are red. Antares, Betelgeuse, and α Herculis are notable stars in subclasses of this type. (*See* Table above.)

STELLAR EVOLUTION.

The classification of the stars according to their type of spectrum is purely empirical, but there is strong evidence that the principal differences in stellar spectra arise in great part from some physical condition of the stellar body and partly on the chemical composition of its atmosphere. It is agreed that this dominant physical condition is temperature, and there is definite knowledge from observation that the intense white Class B stars are the hottest, the red Class M the coolest, in our series. These facts point to a genetic or evolutionary relationship between the stars of the different spectral classes, and the question arises as to how, and in which direction, the evolution proceeds. Formerly the idea obtained, perhaps rather vaguely, that each star passed through stages from hot to cold, its spectrum changing in type in the order above indicated. The system of evolution which is now propounded assumes that in the beginning of their stellar stage all stars are of Class M. They are then bodies of gas of extraordinarily low density, and of low temperature and surface brightness. They contract, grow continually hotter, and pass through the successive spectral classes towards B, but only the more massive stars can generate enough heat to reach the white hot state required to produce spectra of that class; the others reach their critical density at spectral Class A, F, G, or even K. After this critical point in their contraction is reached the stars begin to fall off in temperature and in luminosity, and gradually pass through the spectral classes in the reverse order until they have again become red stars of Class M before they finally sink to invisibility. The stars on the ascending branch are, according to the adopted terminology, chiefly "giants," those on the descending branch "dwarfs," the words referring to degree of luminosity rather than to mass, though they involve difference in volume. This theory, so far as its fundamental principle

goes, was conceived by Sir Norman Lockyer from general physical considerations, but it emerged about twelve years ago from a research by Prof. H. N. Russell of Princeton, U.S.A., correlating absolute magnitude with spectral type, and is generally associated with his name.

The question is being attacked on the theoretical side by analysing on general physical principles the constitution of a mass of gravitating matter and the probable sequence of its changes, and some modification of this new theory is being found necessary. That the low surface temperature of the denser dwarf stars is to be ascribed not to low internal temperature, but to increase of opacity, which prevents the heat from passing outwards to the surface, is one point of theory that modifies the views derived from observation; but in its main features the scheme of stellar evolution above outlined still stands, and is, in fact, supported by the physical theory.

SIZE OF THE STARS.

The stars are too remote for even the largest to show an appreciable disc in any telescope as do the planets, and obviously the size of a star is not proportional to its brightness as we see it, for this depends on its distance, and also on its intrinsic brightness, or brightness per unit of surface area, which depends on its temperature or other physical condition. The colour-index of a star, which is the difference of its magnitude determined photographically and visually, depends, assuming ideal radiation only, on its temperature. Consequently, it has been found possible to correlate surface-brightness with spectral type, and to deduce the former from the latter, and hence the area or diameter of a star is to be found by dividing its total brightness by the surface brightness per unit area. A more direct way of measuring stellar diameters has lately been found by utilising an optical principle as proposed by Fizeau and elaborated more recently by Michelson, and an apparatus known as an "interferometer" has been invented and constructed, with which the angular diameters of several of the largest stars have been measured. Since the distances of these stars are known, the following values of the diameters in miles have been deduced, and it is satisfactory that these agree closely with the values derived from consideration of the surface brightness as above outlined :—

Betelgeuse	218	million miles
Markab	150	,, ,,
Aldebaran	30	,, ,,
Arcturus	20	,, ,,

Antares, whose angular diameter has also been measured in this way, is said to be a very large star, but the difference in the estimates of its distance renders its linear diameter uncertain. From measures of Mira Ceti at maximum it has been inferred that this star was larger than Betelgeuse.

ABSOLUTE MAGNITUDE.

This phrase is much in use in the astronomy of the present day, and implies the luminosity of a star irrespective of its distance. The precise definition of absolute magnitude is that it is the number that expresses, according to the usual system of stellar magnitude (*see* p. 32), the brightness of the star as it would be seen at the distance of 10 parsecs (parallax 0·1″). It is clear that if the distance of a star is known, its absolute magnitude can be computed from its apparent, *or* by reversing the formula, if the absolute and the apparent magnitudes are known, the distance of the star can be determined, the numerical relation between M the absolute and m the apparent magnitude, being $M = m + 5 + 5 \log \pi$, where π is the decimal fraction indicating the parallax of the star.

DISTANCE OF THE STARS.

The distance of the stars from us is so immense that its determination is perhaps the most difficult problem of astronomy, and not until comparatively recent years has it been effected in any quantity and with much certainty. The direct method of determination of a star's parallax, as this quantity is called, consists in measuring the minute difference of direction of the star as seen from opposite points of the Earth's orbit, which is now usually done by photographing the star and its surroundings at appropriate epochs and finding by measurement the change of position of the star with relation to its neighbours. A spectroscopic method of finding parallax through the absolute magnitude has been evolved. It has been found that in the spectra of stars the ratio of the intensity of certain pairs of lines is a function of the absolute magnitude of the star. In stars intrinsically brilliant, for example, a certain Calcium line is very strong, whilst a line due to Iron is very weak, but in an intrinsically faint star the case is exactly contrary. This principle has been adopted, and knowing the spectra of stars whose distance has been found trigonometrically, a table correlating the above characteristic with absolute magnitude has been formed by help of which it is found possible to infer the absolute magnitude of a star from examination of its spectrum, and hence its distance.

The distances of some stars or groups of stars are found by indirect methods such as the following. If by any means it is possible to know the mean parallactic movement (see *Stellar Motion*) of a group of stars the mean parallax or distance of this group follows from a simple computation. In other words, the space through which our Sun travels, which is about twice the diameter of the Earth's orbit in a year, is taken as the base-line with which to measure the distance of the stars. The parallaxes of some binary stars have been found by a computational method assuming a value for their mass (hypothetical parallax).

The distances of many of the stars are given in the lists on pages 66 and 67. To express these large distances a large unit is required. One of these is the space that light moves through in one year, which in miles is 6 followed by 12 zeros; another unit is the *parsec*, or the distance at which the mean radius of the Earth's orbit would subtend an angle of 1″ (parallax = one second). This is 3¼ times the light year and is represented roughly by 2 followed by 13 zeros. There is also a unit little used called the *Siriometer*, which is equivalent to a million times the distance of the Earth from the Sun.

Within the sphere of 10 parsecs radius about the Sun as centre, there are rather more than a hundred stars whose distance has been measured. It is estimated from knowledge of the general density of stars in space that there are nearly twice that number. The others remain to be discovered.

STELLAR MOTION.

Many, if not all, of the so-called Fixed Stars are gradually changing their positions relative to one another, the movement of each star being called its Proper Motion. Consideration of these proper motions has led to the conclusion that they are in part due to actual movement in space of the stars themselves, but in part to the movement of our own Sun, which causes an apparent motion of the star in the opposite direction, this latter being called the star's parallactic motion. In this way, it has been found fairly conclusively that the Sun, and with it the Earth and planets, is moving through space with a speed of 19·5 kilometres per second towards a point on the celestial sphere not far from the bright star Vega, speaking roughly, for there are differences in the determinations of the position of this point. The Proper Motions of Stars of spectral type F and G are found to be much larger on the whole than those of other types, and it is therefore to be supposed that these classes are nearest to us. It has already been mentioned that our Sun is of this spectral type. By an optical principle known as Doppler's, it is possible to find from certain peculiarities of the lines in its spectrum the rate at which a star is approaching or receding from us. The "line of sight" or "radial" velocities of many stars have been found in this way, but it is to be remembered that views recently put forward, *e.g.*, relativity, may indicate interpretations of these observed spectrum line displacements other than motion.

STAR CLUSTERS AND NEBULÆ.

Among the apparently solitary stars we may notice groups of stars gathered close together, which may sometimes be easily separable into individuals, others that can only be separated by the most powerful telescopes, and some that appear as unresolvable patches of light; the latter are called nebulæ, and were aptly described by Sir William Herschel as "shining fluid." A short list of the more interesting of these various objects is given herewith.

No. in New General Catalogue.	Messier's or Herschel's Number.	R.A. 1920.	Declination 1920.	Constellation.	Appearance.
		h. m.	° ′		
224	M 31	0 38	+40 50	Andromeda ...	Very brilliant oval nebula, visible to naked eye.
598	M 33	1 29	+29 38	Andromeda ...	A large nebula.
869 & 884	H VI. 33, 34	2 15	+56 45	Perseus	Fine double cluster, visible to naked eye.
1952	M 1	5 30	+22 0	Taurus	The well-known "Crab Nebula" of Lord Rosse.
1976	M 42	5 31	− 5 27	Orion	Large and splendid nebula, visible to naked eye.
2070	.....	5 39	−69 19	Dorado.....	Great "Looped" nebula—visible to naked eye.
2099	M 37	5 47	+32 30	Auriga	A fine cluster of stars.
2168	M 35	6 4	+24 20	Gemini.....	Magnificent cluster of stars.
2632	M 44	8 35	+20 15	Cancer	Called "Præsepe," or the "Bee Hive"—visible to naked eye.
3372	.....	10 42	−59 16	Argo	Great nebula surrounding η Argûs.
5194	M 51	13 26	+47 35	Canes Venatici	Brilliant spiral nebula.
5272	M 3	13 38	+28 45	Canes Venatici	Splendid cluster of stars.
6205	M 13	16 39	+36 35	Hercules.....	Very fine cluster of stars, visible to naked eye.
6494	M 23	17 52	−19 0	Ophiuchus	Fine cluster of stars.
6543	H IV. 37	17 59	+66 35	Draco	Bright planetary nebula.
6720	M 57	18 51	+32 55	Lyra	Beautiful ring of bright nebulosity.
6853	M 27	19 56	+22 30	Aquila	Large nebula formed like a "Dumb-Bell" or "Hour-Glass."
7089	M 2	21 29	− 1 10	Aquarius.....	Splendid globular cluster of stars.
7078	M 15	21 26	+11 49	Pegasus	Magnificent cluster of stars.

There are nebulæ called planetary that are small, regular in outline, and show a uniform disc. Analogous to these are some which are dark in the centre called annular or ring nebulæ. Beyond this the spectroscope divides the nebulæ into two great classes. The first spectroscopic observation of a nebula, made by Huggins in 1864, showed a spectrum of one bright line only, which indicated that these bodies, or at least some of them, are constituted of glowing gas. Later investigation showed that the spectra of some nebulæ are continuous, from which it may be inferred that these are in a later stage of progress, assuming the evolution of celestial bodies from a primitive nebula. The nebulæ with continuous spectrum are called "white" nebulæ, in distinction to those with bright line spectra, which are "green" or gaseous. Photography has brought the means of studying the number and form of these objects in great detail, and it is found that there are many thousands of the white nebulæ, and that a large proportion of them are of spiral form (*see* p. 62). The gaseous green nebulæ are in a small minority, and are generally diffused and irregular in outline and lie mostly in the Milky Way. The smaller, the so-called planetary and stellar nebulæ, do not markedly avoid it as do the spirals which lie in a zone of the sky, roughly at right angles to the Galaxy. Globular star clusters also lie outside the Milky Way, but irregular clusters are within its limits. There are also masses of Dark nebulæ in space which may be the earliest form of matter. Though it is not possible to measure their distances directly, several lines of argument lead to the conclusion that the spiral nebulæ are very far away. Distance of the order of 250,000 parsecs has been assigned to M 31 and M 33 (see above).

VARIABLE STARS.

Although the stars generally shine with unchanging brightness, there are some among them which are exceptions to this rule, and of these Algol, the star β of the constellation Perseus, is the best known. In general this star is of about the second magnitude, but at regular intervals of something less than 69 hours it fades away to between third and fourth magnitude remains so for about 20 minutes, and then regains

These are *approximate* times of the middle of minimum phase.

ts light. The whole eclipse occupies about 9¼ hours. The approximate times when this star will be at minimum in the months when it is suitably placed for observation are given in the table above. The position of Algol is given by R.A. 3*h.* 3*m.*, Declination 40° 39″ N.

There are variable stars of types other than those like Algol. The Cepheid variables have an average period of about 7 days, and the rise from minimum to maximum takes only about one-third of the whole period, so that the decrease of light is more gradual than the increase. Stars of the *β* Lyræ type pass from minimum to minimum in about 6½ days, but are not of the same brightness at all minima, the alternate being equal. There are variable stars of a class with periods varying from 30 to over 500 days, a large proportion of which, however, are in the neighbourhood of 300 or 400 days, whose range of brightness during a light-cycle may be as great as 9 or 10 magnitudes. The spectra of most of these long-period variables show bright emission as well as dark absorption lines, and a periodic outflow of incandescent gases and vapours is suggested as the cause of the light variation. Mira Ceti (R.A. 2*h.* 16*m.*, Declination 3° 19′ S.) is the most famous of these. It will be at maximum about the end of September, 1927, and again at the end of August, 1928. Its magnitude at maximum may be anything between 2 and 5.

There is a group of 8 or 9 stars of a remarkable type known as the *U* Geminorum which for most of the time are of uniform or nearly uniform magnitude, but suffer irregularly-periodic outbursts which generally last a few days. The majority of this group are of 11th magnitude or fainter at maximum. The outbursts may be said to happen every 20 or 30 days, but this period is frequently much exceeded. The star *SS* Cygni is included in this group and its variation is the most erratic. Also there are a few variable stars whose characteristic is the opposite of that of the class just mentioned; they are ordinarily bright, but sometimes become faint without warning and remain so for a year or more, varying very irregularly until they again attain their normal brightness. The star R. Coronæ Borealis, normally of magnitude 6·0, which gives the name to this class, has been observed since the year 1843, and up to the year 1925 forty well-marked minima had been recorded, ranging between magnitudes 7 and 15 in brightness and from 2 months to 12 years in duration.

The variation of stars of the Algol type is believed to be caused by the partial eclipse of the bright star by a dark companion which moves in an orbit round it. A secondary minimum that has been noted in the period of variation of Algol can be accounted for by this theory. The variation of the Cepheid variables, on the other hand, is not caused by eclipse, though many of them have been found to be binary stars. It has been suggested that it may be due to a pulsation or periodic swelling and contraction of the star. A curious relation has been found between the absolute magnitude and the period of variation of Cepheids, those of longer period being the brighter.

NEW OR TEMPORARY STARS.

The phenomena known as "Novae" or "New" Stars can scarcely be classed as variable stars, for the rise to maximum, so far as is known, occurs only once in their history. Generally the Nova appears in the place of a star of faint magnitude which may have blazed out into conflagration, but on the other hand the juxta-position may be the merely fortuitous and the phenomenon may be the sudden visibility of a mass of dark nebulous gas which by some means has become igneous. The great brilliancy, which occurs very suddenly, is short-lived, for there follows a rapid fall, and in a few months the object emits, perhaps, 1 per cent. of its light, whilst in a decade it falls to 10th or 12th magnitude or fainter. About thirty bright stars of this kind visible since the time of Hipparchus 134 B.C. are on record. A list of 13 that have been seen since 1848 will be found in previous issues of this Almanack, together with an account of the changes in the spectrum of New stars generally observed, the most recent to date (October, 1926) being Nova Pictoris that appeared in 1925, May 25. Several of these are still visible as faint stars of 10th to 15th magnitude and are being systematically observed. Their light generally shows some trace of variability.

The position of a star is defined by its Right Ascension and Declination, which are analogous to longitude and latitude on the terrestrial sphere. For reasons known as Precession, the lines of reference on the celestial sphere are continually changing, hence these coordinates of the stars, Right Ascension and Declination change annually, each by the amount shown in the Table. Observation of position of the stars shows that the change does not conform precisely to this Precession, and the outstanding amount for individual stars is known as Proper Motion (*see* page 64), which is also shown. The angular parallax of a star is the angle that the mean radius of the Earth's orbit would subtend at the distance of the star and is inversely proportional to that distance. The determination of a star's parallax is attended with some difficulty, and results by different observers and methods may consequently differ considerably. The parallaxes in the following table have been taken from the General Catalogue of Parallaxes compiled by Dr. Frank Schlesinger of Yale and do not include any spectroscopic determinations. They are mainly trigonometric parallaxes although some have been derived from orbital motions of binary stars. For some few stars no value is available. The last column shows the distance in parsecs, corresponding to this parallax in parsecs (*see* p. 63).

There are in the

list certain stars which are double, and in general the Mean place given for these is that of the brighter star. In the case of Castor (α^2 Geminorum) the second of the components is the brighter, and the place of this is given. Sirius, Procyon, which have faint companions, and α Centauri are binary stars, and of these the Mean place given is that of the centre of the orbit.

These tables give Mean places. The position on any day of the year differs from this because of Precession, Nutation, Aberration and Proper Motion. The Mean place with these effects added is called the Apparent place, and for the purposes of navigation and surveying it is the Apparent place that is required.

The Solar System.

THE SUN is one of the millions of stars that make up the Universe, and, so far as human knowledge goes, in magnitude and constitution, is not unlike the stars of the night sky. It is surrounded by a family of smaller bodies of which our Earth is one, and the Solar system, which is only a minute detail in the structure of the Universe, is the observing station from which we look out in all directions across the great distances which separate us from the other members of the stellar system.

The Solar or Planetary system consists of the Sun, with eight major and more than a thousand minor planets, or asteroids, circulating round it at varying distances in oval-shaped orbits. Six of the major planets have smaller bodies circulating around them, so that each forms a separate system, but all the bodies receive their light and heat from the Sun.

The periodic comets which return to perihelion at regular intervals may be considered to be members of the Solar system, since they move in elongated elliptical orbits of which the Sun is at a focus, but probably they are visible partly by their own light.

The plane of the Ecliptic in which the Earth moves round the Sun (*see* p. 75) is used as a fundamental plane of reference. The other planets move in planes inclined but little to the plane of the Ecliptic, at varying distances from the Sun, and describe orbits in periodic times which are connected with the distances by a certain relation known as Kepler's 3rd law. The squares of the periodic times vary as the cubes of the semi-major axes. Following are given brief notes on each of the bodies which make up the Solar system, with details of their sizes, distances from their primary, and periodic times in tabular form (p. 72). The time of rotation about the axis, or the length of the day of the planet, is added where this is known.

THE SUN.

The surface of the Sun, seen in a telescope, presents a mottled appearance formed by a darkish background on which small brilliant patches are scattered, the shape of these being such that they have been called alternatively rice-grains or willow leaves. On this surface or amid the material forming it, black spots appear sporadically, and around them are brilliant streaks called faculae, which are conspicuous when the spots are near the edge of the Sun. The bright streaks are also seen unassociated with spots, and when these are scattered over the disc are generally called flocculi. There are also brilliant clouds of calcium vapour pervading the solar surface that are revealed by the spectroheliograph, an instrument by means of which the whole of the Sun's disc may be photographed by the light of any element, and of that element only. The nature of the spots is not known with certainty. Formerly they were thought to be saucer-shaped depressions at a lower level than the surrounding surface, which is called the photosphere; modern views describe them as columnar vortices which have a deep-seated origin far below the photosphere, and assume that a sun-spot is a vast tornado in which electrified particles are rapidly whirled, which is proved by the presence of a magnetic field. There is apparently a connection between the solar activity, as shown by the spots, and terrestrial magnetism, for the coincidence in time between certain variations of the latter and the appearance of sun-spots is too marked to be fortuitous. It is suggested that the connection is made by stream-like emanations of corpuscles from the Sun which envelop the earth. The spots vary in size and number, which increase and decrease somewhat uniformly and arrive at a maximum about every eleven years. They increase at a rather more rapid rate than they decrease. From measures of their position on the disc and by help of the elements given on page 2 of each month the latitude and longitude (heliographic) of the spots can be computed. It is seldom that spots appear in latitudes greater than 30° from the solar equator, but about the time of spot minimum or rather earlier small spots appear in these extreme latitudes, and during the succeeding eleven years or more the spot regions converge towards the solar equator, and at time of maximum the spots are largely in solar latitude 12° to 14° N. and S. The Sun rotates on its axis in about 25½ days, which is shown by the movement of the spots across the visible disc, but because the Earth has moved in its orbit in that time the period of rotation with respect to the Earth, the Synodic period, as it is called, is 27½ days, and a spot may therefore be on the visible disc for 13 or 14 days. These are approximate mean values, for the Sun does not rotate as a whole solid body, and the rate of rotation is not the same in all latitudes. A formula derived from the Greenwich record of spots during the period 1878–1923 gives for the time of sidereal rotation in different latitudes:—

	d.	h.		d.	h.
Equator	25	1	Lat. 15°	25	8
Lat. 5°	25	2	,, 20°	25	14
,, 10°	25	5	,, 30°	26	6

These figures refer to both hemispheres of the Sun. The addition of 2 days gives approximately the period of rotation with respect to the Earth.

When the intense light of the Sun is shut off by the interposition of the dark body of the Moon in a total solar eclipse, certain red prominences are seen projecting from the Sun's edge, which consist of masses of glowing hydrogen gas arising from the chromosphere. Sometimes these are of remarkable shape and extend to enormous heights, occasionally being detached from the body of the Sun. In the lower strata of the Sun's envelope are found the vapours of many metals, known by their characteristic lines shown in the spectroscope. Another appendage to the Sun outside the chromosphere, called the Corona, can only be seen during total eclipses. The lower portion of the corona consists of a pale green light containing hydrogen; the upper is a beautiful mass of silvery white light, in form of feather-like plumes, with dark spaces between, which have been traced from the Sun's edge to a distance as great as twice the Sun's diameter. The corona appears to vary in shape and extension according as the eclipse occurs at the period of maximum or minimum of Sun-spots. Solar eclipses are only

seen total at places where the shadow of the Moon falls, and an eclipse is partial at localities off this path of totality, because the change in the observer's position places him out of the direct line which joins the Moon to the Sun. Total eclipses of the Sun visible from any given place are rare. In March, 1140, there was a Total Eclipse of the Sun which may have been visible from London, and there was another in the year 1715, when the Metropolis was included in the path of totality. On a few occasions in these centuries the Sun was seen totally eclipsed from other parts of Great Britain, the last of these being on May 22, 1724. There will be an eclipse of the Sun on June 29 of this year, which will be seen total for a few seconds from the north of England (*see* pages 24 and 58.)

MERCURY.

Mercury is the nearest planet to the Sun, and the smallest in the system. Because it moves in an orbit between the Sun and the Earth this planet can never be seen far from the former body, and is sometimes to the West, sometimes to the East of the Sun. In the former case Mercury appears as a morning star and in the latter as an evening star. The extremes of these apparent excursions are technically known as Elongations, and the times and distances, measured by the angle included between the lines which join the Earth to the Sun and the planet respectively, are given in the third page of each month. The great ellipticity of the orbit of Mercury causes the amount of these Elongations to vary considerably, and they may be as small as 16° or as large as 28°. Eastern elongations, when the planet is seen as an evening star, occur at intervals of about 116 days, as do Western, and there is good opportunity of seeing the planet *before* the Eastern elongations in the spring and after Western elongations in the autumn. This year Mercury may be visible as an evening star in February and March and in June, and as a morning star in August and in November and December. Mercury shows phases to the Earth —like the Moon in her first quarter if the elongation be in the East, and like her last quarter if in the West. (*See* p. 73.)

VENUS.

Venus, which is nearly twice as far from the Sun as Mercury, is almost exactly the same size as the Earth. Her apparent movement with respect to the Sun is similar to that of Mercury, except that, being farther from the Sun, and nearer to the Earth than her smaller neighbour, the angles of Elongation exceed those of Mercury, and extend to 47°. Writing generally, it is believed that the planets rotate on axes as does the Earth, but this is not known to be the case for the interior planets Mercury and Venus, because of the difficulty in seeing any markings on their surfaces that may be considered permanent. Attempts to discover the rotation period of Venus have shown that it may be about 23 or 24 hours, or 24 days, or 225 days which is the period in which it completes its orbit round the Sun. With this divergence it can scarcely be said that any period is proved. Lately, because certain markings have been seen to move in a North and South direction, rather than from East to West, it has been suggested that Venus rotates on an axis that lies in the plane of her orbit, and on this assumption periods of 68 hours and 8 days have been deduced, which again show divergence that renders either doubtful.

MARS.

Mars, the first planet whose orbit is exterior to that of the Earth, is a little larger than Mercury and considerably smaller than Venus and the Earth. Details of his distance and period will be found in the table. Mars is in opposition at intervals of about two years, because it moves at a rate not greatly different from that of the Earth, and having been in opposition in November, 1926, will be a bright object of the evening sky in the early months, but will fade and become inconspicuous in the latter part of the year. Mars, like Mercury and Venus, exhibits phases, but in a much less degree than those planets. His disc departs from exact circular form, or is gibbous only to the extent of one-eighth of its diameter. The other superior planets are too far away to show any very appreciable phase, though traces of it are sometimes to be detected in the disc of Jupiter.

Unlike Mercury and Venus, Mars exhibits many well-defined markings, which enable his rotation period to be well ascertained; there are, besides, white spots at the poles of rotation. These are supposed to consist of snow, and when it is summer to the Martians in the northern hemisphere, the white spot about that pole dwindles considerably in extent, if it does not disappear entirely, which it does rarely. The remainder of the disc is divided into greyish and ruddy areas, which have been called seas and lands. The dark grey patches are now not considered to be oceans, but are usually regarded as marshes or areas covered with some sort of vegetation. These areas are seen to change their colour and intensity with the Martian seasons very much as our vegetation would appear to do if viewed from a celestial neighbour. Certain fine, dark, straight markings seen across the ruddy areas have been named "canals," perhaps a little unfortunately, as it has been taken to imply that they are of manual construction, but for this there is no sufficient evidence or proof.

MINOR PLANETS.

Between the orbits of Mars and Jupiter a large number of small planets have been discovered, and every year considerable additions are made to the list. At present the total number known is more than a thousand, and there may still be thousands awaiting detection. The four largest, found in the early years of the 19th century, are —Ceres, 485 miles; Pallas, 304 miles; Juno, 118 miles; and Vesta, 243 miles in diameter. Vesta is the brightest though not the largest. In recent years the discoveries have been of much smaller objects, and it is probable that some of them are not more than from 10 to 20 miles in diameter, and are perhaps nothing more than great masses of rock flying round the Sun.

The periodic times of their revolutions vary considerably, and an average may be taken as 1,600 days, or 4½ years. Some of the orbits are very oval, and the inclination of their planes to the Ecliptic has considerably different values. The inclination of Pallas is 35°, whilst that of Juno is only 13°. One of these small bodies, Eros, approaches very near to the Earth at some oppositions, which affords a good opportunity for determining the solar parallax. There will be a very close approach in 1931, when the minimum distance will be about 16 million miles.

JUPITER.

The next planet in order from the Sun, Jupiter, is the largest in the system, and has a diameter eleven times that of the Earth. Its density, however, is only ¼th that of the latter. On viewing Jupiter through a telescope it will be seen that the disc is not circular, but its form, an oblate spheroid, is believed to be due to the rapid axial rotation, which causes a flattening at the poles and bulging outwards at the equator. The same effect is produced on all the planets in more or less degree.

Jupiter has four principal satellites about the same size as our moon, which were the first celestial objects discovered with the telescope, Galileo having observed them in the year 1610 (see pp. 12, 16 and 45). It has also five fainter satellites which are far beyond the powers of small telescopes. One of them was discovered with the 36 inch refractor at the Lick Observatory in 1892, the remaining four, which are extremely faint, were detected by means of photography and may be regarded as among the most difficult to see of celestial objects.

The surface of Jupiter presents features of interest because of their frequent changes, though at the same time they possess considerable permanence. Of these the best known is the Great Red Spot and its surroundings. There are records of an observation of a spot by Hook in 1664 which may have been an early appearance of this, but the first modern observation was by the Rev. W. R. Dawes when he figured it in the form of an ellipse resting on the south equatorial belt of Jupiter on Nov. 27, 1857. It was subsequently seen by several others, and in 1878 it came under general observation. A curious bay or hollow in the above-named belt has been visible since 1831, when it was seen by Schwabe, and if we conclude that the one now perceptible is identical with it then the mean rotation of the object and of the red spot near it has been $9^h.\ 55^m.\ 37^s.$ during the last 95 years.

Early in 1901 a series of dark spots were detected in the same latitude as the red spot, but moving with greater velocity. These markings are still visible, and they have had the effect of causing considerable irregularities in the motion of the red spot. As they overtook the latter formation they pushed it forward, and its rate of rotation has been accelerated. In 1923 and 1924 this peculiarity was exhibited in striking fashion, and the rotation period of the red spot was quickened to the extent of 3 seconds. The effect of the recurring conjunctions of the red spot and south tropical disturbance has been to equalise the rates of motion. In 1926 the disturbance and other features disappeared, as they did in 1919, but the red spot was specially conspicuous. They will probably reappear as they did in 1920.

At the opening of the year 1927 the longitude of the great red spot will be approximately 355 degrees, and it will therefore precede the zero meridian (system II.) by about 8 minutes of time. The motion of this object varies in its rate in an irregular manner, and renders the prediction of its exact place somewhat uncertain. As a guide to the probable position of the object, however, the following times are given when it may be expected to be near the central meridian of the planet. Observers should obtain a number of good transit times of the spot and especially during the summer and autumnal months when his position in the heavens will favour observation.

1927.	Red spot precedes Zero meridian in degrees.	Red spot precedes Zero meridian in time.	Transit time of spot.
			H. M.

July 21 ...	3 26	,,	Nov. 11 ...	21 22	,,

Note.—Two systems are in use for defining the positions of markings on Jupiter. In System I., which pertains to the rapidly moving Equatorial Zone of the planet, the period of rotation is taken as $9h.\ 50m.\ 30s.$ System II. applies to the Temperate Zones, and in this the time of rotation is $9h.\ 55m.\ 40{\cdot}63s.$

SATURN.

The sixth major planet in order from the Sun is unique in appearance because of its encircling ring-system, which renders it magnificent as a spectacle and an interesting object for telescopic observation. The system consists of two bright rings and an inner dusky ring through which the body of the planet can be seen. A marking on the outer ring known as Encke's division is sometimes seen, but it is doubtful whether this is a real separation. The rings appear to be flat annular discs of extreme thinness, inclined at an angle of 28° to the plane of the Ecliptic, and it is shown that neither of them can be a coherent mass or in one piece, either solid or liquid, as in that case it would be difficult to account for their stability. They probably consist of an immense number of minute bodies revolving like satellites round the body of the planet. Belts like those on Jupiter, but of not so pronounced a character, are seen on Saturn. His figure shows a bulging at his equator, the ratio of the polar to the equatorial diameter being as 13½ to 15. This planet will be favourably placed for observation in the early months of summer, being in opposition to the Sun at the end of May, and will be visible in the clear evening skies of the ensuing months.

Saturn has ten satellites, situated outside the rings; some of the former are visible in telescopes of low power. Titan, the largest, is about one and a half times the size of our moon, whilst Iapetus is about the same size as our satellite.

Titan was discovered by Huyghens in 1655, Tethys, Dione, Rhea and Iapetus (see table p. 73) by J. D. Cassini towards the end of the 17th century. Sir Wm. Herschel discovered Mimas and Enceladus in 1789, and Hyperion was observed for the first time, almost simultaneously by Bond and Lassell, in September 1848. The most distant, Phœbe, which was first seen in 1898 (photographically by W. H. Pickering), moves in its orbit in retrograde direction like the two exterior satellites of Jupiter, VIII. and IX. Themis, which is called the tenth satellite,

though it appears not to be the farthest from Saturn, has been observed once only since its discovery in 1900, and its reality is doubtful.

URANUS.

This planet, discovered by William Herschel at Bath in 1781, is only just visible to the naked eye. In 1927 it will be in opposition to the Sun on September 25, and may be favourably viewed in the evenings of autumn. In a telescope Uranus may be distinguished from the stars around by its disc, which is obvious though less than 4″ in diameter, and by the quality of its light, which is less piercing than that of the stars. The two outer and brighter of its four satellites were discovered by Wm. Herschel in 1787; the two inner by Lassell in 1851. All four move in a plane which is almost at right angles to the ecliptic and their motion is considered to be retrograde.

NEPTUNE.

This planet, placed on the confines of the Solar system, is a small telescopic object of about the 8th magnitude. It has been inferred from variation in its light that it rotates in a period, a few minutes less than 8 hours. The motion of its single satellite, sometimes called Triton, is retrograde. The planet will be in a good position for telescopic scrutiny in February and March amongst the stars on the western region of Leo.

THE MOON.

Neither Mercury nor Venus, so far as is known, has a satellite; the one satellite of the Earth is the Moon, which is quite familiar to us. The mean distance of the Moon from the Earth is about 239,000 miles—near enough for us to get a more complete knowledge of its surface conditions than we can of any other member of the Solar system. Only one side of the Moon is seen from the earth, but every region of the Moon is presented to the Sun in turn, and as there is no sign of water or vapour on the disc, and consequently no atmosphere, the surface must be exposed to the most violent changes of temperature: in the lunar day of half a month it must be heated to a very high temperature, and in the other half subjected to cold equal to that of interstellar space. Her diameter is rather more than 2,160 miles, and her rate of motion through the firmament 13° 10′ 35″ per day, which implies that she travels over a space slightly exceeding her own diameter in one hour. The average time she takes to move around the sky is 27*d.* 7*h.* 43*m.* 11·5*s.*, and the average time from a New Moon to the next is 29*d.* 12*h.* 44*m.* 3*s.* When seen through a telescope the surface of the Moon presents many objects of great beauty and interest. A small instrument will show the chief "seas," plains, mountain ranges, ring-plains, and crater-pits. The question as to the origin of these formations, whether they may have been caused by volcanic action, or, on the other hand, by the impact of meteors, forms an interesting subject for discussion.

When the Earth passes between the Sun and Moon, the Earth's shadow sweeps across the Moon and causes a lunar eclipse, which may be either total or partial as in the case of solar eclipses, but there is the difference that the phase of a lunar eclipse is seen the same from all places where the Moon is above the horizon at the time. Solar eclipses can take place only at New Moon, and lunar eclipses only at Full Moon (see p. 48).

The Full Moon which occurs near the Autumnal Equinox rises at nearly the same time, about sunset, on several consecutive evenings. Because in earlier times it was thought that this was specially ordained to facilitate the ingathering of the crops the phenomenon was called the Harvest Moon. The Full Moon which follows is called the Hunter's Moon.

A FEW OF THE CHIEF LUNAR FORMATIONS.

Wedge-shaped Valley of the Alps.—Near the central line of disc, towards the north, a cleft 83 miles long and 3½-5¾ miles broad.

Apennines.—An extensive mountain range somewhat similar to terrestrial features. Visible to naked eye when projecting into the dark part of the disc. Length, 460 miles; highest summit (Huyghens) reaches 18,000 feet.

Aristarchus.—A lunar crater in N.E. quadrant. The brightest object on the Moon. This crater is visible as a luminous spot when all the surrounding region is involved in shadow.

Mare Crisium.—A dark grey oval plain visible to naked eye near W.N.W. limb of Moon. Extends 280 miles N. to S. and 354 miles E. to W. Well seen five days after new or a few days after full.

Mare Serenitatis.—Lies S. of the Moon's centre, and extends over 428 miles. A nearly circular dark plain. Contains a crater, Linne, formerly suspected of change. This *mare* is visible to naked eye.

Clavius.—One of the finest craters on the Moon, and about 142 miles in diameter. Situated on S. limb.

Tycho.—Towards S. limb. Has been called "the metropolitan crater of the Moon." A fine crater 54 miles in diameter and 16,600 feet deep. Central hill nearly a mile high. Tycho is the centre of a remarkable system of bright rays radiating from it, and they are very conspicuous at the time of full moon. In its region (S. limb) the Moon's surface is so studded with craters that it resembles an immense honeycomb.

COMETS.

Comets that revolve in elliptical orbits round the Sun as focus, and return to view at periodic intervals, may be considered members of the Solar system. The periods that have been confirmed by return range from 3½ to nearly 80 years, whilst a few other computed orbits show periods as large as a million years. Other comets move in parabolic courses and apparently do not repeat their visits to the Sun.

Those that revolve in periods from 3½ to 9 years deserve special notice, as their orbits are well known and predictions of their reappearances are very accurately made in many cases.

Their paths extend outwards to the position where Jupiter performs his revolution, and from this circumstance they are termed Jovian comets.

The comets in the following list have already been seen at least once since discovery, and are expected to return in or about the year 1927. The month of perihelion passage given in the second column is to be considered as approximate :—

Name.	Last Appearance.	Period in Years.
Neujmin (1916)	1927 Jan.	1921(?) 5·41
Grigg (1902)	,, May	1922... 4·97
Pons-Winnecke(1819)	,, June	1921... 5·98
Schaumasse (1911) ...	,, Oct.	1919... 7·97
Encke	1928 Feb.	1924... 3·30

Four of the expected periodic comets were observed in the year 1926 (up to Nov. 1) and one other that is believed to be non-periodic.

There are other families of comets, none so numerous as the Jovian, named respectively from the planets Saturn, Uranus and Neptune, for a reason similar to that given above. Halley's comet belongs to the Neptunian family, while the comet of the November meteors (Leonids) belongs to the Uranian family.

METEORS.

Another class of objects belonging to the Solar system are the meteoric streams, which give rise to occasional showers of meteors, falling stars, or fire-balls, and are all the same class of object, the distinction being only one of size. They are visible in varying number on every night of the year, and sometimes form striking phenomena. A display from a previously unknown stream occurred on June 28, 1916, which apparently had connexion with Pons-Winnecke's periodical comet, the orbits being nearly the same. This comet returned to perihelion on June 12, 1921, when the expectation of a fine meteoric shower was not realised, but there seems a prospect that one may occur in June of this year. On 1926, September 6, a large fireball passed from the North Sea over Yorkshire, and at its disruption caused a dazzling flash, followed in two minutes by loud detonations. Its direction was from the radiant of the ε Perseids. Other meteors and fireballs were seen later, directed from the same region of the sky, notably on the nights of September 17 and 20. Meteorites are composed of terrestrial elements, iron, chromium, magnesium, and nickel being in large proportion.

THE ZODIACAL LIGHT.

This is an appearance whose cause is not completely understood, and is visible, in its more prominent features at least, only from places distant from towns and cities where the air is free from smoke and the darkness of the sky is not affected by the glare from artificial lights. At such places it shows, when the moon is absent, as a band of faint light which stretches up slantingly from the Sun before sunrise in the autumn months and after sunset in Spring. Seen from high elevations in the tropics it is said to extend entirely across the sky, forming a complete ring, and there is at the point exactly opposite to the Sun a patch, a few degrees in diameter, of slightly brighter luminosity called the "Gegenschein" or "counter glow." It may be the manifestation of a widely scattered appendage of the Sun or a vast concourse of slightly reflective meteoric systems.

It has been asserted that it is a mere atmospheric effect, but this is not consistent with some of the chief features of its appearance. That it has a celestial origin seems certain, but its true nature is not easily explained on the evidence before us. We may, however, easily conclude that we might observe a decided shimmering E. and W. of the Sun resulting from its light reflected from the host of minor planets, comets and cometary débris revolving around him, chiefly in orbits of little inclination.

THE AURORA BOREALIS.

This phenomenon may be considered more terrestrial than celestial. It sometimes happens that an unusual luminosity is seen in the northern sky in the form of streamers, arches, and condensations. This is regarded as showing the outer limit of our atmosphere, and its height has been determined by means of simultaneous photographs taken from two or more stations 20 to 60 miles apart. It is found that very few auroræ are below 50 miles high, and above that level the number increases rapidly, the most frequent height being at about 63 and 66 miles. Above 66 miles the number gradually diminishes, but some have been measured as high as 400 miles. It is believed that the aurora is due to electrical discharge caused by charged particles shot into the earth's atmosphere from the Sun. An auroral display often happens when a large sunspot is nearly central on the Sun's disc as seen from the earth. There is a definite tendency for an auroral display to be repeated after an interval of 27 days, which is the period of rotation of the Sun with respect to the earth, and they are more frequent at times of sun-spot maximum. A prominent line in the green in the spectrum of the aurora has given rise to much study and has lately been shown by laboratory experiment to be due to a mixture of oxygen and helium bombarded by high-speed electrified particles, but as this line has been found to be present in the light from the night-sky in non-polar regions when no aurora is visible it may be that this line is not directly connected with the phenomenon.

When the above numbers are less than 0·500 the planet is *horned*, when greater than 0·500 it is *gibbous* until unity is reached, when it is full.

Duration of Light and Darkness.—The second column of the first page of Calendar for every month contains a small diagram showing the amount of Darkness, or the period of moonlight and sunlight during the twelve hours from 18*h*. to 6*h*. These small diagrams have four divisions, each representing three hours, and a division is left unblacked if the moon or the sun is above the horizon for at least half of the period it represents. The diagrams for the greater part of the year are 18 to 21 | 18 to 24 | 18 to 3 | 18 to 6: which reduce to in the summer.

Ready Reference Calendar for 200 Years.

For ascertaining Any Day of the Week for any given time within Two Hundred Years from the introduction of the New Style, 1752,† to 1952 inclusive.

THE shape of our Earth is that of an oblate spheroid, or a solid of revolution whose meridian sections are ellipses not differing much from circles, whilst the sections at right angles to these are circles. The length of the Polar axis, according to a recently accepted determination (Hayford) is 7,900·0 miles and the diameter of the Equatorial circle 7,926·7 miles. The suggestion has been made that the Equator is not an exact circle, but the supposed deviation from circularity was small, and the fact has not been proved. The mean density of the Earth is 5·5 times that of water. The Earth moves round the Sun in a plane which passes through the Sun's centre, or, to write with more precision, the centre of gravity of the Earth and Moon moves in this plane, and both revolve round the centre of gravity but not precisely in the plane. The plane is called the plane of the Ecliptic. The Earth's Equator is inclined to this plane at an angle of 23½°, and because of this inclination the Sun is high in the sky in the Summer months and low in the Winter. It is this tilt which causes the seasons, for not only does the high altitude in Summer cause the days to be longer, but the Sun's rays fall more directly on the Earth's surface and make it hotter. The periods of Summer and Winter are opposed in the two hemispheres, the time of Summer in the Northern coinciding with Winter in the Southern, and *vice versâ*. Since the axis of the Earth is inclined always in the same direction, the line of intersection of the Equator with the Ecliptic moves parallel to itself as the Earth travels round the Sun (approximately). The instants when this line passes through the Sun are called the Equinoxes. The Sun and Earth are surrounded on all sides by the stars, and because the Earth moves round the Sun, the latter changes its position with respect to the stars during the year, and different sets of stars are seen in the sky at midnight in Summer and Winter. The average velocity of the Earth in its orbit is 18½ miles a second, and it moves more slowly in July than in January. It makes a complete rotation on its axis in about 23 hours 56 minutes of mean time, which is the sidereal day. Because of the movement of the Earth in its orbit the length of the solar day is more than this by about four minutes (*see* p. 78). It has been shown almost conclusively in recent years that the axis of rotation is not a fixed line in the Earth, but that its extremity, or the North Pole of the Earth, moves in a curve, roughly spiral, about the pole of figure as centre at a distance of a few feet from it.

THE TIDES.

The Tides of the Ocean are rightly attributed to the attractive influence of the Moon on the Oceans, modified by a similar influence of the Sun, which is less in amount because of the much greater distance of the attracting body. If the Earth were a globe uniformly covered with water it would be possible to account for the observed phenomena and predict them by simple mathematical consideration of these attractive influences, but these are very greatly modified by the land formations of our globe, and the prediction of the tides for any port depends mainly on the results of observation. A series of observed times and heights of the tide having been compiled and analysed, the analysis will show that the complete tidal movement can be represented by the combination of a series of periodic terms, and if these terms are each carried forward to some future date their recombination will give the predicted tide. Taking the mean sea-level as datum, writing generally, at any place high water occurs twice in every 24 hours, the interval between successive happenings being 12 hrs. 25 mins. High water is at its highest (springs) at or near New and Full Moon, whilst low water falls an equal amount below at those times. At or near the time of the first and last quarters of the Moon (neaps) the high water rises only about half as much above the mean level as it does at springs, and the low water falls about half as little below it. These phenomena do not usually coincide exactly with the times of these phases of the Moon, but occur later, the interval being known as the *age* of the tide—thus, at London Bridge, the highest or spring tide occurs 2½ days after New or Full Moon, and the neap tide is similarly delayed. The difference of height of spring and neap tides is the most apparent of the periodic differences which make up the whole tidal variation. Besides this there are differences due to the varying distance of the Moon from the Earth, and when the Moon is at or near perigee at New or Full the tide is specially high. There is a slight difference in the heights of the spring tide at New and Full Moon, and also in the height of the neap tide at the respective quarters, but these and other small periodicities are not appreciably noticeable at some ports. The mean level of the sea remains practically constant, but small changes have been detected which may be assigned to various causes.

TERRESTRIAL MAGNETISM.

The best known manifestation of this phenomenon is its effect on the needle of a mariner's compass, which, except for the variations to be immediately described, points continually northward. The north point indicated by a compass needle is not, except in particular cases, the north point shown by astronomical observations; in other words, the needle does not point to the North Pole of the axis of rotation of the Earth, but makes an angle with the terrestrial meridian. This angle is called the Magnetic Variation, or, more generally, Magnetic Declination, and differs in different parts of the world and even over limited tracts of country. Along a line from the north of Norfolk through Greenwich to Chichester the declination is the same as at Greenwich. Along a line parallel to this through Dover the West declination is now about a degree less; from Newcastle to Plymouth it is about 1½° greater; whilst at Dublin the declination West is 3° or 4° greater than at Greenwich. Observations of magnetic declination are made and charted to show the amount of this magnetic element over our globe, and from such charts it appears that there are two points or regions which may be considered as directive centres, and are known as the Magnetic Poles. At these places a freely suspended magnetised needle would stand vertically. They do not coincide with the terrestrial Poles, nor are they exactly antipodal. Their positions apparently undergo secular change, and for the epoch 1922 the position of the North Magnetic Pole was about lat. 72°, long. 96° W., that of the South, lat. 73°, long. 156° E. The magnetic declination at any place changes gradually year by year, and its amount observed in or near London at certain epochs is given in the table on p. 76. That the compass needle does not in general point true north and south,

but that it is inclined a certain amount east or west, and that the amount varies with the locality, was recognised among western nations by the end of the 15th century, Columbus being credited with the discovery. That there is a secular change in the magnetic declination, or that the amount at any place changes slowly year by year, was discovered by Gellibrand in 1634.

Magnetic Declination at London.

Year.	°	′	
1580	11	15	East.
1665	1	30	West.
1765	20	0	West.
1800	24	0	West.

In 1819 the westerly declination at Greenwich was about 24° 25′, which was probably its maximum. The needle has been since moving slowly eastward. The following table of mean magnetic elements is derived from the observations made at Greenwich in the respective years, and applies to Greenwich only. The figures for 1925 are provisional, and the later are inferred.

Year.	Mean Magnetic Declination at Greenwich West.	Horizontal Magnetic Force in C. G. S. Units at Greenwich.	Mean Inclination or Dip of Needle at Greenwich.
	° ′		° ′
1900	16 29·0	·1846	67 8·8
1910	15 41·2	·1855	66 52·8
1920	14 8·6	·1845	66 53·6
1922	13 46·7	·1844	66 52·3
1924	13 22·8	·1843	66 51·6
1925	13 10·0	·1841	66 51·5
1926	12 56·6	·1840	66 51·1
1927	12 42·6	·1840	66 50·5

Because electricity has been adopted as motive power for railways in the neighbourhood which renders the records valueless, the observations of earth magnetism at Greenwich are coming to an end, and this department of the Royal Observatory has been transferred to Abinger, near Dorking, Surrey. Provisionally estimated values of the elements at Abinger are :

	° ′		° ′
1926	13 9·3 W.	·1859	66 35·2
1927	12 55·3	·1858	66 34·7

The declination varies during the 24 hours, for the needle makes a small excursion in the morning from East to West, and returns, the range at Greenwich being about 12′ in summer and 9′ in winter. The needle occupies its mean position in the morning about 10*h*., and again about 18*h*., throughout the year. It reaches its most westerly position about 14*h*., and its most easterly position during the night or early morning according to season of the year. The inclination or dip also varies in a similar manner to the declination. Since these variations of the magnetic elements are mainly confined to the hours of daylight, are much greater in summer than in winter, and are evidently affected by changes in the solar activity—for the variation is larger at times of Sun-spot maximum than at minimum—it may be concluded that they are dependent on solar radiation.

MAGNETIC STORMS.

Besides these diurnal movements and their periodic variations, the magnets recording the three elements sometimes make sudden and violent oscillations which may continue for several hours. Such an occurrence is known as a Magnetic Storm, and is accompanied by spontaneous electric earth-currents, which may, if violent, interfere with telegraph working. When these storms occur there is frequently a large spot on the Sun, which leads to the suggestion of a solar emanation affecting the Earth. But since these magnetic disturbances sometimes happen when there is nothing visible on the Sun, it has been suggested that solar regions may remain magnetically active, even after the visible sign has disappeared.

EARTHQUAKES.

Earthquakes, or earth tremors, are believed to be due to some form of fracture caused by the breakage of the Earth's substance under a growing strain, when the strain has passed the breaking point. This gives rise to waves which are propagated through the solid substance to distant parts of the Earth, and vertically upwards to the surface, sometimes with disastrous effects. The point where the fracture occurs and the earthquake originates is called the seismic centre, or origin, or focus. That part of the Earth which is vertically above this centre is called the epicentre. The waves transmitted through the Earth may come to the surface hundreds, or even thousands, of miles from the epicentre, and the times of arrival are recorded. The first indications on the seismograph are made by longitudinal waves (P), which are followed after an interval by direct transverse waves (S) in approximately the same path, but which travel at a different rate. From the length of the interval of time between the arrival of the (P) and the (S) waves, the distance of the epicentre from the recording station may be inferred, and from three or more such distances it is possible to make an estimate of the position of the epicentre on the earth's surface. There is no very certain method for determining the depth of the focus, but it seems that this may range from 50 to 450 km.

THE INTERIOR OF THE EARTH.

The material of which the crust or exterior shell of the Earth is composed is known from geological investigation and from the facts which emerge in mining operations, but this direct examination extends at most for little more than a mile downwards from the Earth's surface. The greatest depth to which a mine shaft has been sunk—the Morro Velho mine in Brazil—is 6,426 feet, where it has been found that the rock temperature increases only 1°F. in 205 feet. Knowledge of the terrestrial material inside such an outer shell is necessarily derived from inference. The high mean density of the earth in comparison with that of surface rocks has been held to imply that the earth has a dense metallic core, probably of iron, and from consideration of its tidal properties it was shown by the late Lord Kelvin that as a whole the earth was of about the rigidity of steel. But a recent investigation shows that the tidal data imply a rigidity of the core much less than that of the shell, and opens the way to the suggestion of a spherical core of liquid iron whose bounding radius may be about half that of the earth. Such a core would account for some earthquake records that require explanation. A wave of the S type (*see* above) impinging on a liquid core would be received at a station distant from the origin sooner than would a normal S wave passing entirely through solid matter. Since there are abnormal records that can be explained by the assumption of a liquid core, the suggestion has some credibility though it is not to be yet accepted as actual fact.

Greenwich Mean Time.

APART from abstract and philosophical considerations, Time, in actual practice, is measured by the rotation of the Earth, and a solar day is the duration of a complete rotation of our sphere round its axis with respect to the Sun, which is rather longer than a rotation with respect to the stars. The speed of the Earth's rotation is itself uniform, but the length of the solar day is affected, first by the movement of the Earth in its orbit round the Sun, which is not constant because of the ellipticity of the orbit, and also by the circumstance that the axis about which the Earth rotates is not perpendicular to the plane of its orbit. Clocks are adjusted to an average or mean solar day which is of uniform length and is divided into 24 equal hours. This is the basis of Mean Solar Time. The length of the Mean Solar day is constant, but that of the apparent, or the interval from one transit of the Sun across the meridian to the next, varies for the reasons above given, and it happens that the longest apparent solar day is about December 22, which is 30 seconds longer than the mean. The shortest solar day as thus defined is about September 16, and falls short of the mean by 21 or 22 seconds.

A unit and method of measurement having been established, it is necessary to choose a zero. The zero adopted is the instant when a fictitious body known as the Mean Sun, which is sometimes before, sometimes behind the real Sun in its apparent annual journey round the Earth, is on some chosen meridian. The time is called the Local Mean Time of any place through which that meridian passes. Usually some standard meridian, such as that of Greenwich, is chosen, and the time of that meridian is used throughout a whole country, and hence the expression Greenwich Mean Solar Time, or, more usually, Greenwich Mean Time, arises (*see* Zone Standard Time p. 78).

Apparent Solar Time.

The time shown by a sundial is called Apparent Solar Time, and is affected by the two causes mentioned, which make the length of a solar day not uniform. It differs from Mean Solar Time by the Equation of Time which is given in the second column of page 2 for each month, with a precept for its use.

The Astronomical Day.

For purposes of Astronomy the day formerly began at noon, and the hours following noon were numbered successively from 0 to 23. A change was made in 1925, and the Astronomical Day now begins at midnight, the hours being numbered from 0 to 23 as has been the practice in this Almanack since 1921. The letters G.M.T. now specify Time of this system, but the letters U.T. (Universal Time) are sometimes added to distinguish from the earlier system.

Sidereal Time.

A sidereal day is the duration of a complete rotation of the Earth round its axis with reference to the stars and begins at any place when the First Point of Aries is on that meridian (*see* p. 57). In observatory practice time is measured, and the standard clock is regulated, by this rotation of the Earth with respect to the stars, and Mean Solar Time is derived from Sidereal Time by computation. The error and rate of the sidereal clock are found by observing the instant it shows when certain stars, known as Clock Stars, cross the meridian, and comparison of this with the known time of transit (star's R.A.) will give the error of the sidereal clock. Comparison of the mean solar clock with the sidereal clock will show the error of the former. The same result might be arrived at directly by observing the instant by the Mean Time clock when the stars cross the meridian.

The rule for finding the Mean Time of transit of any object from its Right Ascension, or, what is the same thing, of converting Sidereal into Mean Time may be stated thus :—*From the given Right Ascension or Sidereal Time subtract the Sidereal Time at the preceding Noon, and further diminish the result at the rate of 10 secs. per hour, or by the* Table on p. 57. If the R.A. should be smaller than the S.T. at noon, 24*h.* must be added. The final result will be the mean time reckoned from noon, to which 12*h.* must be added to convert into G.M.T. as now used.

Ex.—At what time will Sirius cross the meridian on March 15?

	H. M. S.
R.A. of Sirius + 24*h.*	30 41 56
Sid. Time at Mean Noon (subt.)	23 28 22
Interval of Sidereal Time	7 13 34
Retardation from p. 57 (subt.)..	1 11
	7 12 23
G.M.T. (U.T.) of Southing	19 12 23

It will be noted that for some stars it would have been necessary to use the Sidereal Time at Noon for March 14.

Mean Time may be converted into Sidereal Time by reversing this process, or otherwise by taking out the G.M.T. of the zero of the Sidereal clock *which precedes* the Time to be converted, making use of col. 9 on page 2 of the month ; *e.g.* :—

	H. M. S.
G.M.T. (U.T.) March 15	19 12 23
From Col. 9, p. 11	12 31 33
Interval of Mean Time	6 40 50
Acceleration from p. 57 (add) ...	0 1 6
Corresponding Sidereal Time ...	6 41 56

Summer Time.

In 1916 an Act dated May 17 ordained that during a period of that year then defined the time for general purposes in Great Britain should be one hour in advance of Greenwich Mean Time. This system was continued until after the end of the war, and was further prolonged by an Act of 1922 (July 20), which specified that the period should begin at 2 o'clock G.M.T. in the morning of the day following the third Saturday in April, or if that day is Easter-Day, the day following the second Saturday, and should end at 2 o'clock G.M.T. in the morning of the day next following the third Saturday in September. The Act was renewed for 1924 and 1925, and was made permanent by a further Act (August 7, 1925) which modified the length of the period by substituting the first Saturday in October for third Saturday in September. The Act applies to Great Britain, Northern Ireland, the Channel Islands, and the Isle of Man. A list of the periods in each year during which Summer Time has been used since its adoption will be found in previous issues of this Almanack.

In France and Belgium Summer Time is now in use during the same period as it is in England. The periods in which it has been used in France since 1916 were noted last year.

In the year 1880 it was enacted by statute that the word "time," when it occurred in any legal document relating to Great Britain, was to be interpreted, unless otherwise specifically stated, as the Mean Time of the Greenwich meridian.* Other nations similarly used the time of their own capital, but since the year 1883 the system of Standard Time by Zones has been gradually accepted, and now nearly all the countries of the world use as Standard a Time which differs from that of Greenwich by an integral number of hours, either fast or slow. In a few cases differences including a half hour have been adopted

The Standard Time adopted in various countries is given below. In the United States and Canada five different standard times are used, these large territories being divided into zones approximately 7½° on either side of five central meridians, the towns and cities near the dividing lines adopting which of the times is the more suitable to railway or local requirements. Brazil is divided into three zones in which the times 3, 4, and 5 hours slow on Greenwich are standard respectively.

Fast or Slow on Greenwich Time.		
12	hrs. F.	....Fiji Islands.
11½	,, F.	....New Zealand.
11	,, F.	....New Caledonia and dependencies, Caroline Is., east of 154° E., Marshall Is., Nauru.
10	,, F.	....Victoria, New South Wales, Queensland, Tasmania, New Guinea, Lord Howe Is., Caroline Is., west of 154° E., Marianne Is. (except Guam).
9½	,, F.	....South Australia, Northern Territory of Australia.
9	,, F.	....Japan, Corea, Yap (Caroline Is.).
8	,, F.	....Port Arthur, East China, Hong Kong, Philippine Is., Formosa and Pescadores Is., North Borneo and Labuan, Macao, Portuguese Timor, West Australia.
7½	,, F.	....Sarawak.
7	,, F.	....French Indo-China, Hoihau and Pakhoi, Siam, Federated Malay States, Straits Settlements.
6½	,, F.	....Burma, Andaman & Nicobar Is.
5½	,, F.	....India (except Calcutta and Portuguese India), Ceylon, Laccadive Is.
5	,, F.	....Chagos Archipelago, Portuguese India.
4	,, F.	....Mauritius, Seychelles, Réunion.
3	,, F.	....French Somaliland, Madagascar, Italian Somaliland, Eritrea, Russia, Tanganyika.
2½	,, F.	....British East Africa, Uganda.
2	,, F.	....Turkey, Greece, Bulgaria, Roumania, Latvia (except Reval), Estonia, Egypt, Rhodesia and Union of South Africa, Portuguese East Africa, Cyprus, Finland, Palestine, Poland.
1	hr. F.	....Sweden, Norway, Denmark, Germany, Luxembourg, Austria, Hungary, Switzerland, Italy, Bosnia, Servia, Malta. Czecho-Slovakia, Tunis, Nigeria, French Equatorial Africa, Cameroons, Belgian Congo, Portuguese West Africa, South-West Africa, Angola, Libya, Sardinia, Lithuania.
Greenwich Time	...	Great Britain, Ireland, France, Channel Is., Belgium, Spain, Portugal, Faröe Is., Gibraltar, Algeria, Balearic Is., Corsica, St. Thomas and Princes Is., Ivory Coast, Dahomey, Morocco, Gold Coast (Jan.–Aug.).
1	hr. S.	....Iceland, Madeira, French Guinea, Senegal, Portuguese Guinea, Liberia, Sierra Leone, Ascension Is., Canary Is., Mauretania.
2	hrs. S.	....Azores, Cape Verde Is., Fernando and Trinidad Is. (Brazil).
3	,, S.	....Eastern Brazil.
4	,, S.	....New Brunswick (East), Nova Scotia, Quebec (East), Prince Edward Is., Porto Rico, Trinidad, the Leeward Is., Grenada, Guadeloupe, Tobago, Martinique, St. Lucia, St. Vincent, St. Pierre, Central Brazil, the Argentine Republic, Uruguay, French Guiana.
4½	,, S.	....Venezuela.
5	,, S.	....Quebec (Western), Ontario to 82° 30′ W., New Brunswick (Western), Eastern Zone of the United States, Jamaica, Bahama Is., Peru, Panama, Western Brazil.
6	,, S.	....Central Zones of Canada and United States and Florida, Costa Rica, Salvador, Honduras.
7	,, S.	....Mountain Zones of Canada and the United States.
8	,, S.	....British Columbia, California, Nevada, Oregon, Washington.
9	,, S.	....Yukon, Sitka.
10	,, S.	....Low Archipelago, Marquesas, Austral and Society Is., Alaska.
10½	,, S.	....Hawaiian or Sandwich Is.
11	,, S.	....Tutulla (Samoa).
11½	,, S.	....Apia (Samoa).

In the Tonga or Friendly Islands the time 12h. 20m. fast on Greenwich is used: though the longitude of these islands is about 11½h. 40m. West of Greenwich, the Date line (*see* below) passes to the East of them. The time of Aden 2h. 59m. 54s. fast on Greenwich is standard in Aden and British Somaliland.

The time 2 hours fast on Greenwich is called East-European, that 1 hour fast is called Mid-European. The time 4 hours slow on Greenwich, has been called Maritime, Inter-Colonial, or Atlantic Time. The times used in the other zones of the North American continent are called respectively Eastern, Central, Mountain, and Pacific Time.

THE DATE OR CALENDAR LINE.

The line where the change of date occurs as adopted by the British Admiralty is a modification of the 180th meridian, and is drawn so as to include islands of any one group on the same side of the line, or for political reasons. The line is indicated by joining up the following eight points :—

(1)	Lat. 60° S.,	long. 180°.
(2)	,, 51½° S.,	long. 180°.
(3)	,, 48½° S.,	long. 172½° W.
(4)	,, 15½° S.,	long. 172½° W
(5)	,, 5° S.,	long. 180°.
(6)	,, 48° N.,	long. 180°.
(7)	,, 52½° N.,	long. 170° E.
(8)	,, 65° N.,	long. 169° W.

Then through the centre of Bering Strait to a point lat. 70° N., long. 180°.

* Summer Time is the "legal" time during the period in which its use is ordained. (See pp. 14, 38 and 77.)

THE AGE OF THE EARTH.

VARIOUS estimates have been made of the Age of the Earth, but scientific investigation shows that dates for the "Creation of the World," such as the year 4004 B.C. as adopted by Archbishop Ussher from scriptural chronology, or 3760 B.C. as is said by the Jews, are quite untenable. From the assumption that the Sun's heat is sustained solely by contraction of its bulk Lord Kelvin deduced 20,000,000 years as the time during which it has existed, but this period is too short to be accepted by geologists as the age of the Earth. The discovery of radio-active substances brought a new factor into consideration, and it has been lately estimated that as *the abode of life* (Lord Rayleigh, *Brit. Assoc.*, 1921) a moderate multiple of 1,000,000,000 years is the possible and probable duration of the earth's crust.

GEOLOGICAL PERIODS.

I. AZOIC ("Without Life"), containing no trace of life in any form. The duration of this period probably far exceeded that of all the remaining divisions together.

II. EOZOIC ("Dawn of Life"), characterized by the first appearance of animal life.

III. PALÆOZOIC ("Old Life") or PRIMARY, containing traces of extinct animal life :—
- i. *Cambrian*, exemplified in Wales (Cambria), Cumberland, etc. — the earliest group which possesses a connected suite of fossils.
- ii. *Ordovician*, exemplified in North Wales and named after the ancient British tribe (Ordovices) inhabiting the region.
- iii. *Silurian*, named after the ancient British inhabitants (Silures) of S.E. Wales.
- iv. *Devonian* or *Old Red Sandstone*, from the prevalence of the system as a marine formation in Devonshire.
- v. *Carboniferous*, including *Coal Measures*, Millstone Grit and Mountain Limestone.
- vi. *Permian*, from the Russian province of *Perm*, where these strata are widespread.

IV. MESOZOIC ("Middle Life") or SECONDARY, with intermediate forms of animal life :—
- i. *Triassic*, from the *three* (tri-) divisions of the type formation in Germany.
- ii. *Jurassic*, typically displayed in the *Jura Mountains*.
- iii. *Cretaceous*, from the *chalky* nature of its representatives where first studied.

V. CAINOZOIC ("New Life") or TERTIARY, containing forms of existing life :—
- i. *Eocene*, the *dawn* or beginning of *new* forms of life, *i.e.*, existing species.
- ii. *Oligocene*, containing *a few* still existing species.
- iii. *Miocene*, containing a *minority* of existing species—less than 50 per cent.
- iv. *Pliocene*, the fossil remains show a *majority* of still existing species.

VI. QUATERNARY ("Fourth in Order") or POST-TERTIARY :—
- i. *Pleistocene* or *Glacial*, the *greatest number* of the remains are those of still existing species. Period of last Great *Ice* Age.
- ii. *Recent* or *Post-Glacial*.

Definite dates cannot be assigned to most periods, but G. de Geer has shown that scarcely 9,000 years ago the site of Stockholm was beneath the ice-sheet (VI. i.). Traces of *human* life are first found in V. iv. (*See also* col. ii.)

THE ANTIQUITY OF MAN.

Pithecanthropos erectus (Erect Ape-man).—Remains of a skull and of a thigh bone were found in 1891 and 1892 by Professor Dubois, at Trinil, Java. These are held to be remains of a creature of Pliocene times (*see* Geological Period, col. i.), about midway between the Orangutan and Man in development.

Australopithecus Africanus (Erect Man-ape).—A skull was discovered in a limestone deposit at Taungs (Western Cape Colony), in 1925, by Professors Dart and Young of Witwatersrand University. In connexion with this discovery, Sir A. Keith, F.R.S., has declared that traces of *human* life may yet be discovered in *Miocene* times (*see* col. i., v., iii.).

Homo Heidelbergensis (The Heidelberg Man).—A lower jaw was discovered near Mauer, Heidelberg, in 1907. This is held to be that of a primitive man of the earliest Pliocene Period. The difficulty of assigning dates to the Heidelberg or Trinil remains is shown in the conflict of authority, as one estimate gives 140,000 years (Rutot) for the whole, and another gives 700,000 years (Sturge) for a portion only of the Pliocene Period.

The Piltdown Skull (Eoanthropos, or Primitive Man).—Discovered in 1912 at Piltdown, Sussex, and ascribed to primitive man of early Paleolithic times.

Neanderthal Man.—Remains of a skull and parts of a skeleton found in 1859 in the Neanderthal Ravine, near Düsseldorf, Rhenish Prussia, and others found at *Spy*, Belgium, in 1884, are held to represent the oldest known dolichocephalic (long-headed) race in Europe, living about 50,000 years before the Christian Era. In 1925 a similar skull was found near *Tagbha*, Palestine.

Homo Primigenius.—Discoveries of interred human remains at Combe Capelle, Dordogne, France (1909), at Brüx and Brünn, Moravia, and at Galley Hill, Northfleet, Kent (1895) are held to be those of human beings of late Paleolithic times, from 35,000 to 25,000 B.C.

STAGES OF CIVILIZATION.

The terms employed by ethnologists refer to periods, not of time, but of culture, and are of local application only, there being no universal synchronous sequence in all parts of the world. Races of Europe, Asia and America had reached the Iron Age of development long before the 18th century, A.D., while races in Oceania were still in the Paleolithic (or at least Neolithic) stage at the time of Cook's voyages.

The Stone Age.—The ancestors of primitive man are held to have adopted the use of stones of a suitable size for defence, while primitive man made such instruments more effective by sharpening them to a rough point. The earliest period is known as *Eolithic* (or Dawn of the Stone Age), and this period may have extended to 600,000 years B.C. Weapons of a later period, known as *Paleolithic* (or Old Stone Age), show gradual developments, from the chipped, leaf-shape forms, known as *Chellean* (from Chelles, Seine et Marne, France), and employed, perhaps, from 400,000 to 100,000 B.C., to later and more effective flint points, arrow-heads and spear-heads, flat on one side, known as *Mousterian* (from Le Moustier, where many such implements and other remains were

found). The Mousterian period is held to have lasted until about 10,000 B.C., when *Neolithic* (or New Stone Age) weapons, polished and less crudely fashioned, were brought into use for a further period of about 5,000 years. In the Stone Age the burial of the dead was influenced by the primitive nature of the implements available for digging, the graves being only large enough to contain a body huddled together in a cramped position.

Cultivation of the Soil.—Cultivation is believed to have followed the interment of the dead about 10,000 B.C., and rendered possible the political (*polis* = city) organisation of mankind. There appears to have been a definite centre of Western Civilization at *Nippur* (and elsewhere in Iraq) no later than 6,000 B.C., and in *Egypt*, under the first of the Pharaohs (Menes), about 5,000 B.C. It is not yet known if a similar degree of Eastern civilization had been reached in China, or elsewhere, during (or before) that of Iraq and Egypt.

The Bronze Age.—Intercommunication of races introduced a knowledge of the malleable properties of copper, while the spread of commerce distributed tin from Saxony and Cornwall among the races of Europe and Asia. Implements and utensils of cast bronze superseded those of stone, wood, horn or bone. The designs and decorations suggest that this stage of culture was introduced into Europe from Asia, and it must therefore be dated for the East far earlier than for the West, over a period ranging from 5,000 to 2,000 B.C. The Bronze Age appears to have been marked by the cremation of human remains, in place of mere burial in a constricted position.

The Iron Age.—Implements of cast bronze were in turn superseded by those of hammered iron at varying dates—in China, Chaldaea, Assyria and Egypt about 4000 B.C.; in South-Eastern Europe about 2000 B.C., spreading over the rest of Europe from 1000 B.C. to 100 A.D., by which time the use of hammered iron was known throughout Scandinavia and in Ireland. It is possible that the Eastern civilization discarded the use of bronze and adopted that of iron even before the West had reached the Bronze Age, and while the remoter parts were still in the Palaeolithic Age. With the Iron Age was reintroduced interment of human remains, in place of Bronze Age cremation, but the bodies were laid at full length in the ground and not huddled up as in the Stone Age.

EPOCHS AND CALENDARS.

Abyssinian.—The Ethiopians have a chronological system which starts from the first day of the reign of the Roman Emperor Diocletian and proceeds in cycles of 532 years, commencing at 1 again upon the completion of each cycle. Their first year began on 29th August, 284 A.D. (See also "Coptic," *post*.)

Armenian.—The Armenians marked their secession from the Greek Church by adopting it as their epoch. This corresponds to 9th July, 552 A.D.

Assyrian or Babylonian.—In the eighth century B.C. the Babylonians commenced a chronology with the era of the founder of their Empire. Their epoch corresponds to 26th February, 747 B.C.

Biblical.—The Christians of Western Europe made many calculations concerning the date of the Creation of the World, based upon the genealogical tables in the Old Testament. In the seventeenth century (1650) James Ussher, Archbishop of Armagh, published his *Annales Veteris Testamenti*, and *Ussher's Notation* was afterwards printed in marginal notes to the Authorised Version of the English Bible. Ussher's Notation placed the Creation of the World in 4004 B.C.

Christian.—In the chronological system known as the Christian, now in use, the years are distinguished by cardinal numbers before or after the Incarnation, the period being denoted by the letters B.C. (Before Christ) or, more rarely, A.C. (*Ante Christum*), and A.D. (*Annus Domini*), the conventional abbreviation A.D. signifying *Anno Domini*, "in the year of the Lord." The correlative dates of the epoch are the 4th year of the 194th Olympiad, the 753rd year from the Foundation of Rome, 3761 A.M. (Jewish Chronology), and the 4714th year of the Julian Period. This was introduced into Italy in the sixth century, and though first used in France in the seventh it was not universally established there until about the eighth century. It has been said that the system was introduced into England by St. Augustine (A.D. 596), but was probably not generally used until some centuries later. It was ordered to be used by the Bishops at the Council of Chelsea, A.D. 816. The actual date of the birth of Christ is said to have been 4th April of the year 4 B.C.

Coptic.—In the Coptic Calendar, which is used by part of the population of Egypt and Ethiopia, the year is made up of 12 months of 30 days each, followed, in general, by 5 complementary days. Every fourth year is an Intercalary or Leap-year, and in these years there are 6 complementary days. The Intercalary year of the Coptic Calendar immediately precedes the Leap-year of the Julian Calendar. The Era is that of Diocletian or the Martyrs, the origin of which is fixed at A.D. 284, August 29 (Julian date). A Coptic Calendar for the year 1643 and part of 1644 is appended :—

Year 1643.	A.D. 1926.	Year 1643.	A.D. 1927.
Tūt	Sept. 11	Būnah	June 8
Bābah	Oct. 11	Abīb	July 8
Hātur	Nov. 10	Masrī	August 7
Kīhak	Dec. 10	Complementary days	Sept. 6-11
	A.D. 1927.	Year 1644.	
Tubah	Jan. 9	Tūt	Sept. 12
Amshīr	Feb. 8	Bābah	Oct. 12
Barmahāt	March 10	Hātur	Nov. 11
Barmūdah	April 9	Kīhak	Dec. 11
Bashuns	May 9		

Hindu.—In addition to the Muhammadan reckoning there are four eras used in India. The principal astronomical system was the *Kaliyu-ga Era*, which appears to have been adopted in the fourth century A.D. It began on 18 February, 3102 B.C. The chronological system of Northern India, known as the *Vikrama Samrat Era*, prevalent in Western India, began on 23 February, 57 B.C. The year 1926 A.D. is therefore, the year 1983 of the Vikrama Era. In Southern India, the *Saka Era*, with its epoch of 3 March, A.D 78, was probably founded by Kanishka (whose sway was widely extended), and is in general use. The year 1926 A.D. is 1848 of the Saka Era. In the Hills, the *Saptarshi Era* dates from the moment when the Saptarshi, or saints, were translated and became the stars of the Great Bear in 3076 B.C.

There are many obsolete eras in the history of the Indian Peninsula. The principal religious systems of chronology were those of the Buddhists and the Jains. The *Buddhists* reckoned from the death of Buddha in 543 B.C. (the actual date being 487 B.C.); and the epoch of the *Jains* was the death of Vardhamana, the founder of their faith, in 527 B.C.

Jewish.—The Jews hold that the world was created at the time of the Autumnal Equinox in the year 3760 B.C. or year 954 of the Julian Period, and the epoch or starting point of Jewish Chronology corresponds to October 7 B.C. 3761. Thus the year 1927 A.D. is *Annus Mundi* 5687–8 in the Jewish Calendar. A calendar for 5687–5688 is appended :—

(A.M. 5687 and part of A.M. 5688.)

A.M. 5687.			A.D. 1926.

* The previous day is also observed as the New Moon.

Note.—All Jewish Sabbaths and Festivals begin the previous evening at Sunset.

Muhammadan.—The Muhammadan Epoch is based on the Hegira or Flight of Muhammad from Mecca to Medina. The first day of the Era is not the actual day of the Flight but is 16th July, 622 A.D. This Calendar is purely lunar. The year consists of 12 months of 30 or 29 days alternately, the last being sometimes 30, and is therefore either 354 or 355 days in length. It follows that the Muhammadan year begins earlier year by year, according to Gregorian dates, by 10, 11 or 12 days. The year 1927 is 1345-6 of the Hegira, as shown by the calendar below :—

Year of Hegira 1345.	A.D. 1926.
Muharram	July 12
Saphar	August 11
Rabia I.	September 9
Rabia II.	October 9
Jomada I.	November 7
Jomada II.	December 7
	A.D. 1927.
Rajab	January 5
Shaaban	February 4
Ramadan	March 5
Shawall	April 4
Dulkaada	May 3
Dulheggia	June 2
1346.	
Muharram	July 1
Saphar	July 31
Rabia I.	August 29
Rabia II.	September 28
Jomada I	October 27
Jomada II	November 26
Rajab	December 25

Olympiads.—Greek chronology was reckoned in cycles of four years corresponding with the periodic Olympic Games held on the plain of Olympia, in Elis, once in four years; the intervening years being the first, second, &c., of the Olympiad, which received the name of the victor at the Games. The first recorded Olympiad is that of Choroebus, 776 B.C.

Persian.—The chronology of Persia, which is still followed by the Parsees of India, dates from the accession of Yazdegerd III. to the throne on 10th June, 632 A.D. The year 1926 is, therefore, 1295 of the Parsees. The New Year begins on 21st March.

Roman.—Roman historians adopted as an epoch the Foundation of Rome, which is believed to have happened in the year 753 B.C., and the ordinal number of the year in Roman reckoning followed by the letters A.U.C. (*Anno Urbis Conditæ*). The Calendar as we know it is a Roman institution, established by Romulus, who is said to have used a year of ten months of varying length, which developed into the famous Julian Calendar, and by a slight alteration became the Gregorian now in general use. In the Roman (Julian) Calendar the days of the month were not counted onward from the beginning, as with us, but three fixed points were taken, and the intervening days were said to be so many days *before* the next coming point, the first *and* last being counted. These three points were (1) the Kalends, by which name the first of each month was known ; (2) the Nones (*nine* days before the Ides) which fell on the seventh day of the month in March, May, July, and October, and on the fifth day in each of the other months ; and (3) the Ides, which fell either on the 15th or 13th, and thus divided the month nearly equally. The Latin equivalent of Dec. 31, for example, was *Pridie Kalendas Januarias*, and the day before that *ante diem tertium Kalendas*.

CHRONOLOGICAL TERMS.

The *Day, Week and Month.*—Measurements of time are based on the times taken by the earth to rotate on its axis; by the moon to revolve round the earth; and by the earth to revolve round the sun. From these which are not commensurable, certain average or mean intervals have been adopted for ordinary use. Of these the first is the *Day*, which begins at midnight and is divided into 24 hours of 60 minutes, each of 60 seconds. The hours are counted from midnight up to 12 at noon, and again from noon up to 12 at midnight, except when the *Twenty-four Hour* reckoning is employed. The 24-hour reckoning ignores A.M. and P.M., and the hours are numbered 0 to 23 from midnight to midnight.

For the *Astronomical Day see* p. 77.

The *Week* is a period of 7 days.

The *Month* in the ordinary calendar is approximately the twelfth part of a year, but the lengths of the different months vary.

The *Equinoctial or Tropical Year* is the time that the earth takes to revolve round the sun from equinox to equinox, which is 365·2422 mean days. The *Calendar Year* consists of 365 days, but a year the date of which is divisible by 4, without remainder, is called *Leap Year* and consists of 366 days. The last year of a century is not leap year unless its number is divisible by 400 (*e.g.* the years 1800 and 1900 had only 365 days).

Old and New Style.—In the Julian Calendar the centennial years were all leap years, and for this reason towards the close of the sixteenth century there was a difference of 10 days between the tropical and calendar years (*see above*). In 1582 Pope Gregory ordained that Oct. 5th should be called Oct. 15th, and that every fourth end-century year only should be a leap year (*see* above). This change was adopted by Italy, France, Spain, and Portugal in 1582; by Prussia, the German Roman Catholic States, Switzerland, Holland, and Flanders on Jan. 1, 1583, Poland 1586, Hungary 1587, the German and Netherland Protestant States and Denmark 1700, Sweden (gradually) by the omission of eleven leap days, 1700–1740, the British Dominions (which included the then North American Colonies) in 1752, by the omission of eleven days (Sept. 3 being reckoned as Sept. 14). This "Gregorian" Calendar was adopted by Japan in 1872, China in 1912, Bulgaria in 1915, Turkey and Soviet Russia in 1917, by Yugo-Slavia and Rumania in 1919, and by Greece in February, 1923. The Russian, Greek, Serbian and Rumanian Churches did not abandon the Julian Calendar until May, 1923, when the Gregorian, slightly modified, was adopted. The *difference* between the Old and New Styles was 11 days after 1700, 12 days after 1800, and has been 13 days since 1900.

New Year's Day.—In England in the seventh century, and as late as the thirteenth, the year was reckoned from Christmas Day, but in the twelfth century the Anglican Church began the year on the 25th March, which practice was also adopted generally in the fourteenth century. The Civil year in the British Dominions (exclusive of Scotland) began with "Lady Day" until 1751. But in and since 1752 the civil year has begun with Jan. 1. Certain dividends are payable at the Bank of England on the Old Style Quarter Days, and the "Financial Year" is still reckoned as beginning on "Old Lady Day," April 5. *Scotland* in 1600 changed New Year's Day from Mar. 25 to Jan. 1. On the Continent, Jan. 1 was adopted as the first day of the year by Venice in 1522, Germany in 1544, Spain, Portugal and the Roman Catholic Netherlands in 1556, Prussia, Denmark and Sweden in 1559, France 1564, Lorraine 1579, Protestant Netherlands 1583, Russia 1725, Tuscany 1751.

Golden Number.—In the year 432 B.C. Meton, an Athenian astronomer, found that 235 Lunations are very nearly, though not exactly, equal in duration to 19 Solar Years, and hence that after 19 years the Phases of the Moon will recur on the same days of the month. This discovery was held to be of so great importance that the dates of Full Moon in a cycle of nineteen years were inscribed in figures of gold on public monuments in Athens. The Cycle of nineteen years is called the *Metonic Lunar Cycle*, and the number showing the position of a year in the Cycle is called the Golden Number of that Year.

Easter-Day is the first Sunday after the full moon which happens upon, or next after the 21st day of March; and if the full moon happens upon a Sunday, Easter-day is the Sunday after. This definition is contained in an Act of Parliament (24 Geo. II., cap. 23, p. 751), and further explanation is given in the preamble to the Act which speaks of "Tables and rules for finding the times of the Full Moon on which this dependeth that have been prepared." These are the tables whose essential points are given in the early pages of the Book of Common Prayer. The Moon referred to is not the real moon of the heavens, but a hypothetical Moon on whose "Full" the date of Easter depends, and the lunations of this "Calendar" Moon consist of twenty-nine and thirty days alternately with certain necessary modifications to make the date of Full agree as nearly as possible with that of the Moon of the heavens. The artificial Moon is accounted to be full on the fourteenth day, i.e., thirteen days after the New Moon, in order to be consistent with an early Jewish practice, but this point is immaterial. The Full Moon of the Calendar on which Easter depends is called the *Paschal Full Moon.*

A proposed reform of the calendar that would cause Easter-day to fall on a fixed date has received strong support. (*See* p. 12.)

Epact.—The age of the calendar Moon on Jan. 1 in each year, formerly used in determining the date of Easter.

Solar Cycle.—A period of twenty-eight years, in any corresponding year of which the days of the week recur on the same days of the month.

Julian Period.—"A period of 7980 Julian years, proposed by Joseph Scaliger in 1582 as a universal standard of comparison of chronology, consisting of the product of the number of years in the solar and lunar cycles and the cycle of the indiction ($28 \times 19 \times 15$)."

The day of the Julian Period is used in astronomy, and begins at noon.

Roman Indiction.—A period of fifteen years, instituted by the Emperor Constantine in A.D. 313 for fiscal purposes.

The Dominical Letter is one of the letters A–G which are used to denote the Sundays (Lord's Day) in successive years. If the first day of the year is a Sunday the letter is A; if the second, B; the third, C; and so on. Leap year requires two letters, the first for Jan. 1–Feb. 29, the second from March 1–Dec. 31.

THE *Superficial Area* of the Earth is estimated to be 196,550,000 square miles, of which 55,500,000 square miles are Land and 141,050,000 square miles Water. The *Diameter* of the Earth at the Equator is 7,926½ English miles, and at the Poles 7,900 English miles. The Equatorial *Circumference* is 24,901·8 English miles, divided into 360 Degrees of Longitude, each of 69·17 English (or 60 Geographical) miles; these Degrees are measured from the Meridian of Greenwich, and numbered East and West of that point to meet in the Antipodes at the 180th Degree. Distance North and South of the Equator is marked by Parallels of Latitude, which proceed from zero (at the Equator) to 90° at the Poles.

AREA AND POPULATION.

Continent.	Area in Square Miles.	Estimated Population.
Europe	3,750,000	475,000,000
Asia	17,000,000	1,013,000,000
Africa	11,500,000	143,000,000
North America...	8,000,000	146,000,000
South America...	6,800,000	64,000,000
Oceania	3,450,000	8,500,000
Polar Regions ...	5,000,000	...
	55,500,000	1,849,500,000

The British Dominions extend over the largest area (14,220,000 sq. miles); the Russian Union is second (9,250,000 sq. miles); France is third, with 4,336,000 sq. miles; the United States, with its Insular Jurisdiction, &c., covers 3,750,000 sq. miles; Brazil 3,220,000 sq. miles; and China 3,000,000 sq. miles.

THE CONTINENTS.

Europe forms about one-fourteenth of the land surface of the globe. Its length from the North Cape, 71° 12′ N., and Cape Matapan, in the south of Greece, 36° 23′ N., is about 2,400 miles, and its breadth from Cape St. Vincent to the Urals is about 3,300 miles. The political boundary between Europe and Asia extends some distance beyond the Urals, to include the mining regions; in the south-east it follows the valley of the Manych, north of the Caucasus.

Asia extends over nearly one-third of the land surface of the globe. The distance between its extreme longitudes, the west coast of Asia Minor (26° E.) and the East Cape (170° W.), is 6,000 miles. The extreme latitudes, Cape Chelyuskin (78° 30″ N.) and Cape Buru (90 miles north of the Equator), are 5,350 miles apart. Asia is bounded by the ocean on all sides except the west. The isthmus of Suez connects it with Africa. The land boundary between Europe and Asia is formed on the west mainly by the Ural Mountains and the Ural River. In the south-west the valley of the Manych, which stretches from the Caspian Sea to the mouth of the Don, is now taken as the line between the two continents, although the Caucasus was formerly considered as belonging to Europe. The islands of the archipelago which lies in the south-east between the continents of Asia and Australia may be divided into two groups by a line passing east of Timor, Timor Laut, the Kei Islands and the Moluccas.

Africa is about three times the area of Europe. Its extreme longitudes are 17° W. at Cape Verde and 52° E. at Cape Guardafui. The extreme latitudes are Cape Blanco in 37° N. and Cape Agulhas in 35° S., at a distance of about 5,000 miles. It is surrounded by seas on all sides, except in the narrow isthmus through which is cut the Suez Canal, and may be considered as a great peninsula of the Eurasian continent.

North America, including Mexico, is a little less than twice the size of Europe. Its extreme longitudes extend from a little west of 170° W. to 52½° W. in the east of Newfoundland, and its extreme latitudes from about 80° N. lat. to 15° N. lat. in the south of Mexico. It is surrounded by seas on all sides except in the south, where it joins the Isthmian States of *Central America*, which have an area of about 200,000 square miles. The area of the *West Indies* is about 65,000 square miles, a little more than half that of the United Kingdom. They extend from about 27° N. latitude to 10° N. latitude.

South America is a little more than 1¾ times the size of Europe. The extreme longitudes are Cape Branco 35° W. and Punta Parina 81° W., and the extreme latitudes, Punta Gallinas, 12½° N. and Cape Horn 56° S. South America is surrounded by the ocean, except where it is joined to Central America by the narrow isthmus through which is cut the Panama Canal.

THE RACES OF MANKIND.†

The Races of Mankind are divisible according to Stock or, less scientifically, according to Colour. The Dominant Colour is Yellow—the numerical order being (1) Yellow, (2) White, (3) Black, (4) Brown, (5) Red. The main Divisions of the Races are as follows:—

Division.	Area.	Estimated Number.
Mongolian	Asia	680,000,000
Caucasian	Europe & Orient	725,000,000
Negro	Africa	210,000,000
Semitic	North Africa ...	100,000,000
Malayan	Oceania, &c. ...	104,500,000
Red Indian, &c.	America	30,000,000
		1,849,500,000

* The Earth is a *Sphere*, with a Northern and Southern *Hemisphere*; the Ocean surface is the *Hydrosphere*, and the gaseous envelope the *Atmosphere*, of which the lower layers are the *Troposphere* and the upper the *Stratosphere*. The science concerned with the study of the Earth's crust is *Geology*, with the measurement of its surface *Geodesy*; the study of its surface is *Geography*, and of its superficial features *Physiography*. The study of the hydrosphere is *Oceanography*, of the lakes *Limnology*, and of the mountains *Orography*, of the Races of Mankind *Ethnology*, of their location *Ethnography*, of extinct organic life *Palæontology*, and of existing life *Biology*.

An airship with a constant speed of 100 miles an hour would take nearly 105 years to reach the Sun. The velocity of a given point of the Earth's surface at the Equator exceeds 1,000 miles an hour (24,901·8 miles in 24 hours); the Earth's velocity in its orbit round the Sun is about 66,600 miles an hour (584,000,000 miles in 365 days, 6 hours, 9 minutes).

† It has been estimated that the Earth can maintain a population of 6,000,000,000, a total which will be reached about A.D. 2200, at the present rate of increase.

OCEAN AREAS AND DEPTHS.

The greatest known Ocean Depth (in the Pacific, off Mindanao, 32,089 feet) is not much greater than the greatest land height (in the Himalayas); but the mean depth of the Ocean floor exceeds 12,000 feet, while the mean height of the surface of the land area of the Earth above sea level is only 2,300 feet. The following table gives the areas of the principal oceans and seas, with the greatest known depth of each :—

Oceans.

Name	Area of Basin (sq. miles).	Greatest Depth (feet).
Pacific	63,986,000	Off Mindanao, 32,089
Atlantic	31,530,000	Porto Rico Trench, 31,366
Indian	28,350,000	Sunda Trench, 22,968
Arctic	5,541,600	North Polar, 13,200
Seas.		
Malay	3,137,000	Kei Trench, 21,342
Central American	1,770,170	Caribbean, 20,568
Mediterranean	1,145,000	*Pola* Deep, 12,276
Behring	878,000	Buldir Trough, 13,422
Okhotsk	582,000	Kurile Trough, 10,554
East China	480,000	*about* 10,500
Hudson Bay	472,000	*about* 1,500
Japan	405,000	*about* 10,200
Andaman	305,000	*about* 11,000
North Sea	221,000	Skaggerak, 1,998
Red Sea	178,000	20° N., 7,254
Baltic	158,000	*about* 12,000

THE HIGHEST MOUNTAINS.

The following list contains the principal peaks of such ranges as the Himalayas and the Andes, and the highest mountains in other ranges.

Name.	Range.	Height in Feet.
Everest	Himalayas	29,000
Godwin-Austen (K 2)	,,	28,250
Kanchanganga I.	,,	28,146
,, II.	,,	27,803
Makalu	,,	27,790
Illampu (Sorata)	Andes	25,248
Illimani	,,	24,633
Aconcagua	,,	23,025
*Sahama	,,	21,480
Chimborazo	,,	20,498
Lullialluco	,,	20,244
McKinley	Alaska	20,300
Kilima Njaro	Tanganyika	19,720
*Cotopaxi	Andes	19,612
Mount Logan	Rockies	19,539
*Mount Elias	,,	19,500
Elburg	Caucasus	18,526
Demavend	,,	18,464
Tolima	Cordilleras	18,320
Charles Louis	New Guinea	18,000
*Popocatepetl	Mexico	17,540
Citlaltepetl	,,	17,360
*Sangay	Ecuador	17,124
Koshtan Tau	Caucasus	17,096
Kenya	Kenya	17,040
Ararat	Armenia	16,916
Ruwenzori	Uganda	16,800
Kazbek	Caucasus	16,546
Mont Blanc	Alps	15,781

* *Volcanoes.* In addition to those marked, Vesuvius, Etna and Stromboli in Europe, Erebus and Terror in the Antarctic, Hecla and Skoptar Jokul in Iceland, Mauna Loa, Kea and Hualalai in Hawaii, Tomboro in Sunda Is'ds., and Le Souffrier and La Pelée in W. Indies.

THE LARGEST ISLANDS.

Name of Island.	Ocean.	Area in Sq. Miles.
Greenland (Danish)	Arctic	827,300
New Guinea (Brit.-Neth.)	Pacific	330,000
Borneo (Brit.-Netherlands)	,,	280,000
Baffin Land (British)	Arctic	236,000
Madagascar (French)	Indian	228,900
Sumatra (Netherlands)	,,	160,000
Great Britain	Atlantic	88,603
Honshiu (Japan)	Pacific	87,500
Celébes (Netherlands)	Indian	72,000
Prince Albert, &c. (British)	Arctic	60,000
South Island, N.Z. (British)	Pacific	58,500
Java (Netherlands)	Indian	48,400
North Island, N.Z. (British)	Pacific	44,500
Cuba (Independent)	Atlantic	44,000
Luzon (U.S.A.)	Pacific	41,000
Newfoundland (British)	Atlantic	40,200
Iceland (Independent)	,,	40,000
Ellesmere (British)	Arctic	40,000
Mindanao (U.S.A.)	Pacific	37,000
Hokkaido (Japan)	,,	36,500
Ireland	Atlantic	32,600
Novaya Zemlya (Russian)	Arctic	30,000
Sakhalin (Russo-Japanese)	Pacific	29,100
Haiti (Independent)	Atlantic	28,200
Tasmania (British)	Pacific	26,215
Ceylon (British)	Indian	25,400
Banks (British)	Arctic	25,000
North Devon (British)	,,	24,000
Vancouver (British)	Pacific	20,000
Melville Land (British)	Arctic	20,000
Tierra del Fuego (Argentine)	Atlantic	18,500
Southampton (British)	Arctic	17,800
West Spitsbergen (Norway)	,,	15,260
Prince of Wales (British)	,,	15,000
Formosa (Japanese)	Pacific	13,500
North Somerset (British)	Arctic	12,000
Sicily (Italian)	Medit.	10,000

THE LONGEST RIVERS.†

River.	Outflow.	Length in Miles.
Amazon	Atlantic	4,000
Nile	Mediterranean	3,600
Yangtse	North Pacific	3,400
Yenisei	Arctic Sea	3,300
Mississippi	Gulf of Mexico	3,160
Missouri	Mississippi River	3,000
Congo	Atlantic	3,000
Lena	Arctic Sea	3,000
Niger	Gulf of Guinea	3,000
Obi	Arctic Sea	2,700
Hoangho	North Pacific	2,600
Amur	,, ,,	2,500
Paraná	Atlantic	2,450
Volga	Caspian Sea	2,400
Mackenzie	Beaufort Sea	2,300
La Plata	South Atlantic	2,300
Yukon	Behring Sea	2,000
Arkansas	Mississippi	2,000
Madeira	Amazon	2,000
St. Lawrence	Gulf of St. Lawrence	1,800
Rio del Norte	Gulf of Mexico	1,800
Sao Francisco	Atlantic	1,800
Danube	Black Sea	1,725
Euphrates	Persian Gulf	1,700
Indus	Arabian Sea	1,700
Brahmaputra	Bay of Bengal	1,680
Zambesi	Moçambique	1,600
Ganges	Bay of Bengal	1,500

† The most famous river falls are *Niagara*, between the Province of Ontario and New York State, on the Niagara River; the *Victoria Falls* on the Zambesi River; *Iguassu*, between Argentina and Brazil; and the series of falls in the *Yosemite Valley* in California.

THE LARGEST SHIPS.

Ship.	Tons.	Dimensions (ft.)
a) Majestic (Brit.)	56,551	915×100×58
a) Leviathan (U.S.)	59,957	907×100×58
Berengaria (Brit.)	52,226	883× 98×57
Olympic (Brit.)	46,439	852× 92×59
Aquitania (Brit.)	45,647	868× 97×59
Ile de France (French)	43,500	757× 91×61
Paris (French)	34,569	735× 85×59
Homeric (Brit.)	34,351	751× 83×48
Roma (Ital.)	33,000	664× 82×51
Columbus (Germ.)	32,354	749× 83×49
Mauretania (Brit.)	30,696	762× 88×57
Statendam (Neth.)	28,150	670× 81×49
Belgenland (Brit.)	27,132	670× 78×44
Empress of Scotland (Brit.)	25,128	677× 77×50
Saturnia (Ital.)	25,000	
Adriatic (Brit.)	24,541	709× 75×52
Conte Biancamano (Ital.)	24,416	650× 76×27
Duilio (Ital.)	24,281	602× 76×46
Rotterdam (Neth.)	24,149	650× 77×43
Baltic (Brit.)	23,884	709× 75×52
George Washington (U.S.)	23,788	699× 78×50
France (French)	23,769	690× 75×48
Alcantara (Brit.)	22,150	630× 78×40
Asturias (Brit.)	22,137	630× 78×40
Minnetonka (Brit.)	21,998	600× 80×49
Empress of Australia (Br.)	21,861	589× 75×41
Minnewaska (Brit.)	21,716	600× 80×49
Giulio Cesare (Ital.)	21,657	602× 76×46
Empress of Canada (Brit.)	21,517	627× 77×42
Cedric (Brit.)	21,227	680× 75×44
Celtic (Brit.)	21,179	680× 75×44
America (U.S.)	21,144	668× 74×47

NOTE (*a*). The *Leviathan* is 8 ft. shorter than the *Majestic*, and if measured according to the rules adopted by British Lines her tonnage would be 54,282; the *Majestic*, measured according to the rules adopted by the U.S. Shipping Board, would be 61,206 tons.

THE LONGEST BRIDGES.

(With length, in metres, between main abutments—*i.e.*, length of *waterway*.)

Name.	Metres.
Tay Bridge, Scotland	3,136
Forth Bridge, Scotland	2,530
Rio Salado, Argentina	2,043
Rio Dulce, Argentina	1,788
Hardinge, India	1,641
Victoria, Canada	1,623

Proposed "London Health Area" ...	3,045,120	9,201,484	9,610,204

Parliamentary Boundaries.—In consequence of changes under the Representation of the People Act (1918) the *Administrative County of London* now includes the whole of the *Metropolitan* Parliamentary Division. It also comprises the City of London and the 28 Metropolitan Boroughs.

The Metropolitan Police District extends over a radius of 15 miles from Charing Cross, exclusive of the City of London, with an assessable value for 1924 of £62,830,255, and embraces an area of upwards of 699 square miles. The number of new houses built since 1879 up to and including the year 1922 is 650,406.

THE UNION JACK.

FLYING THE UNION JACK.—Although there is no definite list of days on which the Union Jack should be hoisted, the rules suggested by the London County Council appear to meet with general approval. The Union Jack is flown from 8 a.m. until sunset on the following days :—

April 23.—St. George's Day.
May 6.—Anniversary of the King's Accession.
May 24.—Empire Day.
May 26.—The Queen's Birthday.
June 3.—The King's Birthday.
June 4.— Do., Official celebration.
June 23.—The Prince of Wales's Birthday.
October 21.—Anniversary of Trafalgar.

And on the occasion of the opening and closing of Parliament by the King.

THE PRESIDENTS OF THE UNITED STATES OF AMERICA.

The President of the United States of America is elected on the first Tuesday after the first Monday in November of the year preceding the year in which the Presidential term expires.

	Name.	State.	Party.	Born.	Years of Office.	Died.	Age.

GEORGE III. was the eldest son of Frederick, Prince of Wales (eldest son of George II.), and of Princess Augusta (youngest daughter of Frederick II., Duke of Saxe-Gotha Altenburg). His Majesty was *born* at Norfolk House, St. James's Square, June 4, 1738; *succeeded* to the Throne Oct. 25, 1760; *married* Princess Charlotte (daughter of Charles, Duke of Mecklenberg-Strelitz); and was *crowned* with her on Sept. 22, 1761. The government was carried on, from Feb. 5, 1811, until the death of King George III., by his eldest son George, under the title of *Prince Regent*. King George III. *died* at Windsor, Jan. 29, 1820, his issue being:—

1. GEORGE IV. George Augustus Frederick, *Prince of Wales*, born Aug. 12, 1762, married Princess Caroline of Brunswick, succeeded to the Throne, Jan. 29, 1820, and died without surviving issue June 26, 1830.

2. Frederick, *Duke of York and Albany*, born Aug. 16, 1763, married Princess Frederica of Prussia, was for many years Commander-in-Chief of the Army, and died without issue Jan. 5, 1827.

3. WILLIAM IV. William, *Duke of Clarence*, born Aug. 21, 1765; was Lord High Admiral of England; married July 11, 1818, Adelaide, daughter of George, Duke of Saxe-Meiningen, by whom he had two daughters, who predeceased him; succeeded to the Throne, June 26, 1830, and died June 20, 1837.

4. Charlotte, *Princess Royal*, born Sept. 29, 1766, married Frederick, King of Württemberg, and died without issue.

5. Edward, *Duke of Kent*, born Nov. 2, 1767, married Princess Victoria (daughter of Francis, Duke of Saxe-Coburg, and widow of Charles, Prince of Leiningen), died Jan. 23, 1820. Their Royal Highnesses had issue a daughter, Princess Victoria, born May 24, 1819, who succeeded to the Throne as QUEEN VICTORIA, June 20, 1837.

6. Augusta, born Nov. 8, 1768, died unmarried Sept. 22, 1840.

7. Elizabeth, born May 22, 1770, married Frederick, Landgrave of Hesse, and died without issue Jan. 10, 1840.

8. KING OF HANOVER. Ernest, *Duke of Cumberland*, born June 5, 1771, married Frederica daughter of Frederick V., Grand Duke of Mecklenberg-Strelitz), succeeded as King of Hanover June 20, 1837 (on death of William IV., owing to the exclusion of Queen Victoria by the provisions of the Salic Law), died Nov. 28, 1851.

9. Augustus, *Duke of Sussex*, born Jan 27, 1773, died without succession April 24, 1843.

10. Adolphus, *Duke of Cambridge*, born Feb. 24, 1774, married Princess Augusta (daughter of Frederick, Landgrave of Hesse), *see* below.

11. Mary, born April 25, 1776, married William Frederick, *Duke of Gloucester*, died without issue April 30, 1857.

12. Sophia, born Nov. 3, 1777, died unmarried May 27, 1848.

13. Octavius, born Feb. 23, 1779, died May 3, 1783.

	The House of Windsor.				
GEORGE V.	Surviving son of Edward VII.	1910	WHOM GOD PRESERVE		

The House of Windsor is in direct descent from (*inter alios*) Ecgbert, King of Wessex, Alfred the Great and William the Conqueror; also from the Emperor Charlemagne (*b.* 742, *d.* 814), Rodrigo the Cid (*b.* 1030, *d.* 1099), the Emperor Barbarossa (*b.* 1123, *d.* 1190) and St. Louis, King of France (*b.* 1215, *d.* 1270).

WELSH SOVEREIGNS AND PRINCES.

WALES was ruled by Sovereign Princes from the "earliest times" until the death of Llewellyn in 1282. The first English Prince of Wales was the son of Edward I., and was born in Carnarvon town on April 25, 1284. According to a discredited legend, he was presented to the Welsh chieftains as their Prince, in fulfilment of a promise that they should have a Prince who "could not speak a word of English" and should be native born. This son, who afterwards became Edward II., was created "Prince of Wales and Earl of Chester" at the famous Lincoln Parliament on February 7, 1301. The present Prince was installed in Carnarvon Castle on July 13, 1911.

Physicians in Ordinary, Sir J. Williams, Bt., M.D Sir Alfred Rice Oxley, C.B.E., M.D.
Surgeon in Ordinary, D. C. Rice Oxley, M.C., M.

In a broad sense this heading is commonly taken as identical with that of the House of Lords, although there are close upon 130 holders of titles of long-standing nobility who are not members of the Upper House of Parliament, their peerages being those of Scotland or Ireland. But there are about an equal number of Peers of Scotland and Ireland who possess additional titles which constitute them members of the House of Lords, these titles being in a majority of instances, though very far from all, inferior to those by which they are generally known. The full details as to each are given under his leading title, and a reference is in every case supplied under any other that he may hold, so that the table of equivalent titles formerly given in this work is no longer needed: a double index will be found in "WHITAKER'S PEERAGE, BARONETAGE, KNIGHTAGE AND COMPANIONAGE."

Contractions.—*S.* or *I.* appended to the date of creation denotes a *Scottish* or *Irish* title; the further addition of a * implies that the Peer in question holds also an Imperial title, which is specified (after the name) by its more definite description as *Engl.*, *Brit.*, or *U.K.* When both titles are alike, as in the case of Argyll, this star is appended to the conjoined date below, and it then denotes that such date is that of the Imperial creation. A † appended to *S.* or *I.* implies that the Peer is an elected Representative to the House of Lords. For the mark ² see heading to Marquesses; *b.*, signifies born; *s.*, succeeded; *m.*, married; *w.*, widower or widow; *M.*, minor.

COMPLETE LIST OF THE PEERS.

ROYAL DUKES (3).—*Style*, His Royal Highness the Duke of ——. *Addressed as*, Sir, or more formally, May it please your Royal Highness.

1337 *Cornwall*, Edward, Prince of Wales, Duke of Cornwall (1337), Scottish Duke of Rothesay (1398) K.G., P.C., *b.* 1894, *s.* 1910.

His Majesty's Most Honourable Privy Council.

Privy Councillors are addressed as "The Right Honourable."

In this List, and in the Lists of Knights of the various Orders of Knighthood and of Knights Bachelor, the prefix *Hon.* is printed in *italics* in the case of those who have acquired by public service the right to this distinction. Hon., in Roman type, is used for all persons entitled by birth or marriage to be so addressed.

M.V.O.(5th); M.B.E.
Younger Sons of the younger Sons of Peers.
Baronets' younger Sons.
Younger Sons of Knights in the same order as their Fathers.
Naval, Military, and other Esquires by Office.

Women take the same rank as their husbands or as their eldest brothers; but the daughter of a Peer marrying a Commoner retains her title as Lady or Honourable. Daughters of Peers rank next immediately after the wives of their elder brothers, and before their younger brothers' wives. Daughters of Peers marrying Peers of lower degree take the same order of precedency as that of their husbands; thus the daughter of a Duke marrying a Baron degrades to the rank of Baroness only, while her sisters married to commoners retain their rank and take precedence of the Baroness. Merely official rank on the husband's part does not give any similar precedence to the wife.*

Dames Grand Cross of the British Empire rank after wives of Baronets and before wives of Knights Grand Cross, after the latter coming Dames Commanders, before the wives of Knights Commanders.

Local Precedency.—No written code of county or city order of precedence has been promulgated, but naturally in the county the Lord Lieutenant stands first, and secondly the Sheriff. In London and other Corporations, the Mayor stands first after him the Aldermen, Sheriffs, Chief Officers, and Livery. At Oxford and Cambridge the High Sheriff takes precedence of the Vice-Chancellor.

* For fuller tables (and for *Scottish and Irish Precedency*) see Introduction to "Whitaker's Peerage, Baronetage, Knightage and Companionage," a companion volume, price 25s. net.
§ A complete list, in *Alphabetical Order* (the only list so published), of all holders of these decorations will be found in "Whitaker's Peerage."

KNIGHTS OF THE MOST NOBLE ORDER OF THE GARTER (1349)—K.G.

THE ORDER OF MERIT (1902)—O.M.

Ribbon, Blue and Crimson.

O.M. Civ.

This Order confers no precedence. It is designed as a special distinction for eminent men and women—without conferring a knighthood upon them. The Order is limited in numbers to 24, with the addition of foreign honorary members. Membership is of two kinds, Military and Civil, the badge of the former having crossed swords, and the latter oak leaves. Membership is designated by the suffix O.M., which is authorised to follow the first class of the Order of the Bath and to precede the letters designating membership of the inferior classes of the Bath and all classes of the remaining Orders of Knighthood.

O.M. Mil.

MILITARY MEMBERS.

Admiral of the Fleet Rt. Hon. Sir Edward Hobart Seymour, G.C.B., G.C.V.O.

Admiral of the Fleet Rt. Hon. Earl Jellicoe, G.C.B., G.C.V.O.

Lambert, K.C.M.G., C.B.; *Gentleman Usher of the Blue Rod*, Sir Reginald L. Antrobus, K.C.M.G., C.B.; *Chancery*, Colonial Office, S.W.—G.C.M.G., Knight Grand Cross; K.C.M.G., Knight Commander; C.M.G., Companion.

THE MOST EMINENT ORDER OF THE INDIAN EMPIRE (1878).

(Since enlarged eight times.) *Ribbon*, Imperial Blue. *Motto, Imperatricis auspiciis.*

Sovereign, The King-Emperor; *Grand Master*, The Viceroy and Governor-General of India for the time being; *Secretary* (in India), J. P. Thompson C.S.I.; *Registrar*, The Secretary of the Central Chancery of the Orders of Knighthood—for the time being; G.C.I.E., Knight Grand Commander; K.C.I.E., Knight Commander; C.I.E., Companion.

THE ROYAL VICTORIAN ORDER (1896).

Ribbon, Blue, with Red and White Edges. *Motto, Victoria.*

G.C.V.O.

The Sovereign; *Chancellor*, The Lord Chamberlain; *Secretary*, The Keeper of His Majesty's Privy Purse; *Registrar*, Sir Francis M. Bryant, C.V.O., C.B.E., D.S.O.—G.C.V.O., Knight Grand Cross; K.C.V.O., Knight Commander; C.V.O., Commander; M.V.O., Member, marked 4th or 5th Class.

K.C.V.O.

THE MOST EXCELLENT ORDER OF THE BRITISH EMPIRE (1917).

Ribbon, Purple (Civil Division); Purple, with narrow vertical Red Centre Stripe (Military Division). *Motto, For God and the Empire.*

G.B.E.

The Sovereign; *Grand Master*, H.R.H. the Prince of Wales; *Prelate*, Rt. Rev. the Bishop of London; *King of Arms*, Gen. Rt. Hon. Sir Arthur H. F. Paget, G.C.B., K.C.V.O.; *Registrar*, The Secretary of the Central Chancery of the Orders of Knighthood—for the time being; *Secretary*, The Permanent Secretary to the Treasury; *Gentleman Usher of the Purple Rod*, Sir Frederic G. Kenyon, G.B.E., K.C.B. For services rendered to the Empire, whether at home or abroad, open to both men and women. G.B.E., Knights Grand Cross or Dames Grand Cross; K.B.E., Knights Commanders; D.B.E., Dames Commanders; C.B.E., Commanders; O.B.E., Officers; M.B.E., Members. The Order was divided into *Military* and *Civil* divisions in Dec., 1918.

K.B.E.

THE KNIGHTS BACHELOR.

The Knights Bachelor do not constitute a Royal Order, but comprise the surviving representation of the ancient State Orders of Knighthood. The Register of Knights Bachelor, instituted by James I. in the 17th century, lapsed, and in 1908 a voluntary association under the title of "The Society of Knights" (now "The Imperial Society of Knights Bachelor" by Royal command) was formed with the primary objects of continuing the various registers dating from 1257 and obtaining the uniform registration of every created Knight. In 1926 a design for a badge to be worn by Knights Bachelor was approved and adopted, a miniature reproduction being shown at the head of this paragraph. An annual Knightage is published from information supplied by the authorities, and can be obtained on application. The Officers of the Society are:—*Principal*, Sir William Bull, Bt., M.P.; *Vice-Principal*, Commander Sir Trevor Dawson, Bt., R.N.; *Hon. Registrar*, Sir Park Goff, M.P.; *Clerk*, Hubert Whelbourn; *Registry and Library*, The College of Arms, Queen Victoria Street, E.C. 4.

ORDER OF THE COMPANIONS OF HONOUR (1917)—C.H.

Ribbon, Carmine, with Gold Edges.

This Order consists of one Class only and carries with it no title or precedence, but ranks after the 1st Class of the Order of the British Empire, *i.e.*, Kts. and Dames Grand Cross (Mil. and Civ. Div.). The number of awards is limited and is open to both sexes.

Barnes, Rt. Hon. G. N.
Burnham, The Viscount.
Caine, Sir Hall, K.B.E.
Carlile, Rev. Preb. W., D.D.
Carruthers, Mrs. (Miss Violet Markham).
Chetwynd, The Viscount. (ham).
Churchill, Rt. Hon. W. S., M.P.
Davidson, John Colin Campbell, C.B.
Davies, William John. [M.P.
Dillon, Viscount
Ellerman, Sir John Reeves, Bt.
Evans, Sir Evan Vincent.
Faringdon, The Lord.
Gloucester, Bishop of, D.D.
Gosling, Harry, M.P.
Haldane, Miss Elizabeth.
James, Rev. Herbert Armitage, D.D.
Keogh, *Lt.-Gen.* Sir Alfred, G.C.B., G.C.V.O., M.D.
Kerr, Philip Henry.
Lansdowne, The Marchioness of, O.B.E., V.A., C.I.
Layton, Walter Thomas, C.B.E.
Newbolt, Sir Henry, LL.D.
Parker, James.
Quinan, Kenneth Bingham.
Royden, Sir Thomas, Bt.
Ripper, Prof. William, D.Sc.
Seddon, James Andrew.
Smuts, *Lt.-Gen.* Rt. Hon. J. C.
Strutt, Hon. Edward.
Swettenham, Sir Frank A., G.C.M.G.
Tennant, Mrs. Margaret Edith.
Wardle, George James.
Wilkie, Alexander.
Wilson, Joseph Havelock, C.B.E.

THE DISTINGUISHED SERVICE ORDER (1886)—D.S.O.

Ribbon, Red, with Blue Edges.

Bestowed in recognition of especial services in action of commissioned officers in the Navy, Army and Royal Air Force. The members are Companions only and rank immediately before the 4th Class of the Royal Victorian Order. A Bar may be awarded for any additional act of service.

THE IMPERIAL SERVICE ORDER (1902, enlarged 1912)—I.S.O.

Ribbon, Crimson, with Blue Centre.

Restricted to members of the administrative or clerical (clerk) branches of the Civil Service, and consists of the Sovereign, the Prince of Wales, and Companions (not exclusively male) to a number not exceeding 700, of whom 250 may belong to the Home Services, 200 to the Indian (100 European and 100 Indian) and 250 to the services of Dominions, Colonies and Protectorates.

THE ROYAL ORDER OF VICTORIA AND ALBERT (for Ladies)—V.A.

Ribbon, White Moiré.

Instituted in 1862, and enlarged in 1864, 1865, and 1880, but no fresh conferments are now made.

THE IMPERIAL ORDER OF THE CROWN OF INDIA (for Ladies)—C.I.

Instituted 1878. *Ribbon*, Light Blue, with White Edges.

OTHER DECORATIONS AND MEDALS.

Regulations regarding the wearing of Orders, Decorations and Medals will be found in Whitaker's Peerage.

The Distinguished Service Cross.—1914.—D.S.C.—In substitution for the Conspicuous Service Cross, 1901; is designed for bestowal on all officers of the R.N. below the rank of Lieutenant-Commander, and on Warrant Officers.

The Military Cross.—1915.—M.C.—Awarded to Captains, Lieutenants, and 2nd class Warrant Officers in the Army and Indian and Colonial Forces.

The Distinguished Flying Cross.—1918.—D.F.C.—Designed for bestowal upon Officers and Warrant Officers in the Royal Air Force for acts of gallantry when flying in active operations against the enemy.

The Air Force Cross.—1918.—A.F.C.—Instituted as preceding, but for acts of courage or devotion to duty when flying, although not in active operations against the enemy.

The Military Medal.—1916.—M.M.—Awarded to non-commissioned officers and men for individual or associated acts of bravery in the Field. In exceptional circumstances the Medal may be awarded to women of all nations.

The Distinguished Service Medal.—1914.—D.S.M.—Is designed for chief petty officers, petty officers, men, and boys of all branches of the R.N.; to non-commissioned officers and men of the R.M.A., and to all other persons holding corresponding positions in His Majesty's Service afloat, for distinguished conduct in war.

The Distinguished Flying Medal.—1918.—D.F.M.—and the Air Force Medal—A.F.M.—for warrant and non-commissioned officers and men for equivalent services as for D.F.C. and A.F.C.

The Conspicuous Gallantry Medal. — C.G.M. — Is bestowed upon warrant officers and men of the R.N.

The Distinguished Conduct Medal.—D.C.M.—Awarded to warrant officers, non-commissioned officers, and men of the Army.

The Volunteer Officers' Decoration. — V.D.—Was an honour for rewarding the meritorious services of officers of the Force in question, who must have been in commission and have served twenty years.

The Territorial Decoration.—T.D.—Established in 1908; is restricted to commissioned officers of twenty years' good service in the Territorial Army. Similarly a **Territorial Long Service Medal** has been substituted for that formerly awarded to Volunteers.

The Royal Red Cross—R.R.C.—For ladies, founded 1883, is a distinction conferred upon ladies of any rank or nation who may be brought to the Sovereign's notice for acts of mercy in attending to the sick or wounded in time of war.

The Order of Mercy.—Both sexes; was established in 1899 in connexion with the **League of Mercy**, an institution also founded in 1899 to promote the welfare of hospitals by obtaining small subscriptions for King Edward's Hospital Fund for London, &c.

The Indian Order of Merit.—Instituted in 1837, as a reward for personal bravery, to Indian officers and men.

The Kaisar-i-Hind Medal.—Was founded in 1900, and is a reward for any person, of either sex, who shall have rendered useful service in or for India.

The Albert Medal.—A.M.—Dates from 1866, with extensions in 1867 and 1877, and is a recognition of acts of gallantry performed by any person whatever—"For Gallantry in Saving Life at Sea" or "on Land."

The King's Police Medal.—Instituted in 1909 as a reward "only for acts of exceptional courage and skill or conspicuous devotion to duty" to officers and men of any recognised Police Force or organised Fire Brigade in the United Kingdom, India, and His Majesty's Dominions beyond the Seas. The number of medals awarded in any one year shall not exceed 120.

The Royal Naval Reserve and Royal Naval Volunteer Reserve Decoration—R.D.—**and Medal.**—Instituted in 1910 to reward good and long service by officers and men of these Services.

Ancient Irish Titles.

The Fox (O'Sionnach), James George Hubert *Fox*, *b.* 1842.

THE GRAND PRIORY IN THE BRITISH REALM OF THE VENERABLE ORDER OF THE HOSPITAL OF ST. JOHN OF JERUSALEM.

(Incorporated by Royal Charter.)

THE Order had its origin in Jerusalem and Acre, as an International lay confraternity for the relief of Crusaders, and was later sovereign in Rhodes and Malta, where its Knights kept galleys and galleons to attack the Barbary Corsairs and to prevent the spread of Turkish rule in the Mediterranean, from 1530 to 1798. The work of the British Order is the control of the St. John's Association Ambulance and Brigade, and of the Ophthalmic Hospital, Jerusalem. The Order is conferred for services in the cause of humanity throughout the Empire, and is open to both men and women. There are 5 classes: Bailiffs and Dames Grand Cross; Knights and Dames of Justice and of Grace; Commanders of both sexes; Officers of both sexes; Serving Brothers and Sisters. These distinctions are notified in the *London Gazette*, but do not confer any rank or title. The ribbon of the decorations of the Order is black.

Sovereign Head ..... The King-Emperor.
Grand Prior ..... H.R.H. The Duke of Connaught, K.G.
Sub-Prior ..... Maj.-Gen. The Earl of Scarborough, G.B.E., K.C.B., T.D. A.D.C.

Executive Officers.

Prelate—The Archbishop of York.
Chancellor—Lt.-Gen. Sir Aylmer Hunter-Weston, K.C.B., D.S.O., M.P.
Secretary-General—Maj.-Gen. Sir Percival S. Wilkinson, K.C.M.G., C.B.
Receiver-General—Col. Francis Pixley, V.D.
Director of the Ambulance Department—Maj.-Gen. Sir Percival S. Wilkinson, K.C.M.G., C.B.
Chairman of the British Ophthalmic Hospital, Jerusalem—Col. Sir Courtauld Thomson, K.B.E., C.B.
Almoner—Capt. A. C. Seton-Christopher.
Librarian—Col. Edwin J. King, C.M.G., F.S.A.
Registrar—Charles G. Kekewich.
Genealogist—Sir Henry F. Burke, K.C.V.O., C.B.

Assistant Executive Officers.

Assistant Receiver-General—Edwin H. Freshfield, F.S.A.
Honorary Secretary of the British Ophthalmic Hospital, Jerusalem—Lt.-Col. J. T. Woolrych-Perowne.
Assistant Hon. Secretary (for Scotland) of the British Ophthalmic Hospital, Jerusalem—John H. Stevenson, M.B.E., K.C. (Marchmont Herald).
Assistant Librarian—Henry W. Fincham, F.S.A.

Secretary—(vacant).
Chief Secretary of the Ambulance Department—Capt. A. N. Cahusac, M.C.

St. John's Ambulance Brigade.

Acting Chief Commissioner—Maj.-Gen. Sir Percival S. Wilkinson, K.C.M.G., C.B.

Secretary—Maj. F. G. Darvill-Smith, C.B.E.

Priory for Wales.

Prior—H.R.H. the Prince of Wales, K.G.
Sub-Prior—The Lord Kylsant, G.C.M.G.
Chaplain—The Bishop of St. David's.
Principal Secretary & Commissioner for Wales—Sir Herbert D. W. Lowis, K.B.E.

THE VICTORIA CROSS. *V.C.*

Ribbon, Crimson for all Services.

FOR CONSPICUOUS BRAVERY. INSTITUTED *January 29th, 1856.*

The Victoria Cross was instituted in 1856, on the close of the Crimean War, and extended in 1911 and 1920. The decoration is worn before all others, on the left breast, and consists of a bronze Maltese Cross, 1½ inches in diameter, with the Royal Crown surmounted by a lion in the centre, and beneath there is the inscription "For Valour." A special annuity of £10 a year is granted to every recipient below Commissioned Rank, with an additional £5 a year for every bar, such bar being added for additional acts of bravery which would have entitled the recipient to the Victoria Cross if he or she had not already received it. In the event of an annuitant being unable to obtain a livelihood on leaving the service, the amount of the annuity may be increased to £50. In 1911, the right to receive the Cross was extended to Indian soldiers, and in 1920 a Royal Warrant extended the right to Matrons, Sisters and Nurses, and the Staff of the Nursing Services and other services pertaining to Hospitals and Nursing, and to Civilians of either sex regularly or temporarily under the orders, direction or supervision of the Naval, Military or Air Forces of the Empire.

A LIST OF SURVIVING RECIPIENTS.

Adams, *Maj.-Gen.* Sir R. B., K.C.B., (I.A.), *Upper Swat* 1897

(MINISTERS' PENSIONS.—(First Class Pension, £2,000; Second Class Pension, £1,200. None paid since April 6, 1924.) Pensions were granted to the following Ministers, but have been resigned by them:—Rt. Hon. J. A. Pease, now Lord Gainford (£1,200 *per annum*); Rt. Hon. G. W. Balfour (£1,200 *per annum*); Lord George Hamilton (£2,000 *per annum*).

Prime Ministers, Secretaries,

Prime Minister and Secretaries.—The inability of George I. to understand the English language made his attendance at meetings of the Cabinet "useless and irksome, and allowed the appearance of a Prime Minister, for his example has been so consistently followed as to have become a settled custom." In 1905 the office of Prime Minister was officially recognised. The first mention of a King's Secretary of State is under Henry III. In 1433, owing to press of work in France, two Secretaries were appointed, and until 1794 two seems to have been the normal number. From 1688 to 1782 one of the two dealt with matters pertaining to the Northern States of Europe, the other with matters pertaining to the Southern States, Home, Irish, and Colonial business. In 1782 the former became Foreign and the latter Home Secretary, still retaining Irish and Colonial business.

The Home Secretary was also responsible for the Secretary at War, who, though not a Secretary of State, directed the movements, payment, and civil control of the Army. In 1794 a Secretary of State for War was appointed to manage all military business, and in 1801 he was given the control of the Colonies. In 1854 the War Secretary was relieved of Colonial business, and a fourth Secretary of State was appointed for the Colonies. In 1858 the Secretary of State for India was appointed, and in 1918 the Royal Air Force was constituted, with a Secretary of State as President of the Air Council. In 1925 a Secretary of State for the Dominions was appointed, the office being conjoined to that of Secretary of State for the Colonies.

Master of the Horse, Rt. Hon. Earl of Granard, K.P., G.C.V.O. £2,500

THE LOCARNO TREATY.—Immediately the session was resumed on *Nov.* 16, the House of Commons discussed the Treaty of Mutual Guarantees which had been initialled at Locarno, and on *Nov.* 18 the House adopted by 375 to 23, on the motion of the Foreign Secretary, a resolution approving the ratification, after rejecting by 332 to 130 an amendment brought forward by Mr. Ponsonby expressing regret that the Treaty did not contain definite provisions concerning disarmament and advocating Russia's participation in European agreements. Warm appreciation was expressed of the achievement of Sir Austen Chamberlain, who declared that the Treaty led straight to disarmament by creating a new sense of security, the proof being that the League Council was to prepare a plan at its next Session. During a debate in the House of Lords on *Nov.* 24, Viscount Grey spoke on the possibilities of disarmament and remarked that experience hoped that it would be possible in a few years.

THE IRISH PACT.—The question of the Irish Boundary was definitely settled at conferences held in London and an agreement was signed by representatives of the Imperial, Free State and Ulster Governments amending the Treaty of 1921. The necessary Bill was presented in the House of Commons on *Dec.* 7 by the Prime Minister, who, in moving the second reading on the following day, announced that the award of the Boundary Commission would not be published and the Article would be revoked. The opportunity had been taken, he said, to remove other potential causes of friction. The Free State was released from the obligation under Article V, and in return had now undertaken to bear full liability for compensation on material damage done in the Free State area since *Jan.* 1919, and to repay to the British Government the amount paid or to be paid under the previous agreement. Those amounts were calculated at over £5,000,000, and the Free State offered to discharge that obligation by immediate payment of £150,000 and an annuity of £250,000 for 60 years from *April* 1, 1926. That offer had been accepted, but the initial payments would be set off against payments of about £900,000 which would have been made to the Free State by the British Government under the old Agreement. A grant of £1,200,000 would also be paid by the British Government to Northern Ireland as a final payment in aid of its police force. There was general support for the Bill, and after Mr. Churchill had wound up the debate, the measure was read a second time and passed the remaining stages amid cheers. The House of Lords on *Dec.* 9 passed the Bill through all its stages on the motion of the Earl of Birkenhead, and it received the Royal Assent on *Dec.* 10.

THE QUEEN MOTHER.—Eloquent tributes to Queen Alexandra were paid in both Houses when on *Nov.* 23 resolutions of condolence with the King on the death of his mother were unanimously agreed to, on the motion of Lord Salisbury and Mr. Baldwin, and supported by Lord Haldane, Lord Oxford and the Archbishop of Canterbury in the Upper Chamber and by Mr. MacDonald, Mr. Lloyd George and Mr. T. P. O'Connor in the other House. "She has been associated with every humane cause that speaks to the hearts of good women and that has its source in the deep well-springs of maternity," said the Labour leader. "Greatest, perhaps, of all her virtues was her virtue as a good mother." The Prime Minister referred feelingly to "the spirit of love that permeated her whole life and her every action."

SAFEGUARDING DUTIES.—As a result of the acceptance by the Treasury of the reports of several committees set up to investigate claims for safeguarding duties, a Bill was presented by the Government and passed through both Houses before the prorogation. As a preliminary the President of the Board of Trade on *Dec.* 2 moved in Committee of Ways and Means a resolution imposing for five years a customs duty of 33⅓ per cent. of the value upon the import of specified articles of cutlery. A long debate followed, and in the early morning a Labour member "spied strangers," and as a sequel the remainder of the sitting was conducted in secret. On the following day resolutions were carried imposing a similar duty on imported leather and fabric gloves and a duty on gas mantles. The Bill based on the resolutions was read a first time on *Dec.* 7, and two days later the second reading was agreed to after the defeat by 308 to 142 of an amendment moved by Mr. Snowden. The Committee stage was opened on *Dec.* 14, when several amendments were rejected, including one in the name of Mr. Runciman to limit the operation of the Bill to one year. The Bill passed through Committee on the following day, and on *Dec.* 16 the third reading was carried by 245 to 132. The Peers gave the Bill a second reading on *Dec.* 17 after criticism by Lord Oxford, and a third reading on *Dec.* 18, the Royal Assent being accorded on *Dec.* 22, when Parliament was prorogued.

RATING SYSTEM SIMPLIFIED.—The Rating and Valuation Bill, with which the House of Commons had made some progress in the early part of the Session, was passed and received the Royal Assent when Parliament rose on *Dec.* 22. It was in the charge of Mr. Neville Chamberlain, who displayed a remarkable knowledge of a highly technical subject. As he explained on the third reading debate on *Dec.* 4, the Bill aimed at the simplification of the rating system, not a shifting of the incidence of rates, but it contained two exceptions or additions to this fundamental plan. The relief on farm buildings would be a new burden on other ratepayers but not on the owners of small house property, who were also given a special deduction on gross value, and machinery was disrated, an overdue act of justice, declared the Minister. An amendment was accepted in Committee postponing the coming into operation of the measure until *April* 1927.

THE KING'S SPEECH.—The new Session was opened by the King in State on *Feb.* 2, the Queen and the Duke of York attending the ceremony. In the Speech from the Throne reference was made to the Coal Commission's inquiry, and His Majesty appealed to all parties to face the future in a spirit of conciliation and fellowship, and to avoid action which would again postpone the return of good trade and prosperity. Among the Bills indicated in the Speech was that to secure economy and efficiency in the generation and transmission of electrical energy. In the Lords the Address in reply was moved by Lord Templemore and seconded by Lord Rayleigh,

and agreed to. The Address in the Commons was moved by Mr. Hurst and seconded by Major Price, the Prime Minister following with a survey of the Government's policy. On *Feb.* 4 Mr. Snowden moved an amendment regretting that the Government's programme was not calculated substantially to reduce unemployment or stimulate industry, and on the following day this was rejected by 299 to 112. An amendment on the education question moved by Sir John Simon on *Feb.* 8, condemning the proposal to substitute block grants for the percentage grant, was defeated by 284 to 135, and the Address was agreed to.

NATIONAL ECONOMY.—The Economy Bill, presented by Mr. Churchill on *March* 10, consisted largely of amendments of sections of previous Acts dealing with a variety of subjects, notably health and unemployment insurance. In regard to health insurance, the existing State contribution of 2*s.* 9*d.* of the sum expended in benefit and administration was reduced to 1*s.* 7*d.* in the case of men, and 1*s.* 5*d.* in the case of women, an annual saving of £2,800,000. The amount of the Exchequer contribution to unemployment insurance was reduced from 6¾*d.* to 6*d.* per week. The spring register of Parliamentary voters was suppressed and fees in bankruptcy and other cases increased. The savings to be effected by the Bill were estimated at from £8,310,000 to £10,160,000 in 1926–27, and from £7,030,000 to £8,880,000 in 1927–28. Moving the second reading on *March* 16, the Chancellor said that the passage of the Widows and Old Age Pensions Act had substantially reduced the liabilities for which the Health Insurance Fund was responsible. National Health Insurance was in an exceedingly prosperous condition, the surplus being estimated at £65,000,000, and on a general survey of the financial situation the Government had decided that the State contribution could be reduced. As to unemployment insurance, he said that mainly through the improvement in trade conditions the fund was in a much better position than the Government had expected, and it had practically balanced. The Chancellor revealed that the estimated total of expenditure for the coming year would probably be about £800,000,000. Of that sum £635,000,000 was beyond control, and economies must be found from the remaining £165,000,000, out of which the whole of the national administration had to be maintained. Faced with the necessity of finding a saving of £31,000,000 from this £165,000,000, he said over £17,000,000 had been found by the departments, and the Bill effected a saving in expenditure of £8,000,000 and provided certain revenues amounting to £1,500,000. Mr. Snowden moved the rejection of the measure, which on the following day was read a second time by 332 to 142. The Committee stage, which opened on *March* 31, was marked by several all-night sittings and scenes. The Bill was reported to the House by 264 to 124 on *April* 20, and two days later received its third reading by 328 to 138. Little alteration was made by the Peers, and the measure was placed on the Statute Book in June.

THE BUDGET.—Introducing his financial proposals for the coming year in the House of Commons on *April* 26, Mr. Churchill said that the attempt to help the coal industry had overshadowed all other interests. The nation was richer than it was a year ago, but while the general trade of the country was steadily improving, the basic industries nearly all continued obstinately depressed. After giving details of some of the figures of the past year, the Chancellor said that but for the coal subsidy, in respect of which £19,000,000 had been paid, a net surplus of revenue of nearly £5,000,000 over all the increased expenditure would have been realised. This deficit of £14,000,000 had been funded, while the floating debt figure had been reduced by £700,000,000 since 1919, and the diminution of the National Debt charge had been £75,000,000 a year for six years. Mr. Churchill justified the restoration of the gold standard and the imposition of the silk duties, and in regard to the latter said they had secured a revenue which, in a full year, would be between £6,000,000 and £7,000,000. The yield from the McKenna duties had also been above the expectation. He proposed to exempt from Customs duties all imported antiques (goods more than a hundred years old), and to apply new duties on commodities from the earliest date after their imposition by resolution, records being kept of all such goods until the Financial Bill became law. The principle of a ten years guarantee of the continuance of Imperial preference was promised. The revenue on the existing basis Mr. Churchill estimated at £804,700,000, compared with an estimated expenditure of £812,600,000, a prospective deficit of £7,900,000. He proposed to sweep away the three years average in the assessment of income-tax, but this would not come into operation until 1927. Mr. Churchill's most important innovation was the imposition of a tax on betting. The Government did not propose to alter the law—"I am not looking for trouble, but for revenue," remarked the Chancellor. He intended to tax only legal betting to the extent of five per cent. on every stake made on a racecourse or through a credit bookmaker, but it could not come into operation until *Nov.* 1. The yield in the first year would not exceed £1,500,000, but in a full year it was estimated to produce £6,000,000. There would be a duty on imported wrapping paper, the Safeguarding of Key Industries would be re-enacted, and the system of McKenna duties would be extended to cover commercial motor cars. Out of the balance of about £19,000,000 in the Road Fund they proposed that £7,000,000 should be transferred to the Exchequer, as well as £3,500,000 from the revenue of the Fund. A month's reduction of the time credit to brewers for the payment of Excise brought in £5,500,000, and France had promised £4,000,000 as a first payment of the French debt. The total of £22,250,000 converted the deficit of £7,900,000 into a surplus of £14,150,000. Mr. Churchill said that he proposed to increase the new sinking fund from £50,000,000 to £60,000,000, and including this the total estimated expenditure for 1926–27 was £820,641,000, leaving a prospective surplus of £4,109,000. The Chancellor concluded with the intimation that if the industrial struggle were continued he would be forced to propose substantial increases both in direct and indirect taxation. Mr. Churchill received congratulations and criticisms from three of his predecessors—Mr. Snowden, Mr. Lloyd George and Sir Robert Horne. The resolutions were passed during the General Strike, and the second reading debate on the

Finance Bill opened on *May* 19, when Mr. Runciman expressed the view that despite the cost of the strike our prospects were better than those of any other European country, provided we could recover as well as we did after the coal stoppage of 1921. Mr. Churchill on the following day said the cost of the strike might mean a falling-off of two millions in income-tax next year, and the second reading was carried by 324 to 117. The Committee stage proceeded quietly until the clause dealing with the betting tax was reached. On *June* 10, Mr. Snowden moved an amendment to postpone the tax until *April* 5, 1927, but this was defeated by 231 to 152. Sir Robert Horne estimated that the tax would yield £18,000,000, and the Chancellor said his only doubt was whether the tax was too high. The Bill passed through Committee on *June* 21, and on *July* 15, during the report stage, Mr. Churchill said he would reduce the betting tax from 5 per cent. to 2 per cent. for course betting and to 3½ per cent. for office betting, which he thought would bring in £6,000,000. The new scheme was accepted by 200 to 127. The third reading was agreed to on *July* 21 after the defeat of a motion for rejection by 324 to 117. Mr. Runciman during the debate estimated the total loss since the beginning of the General Strike at £148,500,000. After being passed by the Lords the Bill received the Royal Assent on *Aug.* 4.

THE COAL STOPPAGE.—After the abandonment of the General Strike, the Prime Minister on *June* 15 intimated that the Government would introduce legislation to make an eight hour day possible and to facilitate the development of new mines and provide facilities for amalgamation. Explaining the Mining Industry Bill on the second reading on *June* 23, Col. Lane-Fox said that it carried out some of the most immediately practicable recommendations of the Coal Commission. The first part dealt with the amalgamation of colliery undertakings. There must, he said, be common agreement that bigger groups were desirable, but compulsion in such matters was unwise. The Bill provided that if in three years' time the Mines Department thought that the process of amalgamation was not going on as it ought to do, they could report to Parliament and Parliament would have a full opportunity of dealing with the matter. The second part extended the Mines (Working Facilities) Act, 1923. Other clauses provided for a five per cent. levy on the royalty owners for the setting up of baths for miners and the recruitment of labour, the Minister of Labour being given power to make regulations to secure that preference for employment should be given to those over the age of 18 years who were employed in mines before April 30, 1926. Mr. Hartshorn opposed the Bill because it failed to provide for systematic unification, but his amendment was rejected by 336 to 147, and the Bill was read a second time and sent to a Standing Committee. It emerged with little alteration, secured its third reading on *July* 27 after the defeat of an amendment for rejection by 312 to 125, passed through the Lords, where a rejection motion was beaten by 130 to 27, and received the Royal Assent on *Aug.* 4. The Coal Mines Bill, which, for a period of five years, enabled the extra hour already possible on sixty days of the year) to be worked on the other working days, was given a second reading on *June* 29 after two days' debate. Sir Arthur Steel-Maitland said that suggestions for nationalisation or unification would not meet the situation. An amendment moved by Mr. Walsh was thrown out by 355 to 163 after disorderly scenes on the part of the Labour members. The third reading was carried by 332 to 147 on *July* 1, and the Peers accorded the Bill a second reading by 176 to 17 on *July* 6, the Royal Assent being given on *July* 8, when the ceremony was marked by further disorder among some of the Labour M.P.'s who attended.

THE ELECTRICITY BILL.—An important scheme for the development of the country's electricity undertakings was proposed in the Electricity Bill, which was presented by Lt.-Col. Wilfrid Ashley on *March* 10. Under its provisions a central electricity board would be formed to buy the electricity generated by a number of existing selected power stations and to sell it to authorised undertakings. The stations would be worked by their owners under the control of the board, and not by the board itself except in the last resort. The Bill also enabled the board to construct the main electrification lines required, and empowered it to enforce standardisation of frequency. It was provided that the electricity should be supplied by the board to authorised undertakings at a tariff sufficient to cover its working expenses. Explaining the measure in moving the second reading on *March* 29, Col. Ashley said there were 592 electricity undertakings, of which 32 supplied half the total power. This, he declared, meant enormous capital extravagance, and the main object of the Bill was to remove this by enabling installations to work at full pressure. The Bill was also intended to improve supply and consumption. Only one-third of Great Britain was reasonably supplied at present, and its consumption per head was lower than that of any other civilised State that could be compared. The new central board would be solely a co-ordinating authority, composed of business men who would work in concert with the Electricity Commissioners. The scheme would not interfere with existing private or municipal concerns unless the latter were recalcitrant. Mr. W. Graham moved an amendment urging the development of a publicly owned and controlled system of generation, transmission and distribution, but on *March* 20 this was defeated by 325 to 197, and the Bill was read a second time. The proceedings in Standing Committee were protracted and had not been concluded when the House adjourned in August.

OTHER LEGISLATION.—A Bill to supersede by paid officials Boards of Guardians which were in default was passed in *July*, owing, as Mr. Neville Chamberlain explained, to the action of the West Ham Board. He announced that next year the reform of the Poor Law would sweep away Boards of Guardians. Another measure placed on the Statute Book removed the necessity of Ministers seeking re-election on acceptance of office. The Trade Facilities Act raised the maximum amount of expenditure authorised by the expiring measure, and so placed £10,000,000 at the disposal of the Treasury to provide employment for skilled men in their own industry.

VOTES CAST AT THE GENERAL ELECTION, 1924.

THE total number of Voters on the Register at the date of the General Election of 1924 was :—

England	17,516,155
Wales and Monmouthshire	1,289,797
Scotland	2,211,870
Northern Ireland	613,168
Total	21,730,988

The votes polled represented 76 per cent. of the total electorate, but 31 seats (representing 1,076,446 votes) were uncontested, so that the 16,640,279 votes recorded in the remaining constituencies with 20,654,542 voters represented 85 per cent. of those entitled to record their votes. The following table shows how the votes were cast :—

COST OF THE GENERAL ELECTION, 1924.

At the General Election of 1924 there were 1,428 Candidates for the 615 seats. The average expenditure of each Candidate was £645, the highest amount spent being £1,479 (Senior Member for Oldham) and the lowest *nil* (University Member for Northern Ireland).

Division.	Members.	Expenses.
England	492	£780,225
Wales and Mon.	36	49,295
Scotland	74	85,446
Northern Ireland	13	6,199
Total	615	£921,165

Regnal Years.—The years of a king's reign are the regnal years, and each begins on the anniversary of his accession : *e.g.*, Regnal year 17 of the present King began on May 6, 1926 ; regnal year 18 begins on May 6, 1927. The system is used for dating Acts of Parliament. The Summer Time Act of 1925, for example, is quoted as 15 and 16 Geo. V, ch. 64, because it became law in the session which extended over part of these two regnal years. The regnal years of Edward VII. began on January 22, so that Acts passed in that reign are, in general, quoted with only one year number, but year 10 of this series ended on May 6, 1910, and Acts of the Parliamentary Session 1910 are headed 10 Edw. VII. and 1 Geo. V.

DISTRIBUTION OF SEATS
(After the Dissolution, Oct. 26, 1922.)

After the Dissolution of the Parliament elected in December, 1918, the number of Members was reduced from 707 to 615, through the decrease of Irish representation from 105 to 13 Members :—

England :		
London	62	
Boroughs	193	492
Counties	230	
Universities	7	
Wales and Monmouth :		
Boroughs	11

Northern Ireland :		
Ulster	13	13
Total		615

POLITICAL PARTIES.
(After the General Elections, 1923 and 1924.)

The following table shows the membership of the House of Commons by political allegiance, after the General Elections of Dec. 6, 1923 and Oct. 29, 1924 :—

	1923	1924.
Conservative	258	413
Labour and Socialist	191	150
Liberal	156	39
Constitutionalist	—	7
Independent	6	4
Irish Nationalist	2	1
Sinn Fein	1	—
Speaker	1	1
Total	615	615

The House of Commons.

The sixth Parliament of King George V. and the *Third Parliament of Great Britain and Northern Ireland* was elected on October 29, 1924. The General Election had returned 413 Conservative; 7 Constitutionalist ; 150 Labour ; 40 Liberal ; 1 Irish Nationalist, and 4 Independent, distributed as shown in the following table :—

	Distribution of Members.				Party Strength (Nov. 18, 1924).		
	Counties.	Boroughs.	Universities.	Total Members.	Government	Opposition.	Majority.

Government and Public Offices.

ADMIRALTY. (*See* pp. 263-4.)

MINISTRY OF AGRICULTURE AND FISHERIES.

Whitehall Place, S.W. 1; 43 Parliament Street, S.W. 1; 7, Old Bailey, E.C. 4.

THE MINISTRY OF AGRICULTURE AND FISHERIES was constituted pursuant to the Ministry of Agriculture and Fisheries Act, 1919 (9 and 10 Geo. V. Ch. 91) which amended the Board of Agriculture and Fisheries Acts, 1889 to 1909. The Board of Agriculture for Great Britain was established in 1889. By the Board of Agriculture and Fisheries Act of 1903, the duties of the Fisheries Department of the Board of Trade were transferred to the Board of Agriculture, the designation of which was at the same time altered. The expression "agriculture" is defined to include "horticulture."

The administration of the *Ordnance Survey* and of *Kew Gardens* is under the control of the Ministry.

Estimates, 1926-7, £2,166,473.

Minister of Agriculture and Fisheries, Rt. Hon. Walter Guinness, D.S.O., M.P. £2,000
Private Secs., C. T. Houghton; R. H. Franklin
Parliamentary do., Capt. R. G. Briscoe, M.P..... *unp.*
Parliamentary Secretary, Rt. Hon. Lord Bledisloe, K.B.E. £1,200
Private Sec., D. B. Toye, O.B.E.

16 Robertson Street, Glasgow.

Chairman, Sir Wm. H. Raeburn, Bt.

Deputy do., James S. Craig.

General Manager, R. H. Macfarlane.

Secretary, Harold M. Ford.

Treasurer, Wm. Conochie.

COLONIAL AND DOMINIONS OFFICE.

Downing Street, S.W. 1.

The business of the Colonies was, until 1801, included in the functions of the Home Secretary, to be transferred in that year to the newly-created "Secretary for War." In 1854 the outbreak of the Russian War led to the appointment of a Secretary of State for the Colonies (to relieve the War Secretary of Colonial business). The Colonial Secretary possesses an advisory power of veto on legislation of the self-governing Dominions, and is responsible for the government of the remaining Dominions beyond the Seas in inverse proportion to the amount of self-government granted to them. The salaries, &c., of the Colonial Office are estimated at £178,446 for 1926-27.

Principal Secretary of State for Dominion Affairs and for the Colonies, Rt. Hon. L. C. M. S. Amery, M.P. £5,000

Private Sec., J. A. P. Edgcumbe, C.B.E.

Do. (Appointments), Major R. D. Furse, D.S.O. £1,100

Private Sec. (Parliamentary), Capt. Euan Wallace, M.P. *unp.*

Private Sec. (Ceremonial and Reception), Lt.-Col. H. V. B. de Satgé, C.M.G., D.S.O.

Assist. Priv. Sec., M. E. Antrobus.

Do. (Appointments), Capt. A. F. Newbolt (£660); G. N. Irby (£600); Major G. S. M. Hutchinson.

UNDER-SECRETARIES.

Permanent (Dominions), Sir C.T. Davis, K.C.M.G. £2,200

Private Sec., P. Liesching.

Permanent (Colonies), Brig.-Gen. Sir S. H. Wilson, K.C.M.G., K.B.E., C.B. £3,000

Private Sec., S. L. Holmes, M.C.

Parliamentary (Dominions), The Earl of Clarendon. £1,500

Private Sec., G. H. Creasy.

Parliamentary (Colonies), Hon. W. G. A. Ormsby-Gore, M.P. £1,500

Private Sec., A. Bevir.

Deputy to Perm. Under Sec. (Colonies), Sir G. E. A. Grindle, K.C.M.G., C.B. ..... £1,200 to £1,500

Asst. Under Sec. (Dominions), E. J. Harding, C.B., C.M.G. ..... £1,200 to £1,500

Assistant Under-Secretaries (Colonies), Sir F. E. Shuckburgh, K.C.M.G., C.B.; Sir C. Strachey, K.C.M.G., C.B. ..... £1,200 to £1,500

Legal Adviser, Sir John Shuckburgh Risley, K.C.M.G., C.B., K.C. ..... £1,200 to £1,500

Chief Medical Adviser, A. T. Stanton, M.D., F.R.C.P., D.P.H. £1,500

Assistant Secretaries, W. D. Ellis, C.M.G.; J. F. N. Green; T. C. Macnaghten, C.M.G., C.B.E. (*Vice-Chairman Oversea Settlement Committee*); A. Fiddian; W. C. Bottomley, C.B., C.M.G., O.B.E.; E. R. Darnley; A. J. Harding, O.B.E.; H. R. Cowell; R. V. Vernon, C.B. (*seconded for service in Iraq*); G. G. Whiskard, C.B.; Maj. H. W. Young, C.M.G., D.S.O. (*temp.*); H. F. Batterbee, C.M.G., C.V.O.; A. C. C. Parkinson, O.B.E.; J. E. W. Flood; O. G. F. Williams (*Actg.*) (*Establishment Officer*) ..... £1,000 to £1,200

Legal Assistant, H. G. Bushe ..... £900 to £1,000

* At Custom House Branch.

Oversea Settlement Department.

Caxton House, Tothill St., S.W. 1 (10 to 5, Sat. 10 to 1.30).

H.M. Government have found it necessary to undertake closer responsibility in connexion with the movements of British subjects wishing to settle overseas within the Empire, or to emigrate to foreign countries, than they have exercised in the past. The Oversea Settlement Committee was appointed in order to assist them in carrying out their policy which is embodied in the Empire Settlement Act, 1922. In 1925 British migrants under the Empire Settlement Act, 1922, numbered 43,057, of whom 23,447 went to Australia, 17,442 to Canada, and 8,051 to New Zealand.

COMMISSIONERS OF CROWN LANDS,

1 Whitehall, S.W. 1.

Administrative expenses, 1925-26, £25,102.

The Crown Lands.—The Land Revenues of the Crown in the United Kingdom have been collected on the public account since 1760, when George III. surrendered them in return for a fixed annual payment or *Civil List*. At the time of the surrender the gross revenues amounted to about £89,000 and the net return to about £11,000.

In the year ended March 31, 1926, the total Receipts by the Commissioners were £1,443,672, of which amount £104,663 was from the Mines. The Expenditure (including Property Tax allowed) was £452,660. The sum of £950,000 was paid to the Exchequer in 1925-26 as *Surplus Revenue*, being a net sum from which no deductions have to be made for administration.

Commissioner (ex-officio), The Minister of Agriculture and Fisheries ..... *unpaid*

Permanent Commissioner and Secretary, A. S. Gaye £1,500

Assistant Secretary, E. H. E. Havelock.

THE DUCHY OF CORNWALL,

Buckingham Gate, S.W. 1.

Cornwall was created a Duchy by Edward III. for the support of his eldest son (afterwards created Prince of Wales), and the eldest son of the Sovereign has since that time been born Duke of Cornwall.

The Revenue of the Duchy of Cornwall in the year ended December 31, 1925, was £245,915, and was derived principally from Rents and Profits of Courts, £170,967; Annuity in lieu of Tin Coinage Duties, £16,217; and Dividends on Stock, £5,974. The Payments include £50,720, Outlay for the benefit of the Estate; £39,905, Deductions under various Acts; £28,819, Allowances, Donations, and Charities; and £18,903, Expenses of Management. The sum of £58,112 was paid on account of His Royal Highness the Prince of Wales.

Prince of Wales's Council.

The Lord Clinton (*Lord Warden of the Stannaries and Keeper of Privy Seal*); The Lord Revelstoke, G.C.V.O. (*Receiver-General*); The Earl Fortescue, K.C.B.; The Viscount Folkestone; Vice-Adm. Sir Lionel Halsey, G.C.M.G., G.C.V.O., K.C.I.E., C.B.; John Anthony Hawke, K.C., M.P. (*Attorney-General*); Sir Godfrey Thomas, Bt., K.C.V.O., C.I.E.; Sir Walter Peacock, K.C.V.O. (*Sec. and Keeper of Records*).

Officers of the Duchy of Cornwall.

Auditor, Sir Laurence E. Halsey, K.B.E.
Solicitor, R. E. Tucker.
Assistant Secretary, C. Liddell.
Clerk Surveyor, H. Kirk.
Deputy Receiver, A. E. Gillett.
Sheriff (1926-7), George Horace Johnstone.

THE DUCHY OF LANCASTER,
Office, Lancaster Place, Strand, W.C. 2.

The County of Lancaster was erected into a Duchy or County Palatine Duchy by Edward III. for his son John of Gaunt in 1377, but in 1399 it became merged in the Crown through the accession of John of Gaunt's son as Henry IV.

The Revenue of the Duchy of Lancaster was £29,000 in 1847 and amounted to £140,489 in the year ended December 31, 1925. The contributory items are Rents and Profits of Courts, £70,296; Royalties and Dues, £42,512. Expenditure: £12,358. Outlay for the benefit of the Estate; £27,427, deducted under various Acts of Parliament; £5,853. Allowances, Donations, and Charities; £2,000. Salary of the Chancellor of the Duchy; and £11,185, Expenses of Management. The sum of £70,000 was paid (for His Majesty's use) to the Keeper of His Majesty's Privy Purse.

Chancellor, The Rt. Hon. Viscount Cecil of Chelwood, K.C. £2,000
Private Sec., Norman R. C. Warwick, O.B.E.
Vice-Chancellor, Courthope Wilson, K.C.
Attorney-Gen., Sir Joseph Herbert Cunliffe, K.C., M.P.
Receiver-Gen., Lt.-Col. Rt. Hon. Sir F. Ponsonby, G.C.B., G.C.V.O.
Auditor, F. W. Pixley.
Clerk of Council & Registrar, Sir Herbert E. Mitchell, K.C.V.O.
Solicitor, Eliot A. C. Druce.
Surveyor-Gen. and Deputy Receiver-Gen., T. Vaughan Prickard, M.V.O.
Chief Clerk, Louis F. Fergusson.
Registrar, Preston District, J. M. Worthington.
Do. Manchester District, Harold Roberts.
Do. Liverpool Dist., R. W. Lowden.
Constable of Lancaster Castle, Lord Ashton.

THE COUNTY PALATINE OF DURHAM.

It is uncertain when "Palatine" privileges were first exercised in the County of Durham, as no formal creation of the Palatinate by charter or deed appears to have ever been made. From the founding of the See of Lindisfarne, out of which the bishopric and palatinate of Durham arose, the Bishops received large grants of lands, with extensive immunities; and Guthred, king of Northumbria, and Alfred the Great appear to have confirmed the grant to the See of the whole of the land between the rivers Tyne and Wear. There is no evidence of the exercise of *palatine* privileges by the Bishops prior to the Norman Conquest, but it is probable that these were acquired in the reign of the Conqueror, and they were exercised by the Prelates until resumed by the Crown in 1836. Palatine counties are understood to have been erected for the defence of neighbouring kingdoms against the Welsh and Scots, and were in reality self-contained kingdoms in alliance with their creator. The ancient customs of the County Palatine of Durham are in some measure retained, the administrative authority being exercised on behalf of the Crown.

Chancellor, Sir Edward Tindal Atkinson, K.C.
Attorney-General, Herbert F. Manisty, K.C.
Solicitor-General, Wm. Arthur Colefax, K.B.E., K.C.
Registrar of Chancery Court, A. O. Smith.
Steward & Clerk of Halmotes, Stanford E. Downing.
Deputy do., G. Aynsley Smith.
Mining Surveyor, Sir A. N. Lindsay Wood, Bart.
Receivers, Smiths, Gore & Co.

SCOTTISH ECCLESIASTICAL COMMISSION,
Merchants' Hall, 22 Hanover Street, Edinburgh.

For the purposes of the Church of Scotland (Property and Endowments) Act, 1925.

Chairman, Hon. Lord Ashmore; *other Commissioners*, James Brown, O.B.E., M.P.; Robert Candlish Henderson, K.C.; Charles Ker, C.A.; Sir Kenneth John Mackenzie, Bt.

BOARD OF EDUCATION,
Whitehall, London, S.W. 1.

The Government Department of Education was, until the establishment of a separate office, a Committee of the Privy Council appointed in 1839 to supervise the distribution of certain grants which had been made by Parliament since 1834. The Act of 1899 established the Board of Education, with a President and Parliamentary Secretary, and created a Consultative Committee. The cost of administration was estimated at £450,811 in 1924-25, with £336,347 for Inspection and Examination.

THE BOARD.

The Right Hon. Lord Eustace Percy, M.P., *President* (£2,000 inclusive); The Lord President of the Council; the Principal Secretaries of State; the First Lord of the Treasury; and the Chancellor of the Exchequer.

EMIGRANTS' INFORMATION OFFICE

(see Oversea Settlement Committee, p. 283.)

EXCHEQUER AND AUDIT DEPARTMENT,

Victoria Embankment, E.C. 4.

This is the Department of the Comptroller and Auditor General, an office created by the Act 29 & 30 Vict. c. 39 (1866) to replace, with extended powers, the separate offices of Comptroller General of the Receipt and Issue of the Exchequer and of the Commissioners for Auditing the Public Accounts. This officer is appointed by Letters Patent under the Great Seal, and is irremovable except upon an address from the Two Houses of Parliament. In his capacity of Comptroller General of the Receipt and Issue of the Exchequer he authorises all issues from the Exchequer after satisfying himself that Parliament has given authority for them. He examines the Exchequer accounts and makes an annual report on them to Parliament. In his capacity of Auditor General of Public Accounts he is charged with the duty of examining on behalf of the House of Commons the accounts of expenditure out of monies provided by Parliament, the accounts of the receipt of revenue, and generally all other public accounts, including the accounts of Government stores and of trading services conducted by Government Departments. The results of his examination of those accounts are reported to the House of Commons.

The net expenses of the Department were estimated to amount to £150,935 in 1925 26.

Comptroller and Auditor General, Sir Malcolm G. Ramsay, K.C.B.....£3,000
Private Secretary, K. M. Hancock.

FOREIGN OFFICE, Downing Street, S.W. 1.

The Secretaryship of State for Foreign Affairs was created in 1782, superseding the ancient Secretary for the Northern Department of Europe (as the Officer had been called since 1688). He is assisted by two Under-Secretaries (one Parliamentary, the other Permanent), one Deputy Under-Secretary, and two Assistant Under-Secretaries, Legal Advisers, 2 Finance Officer, twelve Counsellors, a Librarian, and a staff of Clerks. The chief functions, in addition to the formal duties, are receiving and answering communications from individuals or other Government Departments from Diplomatic and Consular Agents of this country or others, and in determining the policy of the country towards Foreign Powers. The administrative expenses of the Foreign Office were estimated at £198,271 in 1926–27.

Passport Officer, Liverpool, J. S. Grant ..... £400 to £500

FORESTRY COMMISSION,
22 Grosvenor Gardens, S.W. 1

The Forestry Commissioners were appointed under the Forestry Act (1919), and were created a Body Corporate in April 1920. The Commissioners are charged with the general duty of promoting the interests of forestry, the development of afforestation and the production and supply of timber in Great Britain. The Act transferred to the Commissioners the powers and duties of the Board of Agriculture and Fisheries, and the Board of Agriculture for Scotland, in relation to forestry, and also the powers of those Departments under the Destructive Insects and Pests Acts, 1877 and 1907, so far as those powers relate to insects or pests destructive only to forest trees and timber. The Forestry Act, 1923 provided for the transfer of the Crown Woods and Forests to the Commissioners; it also cancelled the condition of repayment to which grants in respect of afforestation were subject under the Act of 1919.

The net estimated expenditure on forestry operations, &c., for the year 1926 was £460,800. The area planted by the Commissioners exceeds 71,000 acres; the programme for the 1926-27 season is 22,600 acres.

Chairman, Maj.-Gen. Lord Lovat, K.T., K.C.M.G., K.C.V.O., C.B., D.S.O.
Commissioners, Right Hon Sir Francis Dyke Acland, Bt.; Rt. Hon. Lord Clinton; Sir Leolin Forestier-Walker, K.B.E., M.P.; Sir Hugh Murray, C.I.E., C.B.E.; R. Robinson, O.B.E.; Walter R. Smith; Col. W. Steuart-Fothringham.
Assistant Commissioners, H. A. Pritchard, O.B.E. (*England and Wales*, 1, Whitehall, S.W. 1); John Sutherland, C.B.E. (*Scotland*, 25, Drumsheugh Gardens, Edinburgh).
Secretary, A. G. Herbert, 22 Grosvenor Gardens, S.W. 1.

FRIENDLY SOCIETIES REGISTRY,
17 North Audley Street, W. 1.

A Barrister was appointed in 1828 to certify the Rules of Savings Banks, and in 1829 to certify those of Friendly Societies. In 1846 he was constituted Registrar of Friendly Societies. By the Friendly Societies Act, 1875, the Central Office of the Registry of Friendly Societies was created, consisting of Chief Registrar and the Assistant Registrars for England. It exercises numerous and important functions under the Friendly Societies Acts, the Industrial and Provident Societies Acts, the Building Societies Acts, the Trade Union Acts, the Workmen's Compensation Acts, the Scientific

Societies Act, the Trustee Savings Banks and Post Office Savings Banks Acts, the Loan Societies Act, the Shop Clubs Act, and a great number of local and personal Acts. Under the Industrial Assurance Act, 1923, the Chief Registrar is charged with various powers and duties in relation to Industrial Assurance Companies and Collecting Societies, and in that capacity is styled the Industrial Assurance Commissioner.

Chief Registrar and Industrial Assurance Commissioner, G. Stuart Robertson, K.C. £2,000
Private Sec., G. H. Cooper.
Assistant Registrar and Deputy Industrial Assurance Commissioner, John Fox, O.B.E. ..... £1,000 to £1,200
Assist. Registrar, Digby L. F. Koe ..... £850 to £1,000
Principal Legal Assistant, M. A. Mackinnon, M.C. ..... £550 to £700

Heads of Branches.

Legal, H. P. Harker ..... £550 to £700
Industrial Assurance, B. K. White ..... £550 to £700
Returns and Reports, H. C. Souter, I.S.O. £700
Estab. and Accounts, F. W. Roberts ..... £500 to £600
Registers of Records, T. F. Dunning ..... £500 to £600

SCOTTISH REGISTRY OF FRIENDLY SOCIETIES,

19 Heriot Row, Edinburgh.

Registrar, Chilton L. Addison Smith, O.B.E., W.S.
Chief Asst. and Head of Rules Branch, R. Addison Smith.

GOVERNMENT HOSPITALITY FUND,

Treasury Chambers, S.W. 1.

Instituted in 1908 for the purpose of organizing official hospitality on a regular basis, with a view to the promotion of international goodwill.

Minister, The Viscount Peel, G.B.E.
Secretary, E. E. Beare, C.B.E.

MINISTRY OF HEALTH,

Whitehall, S.W. 1.

This Department was established by the Ministry of Health Act, 1919, to exercise in England and Wales powers with respect to Health and Local Government, and to it were transferred by the Act, subject to certain provisos (a) all the powers and duties of the *Local Government Board*, the *Insurance Commission* and the *Welsh Insurance Commission*; (b) the powers of the *Board of Education* relating to the health of expectant and nursing mothers and children under five, and to the medical inspection and treatment of children and young persons; (c) all the powers of the *Privy Council* and of the Lord President of the Council under the Midwives Acts, 1902 and 1918, and the powers hitherto exercised by the Secretary of State under Part I of the Children Act, 1908. There may also be transferred to the Minister certain specified powers and any other powers and duties in England and Wales of any Government Department which appear to relate to matters affecting or incidental to the health of the people.

Minister, Rt. Hon. Arthur Neville Chamberlain, M.P. £5,000

Medical Adviser, J. Smith-Whitaker, M.R.C.S.
Secretary, W. F. Wackrill, O.B.E.

GENERAL REGISTER OFFICE

(ENGLAND AND WALES),
Somerset House, W.C. 2.

The Registration of Births, Marriages, and Deaths is believed to have been inaugurated by Thomas Cromwell in 1522, but the Statutes concerning registration are of a comparatively modern date, and were consolidated by 37 & 38 Vict. c. 88. The Registrar-General was appointed in 1836, his work being enormously increased by the Act of 1874, which made registration compulsory in England and Wales. The Registrar-General is responsible for the taking of the Census and the preparation of the Census Returns. He also under takes the verification of claims by applicants for Old Age, Widows, &c., and War Pensions. The expenses of the Office for 1926-27 were estimated at £124,350. The estimate of receipts from fees for the same period is £24,000.

Quarterly Statistics.—In the Registrar-General's report for the June quarter of 1926, the estimated birth rate is given as 18·7 per 2,000, which is 0·6 per 1,000 below that recorded in the corresponding quarter of 1925, this being the lowest birth rate recorded in any second quarter except during the war years 1917-1919. The estimated death rate was 11·7 per 1,000, this being equal to the rate recorded during the second quarter of last year. The natural increase of population for the June quarter, 1926, by excess of births over deaths was 67,637, as

* Also acts as Secretary to Welsh Consultative Council.

* District Auditors on Old Establishment.

against 82,720, 72,850 and 73,707 in the second quarters of 1923, 1924 and 1925 respectively. The number of persons married in the March quarter of 1926 was 92,336, a decrease of 61,752 compared with the number of the preceding quarter, and 34 less than that in the corresponding quarter of 1925. The number corresponds to an annual rate of 9·6 per 1,000 of the estimated mid-year population.

Registrar-General, S. P. Vivian, C.B.
(*See* Ministry of Health)

Private Sec., W. A. Smoker.

Assistant Registrars-General, F. Bendle; W. L. Rind ..... £850 to £1,000

HOME OFFICE, Whitehall, S.W. 1.

The Secretaryship of State for Home Affairs was created in 1782, the duties having previously been assigned to the "Southern" Secretaryship, which embraced the affairs of Great Britain, Ireland, and the Colonies, and also Southern Europe. By the appointment of the "Home" and "Foreign" Secretaries the duties were divided in accordance with the names of the Offices, the former retaining Irish and Colonial business, and until 1794 War business also. In 1801 the Colonial business was also removed. The Home Secretary is the medium by which the Sovereign acquaints his people of his pleasure, and the channel of communication with the Sovereign, and his main functions are the maintenance of the King's peace, the enforcement of rules made for the internal well-being of the community, and the exercise of the prerogative of mercy.

Principal Secretary of State for Home Affairs, Rt. Hon. Sir William Joynson-Hicks, Bt., M.P. £5,000

Private Sec., A. Maxwell, C.B.

POLITICAL HONOURS COMMITTEE.

The Royal Commission on Honours, 1922, recommended that a Committee should be appointed to consider, before they are submitted to the King, the names and particulars of persons recommended for appointment to any dignity or honour on account of political services, and after such inquiry as they think fit to report to the Prime Minister whether, so far as they believe, such persons in the whole circumstances are fit and proper persons to be recommended. Constitution of the Committee appointed to serve for the period of office of the present Government :—

Chairman, Rt. Hon. Viscount Novar, G.C.M.G.
Other Members, Rt. Hon. Lord Merrivale; Rt. Hon. W. G. Nicholson, M.P.
Secretary, James Rae (Treasury, S.W. 1).

IMPERIAL ECONOMIC COMMITTEE.

Great George Street, S.W. 1.

Appointed in 1925 to consider the possibility of improving the methods of preparing for market and marketing within the United Kingdom the food products of the Empire, with a view to increasing the consumption of such products in the United Kingdom in preference to imports from Foreign Countries, and to promote the interests both of producers and consumers. Like the Imperial Shipping Committee, it derives authority from and reports to all the Governments represented at the Imperial Conference.

Chairman, Rt. Hon. Sir Halford Mackinder.
Secretary, H. Broadley.

IMPERIAL SHIPPING COMMITTEE.

Great George Street, S.W. 1.

Set up in 1920: (i.) To enquire into complaints from persons and bodies interested with regard to ocean freights, facilities and conditions in the various Imperial trade or questions of a similar nature referred to them by any of the nominating authorities, and to report their conclusions to the Governments concerned. (ii.) To survey the facilities for maritime transport on such routes as appear to them to be necessary for trade within the Empire, and to make recommendations to the proper authority for the co-ordination and improvement of such facilities with regard to the type, size and speed of ships, depth of water in docks and channels, construction of harbour works and similar matters. Like the Imperial Economic Committee, it derives authority from and reports to all the Governments represented at the Imperial Conference.

Chairman, Rt. Hon. Sir Halford Mackinder.
Secretary, R. D. Fennelly.

INDIA OFFICE, Whitehall, S.W. 1.

Prior to 1858 Indian affairs were conducted by the East India Company, under the supervision of a Government Board of Control, whose President was responsible for Indian affairs in Parliament. On the transfer of India to the Crown in 1858 a Secretary of State, assisted by a Council, was entrusted with the administrative duties formerly discharged by the Company and Board.

BOARD OF INLAND REVENUE,
Somerset House, W.C. 2.

The appointment of Commissioners of Stamps dates from 1694 and of Commissioners of Taxes from 1720. By 4 and 5 Will. IV. c. 60, a consolidated Board of Stamps and Taxes was established, and by 32 and 33 Vict. c. 1 this Board was amalgamated with the Commissioners of Excise to form the Board of Inland Revenue. By 8 Edw. VII., c. 26 the administration of Excise was transferred to the Board of Customs. The present sources of "Inland Revenue" consist of Death Duties, Stamps and Taxes. Salaries and Expenses of the Board for 1926–27 are estimated at £6,864,652.

Chairman, Sir Richard V. N. Hopkins, K.C.B. £3,000
Private Secretary, J. F. Huntington.
Deputy Chairman, Sir Percy Thompson, K.B.E., C.B. £2,200
Private Secretary, E. L. Nettleton.
Commissioners, F. A. Barrett, C.B.; G. B. Canny, C.B.; C. G. Spry, C.B. ..... *unp.*

Joint Secretaries, L. L. H. Thompson; H. H. Wiles.

THE LAND REGISTRY,

Lincoln's Inn Fields, W.C. 2; and 18 Portugal Street, W.C. 2.

H.M. Land Registry was established in pursuance of a recommendation of a Royal Commission by the Land Registry Act 1862. The aim of the Act was to render dealings with land more simple and economical by establishing a State register of landowners who voluntarily submitted the titles to their land for examination and approval by the Registrar on behalf of the State. The Registry was reformed by the Land Transfer Act 1875, which, while making many changes in the system, continued its voluntary basis. In 1897 the Land Transfer Act introduced the principle of compulsory registration, and four Orders in Council under that Act between 1898 and 1902 make the system compulsory on sale in the administrative county of London. An Order in Council made in 1925 also made registration of title compulsory on sale in Eastbourne. The Land Registration Act 1925 consolidated the previous Acts, and made such changes in the system as the experience of a generation had shown to be necessary. The keynote of the system is that the machinery for the purchase and sale of land is assimilated to that for Stocks and Shares. Absolute titles granted by the Land Registry are guaranteed by the State. Simple forms, analogous to those used on transfers of Stocks and Shares, are provided. The cost of buying, selling or mortgaging registered land is much less than the cost in the case of unregistered land. It is open to any County Council or Council of a County Borough to apply to the Privy Council for an order making registration of title compulsory in its area. The Land Registry is administered under the Lord Chancellor by the Chief Land Registrar, who also controls the Middlesex Deeds Registry and the Land Charges Department under the Land Charges Act 1925.

Office Hours:—Registration, 11 to 3; Searching and other business, 10 to 4. SATURDAYS closed at 1.

Registration of Title.

Chief Registrar, John Stewart Stewart-Wallace C.B. £1,500

Chief Medical Officers, W. T. Gordon Pugh, M.D.; F. H. Thomson, M.B., D.P.H.; James Watt, M.D., D.P.H.; E. B. Sherlock, M.D., D.P.H.

METROPOLITAN WATER BOARD

173 Rosebery Avenue, E.C. 1.

The Board serves an area of 563 sq. miles. The charges are levied on rateable value at such rate, not exceeding 8½ per cent., as the Board may fix. The approximate net water rental is £4,526,600. The Capital Debt on April 1, 1926, amounted to £53,211,407, the interest paid being £1,739,274. The estimated population supplied was 7,044,228, the number of services being 1,160,828. The annual supply was 95,978,700,000 gallons, a daily average of 262·95 million gallons. One of the sources of supply is the *New River Company's* undertaking, inaugurated in the reign of James I. (1605) by Sir Hugh Myddelton, to bring water from Amwell and Chadwell, Herts, to London.

Chairman of the Board, Sir Christopher Musgrave, J.P. ..... (*unp.*)
Vice-Chairman, Sir W. Prescott, C.B.E., D.L. ..... (*unp.*)
Clerk of the Board and Parliamentary Officer, G. F. Stringer £1,000
Chief Engineer, Henry E. Stilgoe, M.INST.C.E. ...£2,500
Accountant & Registrar of Debentures, G. M. Jennings £1,250
Director of Water Examination, Sir Alexander Houston, K.B.E., C.V.O., D.SC. £1,750
Solicitor, C. A. Hunt, B.A. £900
Supervisor, F. W. Drake £900
Surveyor, Harold Oxley, F.S.I. £700

THE ROYAL MINT, Tower Hill, E. 1.

Admission by order only, application for which should be made to the Deputy Master of the Mint, about 4 weeks in advance of intended visit. Hours of admission, 10 to 3 Mon. to Fri., 10 to 11 Sat.

The Royal Mint, as now constituted, may be said to date from 1817, and the buildings from 1810, the latter being completed in that year at the cost of over £250,000. In 1870 the Coinage Act abolished the ancient post of Master of the Mint as such, and combined it with that of the Chancellor of the Exchequer. The first known Master (or Warden) of the Mint dates from Henry I., and the last Warden was Lord Maryborough (1824–27), the last Master being Professor Thomas Graham, who died in 1869. The estimated administrative expenses amount to £4,259,000 for 1926–1927. Appropriations in aid, £4,089,000, leaving a net cost of £150,000.

Master and Worker, The Chancellor of the Exchequer.
Deputy Master and Comptroller, and Engraver of H.M. Seals, Col. Robt. Arthur Johnson, C.B.E. £1,500
Chief Clerk, D. J. Bourfield, I.S.O. ..... £550 to £700
Staff Officer, W. Perry, M.B.E. ..... £400 to £500
Superintendent, Operative Department, H. W. L. Evans, O.B.E. ..... £900 to £1,000
Deputy do., H. D. McCay ..... £700 to £800

Pretoria, South Africa.
Deputy Master, R. G. J. Pearson £1,200
Superintendent, J. T. Becklake .....£820 to £940

THE BRITISH MUSEUM.

Bloomsbury, W.C. 1.

Open free daily 10 a.m. to 6 p.m.; Sundays 2 p.m. to dusk. *Lecture-tours* on weekdays at 12 noon and 3 p.m. *Reading-room* open daily to readers, from 9 a.m. to 6 p.m. throughout the year, except Good Friday and Christmas Day, and Sundays. Closed for cleaning first four weekdays in March and Sept. Tickets of admission to the reading-room, for purposes of research and reference, are granted on written application beforehand to the Director. The applicant must state abode, business or profession and full particulars of purpose, and must send a recommendation from a householder, who must be a person of recognised position.

The British Museum may be said to date from 1753, when Parliament granted the sum of £20,000 to purchase the collection of books &c., of Sir Hans Sloane, the building (Montagu House) being opened in 1759. The present buildings were erected between 1823 and 1852, and the original collection has increased to its present dimensions by gifts and purchases, and by the operation of the Copyright Acts. Fine collections of ancient sculpture, &c. Exhibition of specimens of early printed books, bindings, manuscripts, autograph letters, and prints and drawings; of Egyptian, Assyrian, Greek, Roman, Etruscan, Cyprian, British and medieval and other antiquities; coins, gold ornaments, gems, china, glass, ethnographical objects; monuments of Indian religions, &c. The administrative expenses of the British Museum were estimated at £303,420 (including Natural History Museum) in 1926-27, and were met by a vote under "Education, Science, and Art," Class IV. of the Civil Service Estimates.

STANDING COMMITTEE.

The Three Principal Trustees, The Archbishop of Canterbury; The Lord High Chancellor; The Speaker of the House of Commons—*ex-officio*; *Appointed by the Sovereign*, Viscount Esher, G.C.B., G.C.V.O.; *Other Trustees*, H.R.H. the Prince of Wales, K.G., K.T.; Earl of Crawford and Balcarres, K.T.; Viscount Dillon, C.B.; Viscount Grey of Fallodon, K.G.; Viscount Ullswater, G.C.B.; Lord Rothschild; Lord Chalmers, G.C.B., LL.D.; Lord Hanworth, D.C.L.; Rt. Hon. H. A. L. Fisher, M.P.; Rt. Hon. J. Ramsay MacDonald, M.P.; Sir John Rose Bradford, K.C.M.G.; Lt.-Col. Sir D. Prain, C.M.G., C.I.E., F.R.S.; Sir Henry A. Miers, D.SC., LL.D., F.R.S.; Prof. G. A. Murray; M. R. James, D.SC.; F. Cavendish Bentinck.

Assistant, E. S. G. Robinson, B.A. ..... £250 to £440
Solicitors, Messrs. Warrens, 5 Bedford Square.

THE LONDON MUSEUM.

Lancaster House, St. James's, S.W. 1.

Admission on Tuesdays, 1s.: Wednesdays and Thursdays, 6d.; other days free; closed for cleaning on Friday till 2 p.m. Hours:—April 1 till Oct. 31, 10 a.m. till 6 p.m. (Sundays 2 to 6 p.m.); Nov. 1 to March 31, 10 a.m. to 4 p.m. (Sundays 2 to 4 p.m.).

The London Museum was instituted, on the lines of the Carnavalet at Paris, for the conservation of the antiquities and other objects associated with the history of London. The Collection was originally housed in Kensington Palace, and was reopened in 1914 at Lancaster House.

Keeper, Secretary and Accounting Officer, Dr. R. E. Mortimer Wheeler, M.C., M.A., F.S.A. £700
Asst. Keeper and Librarian, Lt.-Col. Hon. Maurice Brett, M.V.O. £250

THE NATURAL HISTORY MUSEUM.

Cromwell Road, S.W. 7.

Open free on week-days (except Good Friday and Christmas Day) at 10. The hours of closing are:—Jan. and Feb., 5; March to Sept. (inclusive), 6; Oct. to Dec. (inclusive), 5. Sundays (throughout the year) from 2.30 to 6.

An Official Guide conducts visitors round the collections at 12 noon and at 3 p.m. daily (except Sundays) free of charge, and his services are available for special parties (also free of charge) by arrangement with the Director. Students are admitted daily for the special study of the collections, and to make drawings and take photographs of specimens, under special regulations to be obtained from the Director. The Museum issues a large variety of publications, comprising scientific monographs and catalogues, popular guide-books and

manuals, instructions for collectors, economic pamphlets, and picture post-cards, both monochrome and in colour.

The Natural History Collections in the British Museum were removed to South Kensington and rearranged there in 1881–85, the new museum being opened to the public in 1881. The collections comprise all branches of natural history. A morphological series in the central hall; a collection of domesticated animals; a series of insects illustrating economic zoology; galleries of mammals, including whales; birds and their eggs; fishes; reptiles; insects; shells; corals; sponges &c.; galleries of fossils of all kinds; a botanical gallery; and an extensive gallery of minerals, rocks, and meteorites, with series of specimens forming introductions to their study. The administrative expenses were estimated at £110,873 in 1926–27.

Director, Sir Sidney F. Harmer, K.B.E., Sc.D., F.R.S. £1,200

Assistant Secretary, G. F. Herbert Smith, D.Sc. ..... £650 to £800

Staff Officer, W. J. Anderson ..... £400 to £500

Clerks, Higher Grade, T. Wooddisse; A. C. Wray ..... £300 to £400

Assistant Keeper (*Library*), B. H. Soulsby, M.A. ..... £475 to £800

Keeper of Zoology, C. T. Regan, M.A., F.R.S. £1,000

Deputy do., W. T. Calman, D.Sc., F.R.S. £900

Assistant Keepers, R. Kirkpatrick; W. P. Pycraft; A. S. Hirst; J. G. Dollman, M.A.; P. R. Lowe, O.B.E., M.A.; G. C. Robson, M.A. ..... £475 to £800

Assistants, N. B. Kinnear; H. A. Baylis, D.Sc.; A. K. Totton, M.C.; M. A. C. Hinton; J. R. Norman; C. C. A. Monro, M.A.; H. W. Parker, M.A.; M. Burton, M.Sc. ..... £250 to £440

Clerk, Higher Grade, T. Wells ..... £300 to £400

Keeper of Entomology, C. J. Gahan, D.Sc. £1,000

Deputy do., Maj. E. E. Austen, D.S.O. £900

Assistant Keepers, J. H. Durrant; G. J. Arrow; J. Waterston, D.Sc.; K. G. Blair, B.Sc. ..... £475 to £800

Assistants, F. W. Edwards, M.A.; N. D. Riley; F. Laing, B.Sc.; W. H. T. Tams; W. E. China, M.A. ..... £250 to £440

Keeper of Geology, E. A. Bather, D.Sc., F.R.S. £1,000

Assistant Keeper, W. D. Lang, M.D. ..... £475 to £800

Assistants, W. N. Edwards, M.A.; L. R. Cox, M.A.; E. I. White, B.Sc.; A. T. Hopwood, M.Sc.; W. E. Swinton, B.Sc.; T. H. Withers ..... £250 to £440

Keeper of Mineralogy, G. T. Prior, D.Sc., F.R.S. £1,000

Assistant Keepers, L. J. Spencer, M.A., D.Sc.; W. Campbell Smith, M.C., M.A. ..... £475 to £800

Assistant, E. D. Mountain, M.A. ..... £250 to £440

Clerk, Higher Grade, T. F. Vincent ..... £300 to £400

Keeper of Botany, A. B. Rendle, D.Sc., F.R.S. £1,000

Assistant Keepers, A. Gepp, M.A.; J. Ramsbottom, O.B.E., M.A.; A. J. Wilmott, B.A. ..... £475 to £800

Assistants, D. D'O. Good, B.A.; A. W. Exell, B.A.; G. Tandy, B.A. ..... £250 to £440

Clerk, Higher Grade, J. Ladbrook ..... £300 to £400

THE SCIENCE MUSEUM.

South Kensington, S.W. 7.

Open daily, except Good Friday and Christmas Day, 10 to 6; Sunday, 2.30 to 6. Admission free. *Science Library*, Imperial Institute Road, S.W. 7. Attached to the Science Museum, containing 170,000 works and periodicals on pure and applied science, and a set of British patent specifications.—Open, on week-days, 10 to 6 (Th. and Sat. to 8) Admission free.

The Science Museum was instituted in 1883 under the Science and Art Department as a part of the South Kensington Museum, and to it was added in 1883 the Collections of the Patent Museum. In 1909 the administration of the Science Collections was separated from that of the Art Collections, which were transferred to the Victoria and Albert Museum. The Collections in the Science Museum illustrate the application of science to industry and the development of scientific and industrial instruments, apparatus and machinery. The divisions are: (*a*) Industrial Engineering; (*b*) Mechanical Engineering, Land Transport and Construction; (*c*) Water Transport and Air Transport; (*d*) Science and Scientific Instruments.

Director and Secretary, Col Sir H. G. Lyons, D.Sc., F.R.S. £1,200

Higher Clerical Officer, G. C. Ledger ..... £300 to £400

Industrial Machinery Division.

Deputy Keeper, A. J. Spencer, M.I.Mech.E. ..... £600 to £700

Assistants, F. St. A. Hartley, A.C.G.I.; R. F. G. Denman, B.A. ..... £250 to £400

Engineering Division.

Keeper, H. W. Dickinson, M.I.Mech.E. (*Secretary to Advisory Council*) ..... £750 to £900

Assistant Keeper, E. A. Forward, A.R.C.S., M.I.Mech.E. ..... £400 to £600

Assistants, G. F. Westcott, B.A.; F. G. Skinner, B.Sc. ..... £250 to £400

Water and Air Transport Division.

Keeper, G. L. Overton, A.R.C.S. ..... £750 to £900

Assistants, M. J. B. Davy; G. S. Laird Clowes, M.A. ..... £250 to £400

Science Division.

Deputy Keeper, D. Baxandall, A.M.C.S. ..... £600 to £700

Assistants, Capt. H. Shaw, M.Sc.; E. Lancaster Jones, B.A.; A. Barclay, A.R.C.S. ..... £250 to £400

Science Library.

Deputy Keeper, S. C. Bradford, B.Sc. ..... £600 to £700

THE VICTORIA AND ALBERT MUSEUM,

South Kensington, S.W. 7.

Open on Mon., Tu., Wed., and Fri. from 10 a.m. to 5 p.m.; on Th., Sat. and Bank Holidays from 10 a.m. till 9 p.m. except Good Friday and Christmas Day. Admission free. Persons desiring to use the Library must apply for a ticket. The Indian Section, containing collections illustrating the arts and industries of the Indian Empire, is situated in the Imperial Institute Road; open free every day, same hours as above. On Sundays the Indian Section and all other Departments of the Museum, with the exception of the Library and the Circulation Department, are open from 2.30 p.m. till 6 p.m.

The history of the Museum may be said to begin in 1852, when the Museum of Ornamental Art was founded at Marlborough House. The collection consisted of certain objects which had been purchased at the 1851 Exhibition, "on account of the excellence of their art and workmanship," at a cost of £5,300, together with other specimens purchased for the use of the various Schools of Design since 1837, and dispersed among them. Additions have since been made by purchase, gift, and bequest. The Museum contains nine departments, viz.:—Architecture and Sculpture; Ceramics; Engraving, Illustration and Design; Metal-work; Paintings; Woodwork; Textiles; Library (books on art); and the Department of Circulation. The older parts of the building were erected between 1856 and 1884; the new buildings were completed in 1909. The administrative expenses were estimated at £134,272 in 1926–27, and were met by a vote under Education, Science, and Art. The branch museum at Bethnal Green (administrative expenses 1926–27, £6,921) was opened in 1872. The buildings were removed from South Kensington, and re-erected on land purchased for the purpose locally.

Director and Secretary, E. R. D. Maclagan, C.B.E., F.S.A. ..... £1,200 to £1,500

Secretariat.

Museum Superintendent, A. V. Fullerton ..... £500 to £600

Staff Clerk, C. E. Fish ..... £400 to £500

Department of Architecture and Sculpture.

Deputy Keeper, R. P. Bedford £900

Assistant, Miss M. H. Longhurst ..... £230 to £390

Department of Ceramics.

Keeper, B. Rackham £1,000

Assistants, H. E. Read, B.Sc., M.C.; W. A. Thorpe; W. B. Honey ..... £250 to £440

* Also Secretary to the Advisory Council.

DEPARTMENT OF ENGRAVING, ILLUSTRATION, AND DESIGN, AND OF PAINTINGS.

Keeper, M. Hardie, R.L., R.E. £1,000

Assistant, A. K. Sabin ..... £250 to £440

NATIONAL DEBT OFFICE,
19 Old Jewry, E.C. 2.

The National Debt Commissioners were appointed under 26 Geo. III., c. 31 (1786), by which a permanent Sinking Fund was to be established, and a sum of £250,000 issued quarterly to be applied towards the reduction of the National Debt, being commonly spoken of as "Mr. Pitt's Sinking Fund." In 1829 this was superseded by appropriating the surplus income of the year to the Sinking Fund, and this was commonly known as "The Old Sinking Fund." In 1875 "The New Sinking Fund" was set up by Sir Stafford Northcote, and in 1923 another "New" Sinking Fund was set up by Mr. Baldwin. These, with other funds detailed on p. 482, now mainly operate in reducing the Debt. The Commissioners are at the present time the Speaker, the Chancellor of the Exchequer, the Master of the Rolls, the Lord Chief Justice, the Paymaster-General, and the Governor and Deputy-Governor of the Bank of England. The administrative expenses of the Board were estimated at £16,920 in 1926-27.

Comptroller-General, Sir Thomas L. Heath, K.C.B., K.C.V.O., F.R.S. £4,500
Private Secretary, R. W. Illing £100
Assist. Comptroller and Actuary, H. Weatherill, O.B.E., F.I.A. ..... £1,050 to £1,250
Chief Clerk, W. F. Doust, I.S.O. £1,000
Principal Clerks, W. F. Doust, I.S.O.; E. S. Jones, O.B.E., F.I.A.; E. W. Kitson, A.I.A. ..... £550 to £700
Assistant do., J. Bree; C. B. Hobbins; G. Rackham; H. R. Powell; A. Mackenzie, and H. R. Say (*acty.*) ..... £400 to £500
Brokers, Messrs. Mullens, Marshall, Steer, Lawford & Co. £2,000

NATIONAL GALLERY.
Trafalgar Square, W.C. 2.

Open 10–4, 5 or 6, according to season. Paying days (6*d*.), Thursday and Friday. Open free other days; Sunday, from 2 to 4, 5 or 6. Closed on Good Friday, Christmas Eve, and Christmas Day.

The National Gallery is the result of a Parliamentary grant of £60,000 in 1824 for the purchase and Exhibition of the Angerstein collection of pictures, the present building being opened in 1838 and enlarged in 1865, 1876, 1887 and 1911. The cost of administration of the National Galleries (Trafalgar Square and Millbank) an 1925–26 was estimated at £29,723.

Director, Sir Charles John Holmes ..... £1,200 to £1,500
Keeper and Secretary, C. H. Collins Baker £900
Assistants, H. I. Kay; W. G. Constable £250 to £600

NATIONAL GALLERY, MILLBANK.
(The Tate Gallery), Millbank, S.W. 1.

Students' days, Tuesday and Wednesday, 6*d*.; other days free. For hours and Sundays *see* National Gallery.

The National Gallery, Millbank, better known as "The Tate Gallery," was opened in 1897 on the site of Millbank Gaol, the cost of erection (£80,000) being borne by Sir Henry Tate, who also contributed the nucleus of the present collection. The "Turner Wing," built at the expense of the late Sir Joseph Duveen, Bart., was opened to the public in 1910. The Gallery now includes a gallery for Modern Foreign Art and a gallery for Sargent's works, the gift of Sir Joseph Duveen.

Director, Charles Aitken £1,000
Asst. Keeper, James R. Manson ..... £250 to £600
Assistant, H. S. Ede ..... £250 to £600

NATIONAL PORTRAIT GALLERY.
St. Martin's Place, Charing Cross, W.C. 2.

Open free on Monday, Tuesday, Wednesday and Saturday from 10 to 4, 5, or 6, according to season; free on Sunday, 2.30 to 5.30 (2 to 4 in winter); Thursday and Friday (Students' days) admission 6*d*. from 10 to 4 or 5.

The first grant to the institution was made in 1856; the collections being successively housed in Great George Street, Westminster, in South Kensington, and in Bethnal Green. The present building was opened in 1896, £80,000 being contributed to its cost by Mr. W. H. Alexander. The amount for salaries and expenses, including a grant of £894 for purchase of portraits, was estimated at £7,732 in 1925–26.

Director, Keeper, and Secretary, James D. Milner, F.S.A. £900
Assistant to Director, C. K. Adams ..... £200 to £400

By the National Health Insurance Act, 1924, it is provided that the accounts of Approved Societies and Branches, and Insurance Committees shall be submitted to audit by auditors appointed by the Treasury. This Department was created by the Treasury Minute of August 6, 1912.

Chief Auditor & Secretary, W. A. Middleton, O.B.E. £1,200
Chief Inspector of Audit, M. W. Dixon £900
Clerk in Charge of Accounts, R. McCormack ..... £400 to £500
Registrar, C. H. W. O'Brien, M.B.E. ..... £400 to £500
Inspectors of Audit, (5) : *Auditors, Cl. I.* (13), *Cl. II.* (24) ; *Assistant Auditors*, (27).

H.M. NAUTICAL ALMANAC OFFICE,
Royal Naval College, Greenwich, S.E. 10.

The "Nautical Almanac" was first published for 1767, by H.M. Admiralty, under whose control the office now remains. The expenses of preparation were estimated at £4,458 in 1924-25.

Superintendent, P. H. Cowell, D.S.E.C., F.R.S. £700
Deputy do., L. J. Comrie, PH.D., F.R.A.S. ..... £350 to £500
Assistant, W. F. Doak, M.A., F.R.A.S. ..... £300 to £450

OBSERVATORIES.

Royal Observatory, Greenwich.

The Royal Observatory was founded by Charles II. in 1675, the building, designed by Moore and Wren, being opened in 1676. The administrative expenses of the Observatory are estimated at about £3,000 annually.

Astronomer Royal, Sir F.W. Dyson, M.A., D.SC., LL.D., F.R.S. ..... £1,000 to £1,200
Chief Assistants, J. Jackson, M.A., D.SC., F.R.A.S. ; W. M. H. Greaves, M.A., F.R.A.S. ..... £500 to £700
Assistants, Andrew C. D. Crommelin, D.SC., F.R.A.S. ; C. Davidson, F.R.A.S. ; W. Bowyer, F.R.A.S. ; W. M. Witchell, B.SC., F.R.A.S. (*Magnetic and Meteorological*) ..... £200 to £600
Junior do. (*Higher Grade*), H. Furner, F.R.A.S. ; P. J. Melotte, F.R.A.S. ; W. Stevens, F.R.A.S. R. T. Cullen, F.R.A.S. ..... £300 to £400
Clerical Assistant, D. J. R. Edney, F.R.A.S. ..... £300 to £400

Royal Observatory.
Blackford Hill, Edinburgh.—£1,657.

Astronomer Royal for Scotland, R. A. Sampson, D.SC., F.R.S. £400
First Asst. Astronomer, J. Storey, F.R.A.S. £350 to £450
Asst. Astronomers, R. W. Wrigley, M.A. ; E. A. Baker, B.SC. ..... £200 to £350

Royal Observatory, Cape of Good Hope.

Astronomer, Harold Spencer Jones, M.A., D.SC., F.R.A.S. £967 to £1,067
Chief Assist., J. K. E. Halm, PH.D., F.R.A.S. £667 to £867
Assistants, R. W. Cheesman ; W. H. Cox ; R. Woodgate £325 to £725

Other Astronomical Observatories.

DEPARTMENT OF OVERSEAS TRADE.
(Joint Department of the Foreign Office and the Board of Trade).

35 Old Queen Street, S.W. 1. (Victoria 9040.)
City Branch Office, 73 Basinghall Street, E.C. 2. (London Wall 4723.)

For H.M. Trade Commissioners, *see* p. 572.

For H.M. Commercial Diplomatic Officers, *see* pp. 720 to 722.

This Department was formed during the autumn of 1917 as a joint Department under the Foreign Office and Board of Trade, and is represented in Parliament by a Parliamentary Secretary, who occupies the position both of Additional Parliamentary Under-Secretary of State for Foreign Affairs and of Additional Parliamentary Secretary for the Board of Trade. The Department is concerned mainly with the promotion and development of Overseas Trade, and comprises the former Department of Commercial Intelligence of the Board of Trade and a part of the Foreign Trade Department of the Foreign Office. It has, in addition, taken over certain functions formerly performed by the Foreign Office in connexion with Commercial Intelligence and with the Commercial Diplomatic and Consular Services. The cost of administration was estimated at £337,040 in 1926-27.

Parliamentary Sec., Arthur Michael Samuel, M.P. £2,000
Private Secretary, C. M. Pickthall.
Do. (*Parly.*), Sir Hugh Lucas-Tooth, Bt., M.P., *unpaid*
Comptroller-General, Sir William H. Clark, K.C.S.I., C.M.G. £1,800
Private Secretary, J. A. Stirling.
Directors, R. W. Matthew, C.M.G (*Empire, Trades & Economic Dim.*) ; Sir E. T. F. Crowe, C.M.G. (*Foreign Dim.*) ; Lt.-Col. H. W. G. Cole, C.S.I., O.B.E. (*Exhibitions & Fairs Dim.*) ..... £1,000 to £1,200

Enquiry Room Clerks, F. Doy; A. R. Starck .....£200 to £300
Chief Superintendent of Typists, Miss M. G. E. Beresford .....£200 to £230

Export Credit Guarantee Department.

31-32 King Street, E.C. 2. (London Wall 4773.)
Manager, F. H. Nixon (*seconded from H.M. Treasury*) (*and allowance*) £700 to £900
Assistant Managers, A. Mullins (*Secretary*), £700 to £900; J. Beynon, M.B.E. .....(*inclusive*) £1,000
Accountant, R. E. Johnston .....£400 to £500

IMPERIAL INSTITUTE.

South Kensington, S.W. 7.

The Imperial Institute was erected as a memorial of the Jubilee of Queen Victoria (1887-1897). By the Imperial Institute Management Act of 1916 it was placed under the control of the Secretary of State for the Colonies, assisted by an Executive Council composed of twenty-five members. As a result of resolutions passed at the Imperial Economic Conference held in London in 1923, it was decided to amalgamate the Institute and the Imperial Mineral Resources Bureau, and, in accordance with this decision, a new Act entitled "The Imperial Institute Act, 1925," was passed in that year to give effect to the amalgamation. The management of the Institute, as thus reconstructed, was transferred to the control of the Parliamentary Secretary of the Department of Overseas Trade, who, as the responsible Minister, is assisted by a Board of Governors' of which particulars are given below. The principal work of the Imperial Institute is the promotion of interimperial trade in raw materials, (1) by investigations with a view to utilisation, (2) by supplying information as to sources, quality and uses, and (3) by exhibitions illustrative of the resources of the Empire. The principal department of the Institute are:—(1) Permanent Empire Exhibition. The Exhibition Galleries are open to the public free from 10 a.m. to 5 p.m. Sundays 2.30 p.m. to 6 p.m.). After a complete reorganisation of the exhibits and their disposition in the various Courts, the collections illustrate the products and also the scenery and life of the different countries of the British Empire. There is a Central Stand for distribution of literature and for dealing with enquiries. Lecture demonstrations are given to parties from the schools and to members of the public at stated times. (2) Plant and Animal Products Department. This department deals with all investigations and inquiries relating to Foodstuffs, Oil-seeds, Essential Oils, Rubber, Fibres, Tobacco, Timbers, Gums and Resins, and such-like products. An Advisory Council has been appointed of technical advisory committees, including representatives of the trades or industries concerned, co-operate in the work on Rubber, Timber, Silk, Vegetable Fibres, Animal Fibres, Tanning Materials, Essential Oils, Resins, Oils and Oil-seeds. (3) Mineral Resources Department. This department is responsible for dealing with all enquiries and investigations of a mineral nature. An Advisory Council on Minerals has been appointed and there are 25 advisory technical committees, each dealing with a special group of minerals and metals.

BOARD OF GOVERNORS.

President, Arthur Michael Samuel, M.P. (*Parliamentary Secretary, Department of Overseas Trade*).
Vice-President, Sir William Clark, K.C.S.I., C.M.G. (*Comptroller-General, Department of Overseas Trade*).

Keeper of Cotton Marks (Manchester Branch), W. H. Quinn ..... £450 to £600

Clerk of the Register of Textile Designs (Manchester Branch), H. J. E. Easton ..... £300 to £450

PAYMASTER-GENERAL'S DEPARTMENT.

Whitehall, S.W. 1.

The Paymaster-General's Office was formed by the consolidation in 1835 of various separate pay departments then existing, some of which dated back at least to the restoration of 1666. Its function is that of paying agent for the different Government Departments, other than the Revenue Departments. The majority of its payments are made through banks (to whose account the necessary transfers are made at the Bank of England), but cash payments are also made, and the payment of pensions is an important feature of its work. The Department also constitutes the machinery for deducting Income Tax from the salaries, pensions, &c., which it handles. The Establishment expenses were estimated at £88,000 in 1926-27.

Paymaster-General, The Duke of Sutherland ..... *unp.*

Assistant Paymaster-General, Roland Wilkins, C.B. £1,500

Private Sec., E. G. Harwood.

PORT OF LONDON AUTHORITY.

Head Office, E.C. 3.

The Port of London Authority, established under the Port of London Act, 1908 (8 Edw. VII., ch. 69), on the 31st March, 1909, for the purpose of administering, preserving, and improving the Port of London, consists of 28 members—10 appointed and 18 elected.

The following undertakings were transferred to the Port Authority as from the 31st March, 1909:—Thames Conservancy (all rights, powers, and duties of the Conservators of the Thames in respect of the river below Teddington); London and India Docks Company; Surrey Commercial Dock Company; Millwall Dock Company; and Watermen's Company, except certain property and funds. The working of the Port for the year ended March 31, 1926, showed a deficit of £6,528 and £517,340 carried forward.

Chairman, Rt. Hon. Lord Ritchie of Dundee.
Vice-Chairman, C. F. Leach.

APPOINTED MEMBERS.

By the Admiralty, Vice-Adm. Sir F. C. Learmonth, K.B.E., C.B.; (*Ministry of Transport*) J. D. Gilbert, H. Gosling, C.H., M.P.; (*Corporation of London*) Lord Ritchie of Dundee, J. M. R. Francis; (*L.C.C.*) J. P. Blake, W. Devenay, Vice-Adm. Hon. Sir A. D. E. H. Boyle, K.C.B., C.M.G., M.V.O., H. J. Greenwood; (*Trinity House*) Captain Sir Arthur W. Clarke, K.B.E.

ELECTED MEMBERS.

Seventeen members are elected by payers of dues, wharfingers and owners of river craft, and one by wharfingers.

F. C. Allen; F. W. Bellamy; Capt. Sir I. H. Benn, Bart., C.B., D.S.O.; Sir A. C. Cory-Wright, Bart.; J. H. Glover; C. S. S. Guthrie; C. F. Leach; W. J. McAlister; Sir C. C. Mcleod, Bart.; Capt. J. L. V. Millett; A. Murray; O. H. Smith; C. F. Torrey; Sir M. C. Turner; W. Walker; Rt. Hon. Thomas Wiles, P.C.; W. Varco Williams; Sir John Wimble, K.B.E.

Officers.

General Manager, D. J. Owen.
Secretary, F. Ayliffe.
Solicitor, J. D. Ritchie, M.C.

POST OFFICE.

Chief Office, St. Martin's-le-Grand, E.C. 1.

A House of Commons report in 1844 states: "It is uncertain at what precise period the Crown undertook to be the regular carrier of letters for its subjects." The first "Master of the Posts" was appointed in 1516, but the duty was not then undertaken as a remunerative department of the Government. The Post Office is now one of the three great revenue-collecting departments, and while efficiently discharging its multifarious duties, shows a large annual profit. It also receives large sums for duties and taxes on behalf of the Inland Revenue Department, for certain licenses for the Customs and Excise Department and the County Councils, and for National Insurance on behalf of the National Health Insurance Commissioners and the Board of Trade. The Post Office also pays Old Age Pensions. The Penny Post was inaugurated in 1839, the Book Post in 1848, the Post Office Savings Bank in 1861, the Post Office Telegraphs in 1870, the Money Order Office in 1792, Postal Orders in 1881, the Parcel Post in 1883, and the Telephone Service in 1892. The expenses of the Post Office (Salaries, Wages, &c., only) were estimated at £36,533,900 in 1926-27.

Postmaster-General, The Right Hon. Sir William Lowson Mitchell-Thomson, Bt., K.B.E., M.P. £2,500
Private Secretary, T. Daish, M.C.
Parliamentary do., Sir John Ganzoni, M.P.....*unpaid.*

Assist. Controller (Postal), J. Munnoch £480 to £540
Assist. Controller (Telegraph), J. Griffiths £480 to £540

PRIVY COUNCIL OFFICE, Whitehall, S.W. 1.

The Privy Council is of very ancient origin. A Council, the number of which was about twelve, was instituted by Alfred, 895, and it discharged the functions of State now confined to members of the Cabinet. In the Middle Ages the Chief Advisers of the King who were permanently about him formed the Privy Council. Having become unwieldy, it was reconstituted in 1679. At present it consists of certain eminent persons whose names are given on pp. 233-4. Members of the Cabinet must be Privy Counsellors, and they principally form the acting Privy Council. The Council is summoned as such to act "with others" upon the demise of the Crown, and many matters are referred by the Sovereign to Committees of the Council, some of which are standing Committees, and others constituted to deal with particular cases, *e.g.*, the Judicial Committee, the Board of Trade, *q.v.* The Lord President of the Council is the Fifth Great Officer of State, and as such is always a prominent member of the Cabinet.

Lord President of the Council, Rt. Hon. Earl of Balfour, K.G., O.M. £2,000
Private Secs., Maj. Hon. E. C. Lascelles, D.S.O., M.C.; Capt. A. C. Graham ..... *unp.*

PUBLIC WORKS LOAN BOARD,
Old Jewry, E.C. 2.

The Public Works Loan Board was created in 1817 for the purpose of advancing money to Municipal Authorities for Public Works. During the financial year 1925-26 the Commissioners approved loans amounting to £34,103,949, viz., £33,378,947 out of the Local Loans Fund and £725,002 out of the Land Settlement (Public Works Loan) Account (which expired on March 31, 1926). Of the total granted out of the Local Loans Fund the sum of £19,039,439 was for purposes of the Housing Acts.

The average rate of interest was:—

£ s. d.		
4 15 10	per cent. in	1925-26
4 15 8	"	1924-25
4 15 8	"	1923-24
5 7 2	"	1922-23
6 3 10	"	1921-22
6 9 9	"	1920-21
5 15 7	"	1919-20
4 9 7	"	1918-19

By the Agricultural Credits Act, 1923, the Commissioners are empowered to grant loans to persons who purchased their property between April 5, 1917, and June 23, 1921. The land must be mainly agricultural. The period within which loans may be granted is limited to 5 years from the date of the passing of the Act (July 31, 1923), and the aggregate amount of the loans will be such as is approved by the Treasury.

Chairman, The Lord Hunsdon ..... *unp.*
Deputy-Chairman, Laurence Currie ..... *unp.*
Secretary, H. G. H. Barnes £1,500
Assist. Secretary (Legal), D. F. Buckley ..... £600 to £800
Assist. do. and Chief Clerk, H. A. Clark, B.Sc. ..... £600 to £800

QUEEN ANNE'S BOUNTY,

3 Dean's Yard, S.W. 1.

Incorporated in 1704, when Queen Anne, with the consent of Parliament, transferred to the Governors the annual income of the "first fruits" and "tenths" derived from the sees, dignities, and benefices, with a view to the augmentation of insufficiently endowed livings. By the *First Fruits and Tenths Measure*, 1926, these payments have been extinguished with a few exceptions, but the extinguishment does not affect First Fruits charged in respect of an appointment made before July 26, 1926, or Tenths or annual sums payable in lieu of First Fruits or Tenths which fell due before that date. The surplus income from capital held by the Governors is distributed in grants towards the relief of dilapidation assessments on benefices not exceeding £250 in net annual value; the total amount so available for the year ended Dec. 31, 1926, was £40,110. They are the Central Authority under the *Ecclesiastical Dilapidations Measure*, 1923, and important duties have been laid upon them in connection with ecclesiastical tithe rentcharge under the *Tithe Act*, 1925. The Governors act as trustees for endowments and many descriptions of Church funds. They are also empowered to lend money upon mortgage of benefices for improvements of parsonage houses and farm buildings, and for dilapidations.

Secretary and Treasurer, F. G. Hughes.
Assistant Secretary, W. G. Hannah.
Head of Dilapidation Department, D. F. Smeaton.
Head of Tithe Department, W. Russell.
Deputy do., C. S. Amsden.
Solicitor, E. J. Hare.
Asst. Solicitors, N. H. Oldham; L. R. C. Cornford.
Architect, Martin Conner.
Asst. Architect, A. P. Lay.
Accountant, M. S. Rogers.
Asst. Accountant, H. R. Ford.
1st Class Clerks (Senior Division), R. G. Rowland; E. Jump; W. J. P. Smith; W. Holford; S. D. Knight.
2nd Class Clerks (Junior Division), A. G. Spencer; J. H. Hurdman; W. J. Gibson; G. C. Baird; F. E. Willott; R. E. Darby.

DEPARTMENT OF SCIENTIFIC AND INDUSTRIAL RESEARCH,

16 Old Queen Street, Westminster, S.W. 1.

The Committee of the Privy Council for Scientific and Industrial Research was appointed by Order in Council dated July 28, 1915, to direct, subject to such conditions as the Treasury may from time to time prescribe, the application of any sums of money provided by Parliament for the organisation and development of Scientific and Industrial Research. The Order in Council also appointed an Advisory Council to whom all proposals for researches stand referred. By Charter dated November 23, 1916, the members of the Committee of the Privy Council were created a Body Corporate under the name of "The Imperial Trust for the Encouragement of Scientific and Industrial Research" to hold and dispose of money and other property for the purposes of the Committee. On December 13, 1916, a separate Department, having its own Parliamentary Vote, was created for the service of the Committee.

The aggregate net estimate for the Department in 1926-7 amounts to £442,877, an increase of £62,614 on the same estimate for 1925-6. The gross estimate amounts to £586,895. Headquarters administration, £34,378; Grants for Research, £37,000; Research Work and Research Establishments (except Geological Survey and Museum), £447,307; Geological Survey of Great Britain and Museum of Practical Geology, £68,210.

President of the Committee of the Privy Council, The Lord President of the Council.
Vice-Chairman of the Committee of Council, The President of the Board of Education.
Advisory Council, Sir William M'Cormick, LL.D. (*Administrative Chairman*); Prof. T. H. Blackman, SC.D., F.R.S.; Prof. Sir John Cadman, K.C.M.G., D.SC.; Prof. H. C. H. Carpenter, F.R.S.; Dr. G. C. Clayton, C.B.E., M.V.O.; Prof. F. G. Donnan, C.B.E., D.SC., LL.D., F.R.S.; Sir William B. Hardy, D.SC., F.R.S.; Principal Sir James C. Irvine, C.B.E., D.SC., LL.D., F.R.S.; J. H. Jeans, Esq., D.SC., LL.D., SEC.R.S.; Prof. F. A. Lindemann, F.R.S.; Sir Joseph J. Thomson, O.M., D.SC. LL.D., F.R.S.
Secretary to the Council, Sir H. Frank Heath, K.C.B.

Headquarters Staff.

Secretary, Sir H. Frank Heath, K.C.B. £2,200
Private Secretary, A. F. Barnes.
Principal Assistant Secretary, H. T. Tizard, F.R.S. £1,200 to £1,500
Assistant Secs., Ll. S. Lloyd, C.B.; A. L. Hetherington £1,000 to £1,200
Controller of Records, C. R. Young, O.B.E., D.SC. £700 to £900
Principals, E. Barnard, D.S.O.; L. C. Bromley; W. A. M. Murray; R. O'F. Oakley; P. J. Wheeldon (*Establishment Officer*) ..... £700 to £900
Assistant Principals, A. F. Barnes; O. F. Brown; I. G. Evans; G. R. D. Hogg ..... £300 to £500
Technical Officer, C. A. Spencer..... £350 to £450
Assistant Accountant, A. R. H. Cox ..... £400 to £500
Staff Officer, C. D. James ..... £400 to £500
Higher Grade Clerks, W. F. Law; W. V. Lodge, £300 to £400; Miss M. Robb..... £230 to £300

Building Research.

Chairman, Maj.-Gen. Sir Gerard Heath, K.C.M.G., C.B., D.S.O.

Building Research Station.

Bucknalls, Garston, near Watford.

Director of Research, R. E. Stradling, M.C., PH.D., D.SC., A.M.INST.C.E. £1,000
Principal Assistant, W. N. Thomas, D.PH. £650 to £750
Senior Assistants, F. W. Barnett; A. Zaiman £500 to £600
Assistants, B. Bakewell; A. F. Dufton, £350 to £450; F. L. Brady; A. D. Cowper; N. Davey; R. Fitzmaurice; W. H. Glanville; F. M. Lea; E. Madgwick, M.C.; F. E. Relton ..... £250 to £350
Assistant Accountant, Miss E. A. Leighton £300 to £400

Chemical Research.

Director of Research, Sir Richard Threlfall, K.B.E., F.R.S. (*part-time*)

Chemical Research Laboratory.

Teddington, Middlesex.

Superintendent, Prof. G. T. Morgan, O.B.E., D.SC., F.R.S. £1,000
Assistants, R. Taylor, £350 to £450; A. A. Drummond; J. G. Mitchell, PH.D.; D. D. Pratt ..... £250 to £350

Food Investigation.

Chairman of Board and Director of Research, Sir William B. Hardy, F.R.S.

Low Temperature Research Station.

Downing Street, Cambridge.

Superintendent, Sir William B. Hardy, F.R.S. (*part-time*)
Principal Assistant, F. Kidd, D.SC. ..... £650 to £750
Assistants, C. West, D.SC., £350 to £450; F. H. Callow, PH.D.; T. Moran, PH.D.; J. J. Pigué; A. J. Smith £250 to £350

Forest Products Research.

Chairman of Board, Principal Sir James Irvine, C.B.E., D.SC., LL.D., F.R.S.
Director of Research, R. S. Pearson, C.I.E., F.I.S. £1,000 to £1,200
Assistant Director, F. M. Oliphant..... (*inclusive*) £800
Timber Mechanics Officer, C. J. Chaplin (*inclusive*) £1,000
Timber Utilization Officer, Major J. R. Cosgrove, D.S.O., M.C. ..... (*inclusive*) £1,000
Assistants, A. N. David; J. F. Martley; F. M. Mooney; S. T. C. Stillwell.

Fuel Research.

Chairman of Board, Sir Richard T. Threlfall, K.B.E., F.R.S.
Director of Research, C. H. Lander, D.SC. £1,200
Assistant Director and Superintendent of Survey, F. S. Sinnatt, M.B.E., M.SC. £1,000
Assistant to the Director, Maj. E. O. Henrici £700 to £900
Intelligence Officer, Sir Frederic L. Nathan, K.B.E. (*part time*)
Registrar of Survey, Miss N. Renouf ..... £250 to £350

Fuel Research Station.
Blackwall Lane, East Greenwich, S.E. 10.,

Chief Engineer, Eng.-Capt. J. Fraser Shaw, R.N. £1,100
Chief Chemist, J. G. King, PH.D.....£650 to £750
Senior Assistants, A. Blackie, £500 to £600; A. T. Barber .....£370 to £550
Assistants, W. J. Skilling, £350 to £450; T. F. Hurley; D. McDougall; A. B. Manning.....£250 to £350
Staff Officer, C. B. Fitzgerald .....£400 to £500

Physical and Chemical Survey of National Coal Resources.
Assistant, L. Slater, PH.D. (*South Yorks area*), £350 to £450

British Museum Laboratory.

Director, Dr. Alexander Scott, SC.D., D.SC., F.R.S.
Assistant, H. J. Plenderleith, M.C., PH.D. £250 to £350

Radio Research Station.

Ditton Park, Langley, Bucks.

Senior Assistant, R. A. Watson Watt.....£500 to £600
Assistants, R. H. Barfield; S. R. Chapman; J. F. Herd £250 to £350

Geological Survey of Great Britain and Museum of Practical Geology.

Head Offices: Jermyn Street, London, S.W. 1., and 33, George Square, Edinburgh. (Branch Offices at Manchester, Newcastle-on-Tyne, Whitehaven and York.)

The Geological Survey and Museum was commenced in 1832; it was under the Science and Art Department from 1853 till 1900, when that Department became merged in the Board of Education. On Nov. 1, 1919, the administrative control of the Survey and Museum was transferred to the Committee of the Privy Council for Scientific and Industrial Research. The normal work of the Survey includes the preparation of geological maps and memoirs dealing with the general survey of the country and with various economic aspects of that survey. The Museum of Practical Geology conserves and exhibits rocks, minerals and fossils which afford evidence for the published records of the survey or illustrate that survey. It is also a function of the Museum to exhibit economic minerals from all parts of the world, and especially Great Britain.

Chairman of Geological Survey Board, Sir Francis G. Ogilvie, C.B., LL.D.
Director of Survey and Museum, Sir John S. Flett, K.B.E., D.SC., LL.D., F.R.S. £1,200
Assistants to Director, J. A. Howe, O.B.E. (*England*); M. Macgregor (*Scotland*) .....£800 to £900
District Geologists, E. B. Bailey, M.C.; C. E. N. Bromehead; T. C. Cantrill; R. G. Carruthers; H. Dewey; C. H. Dinham; F. L. Kitchin, SC.D., PH.D. (*Paleontologist*); J. E. Richey, M.C.; B. Smith, SC.D.; H. H. Thomas, SC.D. (*Petrographer*); W. B. Wright.....£650 to £750
Senior Geologists, E. M. Anderson; E. E. L. Dixon; T. Eastwood; G. W. Lee, D.SC.; R. W. Pocock; J. Pringle; H. H. Read, D.SC.; R. L. Sherlock, D.SC.; C. B. Wedd; T. H. Whitehead; G. V. Wilson; D. A. Wray .....£450 to £650
Geologists, J. K. Allan; W. Anderson; G. A. Burnett; C. P. Chatwin; R. Crookall, PH.D.; H. G. Dines; F. H. Edmunds; W. N. Edwards; V. A. Eyles; A. Fowler; D. Haldane; S. E. Hollingworth; R. C. B. Jones, M.C.; J. Knox; W. Lloyd; A. G. MacGregor, M.C.; J. Maden; J. Phemister; T. Robertson, PH.D.; G. Ross; J. B. Simpson; J. V. Stephens; L. H. Tonks; F. M. Trotter.....£250 to £450
Staff Officer, E. G. W. Elliott .....£400 to £500
Superintendents] of Maps, A. E. N. Haynes; G. G. Torkington .....£200 to £350

Museum of Practical Geology.
Jermyn Street, London, S.W. 1.

Curator and Librarian, W. F. P. McLintock, D.SC. £650 to £750
Assist. Librarian, C. V. Crook .....£450 to £650
Asst. Curator, A. F. Hallimond.....£450 to £650

The National Physical Laboratory,

Teddington, Middlesex.

The National Physical Laboratory was founded in the year 1901 as a public institution for standardising and verifying instruments, for testing materials, and for the determination of physical constants. The Laboratory comprises eight main sections:—(1) *Physics*; (2) *Electricity*; (3) *Metrology*; (4) *Engineering*; (5) *Aerodynamics*; (6) *Metallurgy and Metallurgical Chemistry*; (7) *The William Froude National Tank*; (8) *Secretarial*.

Chairman of the General Board and Executive Committee, The President of the Royal Society.
Vice-Chairman of General Board and Executive Committee, Sir Richard Glazebrook, K.C.B., F.R.S.
Director, Sir Joseph Petavel, K.B.E., D.SC., F.R.S. (*and free residence*) £1,500
Secretary, F. J. Selby, C.B.E. .....£800 to £1,000
Finance and Establishment Officer, A. Lumley £600 to £800
Accountant, G. E. Bailey £675
Assistant to the Secretary, J. W. Christelow £450 to £550
Higher Grade Clerks, F. H. Durham; W. J. Gower; A. May; G. P. Score; H. Shepherd.....£300 to £400

Physics Department.
Superintendent, G. W. C. Kaye, O.B.E., D.SC. £800 to £1,000
Principal Assistants, E. Griffiths, D.SC., F.R.S.; W. F. Higgins; T. Smith .....£650 to £750
Senior Assistants, J. S. Anderson, PH.D., D.SC.; J. Guild; F. H. Schofield .....£500 to £600
Assistants, A. H. Davis, D.SC., £350 to £450; J. H. Awbery; I. Backhurst .....£250 to £350
Principal Observers, G. Badderly; A. C. Cooper; A. G. Williams, M.B.E. .....£305 to £350

Electricity Department.
Principal Assistants, D. W. Dye; E. H. Rayner, SC.D. £650 to £750
Senior Assistants, R. L. Smith-Rose, PH.D., D.SC. (*acting*); J. W. T. Walsh .....£500 to £600
Assistants, H. C. Booth; H. Buckley; L. Hartshorn; J. Hollingworth; R. S. J. Spilsbury, £350 to £450; W. F. Beer; F. M. Colebrook; T. I. Jones; C. E. Webb.....£250 to £350
Principal Observer, W. H. Brookes ...£305 to £350

Metrology Department.
Superintendent, R. Sears, C.B.E. £1,200
Principal Assistant, S. W. Attwell, M.B.E. £650 to £750
Senior Assistants, F. H. Rolt, M.B.E.; G. A. Tomlinson £500 to £600
Assistants, H. P. Bloxam; J. S. Clark; F. A. Gould; W. H. Johnson; W. G. Ridge; V. Stott £350 to £450
Principal Observer, H. A. Dear.....£305 to £350
Higher Grade Clerk, E. C. Cook .....£300 to £400

Engineering Department.
Superintendent, T. E. Stanton, C.B.E., D.SC., F.R.S. £1,300
Principal Assistants, R. G. C. Batson; C. Jakeman £650 to £750
Senior Assistants, A. Bailey; H. J. Gough, M.B.E.; J. H. Hyde .....£500 to £600
Assistants, R. W. Fenning, M.B.E.; G. A. Hankins; Miss D. B. L. Marshall; H. J. Tapsell, £350 to £450; J. Bradley; H. E. Smith .....£250 to £350

Aerodynamics Department.
Superintendent, E. F. Relf .....£800 to £1,000
Principal Assistant, A. Fage .....£650 to £750
Senior Assistants, L. W. Bryant; H. B. Irving; J. L. Nayler .....£500 to £600
Assistants, A. S. Batson; W. L. Cowley; R. A. Frazer; R. Jones, D.SC.; T. Lavender; C. N. H. Lock; E. Ower; L. F. G. Simmons, £350 to £450; H. Bateman; D. H. Williams .....£250 to £350
Principal Observer, T. H. Fewster .....£305 to £350

Department of Metallurgy and Metallurgical Chemistry.
Superintendent, W. Rosenhain, D.SC., F.R.S. £1,300
Principal Assistant, S. L. Archbutt .....£650 to £750
Senior Assistants, G. Barr, D.SC.; J. L. Haughton, D.SC.; W. H. Withey .....£500 to £600
Assistants, L. L. Bircumshaw; Miss M. L. V. Gayler, D.SC.; J. D. Grogan; C. H. M. Jenkins; C. B. Marryat; T. E. Rooney; V. H. Stott; A. C. Vivian; P. G. Ward, £350 to £450; F. Adcock, M.B.E.; Miss G. W. Ford; Miss I. H. Hadfield; A. J. Murphy; G. D. Preston; A. C. Sturney; N. P. Tucker £250 to £350

The William Froude National Tank.

Superintendent, G. S. Baker, O.B.E., M.inst.N.A. £800 to £1,000

Senior Assistant, J. L. P. Kent, M.inst.N.A. £500 to £600

Assistants, Miss E. M. L. Keary, £350 to £450; G. H. Bottomley; W. C. S. Wigley ..... £250 to £350

Co-ordinating Research Boards.

These Boards were established in 1920 (*a*) to provide for interchange of information between the various Government technical establishments concerning the special work which they undertake and the results achieved, so as to prevent duplication of work; though the Boards should have no executive function as regards the work of these establishments; (*b*) to arrange for the communication of such information to interested persons outside the Government service when this can be done without detriment to the public interest; and (*c*) in the case of researches not otherwise adequately provided for to make the necessary arrangements to meet the requirements of Government departments and others.

Chemistry Research Board.

Chairman, Sir Richard Threlfall, K.B.E., F.R.S.

Engineering Research Board.

Chairman, Sir Joseph E. Petavel, K.B.E., D.Sc., F.R.S.

Physics Research Board.

Chairman, Sir J. J. Thomson, O.M., F.R.S.

Radio Research Board.

Chairman, Admiral of the Fleet Sir Henry B. Jackson, G.C.B., K.C.V.O., F.R.S.

ROYAL COMMISSION FOR THE EXHIBITION OF 1851.

Offices, 1 Lowther Gardens, Exhibition Rd., S.W.7.

[Incorporated by Supplemental Charter as a permanent Commission after winding up the affairs of the Great Exhibition in 1851. It has for its object the promotion of scientific and artistic education by means of funds derived from its Kensington Estate, purchased with the surplus left over from the Great Exhibition.]

President of the Royal Commission, H.R.H. the Prince of Wales, K.G.

Chairman, Board of Management, Viscount Esher, G.C.B., G.C.V.O.

Chairman, Science Scholarships Committee, Sir Richard Glazebrook, K.C.B., F.R.S.

Secretary to Commissioners, Evelyn Shaw, M.V.O.

THE NATIONAL SAVINGS COMMITTEE, Princes House, Kingsway, W.C. 2.

SAVINGS CERTIFICATES.—The total number of Savings Certificates sold from their first issue in Feb. 1916 to Sept. 30, 1926, was 783,907,921, their cash value being £612,736,687. The amount withdrawn on that date was approximately 39 per cent. of that total. On April 1, 1922, the price of the Savings Certificate was raised from 15s. 6d. to 16s., the maturity value remaining as 20s. On Oct. 1, 1923, the maturity value was reduced to 21s.

President, Sir Robert M. Kindersley, G.B.E.

Chairman, Maj.-Gen. Rt. Hon. J. E. B. Seely, C.B., C.M.G., D.S.O., T.D.

Vice-Chairman, Sir T. G. Chambers, K.B.E.; Sir W. Schooling, K.B.E.

Members of Committee, G. Anderson, M.B.E. (*Trustee Savings Banks*); Sir A. C. T. Beck; Sir Joseph Burn, K.B.E.; Arthur Collins (*Municipal Treasurers and Accountants*); A. E. Baxter (*National Union of Teachers*); R. Connell; W. Davies, C.B.E.; J. Bevan Evans; T. L. Gilmour; R. M. Holland Martin, C.B. (*Joint Stock Banks*); A. Henstock (*Post Office*); C. Innes; G. Lamey; T. G. James, M.B.E.; Rt. Hon. Sir H. J. Mackinder; Sir A. H. Marshall, K.B.E.; J. Parker, C.B.; E. Potts, O.B.E.; W. Reep, O.B.E.; H. M. Richards, C.B. (*Board of Education*); Mrs. Ritchie, O.B.E.; G. Stuart Robertson, K.C.; W. H. Routly, F.S.A.A.; Sir George Royle, C.B.E.; J. Scott, O.B.E.; E. J. Strohmenger, C.B. (*Ministry of Health*); Rt. Hon. Stephen Walsh, M.P.; F. W. Webb, O.B.E.

Secretary, Sir Lawrence Margerison, C.B.E.

Accounting Officer, J. R. Phillips, O.B.E.

Senior Clerks, T. Jordan; J. McMillan; R. D. Kingham, O.B.E.

Director of External Organisation, Evan Hughes, C.B.E.

Commissioners, J. E. Holden, O.B.E.; P. F. Hone, D.S.O., M.C.; S. G. Jones, O.B.E.; J. A. Munday, O.B.E.; E. W. Stanger, O.B.E.; L. H. Beesley; H. J. Clare; G. G. L. Cruickshank; Miss D. Deane; E. C. H. Jones; W. F. Macdonald; Miss E. N. Macrae, M.B.E.; J. E. Thomas.

Executive Officers (*Higher Grade*), W. H. Hare, M.B.E. (*Establishment Officer*); W. C. H. Crosby; G. W. Large; S. D. Charles, M.C.; J. O. Francis (*Publicity Officer*); Miss E. G. D. Looker.

SCOTTISH SAVINGS COMMITTEE.

122 George Street, Edinburgh.

President, The Lord Strathclyde, P.C., G.B.E., LL.D., F.C.

Chairman, The Duke of Atholl, K.T., G.C.V.O., C.B., D.S.O.

Deputy Chairman, Sir Alexander K. Wright, K.B.E., D.L.

Secretary, J. L. Wells, O.B.E.

SCOTTISH OFFICE.

Dover House, Whitehall, S.W.1; and 9 Parliament Square, Edinburgh.

Secretary of State, Rt. Hon. Sir John Gilmour, Bt., D.S.O., M.P. £5,000

Private Sec., T. D. Fairgrieve, M.C. £300

Do (*Parly.*), C. M. Barclay Harvey, M.P. ..... *supp.*

Under-Secretary of State, Sir John Lamb, K.C.M.G. £2,200

Private Sec., H. Crow £150

Parliamentary Under-Secretary of State, Capt. W. E. Elliot, M.C., M.P. £1,200

Private Sec., T. F. Macleau, M.B.E. £150

Asst. Under-Secretary of State, P. J. G. Rose, C.B. £1,200 to £1,500

Assistant Secretaries, P. R. Laird; W. A. C. Goodchild; W. Hogg ..... £1,900 to £1,200

Principals, A. S. Cotton; R. N. Duke, D.S.O., M.C.; G. W. Milroy; J. E. de Watteville; F. O. Stewart ..... £700 to £900

Assistant Principals, H. Crow; T. D. Fairgrieve, M.C.; T. F. Macleau, M.B.E.; D. Millue ..... £200 to £500

Staff Clerks, H. J. Cheale; P. J. Spratt; W. Hansford (*acting*) ..... £400 to £500

Counsel to the Secretary of State, P. F. Wood, C.B., K.C.; C. Milne, Adv.

Inspector of Anatomy, Sir Norman Walker, M.D. £100

Do., Constabulary, Lt.-Col. A. G. Ferguson, C.B.E. ..... £750 to £850

Assessor of Railways & Canals in Scotland, John Alex. King. .....

STATIONERY OFFICE,

Prince's Street, Storey's Gate, S.W. 1; Gorse Street, *Hollinwood*, Lancs.; 47A George Street, *Edinburgh*; 1 St. Andrew's Crescent, *Cardiff*; Murray Street, *Belfast*.

Publications Sale Offices:—

Retail.—Adastral House, Kingsway, W.C. 2; 28, Abingdon Street, S.W. 1; 26, York Street, *Manchester*; 120, George Street, *Edinburgh*; 1, St. Andrew's Crescent, *Cardiff*; 15, Donegall Square West, *Belfast*.

Wholesale.—Cornwall House, Stamford Street, S.E. 1; 120, George Street, *Edinburgh*.

H.M. Stationery Office was established in 1786, and among its duties are the supply of books and stationery to Government Departments, and the superintendence and control of Government printing, &c., contracts. The Controller, under Letters Patent, is the King's Printer of Acts of Parliament, and in him is vested the Copyright in all Government publications. The amount estimated to pay the salaries, wages, &c., in 1926-7 was £355,754.

Controller, W. R. Codling, C.B., C.V.O., C.B.E. £1,800

Private Sec. J. G. Hughes-Roberts.

Deputy-Controller, Lt.-Col. N. G. Scorgie £1,200

Establishment Officer, J. B. Gotts, O.B.E. £700 to £900

Registrar, C. F. S. Plumbley ..... £400 to £500

Director of Accounts, A. L. Screech, O.B.E. £700 to £900

Director of Supplies, E. W. E. Liddington, O.B.E. £600 to £800

Director of Publications, G. McIsaac ..... £600 to £800

Director of Duplicating and Distributing, H. A. White ..... £600 to £800

Director of Transport, S. E. Lovatt ..... £500 to £600

Director of Printing and Binding, E. V. Emery ..... £600 to £800

Director of Printing Works, A. J. Biggs, M.B.E. £600 to £800

Chief Receiver and Examiner, E. C. Bateman, M.B.E. £500 to £625

Supt. Northern Area Branch, E. H. Chapman, M.B.E. £600 to £800

Supt. Edinburgh Branch, J. P. Stevenson, M.B.E. £500 to £600

Supt. Belfast Branch, J. A. Wright, B.SC. £400 to £500

Officer in Charge, Cardiff Branch, E. W. Garrod £300 to £400

Deputy and Assistant Heads of Divisions, &c., L. W. Hill, £500 to £650; A. Hammond (*Hollinwood*); Lt.-Col. W. Ferguson, O.B.E.; R. J. Palmer, £900 to £600

Chief Examiner of Printers' and Binders' Accounts, J. C. Rowden..... £500 to £600

THAMES CONSERVANCY,
2 Norfolk Street, Strand, W.C. 2.

The Conservation of the River Thames was granted to the Lord Mayor of London in 1487, and delegated to 12 Conservators in 1857, the powers being reconstituted in 1894. The Port of London Act, 1908, took over as from March 31, 1909, all rights, powers, and duties of the Conservators in respect of the river below Teddington.

Chairman, Rt. Hon. Lord Desborough, G.C.V.O.
Vice-Chairman, Rt. Hon. Sir T. F. Halsey, Bt.
Secretary, F. W. Geary.

BOARD OF TRADE,
Great George Street, S.W. 1.

Headquarters, Great George Street, S.W. 1; *Mercantile Marine Dept.* (*including Sea Transport, Consultative and Shipping Liquidation Depts.*), 20, Great Smith Street, S.W. 1; *General Register and Record Office of Shipping and Seamen*, Tower Hill, E. 1; *Standards Dept.*, 5 & 7, Old Palace Yard, S.W. 1.

(See also *Dept. of Overseas Trade*, and *Patent Office*.)

A Council for Trade and Plantations was instituted by King Charles II. in 1660. This paid Council was abolished in 1782, and in 1786 a Committee of the Council on Trade (which, unlike the other Council Committees, had a President of its own) was appointed. The President of the Board of Trade, as at present constituted, controls the Department principally responsible for matters relating to trade and industry. The Board deals with commercial policy generally, commercial treaties and negotiations and international questions affecting British trade. It administers statutes concerning merchant shipping and seamen, bankruptcy, joint stock companies, gas, key industries (including dyes), weights and measures, patents, designs, trade marks and copyright, and mines and quarries. It administers the Coastguard and also exercises control over the principal lighthouse authorities of the country, and, in the interests of navigation, over the construction of works on tidal lands, protects Crown and public rights in foreshores, and collects and publishes statistics of the trade and industry, shipping and navigation of this country, its Dominions and Protectorates, and foreign countries as well as particulars of customs tariffs, regulations, &c. The *Food Council* is attached to this department. Further, the Department arranges the supervision of all sea transport required for the conveyance of personnel and stores by the fighting services and other Government Departments, deals with questions relating to petroleum and publishes a weekly journal of commercial information. In addition it undertakes duties arising out of the War, *e.g.*, the liquidation of commitments entered into during Government control of food, shipping, timber, &c., and also out of the various Treaties of Peace, *e.g.*, the settlement of certain classes of debts between British and ex-enemy nationals, and of claims by British nationals for the restitution of and/or compensation for damage to British property, rights and interest in ex-enemy countries and the preparation of certain classes of claims for reparation payments. Jointly with the Foreign Office it controls the Overseas Trade Department.

President, Rt. Hon. Sir Philip Cunliffe-Lister, K.B.E., M.C., M.P. £5,000

Secretary, S. J. Page, LL.B., M.C. ..... £600 to £800

Asst. to Sec., L. C. Jackson ..... £400 to £500

TREASURY, Whitehall, S.W.1.

The Lord High Treasurer of England is the Third Great Officer of State, the office having been "in commission" (with certain intervals) since 1612. The Commissioners of the Treasury of the United Kingdom of Great Britain and Ireland consist of the First Lord, who is usually Prime Minister, the Chancellor of the Exchequer, and some Junior Lords, with certain Secretaries and a staff of officials. The duties of the First Lord are mainly political, as also are those of the Parliamentary Secretary and the Junior Lords; the duties of the Chancellor of the Exchequer are mainly financial, in that he performs the ancient duties of the Under-Treasurer and, after agreement with the heads of the great spending departments, arranges for the great collecting departments to provide sufficient moneys to meet the needs of the year. The papers are laid before Parliament in the form of a Budget, which the Chancellor opens and expounds to the House, these plans being accepted, modified, or rejected by the House.

PRIME MINISTER AND FIRST LORD OF THE TREASURY—Tho Rt. Hon. Stanley Baldwin, M.P. £5,000

Private Secs., Lt.-Col. Sir Ronald Waterhouse, K.C.B., C.M.G., C.V.O.; Sir Patrick Gower, K.B.E., C.B., C.V.O.; Geoffrey Fry, O.B. (*unp.*); C. Patrick Duff, C.V.O.; Miss E. M. Watson, O.B.E.; Hon. C. W. Baillie-Hamilton (*unp.*).

TRINITY HOUSE, Tower Hill, E.C. 3.

Trinity House, the first General Lighthouse and Pilotage Authority in the Kingdom, was a body of importance when Henry VIII. granted the Institution its first charter in 1514, *inter alia* "for the relief, increase and augmentation of the Shipping of this Realm of England." Since that period the duty of erecting and maintaining lighthouses and other marks and signs of the sea has by Royal Charter and Acts of Parliament been entrusted to the Corporation of Trinity House, and until 1874 Masters of the Navy were examined by the Elder Brethren of the Corporation. In the present day, the principal duty of the Corporation of Trinity House, as a Public Department, is the administration of the Lighthouse, &c., Service of England and Wales with certain statutory jurisdiction in regard to lighthouses and other seamarks in Scotland, Ireland, the Channel Islands and Gibraltar, whilst the Corporation are also the chief Pilotage Authority in the United Kingdom, and in their capacity as a private corporation or guild they administer certain Charitable Trusts specifically dedicated to the relief of aged and distressed master mariners and their widows. The Acting Elder Brethren of the Corporation also sit with the Judges of the Admiralty Division of the High Court of Justice, to act as Nautical Assessors in Marine Causes tried in that Court. The Lighthouse Service of the Trinity House is maintained out of the General Lighthouse Fund, this fund being provided by means of special dues called Light Dues, levied on shipping using the ports of the United Kingdom. The accounts in connection with the Lighthouse Service are rendered to the Board of Trade, who have statutory control over the expenditure, and are submitted annually to Parliament. The accounts in connection with the Charitable Trusts are rendered to the Charity Commissioners.

ELDER BRETHREN.

H.M. The King; *Master*, Field-Marshal H.R.H. the Duke of Connaught and Strathearn, K.G.; *Deputy Master*, Vice-Adm. G. Mansell, C.B.E., M.V.O.

IMPERIAL WAR MUSEUM.

Imperial Institute Road, South Kensington, S.W. 7.

Open free daily, 10 a.m. to 6 p.m.; Sundays 2.30 p.m. to 6 p.m.

The formation of a collection of Naval, Military and Air Force exhibits and trophies and of books, pictures, photographs, cinematograph films, maps, posters and other material connected with the War, was approved by the War Cabinet on March 5, 1917. The Imperial War Museum Act received the Royal Assent on July 2, 1920, and a Board of Trustees was appointed. The Museum was opened by H.M. the King on June 9, 1920, at the Crystal Palace. The tenancy of the Crystal Palace having expired on March 31, 1924, the Museum was removed to the galleries known as the Western Galleries in the Imperial Institute Road. The aeronautical collection was transferred to the Science Museum on loan. The Museum was re-opened to the public on Nov. 11, 1924.

Curator and Secretary, Charles John Foulkes, O.B.E., F.S.A.

U.S.A. (1922)	148,554	1·36

Law and Justice.

COST OF ADMINISTRATION.

Estimates for 1925-26 in respect of Law and Justice amount to £11,726,312, giving a net reduction on the year 1924-25 of £98,384. Most of the items show decreases, but the aggregate reduction of £268,380 is more than counterbalanced by increases, totalling £366,764, under Police, Land Registry, and the Northern Ireland Land Purchase Commission. The requirements for the main heads of expenditure for 1924-25 and for 1925-26 are set out below. The increase in respect of Police represents additions to the grants to Local Authorities towards the cost of the forces and of the maintenance of Youthful Offenders in places of Detention.

Estimated Cost.	1924-25.	1925-26.
Law Charges	£237,237	£225,904
High Courts	455,438	475,135
Land Registry	93,918	98,390
Police, England and Wales	6,215,336	6,394,897
Prisons, England and Wales	1,071,492	1,012,302
Industrial Schools	367,103	393,063
Scottish Law Charges	122,570	88,332
Scottish Police	750,200	768,000
Scottish Prisons	181,377	162,714
Land Purchase Commission, Northern Ireland	1,856,840	1,927,739

Borough of Southwark District (see p. 542).

* Mr. Oddie receives a joint salary of £1,500 in respect of the Westminster and South Western and Duchy of Lancaster (Savoy) districts.

TWELVE YEARS' LITIGATION.

NUMBER of appeals and causes set down for hearing at the Law Courts at the beginning of Michaelmas Sittings from 1915 to 1926:

(1) *Aggregate of Appeals and Causes.*

Year.	Appeals.	Causes.	Total.
1915	236	1,447	1,683
1916	181	1,504	1,685
1917	203	1,566	1,769
1918	165	2,103	2,268
1919	150	3,457	3,607
1920	246	4,302	4,548
1921	211	3,501	3,712
1922	192	2,738	2,930
1923	205	2,246	2,451
1924	158	2,872	3,030
1925	129	2,320	2,449
1926	142	2,153	2,295

(2) *Chancery Division.*

(Actions in each year.)

1915...	348	1918...	250	1921...	513	1924...	320
1916...	301	1919...	263	1922...	571	1925...	381
1917...	246	1920...	372	1923...	487	1926...	385

The explanation of the higher figures in the later years is that since 1921 this division has dealt with Companies (winding-up matters), and with Bankruptcy matters also, the latter having formerly been heard in the King's Bench Division.

(3) *King's Bench Division.*

In dealing with the King's Bench, account has to be taken of the transfer just mentioned of bankruptcy matters to the Chancery side in 1922.

Year.	Div. Court.	Actions.	Bkrptcy.	Total.
1915	113	373	12	498
1916	142	449	8	599
1917	137	312	9	458
1918	183	536	2	721

In Scotland the principal local court is the Sheriff Court. The Sheriff is the Appeal Judge, but the Judge Ordinary is the Sheriff-Substitute. The jurisdiction of the Sheriff Court is both civil and criminal. In civil questions the jurisdiction is unlimited in regard to the money value of the cause. On the criminal side the Court has cognizance of all serious crime with the exception of murder and three other charges, but the power of punishment is limited to fine and imprisonment; it does not extend to penal servitude.

The Sheriff Clerk is the Clerk of the Sheriff Court, and his duties correspond nearly to those of a Registrar in the English Courts.

Prosecutions are conducted by Crown officials at the public expense; the Lord Advocate and his deputes prosecute in the High Court; the Procurators-Fiscal in the Sheriff Court.

The *Convener* of the Sheriffs is Sheriff Alexander L. M'Clure, Aberdeen.

The Address of the *Secretary of the Sheriffs-Substitute Assoc.* is County Buildings, Dunfermline.

ADOPTION

BY an Act which comes into force on Jan. 1, 1927, provision is made for the adoption of children. The court may, at the instance of a person called in the Act "an adopter" (who must reside and be domiciled in England or Wales) make an order authorising the adoption of a child (*i.e.*, an unmarried person under the age of twenty-one) being a British subject resident in England or Wales. An adopter must be at least twenty-five and must (generally) be more than twenty-one years older than the adopted child. Man and wife may jointly apply to adopt a child. Except in special circumstances, an order will not be made appointing a man guardian of a girl. An adoption order will not be made except with the consent of (*a*) a parent or existing guardian, or (*b*) of the person who has the actual custody of the child, or (*c*) of a person who is liable to contribute to its support. These consents, however, may be dispensed with in certain cases. An order will not generally be made on the application of one of two spouses without the consent of the other. Before making the order, the court will have to be satisfied (*a*) that every person being a parent who consents to its being made realises that he surrenders parental control, (*b*) that the order will be for the welfare of the infant—regard being had to its own wishes, and (*c*) that no reward has been promised or paid to the adopter other than that sanctioned by the court. The adopter may be called upon to give a bond to make such provision for the adopted child as the court shall think just. The effect of an adoption order is practically to put an adopted child into the position of a child born to the adopter in lawful wedlock. A probationary adoption order for a period of not less than two years may be made for the maintenance, etc., of an infant for a period of not more than two years. Provision is made in the Act for enabling those who had adopted children more than two years before Jan. 1, 1927, to apply to the court for an adoption order, and in such cases orders may be made without the "consents" which must generally be obtained. The Act also provides for the establishment of a register of adopted children. The administration of the Act will (in general) be vested in the High Court Chancery Division, Mr. Justice Astbery being the judge specially assigned for this duty

BIRTHS.

WHEN a birth takes place, personal information of it must be given to the Registrar, and the register signed in his presence, by one of the following persons :—1. The father or mother of the child. If they fail, 2. The occupier of the house in which the birth happened ; 3. A person present at the birth ; or, 4. The person having charge of the child. The duty of attending to the registration therefore rests firstly on the parents. One of them must, within 42 days of the birth, give to the Registrar by word of mouth the information needed to enable him to register, and must sign the register in his presence. If they fail to do this without reasonable cause, they will become liable to a penalty of forty shillings. In case of their failure, one of the other persons above named must give personal information and sign the register within the same period. If at the end of 42 days no one has given information and signed the register, the Registrar may write to any one of the above-mentioned persons, requiring him or her to come to him for that purpose, at a stated time and place. Any person who fails to comply with this requisition will become liable to a penalty of forty shillings. Not only will liability to a penalty be avoided, but the registration of a birth will be free when it takes place within 42 days (but in *Scotland* the period is 21 days), unless either of the persons above named sends to the Registrar a written request to come and register at his or her residence or at the house where the child was born, when the Registrar on so attending may claim a fee of one shilling. After three months a birth cannot be registered except in the presence of the Superintendent Registrar, and on payment of fees, amounting to five shillings, to him and the Registrar. After twelve months a birth can be registered only on the Registrar-General's express authority, and on payment of further fees, amounting to ten shillings. In *Scotland*, after the lapse of three months, it can only be registered on the authority of the Sheriff of the County. The regulation which provides that no birth in *England* and *Wales* could be registered after the lapse of seven years was revoked in 1922, but late registration cannot be allowed unless satisfactory evidence is supplied to the Registrar General. The only legal proof of age and place of birth is afforded by the civil registers, which the law now requires to be made as above described. In districts where the Notification of Births Act, 1907, has been adopted by the local authority, notice of every birth must (subject to a penalty in case of default) be given by the father, or person in attendance on the mother, to the district medical officer of health. The notice must be sent by post within 36 hours of the birth, and is to be in addition to, and not in substitution for the notices above mentioned.

BRITISH NATIONALITY.

The law as to British Nationality is mainly to be found in the British Nationality and Status of Aliens Act, 1914, as amended by certain Acts passed in 1918 and 1922. It is important to notice, however, that the first section of the act of 1914—which defines a natural-born British Subject—does not affect the status of any person born *before* Jan 1, 1915.

The following are deemed to be British Subjects, namely :

1. Any person born within His Majesty's dominions and allegiance.

2. Any person born out of His Majesty's Dominions, *before Jan.* 1, 1915, whose *father's father* was born within His Majesty's Dominions, provided that the grandfather was, at the time of the father's birth, a British subject.

3.* Any person to whom a Certificate of Naturalization has been granted, or who has acquired British nationality by reason of annexation of territory, or by special Act of Parliament.

4. The wives (whatever their nationality of origin) of British subjects, save in certain cases

* See "Acquisition of British Nationality," p. 237.

where the man changes his nationality after marriage.

5. The children of naturalized British subjects born out of His Majesty's Dominions, provided that they comply with one of the following conditions:—

(*a*) in the case of a child born *before* January 1st, 1915,

(i) if a Certificate of Naturalization has been granted to his father or his mother (being a widow) before January 1, 1915, and he has become resident with such father or mother (being a widow) in the United Kingdom before that date while under age, or

(ii) if a Certificate of Naturalization is granted to his father or his mother (being a widow) after January 1, 1915, and his name is included therein.

(*b*) in the case of a child born *after* January 1, 1915,

(i) if before his birth a Certificate of Naturalization had been granted to his father or his mother, or

(ii) if a Certificate of Naturalization is granted to his father or his mother (being a widow) after January 1, 1915, and his name is included therein.

6. Any person born out of His Majesty's dominions whose father was at the date of the birth a British subject, and who fulfils any of the following conditions—*e.g.*, if either

(i) his father was born within His Majesty's allegiance; or

(ii) his father had a certificate of Naturalization; or

(iii) his father had become a British subject by reason of any annexation of territory; or

(iv) his father was, at the date of the birth, in the service of the Crown; or

(v) his birth was registered at the British Consulate within one year or, in special cases, two years or, in the case of a person born on or after Jan 1, 1915, who would have been a British Subject if born before that date, within 12 months after August 1, 1922.

A child of a British Subject is deemed to have been born within the allegiance if born anywhere where by treaty, &c., His Majesty exercises jurisdiction over British subjects.

A person whose British nationality depends upon his registration at a Consulate ceases to be a British Subject unless he asserts his nationality by declaration within a year after attaining 21, and abandons any other nationality he may have acquired.

7. A person born on a British ship.

Loss of British Nationality.—A British subject loses his British nationality:—

(*a*) if by any voluntary or formal act he becomes naturalized in a foreign country;

(*b*) if, in certain cases, he makes a declaration of alienage. These cases are:—

(i) where a person is a British subject by reason of birth in His Majesty's Dominions and allegiance or on board a British ship *and* is also by birth or becomes during minority a subject of any foreign State,

(ii) where a person is a British subject, but was born out of His Majesty's Dominions, and

(iii) where a Convention has been made between this country and any foreign State, to the effect that any subject of that State who has been naturalized as a British subject may divest himself of that status;

(*c*) if during his minority his father loses British nationality in circumstances which involve the acquisition by the child of a new nationality;

(*d*) in the case of a woman, if she marries an alien;

(N.B. A woman who was originally a British subject and loses British nationality by marriage with an alien does not regain British nationality on the death of husband or the dissolution of her marriage. If in such a case she desires to resume British nationality she must apply for a Certificate of Naturalization.)

(*e*) in the case of a person to whom a Certificate of Naturalization has been granted if the Secretary of State revokes the Certificate;

(*f*) if the territory of which he is an inhabitant is severed from the Crown; *cf.*, *e.g.*, the cases of the inhabitants of Hanover and Heligoland.

Acquisition of British Nationality.—An alien may acquire British nationality:—

(*a*) by special Act of Parliament;

(*b*) by the conquest, annexation, or cession of the territory of which he is an inhabitant;

(*c*) in the case of a woman, by marriage with a British subject, and

(*d*) by naturalization.

Naturalization.—All Certificates of Naturalization granted in the United Kingdon between May 13, 1870, and December 31, 1914, were granted in accordance with the provisions of the Naturalization Act, 1870. And this Act did not secure that a Certificate granted in any part of the Empire should be valid throughout the Empire.

Under the British Nationality and Status of Aliens Act, 1914, every person to whom a Certificate of Naturalization is granted in accordance with its provisions after Jan. 1, 1915, is a British subject, not only in that part of the British Empire where the Certificate is granted, but also in the United Kingdom and in any Dominion which has adopted the Act, and in any other British Possession.

Persons naturalized prior to January 1, 1915, may, after that date, apply for a fresh Certificate of Naturalization under the new conditions.

In order to be eligible for the grant of such a Certificate in the United Kingdom, an alien must:—

(*a*) during the eight years preceding his application have resided for not less than five years in His Majesty's Dominions (of which not less than one year *immediately preceding* the application must have been spent in the United Kingdom) or have been for not less than five years in the service of the Crown;

(*b*) be of good character and have an adequate knowledge of the English language; and

(*c*) intend to reside in His Majesty's Dominions or to enter or continue in the service of the Crown.

Instructions for the guidance of persons desiring to apply for a Certificate of Naturalization may be obtained free on application to the Home Office, Whitehall, London, S.W.

The fee payable to the Home Office in respect of the grant of a Certificate of Naturalization is fixed by the Government of the day, and is at present £10, of which £1 is payable on submission of the application and the remainder on the grant of the Certificate. The £1 payable on submission of the application *is not returnable*, whether or not a Certificate is granted.

N.B—In the case of a woman who was a British subject previously to her marriage to an alien, and whose husband has died or whose marriage has been dissolved, the above requirements, both as to residence and as to fee, are relaxed.

STATUS OF ALIENS.—Property may be held by an alien in the same manner as by a natural-born British subject, but the title to such property does not confer any right on an alien to hold real property out of the United Kingdom, or qualify him for any franchise.

Aliens are not entitled to be tried by a jury *de medietate linguæ*, but are triable in the same manner as if they were natural-born subjects.

ADMISSION, SUPERVISION AND DEPORTATION OF ALIENS.—Under the Aliens Order, 1920, any alien coming from outside the United Kingdom must obtain the leave of an Immigration Officer to land in the United Kingdom, and such leave is refused in many cases, *e.g.*, where the alien is without means, or (if he is seeking employment) is unable to produce a Permit issued by the Minister of Labour. Provision is also made (Article 5 of the Order) for the registration of resident aliens and (Article 12) for the deportation of aliens by order of the Secretary of State, which can be made on various grounds. The Aliens Order, 1920, was made under the Aliens Restriction Act, 1914, as amended and extended by the Aliens Restriction (Amendment) Act, 1919.

BUSINESS NAMES REGISTRATION.

REGISTRATION OF BUSINESS NAMES ACT, 1916.

This Act received the Royal Assent on 22 Dec., 1916, and its provisions were explained on pp. 414-415 of the 1921 "WHITAKER." The *Office* of the Registrar of Business Names is at Somerset House, W.C. 2.

CERTIFICATES

OF BIRTHS, MARRIAGES, OR DEATHS.

England and Wales.—Certificates of Births, Deaths, or Marriages can be obtained at the General Register Office, Somerset House, on payment of fees amounting to 3*s.* 7*d.*, viz., 1*s.* for search, 2*s.* 6*d.* for the certificate, and 1*d.* for the stamp affixed thereto. (When application is made by *post* the charges are 5*s.* 1*d.*) They can also be obtained from the registration officer having the legal custody of the register book containing the entry of which a certificate is required. Certificates of marriages in churches of the Church of England can also be obtained from the incumbent of the church in which the marriage took place.

Certificates at reduced rates can be obtained for the purposes of certain Acts of Parliament: Friendly Societies Act, 1896, Birth or Death, 1*s.*; Factory and Workshop Act, 1901, and for purposes of Elementary Education, Birth, 6*d.*; Savings Banks Act, 1887, Birth, Death, or Marriage, 1*s.*; National Insurance Acts, 1911 and 1913, Birth, 6*d.*, Marriage, 1*s.*; Industrial Assurance Companies Act, 1896, and Trade Unions Amendment Act, 1876, death of child under 10 years of age, 1*s.*, but only from the local Registrar.

English Registers.—Birth registration exists at Somerset House from 1837. An index to 2,000,000 earlier entries can be consulted at the *Society of Genealogists* at 5 Bloomsbury Square, London, W.C. 1.

Scottish Registers of Births, Marriages, and Deaths.—Parish registers were instituted for these in 1551, but until the Registration of Births, &c. (Scotland), Act, 1854, they were not properly kept in many cases. Extracts may, however, be obtained from them on payment of 2*s.* 1*d.* for each entry, but to be valid evidence it must be shown that the registers from which the entries are taken were regularly kept. Lists of the old parish registers may be consulted in the offices of the Registrar-General, H.M. General Register House, Edinburgh, or of local Registrars. These old registers are in the charge of the Registrar-General, and since 1854 local registers have been transmitted to him at stated periods. Registers up to the end of 1919 are now in his possession. There is a general index to the registers which may be searched on payment of 2*s.* A search of the index of a particular parish is 1*s.* A fee of 20*s.* is payable for a search of all the Scottish registers, and 1*s.* is payable for a search of a particular parish. An extract of an entry may be obtained on payment of 2*s.* 1*d.* The office of the Registrar-General is open on weekdays between 10 a.m. and 4 p.m.

COPYRIGHT.

The law of copyright is contained in the Copyright Act, 1911, which repeals all the earlier acts. Under the Act of 1911 copyright arises from mere authorship. The provisions of the Act were explained on pp. 415-416 of the 1921 "WHITAKER."

Registration at Stationers' Hall under the Copyright Act of 1842 terminated on Dec. 31, 1923, and in the following year the Stationers' Company established a *new* Register in which Books and Fine Arts can be registered. A copy of every work so registered has to be filed at Stationers' Hall and certified copies of the entries are issued, the fees being 5*s.* for a Book, and 2*s.* 6*d.* for Fine Art; certified copies 5*s.* in either case. Such entries are of value in assisting to prove the existence of a work on a given date in the case of infringement.

DAYS OF GRACE.

Bills of Exchange or Promissory Notes, payable at any time after date, have *three days of grace* allowed; thus, a bill dated 1 Jan. at two months' date is not due until March 4. If a bill or note is payable by instalments to be paid "punctually," this does not exclude the days of grace (*Schaverien* v. *Morris*, 37 T. L. R. 366). There is, however, no such extension in the case of bills drawn at sight, or on demand, and these must be paid on presentation. In the United Kingdom, bills falling due on Sunday are payable the previous Saturday, and in England and Wales and in Ireland bills falling due on Good Friday or Christmas Day are similarly payable on the previous day. Bills falling due on Bank Holidays are payable the day after.

DEATHS.

In England and Wales.—When a death takes place, personal information of it must be given to the Registrar, and the register signed in his

presence, by one of the following persons:—1. A relative of the deceased present at the death, or in attendance during the last illness. If they fail, 2. Some other relative of the deceased. In default of any relatives, 3. A person present at the death; or, the occupier of the house in which the death happened. If all the above-named fail, 4. An inmate of the house, or, the person causing the body to be buried. Relatives present or in attendance are first required to attend to the registration. One of them must, within five days of the death, give to the Registrar by word of mouth the information needed, and must sign the register; or must within the same time send him written notice of the death, accompanied by a certificate of the cause of death, signed by a registered medical practitioner, if any such attended the deceased during his last illness. The written notice will be useless without a legal medical certificate. If notice is sent, information must nevertheless be given and the register signed within fourteen days from the death. If relatives present or in attendance fail without reasonable cause to carry out these provisions, they will become liable to a penalty of forty shillings. In case of their failure, one of the other persons above named must give personal information and sign the register in their stead. It is important that every death should be registered and a certificate of registry be obtained from the Registrar before the funeral. This certificate should be delivered to the clergyman or other person who performs the funeral or religious service. Failure to obtain this certificate need not, however, delay the funeral, as it is the duty of the clergyman, if the certificate is not produced to him at the burial, to notify the Registrar thereof within seven days. If at the end of fourteen days one of the persons above mentioned has not attended to the registration, the Registrar may, by written application, require any one of them to come to him and do so at a stated time and place. Any person failing to attend on this application will be liable to a penalty of forty shillings. Whenever the deceased has been attended during his last illness by a registered medical practitioner, a certificate of the cause of death, signed by him, must be delivered to the Registrar. Any person receiving such a certificate from the practitioner and not so delivering it will incur a penalty of forty shillings. The registration of a death is free of charge when it takes place within the above-mentioned periods, unless on request it is effected at an informant's house, or at the house where the death happened, when a fee of one shilling will be payable to the Registrar. After twelve months a death can be registered only on the Registrar-General's express authority, and on payment of fees amounting to ten shillings.

In *Scotland*, the rules of registration are similar, but (1) the death must be registered within 8 days; (2) the medical man concerned must give a certificate of death to the Registrar in terms of the Registration of Births, &c. (Scotland) Act, 1854, within 7 days; (3) the informant of a death receives from the Registrar a certificate that the death has been registered. This is given to the undertaker, who delivers it to the keeper of the cemetery. Failure to comply is under penalty in all cases.

CORONERS' INQUESTS.—Sudden deaths are supposed by the law to demand inquiry, and Coroners' inquests are held in cases of violent and unnatural deaths, such as the case of a person slain or drowned, or dying suddenly, and of any person dying in prison. Coroners do not obtrude into the houses of persons for the purpose of holding inquests, but are sent for by the peace officers, to whom it is the duty of those in whose houses violent or unnatural deaths occur whose houses violent or unnatural deaths occur whose houses immediate communication, whilst the body remains in the same situation as when the death occurred. Inquests are not to be held on Sunday. When the Coroner receives due notice of a violent death, casualty, or misadventure, he issues his warrant or precept to summon a jury to appear at a particular time and place for the purpose of instituting the inquiry, when, how, and by what means the deceased came by his death. The jury must consist of at least twelve lawful and honest men, "*probi et legales homines*," and the number is immaterial provided twelve agree. The jury is usually summoned from the house-holders residing in the neighbourhood in which the death took place. Any person summoned as a *witness* is bound to attend, or renders himself liable to be fined in any sum not exceeding 40*s.*, the fine for defaulting *jurymen* being £5.

In *Scotland* there is no Coroner. In ordinary cases of sudden death a private inquiry is held by the Procurator Fiscal (a Crown official who is the Public Prosecutor in criminal cases in every County, *see* p. 563). The result of such inquiry is reported to the Lord Advocate. In the case of a death occuring in the course of an industrial employment, and in every case in which the Lord Advocate may so order, a public inquiry is held before the Sheriff and a jury.

Statistics of Deaths.

	1923.	1924.	1925.
England & Wales	444,785	473,235	473,006
Scotland	63,284	70,357	65,505
Total	508,069	543,592	538,511

DIVORCE.

Preliminary.—Matrimonial suits may be conveniently divided into three classes, viz. (1) those in which a declaration against marriage is sought; (2) those in which the marriage is sought to be upheld; and (3) those in which the marriage being admitted, partial or complete divorce is sought.

(1) *Nullity of Marriage.*—Marriage is void *ab initio* if the parties were in the prohibited degrees of affinity, if it was bigamous, if there was no consent, or if one of the parties was insane; but it is only voidable if one of the parties was under the age of consent (14 in the case of males and 12 in the case of females). Inability to consummate a marriage may also be a ground for avoiding it. In such a case a decree of nullity may be obtained.

(2) *Restitution of Conjugal Rights.*—This is a form of relief generally sought by a spouse who has been deserted. Disobedience to a decree of restitution of conjugal rights, although two years have not elapsed, at once constitutes desertion (as to the significance of which see paragraph (6) *infra*); and such desertion, if coupled with the husband's adultery, whether committed before or after the decree of restitution, is a ground for granting to the wife a decree of dissolution of marriage.

(3) *Judicial Separation and Divorce.*—The third class of suit mentioned in paragraph (1) *supra* includes the suit for judicial separation

(which does not dissolve a marriage), and the suit for divorce proper (which, if successful, dissolves the marriage contract altogether and leaves the parties at liberty to marry again). Either spouse may petition for judicial separation on the ground of adultery, or cruelty, or of desertion without cause for two years or upwards. In such a petition a husband may claim damages from the co-respondent. A decree of judicial separation is often made the ground of a petition for divorce. A petitioner who has committed adultery which has not been condoned cannot obtain a judicial separation or a decree of restitution of conjugal rights unless there has been condonation. The fact that a petitioner has been guilty of cruelty or desertion does not, however, debar him from a decree of judicial separation on the ground of adultery unless his conduct has conduced to the adultery.

Divorce.—Where partial or complete divorce is sought, relief can only be obtained upon proof of certain offences which fall under two heads, namely (1) those which are offences under ecclesiastical law, *e.g.*, cruelty, adultery, and unnatural offences; (2) those which are offences by statute, *e.g.*, incestuous adultery, bigamy with adultery, rape, and desertion.

If a husband seeks divorce, it is sufficient for him to prove the wife's adultery, in which case he may obtain damages from the adulterer. If a wife seeks divorce it was formerly not sufficient that she prove mere adultery. But now, by an Act which came into force on July 18, 1923, a wife may petition for divorce on the ground that, since the marriage and the passing of the Act, her husband has been guilty of adultery. A wife can also obtain divorce if the husband has been guilty of bigamy with adultery, of rape or certain other criminal offences, or of adultery coupled with such cruelty as without adultery would have entitled her to a divorce *a mensa et thoro* or of adultery coupled with desertion. "Cruelty" is conduct of such a character as to have caused damage to life, limb, or health (bodily or mental), or as to give rise to a reasonable apprehension of such danger. It is cruelty to wilfully and recklessly communicate a venereal disease; and a course of conduct calculated to break the spirit of the sufferer (generally the wife), continued until health breaks down or is likely to break down under the strain, is also a ground for relief.

If a wife gives birth to a child of which her husband could not possibly be the father, that is sufficient proof of adultery.

It is desertion in the legal sense if one party to a marriage, without the consent or against the will of the other, wilfully without cause or reasonable excuse makes the other live apart for two years or more. It is, however, a question of intention. *Powell* v. *Powell* (1922) P. 278. Formerly the only remedy for desertion was a suit for the restitution of conjugal rights; but now desertion without cause may enable the deserted spouse to obtain a decree of judicial separation. If coupled with adultery, it enables a wife to obtain a divorce.

When the decree will be refused.—A decree must be refused, even if the suit is undefended, if the allegations in the petition for divorce are not proved. There is no such thing in the Divorce Court as judgment by default. Other absolute bars to relief are (i) connivance at the adultery of the respondent; (ii) collusion, as where the initiation of the suit is procured by agreement or bargain (but this does not prevent a fresh suit being brought free from collusion); (iii) condonation, *i.e.* complete forgiveness which restores the *status quo*. Forgiveness, without restoration of the wife to her former position, cannot amount to condonation. (*Crocker* v. *Crocker* (1921), P. 25.) There are also certain discretionary bars, as, *e.g.* where the petitioner has been guilty of unreasonable delay, or has been guilty of such wilful neglect or misconduct as has conduced to the adultery.

Intervention by King's Proctor.—At any time during the progress of a suit for dissolution or nullity of marriage, and before the decree *nisi* is made absolute, the King's Proctor may intervene to show cause against making a decree absolute.

Decree Absolute.—Every decree of dissolution or nullity is in the first instance a decree *nisi*, and is not made absolute until the expiration of six calendar months. The marriage subsists until the decree is made absolute. After that date either spouse may marry again; but a man may not marry the sister of his divorced wife whilst the divorced wife is alive. A divorced wife may call herself by her late husband's name. Persons who have been divorced may re-marry.

Children.—When a suit has been commenced, the children should not be removed from the person in whose custody they are *de facto*. Until a suit for judicial separation, nullity, or dissolution of marriage has been dismissed, the Court may make orders for the custody, maintenance, and education of children. Either spouse may make applications for access to the children.

Alimony.—A wife may in any cause file a petition for alimony (*i.e.*, means of support) pending suit, provided *primâ facie* evidence of the marriage is adduced. The right to alimony continues until there is a decision against the wife in the court of first instance. The amount may be agreed between the parties, otherwise one-fifth of the joint incomes is generally allowed. An order for *permanent* alimony may be obtained by a wife who has obtained a final decree of judicial separation.

Protection Orders.—A deserted wife may apply to a court of petty sessions or to the Divorce Division for an order to protect any money which has come to her after such desertion against her husband and his creditors. Disobedience to the order renders a party retaining the property liable to restore it and to pay twice the value thereof.

Costs.—Where a suit is about to be set down for hearing, the wife, if she has not sufficient separate estate, may obtain payment from her husband of a sum sufficient to cover her costs to date; and where a decree has been obtained against her for judicial separation on the ground of adultery, she may defend herself at his expense should he afterwards bring a suit for dissolution of marriage. If a suit be decided against a wife who has separate estate, she may be condemned in costs. A co-respondent may be ordered to pay the whole or any part of the costs of the proceedings.

SEPARATION BY AGREEMENT.

Husband and wife may agree, with or without consideration, to separate and live apart, but the agreement, to be valid, must be followed by an

immediate separation. Although usually made by deed, a mere oral agreement is binding. If made, however, with a view to facilitating divorce proceedings it is void. A wife is not bound by a separation agreement if she was forced to make it by threats of violence. A clause which binds the husband to give up the custody of the children will be enforced, unless the Court is of opinion that it is not for their benefit. The agreement usually contains mutual covenants not to sue for the restitution of conjugal rights a covenant by the husband not to molest the wife, and a covenant by the wife or her trustee to indemnify the husband against debts contracted by her during the separation. The remedy for a breach of the agreement is specific performance.

SUMMARY JURISDICTION.

When a husband has been guilty of assault or has deserted his wife, or has been guilty of persistent cruelty, or of wilful neglect to maintain her or her infant children, or where he is an habitual drunkard, the wife may obtain relief from a Court of Summary Jurisdiction. By an Act which came into force on Sept. 30, 1925, the following grounds for an application were added to those already existing (*a*) cruelty to her children, (*b*) that her husband insists on having marital relations while suffering from a venereal disease, (*c*) that he has compelled her to submit herself to prostitution. A husband may apply on the ground that the wife has been cruel to his children. Relief may also be obtained by a husband whose wife is an habitual drunkard. The Court may declare that the applicant is no longer bound to cohabit with the other spouse. Where a wife is the applicant, the legal custody of children under sixteen may be given to her, and the husband may be ordered to pay a weekly sum not exceeding £2. Where the husband applies, the custody of all the children of the marriage may be given to him, and the wife may be committed to an inebriates home. If the wife has been guilty of adultery, no order will be made on her application unless there was condonation; and if, having obtained an order, she commits adultery, the order may be discharged, but not if the court is of opinion that the husband conduced to the adultery by failing to make payment of the separation allowances. An order may be altered, varied or discharged at any time on cause being shown. All applications for relief must be made within six months of the ground of complaint.

DIVORCE FOR THE POOR.

England and Wales.—A special department in the High Court of Justice for the assistance of poor persons in litigation, including divorce, was established in 1914. The official name of the department is "London Prescribed Officers (Poor Persons)."

Under the procedure of this department, Solicitor and Counsel are provided for a litigant who is not possessed of the means to employ legal assistance.

Although no fees are payable for the help given by the department, the applicants must find the solicitor's out-of-pocket expenses, and those incidental to witnesses—a point which has been criticised by the adherents of divorce law reform. However, if witnesses are not brought from a long distance, the whole proceedings need not cost more than £10, and can in some cases be completed for less, compared with from £50 to £60 necessitated by the normal procedure. Before a case is taken up, the applicant has to satisfy the department that he or she is really poor—not possessed of more than £50, exclusive of wearing apparel and trade tools. She must also show that her own income does not exceed £2 a week, or in special cases, £4. If this condition is fulfilled, and if he has reasonable grounds for bringing or defending a suit in the Divorce Court, he may apply to the Court for leave to do so. An application for leave is submitted to and is reported on by counsel and solicitor, who give their services voluntarily. If the report is favourable the Court may give the necessary leave, and thereupon another solicitor and counsel are assigned to the poor person to act for him. Such a litigant is not liable for Court fees, nor (generally) is he liable to pay costs to any other party. Counsel acting for him must charge him no fee, while the solicitor assigned to him generally gets nothing but his out-of-pocket expenses. Where, however, property of value is recovered for such litigant, the solicitor may (under the rules) get his usual costs. Numbers of persons take advantage of this procedure *in forma pauperis*. This explains the very large number of cases in the Divorce Court.

Scotland.—In every town there are Solicitors for the Poor, and in the Court of Session there are Counsel for the Poor, all of whom act gratuitously. Any class of litigation may be undertaken for poor persons, but the operation of the "Poor's Roll" is chiefly important in matrimonial and bastardy cases. Legal services are rendered free of charge, and no Court dues are payable. In cases of divorce application must be made to the Court of Session. In cases of separation simply, application may be made to the Sheriff Court. The means that preclude a person from the benefit of the Poor's Roll are not fixed, and each application depends on its own circumstances. The Poor's Roll was established in 1424.

THE FRANCHISE.

The Representation of the People Act, 1918, abolishes the voting qualifications of property owners, freemen, and lodgers, but extends the franchise to women, subject to certain limitations. To be entitled to be registered as Parliamentary or as Local Government electors, the following conditions are now required:—

PARLIAMENTARY.

MEN.—21 years of age. Residence only, for the qualifying six months in any one constituency or in any contiguous constituency or county. The occupation of land or premises of £10 annual value, for business purposes, for the same period.

A man of full age who has received a degree at any university forming, or part of, a constituency, is entitled to be registered as a voter for that constituency. Honorary degrees do no qualify.

WOMEN.—30 years of age, must be entitled to be registered as a Local Government elector for the occupation of land or premises of £5 yearly value, or of a dwelling house, or is the wife of a husband who is entitled to be so registered.

A woman is entitled to be registered as a parliamentary voter for a university constituency if she is of the required age, and has been admitted to a degree, or has passed the final

examination and followed the conditions required of a woman by such university which did not at the time the examination was passed admit women to degrees.

ABSENT VOTERS AT GENERAL ELECTION.

In the lists which came into force on Oct. 15, 1922, the absent voters for Great Britain and Northern Ireland totalled 184,570, and for the contested constituencies in the General Election of 1922, 172,451. Excluding three constituencies (in the Borough of Stoke-on-Trent) for which particulars are not available, 97,530 ballot papers were issued to absent voters whose recorded addresses where in the United Kingdom, and 40,295 of them were returned in time for the counting of the votes at the General Election of 1922. The number of absent voters who had appointed proxies in the contested constituencies was 4,173.

LOCAL GOVERNMENT.

MEN.—21 years of age. Must have occupied for the qualifying six months, as owner or tenant, any land or premises in a local government electoral area. A person who occupies rooms as a lodger is entitled, provided the rooms are let unfurnished.

WOMEN.—21 years of age. Is entitled to be registered as a local government elector where the conditions of her occupation of property would entitle her if she were a man.

Thirty years of age where she is the wife of a man who is entitled to be so registered in respect of premises in which they both reside.

REGISTRATION.

The qualifying periods (at present fixed by Order in Council) are for six months ending 15 Dec. for the Spring Register, and 15 June for the Autumn Register. It is the duty of the Registration Officer (in counties, the clerk to the county council; in boroughs, the town clerk) to compile the Spring and Autumn Registers containing the names of all persons entitled to vote. For this purpose instructions may be issued to the overseers of parishes, who cause house-to-house enquiries to be made to ascertain the names of all qualified voters. A householder's return may be issued, and the failure of the householder to give the required information renders such person liable to a penalty of £20. The prepared lists are publicly exhibited by the Registration Officer, together with a notice specifying the mode in which, and the time within which, claim and objections are to be made. Subsequently the Registration Officer shall make all necessary corrections of the electors' lists, and carry out all that is required to form those lists into a register, with a separate index letter and a separate series of numbers for each polling district.

ILLEGITIMACY.

England and Wales.—A man may be summoned to petty sessions on the application of the mother of a bastard child, or by the Guardians of the Poor where the child becomes chargeable to the Union or Parish; and the Justices, on his being proved to be the father of the child, may make an order requiring him to pay for its maintenance and education a sum not exceeding 5*s.* a week. By an Act which came into force on Sept. 30, 1923, the putative father may be ordered to pay 20*s.* a week, instead of 5*s.* as hitherto. The mother has the custody of her bastard children. No person is required as father of an illegitimate child to give information concerning the birth of such child, and the registrar is forbidden to enter in the register the name of any person as father of the child unless at the joint request of the mother and father. Such person is in that case required to sign the register, together with the mother. A domestic servant found to be *enceinte* may be peremptorily dismissed without notice; but any attempt to examine without her consent a servant supposed to be *enceinte* renders the employer liable to an action.

In 1922 the Home Secretary introduced a Bill for legitimating illegitimate children on the marriage of their parents, but the Bill did not pass both Houses of Parliament and has not been again introduced.

Scotland.—The mother of an illegitimate child may obtain a decree of affiliation and aliment against the father. The process may be raised either in the Court of Session or the Sheriff Court, but usually is in the Sheriff Court. The father pays half of the inlying expenses, the amount usually decreed being £3 3*s.* The rate of aliment varies, but in 1919 it was settled by a decision of the Court of Session that £11 14*s.* per annum was a proper amount. The mother has the custody of the child until the age of 7 if a male and 10 if a female.

By Scots Law an illegitimate child is legitimated by the subsequent marriage of its parents provided there was no impediment to the marriage of the parents at the time of the conception of the child. Such legitimation is recognised by International Law so far as the laws of particular countries allow it. It is valid in England except that such a child cannot succeed to real estate in England on intestacy. After the marriage of the parents such a child may be registered as legitimate by warrant of the Sheriff.

INFECTIOUS DISEASES.

PRECAUTIONS NECESSARY TO BE OBSERVED.—By the Public Health Act, 1875 (as amended by the Public Health Act, 1907), it is provided that any person who—(1) While suffering from any dangerous infectious disorder wilfully exposes himself without proper precautions against spreading the said disorder in any street, public place, shop, inn, or public conveyance, or enters any public conveyance without previously notifying to the owner, conductor, or driver thereof that he is so suffering; or, (2) Being in charge of any person so suffering, so exposes such sufferer, or causes or permits such sufferer to be so exposed; or, (3) Gives, lends, sells, transmits, or exposes, without previous disinfection, any bedding, clothing, rags, or other things which have been exposed to infection from any such disorder, shall be liable to a penalty of £5. A person suffering from such disorder who enters a public conveyance is liable to a fine of 40*s.*; and if he so enters without notifying to the owner or driver that he is so suffering, shall be ordered by the Court to pay the owner and driver the amount of any loss and expense they may incur in respect of the disinfection of the conveyance. Every owner or driver of a public conveyance must provide for the disinfection of such conveyance after it has conveyed any person suffering from dangerous infection; but he cannot be required to convey any person so suffering until he has been paid a sum sufficient to cover any loss or expense incurred in dis-

infecting the conveyance. No person may knowingly let for hire any house, &c., in which any person has been suffering from any dangerous infectious disorder without having the same disinfected to the satisfaction of a medical practitioner, as testified by a certificate signed by him—penalty not exceeding £20, or imprisonment with or without hard labour, not exceeding one month. By the Public Health Act, 1907, the Local Government Board (*i.e.* the *Ministry of Health*), since the passage of the Ministry of Health Act, 1919 has power to declare that this Act shall be in force in any specified district. Under this Act, a person suffering from an infectious disease must not engage in any trade unless he can do so without spreading the disease; nor may he take any book from a public or circulating library, or allow any such book to be returned after it has been exposed to infection. Clothes exposed to infection must not be sent to a public laundry unless they have been disinfected. A child who has been suffering from an infectious disease must not attend school without a medical certificate. Dairymen must notify infectious diseases existing among their servants, and the owner or driver of a public vehicle which has conveyed an infectious person must notify the same to the district medical officer. No wake may be held over the body of a person who died of an infectious disease. Where the Infectious Disease (Prevention) Act, 1890, is in force, where any suitable hospital is provided, any person who is suffering from any dangerous infectious disorder, and is without proper lodging or accommodation, or is lodged in a room occupied by more than one family, or cannot be effectually isolated, may, on a certificate signed by a medical practitioner, and with the consent of the hospital, be removed by order of any justice to such hospital. Similar provisions apply to the Metropolis. The occupier of a house in which there has been infectious disease within six weeks before he ceases to occupy it, must have the premises disinfected and inform the owner of the disease. Where it appears to any District Council that any house is in such a condition that the health of any person is affected or endangered thereby, or that whitewashing, &c., would tend to prevent or check infectious disease, they may give notice in writing to the owner or occupier of such house to whitewash, &c., the same.

NOTIFICATION OF INFECTIOUS DISEASES.

By the Infectious Disease (Notification) Extension Act, 1899, the provisions of the Infectious Disease (Notification) Act of 1889 were extended to the whole of England and Wales on the January 1, 1899. Every case of infectious disease, as defined by the Act, is to be notified to the Medical Officer of Health of the district in which it occurs. The notice may be by letter or even verbal, and must be given by the head of the family, or by the nearest relatives present in the building or in attendance on the patient, or any other person in attendance, or by the occupier of the building. In addition to this, the medical man in attendance is required to send a certificate to the Medical Officer of Health. Failure to send the notice or certificate renders the defaulter liable to 40*s.* fine. No payment is made for the notices required to be given by persons in the house, but the medical man gets 2*s.* 6*d.* for every case in his private practice and 1*s.* for every case in a public institution of which he is officer.

The diseases to which the Act applies are small-pox, cholera, diphtheria, membranous croup, erysipelas, scarlatina or scarlet fever, and the following fevers: typhus, typhoid, enteric, relapsing, continued, or puerperal. Plague must also be notified, in consequence of an Order issued in 1900. The local authority may order that the Act shall apply to any infectious disease other than those just mentioned, but such an order must be approved by the Local Government Board. In some districts the following have been declared infectious: measles, rötheln or German measles, whooping cough, chickenpox, mumps, and yellow fever. In the case of London the provisions of the Public Health (London) Act, 1891, are similar to those now extended to the rest of the country.

JURY SERVICE.

Preliminary.—The juries with which the public are most concerned are, first and foremost, the grand juries; secondly, those which are summoned to try causes in the High Court, at assizes and county courts; and thirdly, those summoned to try criminal cases at assizes, the Old Bailey, and courts of Quarter Sessions, and to assist at coroners' inquests.

Qualifications.—All natural-born subjects of the King and aliens domiciled for ten years or more, being men or women between 21 and 65, (60 after March 1, 1923), are liable to serve as jurors.

Although women could not formerly serve, the sex disqualification was removed in 1919, and women are now liable to serve, subject to this, that a judge may make an order that the jury shall be composed of men only or of women only, or may, on an application made by a woman to be exempted from service on a jury in respect of any case by reason of the nature of the evidence to be given or of the issues to be tried, grant such exemption.

The qualification of a juror is a *property* one—that is to say, he or she must be a person who owns property or pays rates. A householder or shopkeeper in the City of London who owns personal estate worth £100; a resident in a county or borough owning £10 a year in real estate or rent charge, or £20 in leaseholds; or a householder in a county or borough assessed to the poor rate at not less than £30 a year in Middlesex and the County of London, or £20 in other counties, and occupiers of houses with not less than fifteen windows, are all compellable to serve as jurors unless exempted or disqualified.

Exemptions and Disqualifications.—Aliens (subject as above), felons, lunatics, imbeciles, deaf or blind persons are disqualified from serving on juries, while the following classes of persons (amongst others) are exempt—peers, members and officers of both Houses of Parliament, clergymen and priests, ministers of any congregation of protestant dissenters and Jews, whose meeting place is duly registered, judges, barristers, solicitors (if practising), officers of the supreme court, magistrates, clerks of the peace, sheriffs' officers and servants of such officers, justices of the peace, members of local bodies, governors of prisons and gaolers, superintendents, &c., of lunatic asylums, doctors and chemists (if actually practising), dentists, officers and men in Army, Navy, and Territorial Forces, licensed pilots, postal, custom and inland revenue servants.

Special exemption.—A judge, and, by virtue of S. 3 of the Juries Act, 1922, the sheriff, may for good reason excuse attendance on any particular jury.

Jury Lists.—Lists of juries are now prepared in accordance with the Juries Act, 1922. Persons who deem themselves to be entitled to be exempted should communicate with the registration officer, for all whose names appear on the lists are liable to serve.

Grand Juries.—The function of the grand jury is to make presentments on oath to judicial bodies or personages, mainly of accusation against persons against whom criminal proceedings are pending. The jurors have to say in effect whether there is a *primâ facie* case against the accused, against whom an indictment has been prepared, and if they are satisfied of this they find "a true bill"; if not, they "ignore the bill" and the accused is discharged.

Lunacy Juries.—A jury is sometimes summoned by the judge in lunacy to enquire whether a man is or is not of sound mind.

Juries in Criminal and Civil cases.—An accused person against whom a true bill has been found is tried by a "jury sworn." A "panel" of jurors are summoned to attend the court on a particular day, and it is from amongst them that the jury who are to try the prisoners are selected at random (an interesting note on the selection of jurors will be found in *Halsbury's Laws of England*, Vol. 18, p. 246). In a criminal case the prisoner has a right of challenge which is of two kinds—a challenge to the array—*i.e.*, the whole number of jurors summoned (which is so rare that it need not be further considered) and a challenge to the poll, *i.e.*, to individual jurors, which may be peremptory or for cause. Peremptory challenge, or challenge without cause, exists only as of right in treason and felony, and the prisoner can only challenge a limited number without reason. In the exercise of this right prisoners frequently object to the women on the jury. "Challenge for cause" sometimes takes place on the ground that the proposed juror is a peer or is alleged to have committed some crime which makes him infamous.

Except upon trials for murder, treason, and treason felony juries after being sworn may separate, *e.g.*, for lunch and at night. The verdict must be given in open court in the presence of all the jurors, and in cases of treason and felony in the presence of the defendant. It must be unanimous, except that in civil cases the parties may agree to take a majority verdict.

Special Juries.—Special Jurors are selected from persons having larger property qualifications, *e.g.*, the occupier of dwelling house in a large town rated at not less than £100. Trial is generally by Common Jury, but in any cause or matter at Assizes or in the High Court an order for a Special Jury may be obtained in certain cases.

Payment of Jurors.—A Special Juror is entitled to a fee of one guinea for each case in which he is sworn to act, whereas a Common Jury is only entitled to 1*s.* on each cause tried in the High Court or a County Court; and on Circuit, 3*d.* In Criminal Cases the jury is entitled to and, in fact, receives nothing. At Inquests, held before Coroners, the jurors are entitled to such fee as the local authority may permit the coroner to pay.

A juror is not accountable for, nor will any action lie against him, in respect of anything said or done by him in discharge of his office. If he fail to appear in the High Court or at assizes when duly summoned he may have to pay a fine of £10, while non-appearance at a county court may involve a fine of £5.

Coroners' Juries.—A coroner who has decided to hold an inquest must summon a jury to inquire into the cause of death. This absolute duty, however, was suspended during the War and for six months thereafter by an Act passed in 1918. A coroner's jury may be fined £5 for non-attendance. Broadly speaking, any "good and lawful" man or woman may be summoned on a coroner's jury. Although there is no age limit fixed by statute, the custom is to summon only persons of full age. Not less than twelve must be summoned, and at least twelve must agree on a verdict.

MARRIAGES.

BY BANNS OR LICENCE.

BANNS OF MARRIAGE.—"Banns" formerly applied to any public kind of proclamation; and now refer only to marriages, so that the word signifies the public announcement in the parish church, the object being to ensure notoriety, and exclude clandestine marriages. The Marriage Act, 26 Geo. II. c. 33, prescribes audible publication according to the rubric, on three Sundays preceding the ceremony, after the Second Lesson. The law is now chiefly contained in the Marriage Act, 4 Geo. IV. c. 76, which repealed most of the laws then in force (see also 6 & 7 Will. IV. c. 85, and 1 Vict. c. 22). Where the parties reside in different parishes, the banns must be published in both, the minister giving his certificate of the same to be handed to the minister of the parish where the marriage takes place. The law provides specially for the case where one of the parties resides in Scotland, the publication being then in the parish church. In like manner in Scotland the publication takes place in the parish church, in whatever church the parties are married. It may be noted that, by Scottish law only, omission to publish the banns does not invalidate the marriage, because it would still stand as an irregular marriage carried out by consent before witnesses (see sub-tit., "Marriages in Scotland," *post*). The names by which the parties are known are sufficient for publication of banns, so that a variance from the strict baptismal name is not important. But where wrong names are designedly given, for the purpose of concealment or otherwise, the case is different, and the marriage may be null and void (*Midgeley* v. *Wood*, 4 Sw. & Tr. 267). Where a wrong and fraudulent name is given by one party only, and the other party is innocent, the validity of the marriage is not affected.

The Bishop may license a Chapel of Ease for the celebration of marriages; but where a district has been assigned to a chapel, and it becomes a vicarage, or "ecclesiastical parish," the option ceases, and the banns must be proclaimed and marriage celebrated therein, and not in the "mother church" or that of the civil parish.

If three months be permitted to elapse from the last time of publication, the banns become useless, and the parties must either obtain a licence, or submit to the republication of banns. The minister ought to satisfy himself that the parties are of full age, or that the consent of parents is obtained, and it is usually on the score

of insufficiency of age that banns are "forbidden." By the Act 6 & 7 Will. IV. c. 85, a marriage may be performed in church on the superintendent registrar's certificate without banns, provided that the incumbent's consent is obtained. One of the parties must be resident within the *Ecclesiastical* parish of the church in which the marriage is to take place.

Marriage licences are of two kinds—(1) the Common or Ordinary Licence granted by the Archbishops and Bishops, through their Surrogates, for marriage in any church or chapel duly licensed for marriages; (2) the Special Licence granted by the Archbishop of Canterbury for marriage at any time or in any place on good reason being shown (see below). The Act of 1823 is severe on the clergy, making it a felony for any clergyman to marry the parties in the absence of banns or licence; and every Registrar or other person who knowingly unduly solemnizes a marriage is also guilty of felony. By a subsequent alteration in the law, the hours for marriage were extended, and they are now from 8 a.m. to 3 p.m.

The minister should be careful that there are two or more witnesses present, and that two witnesses attest the entries in the register books, which are kept in duplicate.

All civil jurisdiction over marriage was taken away from the Ecclesiastical Courts by the Divorce Act of 1857. An incumbent may, under Section 56 of this Act, refuse to marry a divorced person whose marriage has been dissolved for his or her adultery, but must allow another clergyman of the diocese to perform the service.

Marriage with a deceased wife's sister—including a sister of half blood—was legalised in 1907. No clergyman, however, can be compelled to solemnize such a marriage, but he can allow his church to be used for the purpose by another minister.

Marriage with deceased brother's widow: This was legalised in 1921 by the statute 11 and 12 Geo. 5, c. 24.

A marriage certificate is nothing more than a copy of the entry in the church register; and the customary fee is 2*s.* 6*d.*, and a stamp duty of 1*d.* Searches in the register-books may be made on payment of small fees, viz., 1*s.* for a single year, and 6*d.* additional for every other year. There are small fees, regulated by custom, on the certificate given of banns in one parish for marriage in another. Marriage fees are not uniform, and if excessive there is power with the Diocesan Chancellor to moderate them. With those who are in a position to afford it, it is usual to pay a guinea to the clergyman, and 5*s.* to the clerk; and the usual fees are paid although a stranger-clergyman be invited to perform the service.

Marriage of Infants.

Infants cannot be lawfully married without the consent of certain persons. The law on the subject is to be found in the Guardianship of Infants' Act which came into force on Sept. 30, 1925. Where both parents are living both must consent; where one is dead, the survivor; or if there is a guardian appointed by the deceased, the guardian and the survivor.

MARRIAGE LICENCES.

Marriage Licences can be obtained in London by application at the *Faculty Office* (23 Knightrider St., Doctors' Commons, E.C.4), at the *Vicar-General's Office* (1 The Sanctuary, Westminster, S.W.1), and at the *Bishop of London's Diocesan Registry* (1 Dean's Court, Doctors' Commons, E.C.4), by *one of the parties* about to be married. In the country they may be obtained at the offices of the Bishops' Registrars, but licences obtained at the Bishop's Diocesan Registry only enable the parties to be married in the diocese in which they are issued; those procured at the Faculty Office are available for London and all England and Wales; those procured at the Vicar-General's Office (hours in both offices 10 to 4; Saturdays 10 to 1) are available for London and all England, except the Province of York. No instructions, either verbal or in writing, can be received, except from one of the parties. Affidavits are prepared from the personal instructions of one of the parties about to be married, and the licence is delivered to the party upon payment of fees amounting to thirty shillings, in addition to the cost of stamp, 10*s.* 6*d.* *No previous notice is required and the licence is available as soon as it is issued.* The cost of licences through a clerical surrogate in the country varies, according to the diocese, from £1 15*s.* to £2 12*s.* 6*d.* By the 4th George IV. c. 76, it is enacted, in order to avoid fraud and *collusion* in obtaining licences for marriage, that before any such licence be granted one of the parties shall make a declaration, on oath, that there is no legal impediment to the intended marriage; and also that one of *such parties hath had* his or her usual place of abode for the space of fifteen days immediately preceding the issuing of the licence within the boundary of the parish church, or the district parish in the church of which the marriage is to be solemnized.

It may be added that in the country there may generally be found a parochial clergyman who is also a surrogate, before whom the above-mentioned affidavit may be taken, and whose office it is to deliver the licence personally to the applicant. (In some parts of the country it is necessary for the surrogate to procure the licence from the Bishop's registry.)

SPECIAL MARRIAGE LICENCES.

Special Licences are granted by the Archbishop of Canterbury, under special circumstances, for marriage at any place with or without previous residence in the district, or at any time, &c.; but the reasons assigned must meet with his Grace's approval. Application must be made to The Faculty Office, 23 Knightrider Street, Doctors' Commons, E.C.4 (*tel.*, 6834 Central). Fees for licence stamp, &c., £25.

BEFORE A REGISTRAR AND IN NON-CONFORMIST BUILDINGS.

Marriages can take place in a District Register Office or in a Nonconformist building registered for marriages, (1) by Certificate, (2) by Licence. Notice of such marriages must be given personally to the Superintendent Registrar, a Registrar of Births and Deaths, a Registrar of Marriages, or the deputy of such officer. A marriage at a register office takes place in the presence of the Registrar of Marriages and the Superintendent Registrar; a marriage at a registered building takes place in the presence of the Registrar of Marriages, unless it is had under the provisions of the Marriage Act, 1898, respecting which see below. In each case the presence of at least two witnesses is necessary.

Notice of Marriage by Certificate.

If both parties reside in the same registration district, they must both have resided there for

seven days before the notice can be given. It may then be given by either party.

If the parties reside in different registration districts, notice must be given by each to a registration officer in the district in which he or she resides, and the preliminary residential qualification of seven days must be fulfilled by each before the notice can be given.

NOTICE OF MARRIAGE BY LICENCE.

One notice only is necessary, whether the parties live in the same or in different registration districts, and either party may give the notice.

If both live in the same district, one of them must have lived there for fifteen days before the notice can be given.

If they live in different districts, and both have fulfilled the necessary residential qualification, notice may be given in either district. If one only has fulfilled the qualification, the notice must be given in the district in which the residence has been fulfilled, and the other party must be resident in England or Wales when the notice is given.

The notice contains particulars as to names, ages, residence, length of residence, and the building in which the marriage is to take place. It also contains a declaration that there is no legal impediment to the marriage, and, in the case of minors, that the consent of the person whose consent to the marriage is required by law, has been duly given. A person making a false declaration renders himself or herself liable to prosecution for perjury.

ISSUE OF CERTIFICATE (WITHOUT LICENCE) FOR MARRIAGE.

After the lapse of twenty-one clear days from the date of the entry of the notice in the notice-book, the Superintendent Registrar may, provided no impediment is shown, issue his certificate for the marriage, which can then take place at any time within three calendar months from the date of the entry of the notice,

ISSUE OF CERTIFICATE AND LICENCE FOR MARRIAGE.

After the lapse of one week-day (not Christmas Day or Good Friday) from the date of entry of the notice, the Superintendent Registrar may, provided no impediment is shown, issue his certificate and licence for the marriage, which can then take place on any day within three calendar months from the date of entry of the notice.

DOCUMENTS TO BE PRODUCED AT THE MARRIAGE.

(1) *Marriage by Certificate* :—

a. If both parties live in the same district :—The certificate of the Superintendent Registrar of that district.

b. If they live in different districts :—A certificate from the Superintendent Registrar of *each* district.

(2) *Marriage by Licence* :—The certificate and licence of the Superintendent Registrar of the district in which the notice is given.

PLACE OF MARRIAGE.

The marriage must generally take place at a building within the district of residence of one of the parties, but there are exceptions, as follows :—

a. Section 14 of 19 & 20 Vict. cap. 119, provides that, if the usual place of worship of either of the parties is outside the district of his or her residence, the marriage may take place in such usual place of worship, provided that it is not more than two miles distant from the boundary of the district in which the notice is given.

b. The Act 3 and 4 Vict. cap. 72, provides that, if there is not within the district of residence of either party a registered building within which marriages are solemnized according to the rites and ceremonies of the religious denomination to which the parties belong, the marriage may take place in a registered building of the required denomination in the nearest district.

A marriage which has been duly celebrated in a register office in Ireland may be proved by the certificate of such marriage (*Guillet* v. *Guillet*, 27 T.L.R. 416).

MARRIAGE CEREMONY.

The marriage must be solemnized between the hours of 8 a.m. and 3 p.m., with open doors. Each of the parties must declare as follows :—"I do solemnly declare that I know not of any lawful impediment why I, *A. B.*, may not be joined in matrimony to *C. D.*"; and each of the parties must say to the other, "I call upon these persons here present to witness that I, *A. B.*, do take thee, *C. D.*, to be my lawful wedded wife [*or* husband]." A wedding-ring may be, and is generally, used at a marriage at a register office.

MARRIAGE ACT, 1898.

The presence of a Registrar of Marriages is not necessary at marriages at Nonconformist registered buildings which have adopted the provisions of this Act. The Act (which does not apply to Scotland or Ireland, or to marriages according to the usages of the Jews or of the Society of Friends) provides for the appointment of an "authorised person" (a person, usually the minister or an official of the building certified by the trustees or governing body as having been duly authorised for the purpose) who must be present at and must register the marriage. If the presence of a Registrar is required at a marriage at a building at which the provisions of the Act have been adopted, the fact must be stated when notice of the marriage is given, and the consent of the minister or trustees to the Registrar's attendance must be obtained.

The parties must at some time during the ceremony make the following declarations :—

"I do solemnly declare that I know not of any lawful impediment why I, *A. B.*, may not be joined in matrimony to *C. D.*"

Also each of the parties must say to the other :—

"I call upon these persons here present to witness that I, *A. B.*, do take thee, *C. D.*, to be my lawful wedded wife [*or* husband]";

or, in lieu thereof :—

"I, *A. B.*, do take thee, *C. D.*, to be my wedded wife [*or* husband]."

Rules and Regulations relating to this Act were published in October, 1909. (See *Statutory Rules and Orders*, 1909, No. 1332.)

NAVAL MARRIAGES ACT, 1908.

This Act, which came into force on January 1, 1909, was framed with the object of relieving sailors of the Royal Navy of the difficulties under which they laboured as regards fulfilling the necessary residential qualification for the purpose of marriage.

It provides that any officer, seaman, or marine borne on the books of one of His Majesty's ships who wishes to marry may, if the marriage is to take place at a register office or a Nonconformist registered building, give notice to his commanding officer, who, after the lapse of twenty-one

clear days, can issue a certificate for the marriage. The other party must give notice in the usual way to a registration officer in the district in which she resides.

If the marriage is to take place at a church of the Church of England, the chaplain or commanding officer must publish the banns on board the ship on three successive Sundays: he can then issue a certificate of publication of banns. The banns must also be published in the church in which the marriage is to take place.

No marriage by licence can take place under this Act.

FEES.

	s. d.
For entering notice of a marriage by certificate in the marriage notice-book	1 0
For entering notice of a marriage by licence in the marriage notice-book.....	1 0
For a certificate for marriage without licence.....	1 0
For a certificate for marriage by licence	1 0
For a licence for marriage	30 0
Stamp duty on a licence for marriage.....	10 6
For a marriage by certificate in the presence of a Registrar	5 0
For a marriage by licence in the presence of a Registrar	10 0

Exclusive of the fee for a certificate of the marriage (marriage lines), the total fees for a marriage by certificate, when the parties live in the same district, amount to 7*s.*; if they live in different districts, to 9*s.*

For a marriage by licence the total fees are £2 12*s.* 0*d.*

MISCELLANEOUS INFORMATION RESPECTING MARRIAGES.

Parties should be married in the name in which they are generally known.

A marriage may take place at a registered building before a Registrar without religious ceremony if the consent of the trustees is obtained.

If parties who have been married at a register office desire to go through a religious ceremony at a church, they may do so on production to the incumbent of a certificate of the register office marriage, but this ceremony is not recorded as a marriage in the register books.

A divorced person desiring to marry again in a register office or registered building must give notice to the Superintendent Registrar, to whom a copy of the divorce decree must be produced.

In Wales, and in places where the Welsh tongue is used, the declaration and contracting words may be said in Welsh, as provided by Section 23 of the Marriages and Registration Act, 1837.

If both parties are Jews, they must give notice to a registration officer in the usual way, and may marry according to their usages in a synagogue or private dwelling-house at any hour; the marriage must be registered by the secretary of the synagogue of which the man is a member.

If both parties are members of the Society of Friends (Quakers), or if, not being in membership, they have been authorised by the Society of Friends to solemnize their marriage in accordance with its usages, they must give notice to a registration officer, and may be married in a Friends' meeting-house; the marriage must be registered by the registering officer of the Society appointed to act for the district in which the meeting-house is situated. The presence of a Registrar of Marriages is not necessary at such marriages of Jews or members of the Society of Friends.

Marriage with a deceased wife's sister was rendered legal by the Deceased Wife's Sister Act, 1907; the Act forbids the marriage of a man with the sister of his *divorced* wife during the wife's lifetime. The marriage of a woman with her deceased husband's brother was rendered legal in 1921.

MARRIAGE IN ENGLAND OR WALES WHEN ONE PARTY LIVES IN SCOTLAND OR IRELAND.

Notice for a marriage by a Superintendent Registrar's certificate in a register office or registered building may be given in the usual way by the party resident in England. As regards Scotland, the party there, after a residence of fifteen days, should apply to the session clerk to publish banns; as regards Ireland, the party there, after a residence of seven days, must give notice to the District Registrar of Marriages. Notice cannot be given for such marriages to take place by the licence of the Superintendent Registrar.

Marriage of such parties may take place in a church of the Church of England after the publication of banns, or by Ecclesiastical licence.

MARRIAGES OF BRITISH SUBJECTS ABROAD.

Act passed June 27, 1892; came into force Jan. 1, 1893. Order in Council dated Nov. 22, 1913, whereby previous Orders are repealed and regulations for marriages under the Act are laid down.

British subjects may contract a valid marriage in a foreign country provided they conform to the provisions of the Foreign Marriages Act, 1892. One of the parties to the marriage only need be a British subject.

Where a marriage according to the local law of a foreign country is valid by English law, then, before the marriage is solemnized in that country under the Act, the marriage officer as defined by the Act must be satisfied—

(*a*) That both the parties are British subjects; or,

(*b*) If only one of the parties is a British subject, that the other is not a subject or citizen of the country; or,

(*c*) If only one of the parties is a British subject and the other a subject or citizen of the country, that sufficient facilities do not exist for the solemnization of the marriage in the foreign country in accordance with the law of that country; or,

(*d*) If the man is a British subject and the woman a subject or citizen of the country, that no objection will be taken by the authorities of the country to the solemnization of the marriage under the Act.

In the case of any marriage under the Act, where the woman is a British subject and the man a foreigner, the marriage officer must be satisfied—

(*a*) That the marriage will be recognized by the law of the country to which the foreigner belongs; or,

(*b*) That some other marriage ceremony in addition to that under this Act has taken place, or is about to take place, between the parties, and that such other ceremony is recognized by the law of the country to which the foreigner belongs; or,

(*c*) That the leave of the Secretary of State has been obtained.

The marriage must be solemnized by or before a marriage officer as defined by the above-named Act.

It is necessary for one of the parties to the intending marriage to sign a notice stating the name, surname, profession, condition, and residence of each of the parties, and whether each of the parties is or is not a minor, and to give the notice to the marriage officer within whose district both of the parties have had their residence not less than one week then next preceding, and the notice must state that they have so resided.

If the parties reside in different districts, such notice must be given to the marriage officer of the district before whom the intended marriage is to be solemnized, by the party who has resided for a period of not less than one week within the district of such marriage officer.

If one of the parties resides (*a*) in the United Kingdom, or (*b*) in a Colony or India (*a*) notice must be given in like manner as if the party so resident were about to be married in that part of the United Kingdom in which he or she resides, and in England or Ireland must be given to the superintendent registrar or registrars, and in Scotland must be given by proclamation of banns, and (*b*) such notice must be given by the party dwelling in such Colony or in India as may be provided by any law of that Colony or of the Governor-General of India in Council, or in like manner as if the party were about to be married in that place.

If the non-resident party has dwelt in the district of a marriage officer in a foreign country notice must be given by that party in like manner as if the marriage were to be solemnized by or before such marriage officer, or if the place in a foreign country at which the non-resident party has dwelt is not within the district of a marriage officer the notice may be given to any person authorised by the Secretary of State to receive such notices. Where neither party has resided for a period of not less than one week within the district of the marriage officer before whom the intended marriage is to be solemnized, and (*a*) the marriage cannot conveniently be solemnized at the place where either of the parties has had his or her usual place of abode, or (*b*) the permission of the Secretary of State has been obtained, notice must be given by each of the parties in the place where he or she has had his or her usual place of abode for a period of not less than one week immediately preceding the giving of such notice in the prescribed manner, and a certificate of the giving of such notice obtained.

If the Secretary of State is satisfied that for some good reason the party has not been able to give the required notice and that the marriage is not clandestine and that adequate notice has been given he may permit the marriage to be solemnized.

Before the marriage is solemnized each of the parties must make on oath

(*a*) That he or she believes that there is no impediment

(*b*) that both the parties have had their usual place of residence in the district of the consular marriage officer for three weeks immediately preceding, or if they have not both resided there during three weeks then that one of them has so resided, and stating the place where the party who has not so resided has within three months immediately preceding had for three consecutive weeks his or her usual place of abode, and the notice that has been given in that place, or, if neither party has resided there, stating the place or places where each party has within three months immediately preceding had for three weeks his or her usual place of abode, and the notices that have been given in those places.

After the expiration of 14 days after the notice of an intended marriage has been entered, then if no lawful impediment to the marriage is shown, and the marriage has not been forbidden in manner provided by the Act, the marriage may be solemnized. A consular officer holding a warrant for a district can only solemnize a marriage at his own official house. Parties residing within a consular district who may wish to be married under the Act must go to the consular officer provided with a warrant for that district; two or more witnesses are required to be present.

The following fees for marriages under the Foreign Marriage Act are leviable under the Consular Fees Order in Council of August 18, 1892, and are payable to His Majesty's Government:—

	£	s.	d.
For receiving notice of an intended marriage	0	10	0
For receiving notice of a caveat	1	0	0
For every marriage solemnized by or in the presence of a Marriage Officer and registered by him	0	10	0
For certificate by a Marriage Officer of notice having been given and posted up, in case of one of the parties residing outside the consular district in which the marriage is to take place	0	5	0
For attendance by consular officer at a marriage solemnized in accordance with the local law and for registration of the same	1	0	0

Marriages may be solemnized 8 a.m. to 3 p.m.

No religious ceremony is required, but any form according to the creed of the contracting parties may be used. The presence of the duly authorised Marriage Officer is, however, necessary to render the marriage valid. If the ceremonial be that of the Church of England, it can only be performed by a clergyman of that Church.

Marriages solemnized under the Foreign Marriage Acts are legal by English law when both parties are British subjects, and also when only one of them is a British subject, but such marriages are not necessarily valid out of His Majesty's dominions. In cases where one of the parties is a subject of the country where the marriage is proposed to take place, or of a third country, the party in question must previously comply with the requirements of the marriage law of the country to which he or she belongs, so far as it may be possible to do so, in order to render such marriage also valid by the law of that country.

An Englishwoman married to a foreigner follows the nationality of her husband.

In Germany and Switzerland marriages by any foreign consular officer are, in the absence of any treaty stipulations, strictly prohibited.

A marriage which would not be valid in England would be equally invalid if solemnized

in an embassy, legation, or consulate abroad. For instance, marriages within the prohibited degrees of consanguinity or affinity would not be valid.

A marriage between Christians in India may be proved in England by an India Office certificate (*Braid* v. *Braid*, 1909, 25 T.L.R. 646).

Marriages may also be solemnized under the "Foreign Marriages Act, 1892," before the commanding officer of any of His Majesty's ships on a foreign station provided he be of such rank and of such vessel as is for the time being authorised for that purpose by Admiralty instructions.

MARRIAGES ABROAD WITH FOREIGNERS ACCORDING TO FOREIGN LAW.

ACT OF 1906.—Under the *Marriage with Foreigners Act*, 1906, any British subject desiring to be married in a foreign country to a foreigner according to the law of the country may, after giving notice of the marriage, obtain a certificate from the registrar that there is no legal impediment to the marriage. In order to obtain the certificate, the rules set out in the schedule to the Act must be complied with. Any persons may enter an objection to a certificate, the validity of which will be decided by the Registrar-General.

A marriage by repute which is valid by the law of the domicile in a foreign country will be recognised as valid by the English courts (*re Green Noyes* v. *Pitkin*, 1909, 25 T.L.R. 222).

MARRIAGES IN SCOTLAND.

According to the law of Scotland marriage is a contract which is completed by the mutual consent of parties. No formalities are required and no consent of parents or guardians is necessary. It can be contracted by a male over 14 years of age and a female over 12. Marriages may be "regular" or "irregular."

A regular marriage is one which is celebrated by a Minister of religion after due notice by the publication of banns or publication by the Registrar. Any Minister of any denomination (including a person officiating at a Quaker wedding) who performs the ceremony is reckoned to be a minister of religion. It must be performed before two witnesses and one of the parties must have resided in Scotland for at least 15 days before the ceremony. Public proclamation is made by (*a*) banns or (*b*) notice by the Registrar. Banns must be proclaimed in the parish church of both parties. It is ordered that the proclamation of banns should be made three times, but by immemorial practice proclamation on one Sunday is sufficient. The Clerk of the Kirk Session of the Parish takes in notices of banns and issues certificates of proclamation. The fee for proclamation may not exceed 2*s.* 6*d.* A certificate of proclamation of banns is only valid for three months.

Under the Marriage Notices (Scotland) Act, 1878, a notice posted up in a conspicuous or accessible place on the board or outer wall of the Registrar's office is equivalent to the proclamation of banns. Exhibition is made for seven consecutive days. Objection may be made within other seven days. If no objections are lodged the Registrar issues a certificate: fee, 1*s.* 6*d.* Such certificate of publication is only valid for three months. Under the Naval Marriages Act, 1908, banns may be published on board one of His Majesty's ships where an officer, seaman or Marine on the ship's books wishes to contract a marriage in Scotland. A declaration under the Marriage Notices (Scotland) Act already referred to may also be filled up and the officer commanding the ship may grant a certificate.

Irregular Marriages are survivals of modes of marriage which were general throughout Europe in mediæval times, Scotland having disregarded the decrees of the Council of Trent invalidating irregular marriages; Scotland following the ancient Canon law. These marriages may be contracted in three ways: (1) by exchange of consent before two witnesses (called in legal language *per verba de presenti*); (2) by promise of marriage followed by intercourse on the faith of the promise (called marriage by promise, *subsequente copula*); the promise, however, can only be proved by the writing or the oath of the party when action is brought; (3) by constant living together as husband and wife (called marriage by *habit and repute*), *i.e.*, the general repute of the neighbourhood supported by consistent conduct. Marriage by the first mode is only valid if one of the parties has been resident in Scotland for 21 days before the contract is entered into. (This is the result of legislation and not part of the common law of Scotland.) "Gretna Green" marriages were abolished in 1856 by the Act 19 and 20 Victoria, Chap. 96. Marriages thus contracted may be registered if the parties appear before the Sheriff with their witnesses and petition for registration within three months. On the Sheriff granting warrant the Registrar registers the marriage for a fee of 5*s.* 1*d.* The other two forms of marriage before they are held to be valid must be declared by a decree in the Court of Session.

Marriage with a foreigner may be solemnized regularly if one of the parties has a residential qualification and provided that one party has resided in Scotland for 21 days and the minister agrees to dispense with the proclamation of banns in the case of the foreigner. Marriage of a Scottish person with a foreigner, or marriage of two foreigners, may be contracted irregularly if one or other of the parties has resided in Scotland for 21 days.

Statistics of Marriages.

	1923.	1924.	1925.
England & Wales	292,408	296,416	295,166
Scotland	35,416	32,352	32,468
Total	327,824	328,768	327,634

PASSPORTS.

Applications for Foreign Office Passports must be made in the form printed on the back of the Regulations (to be had on application), and enclosed in a cover addressed to "The Passport Office, 1 Queen Anne's Gate Buildings, Dartmouth Street, Westminster, S.W. 1," or to "The Branch Passport Office, 36 Dale Street, Liverpool." Applications should, if possible, reach the Passport Office not less than *four* days before that on which the Passport is required. The charge for a Passport is 7*s.* 6*d.* Passports are issued in London between the hours of 10 and 4 (Saturdays, 10 to 1), and in Liverpool, 9.30 to 4 (Saturdays, 9.30 to 1), except on Sundays and Public Holidays, when the Passport Offices are closed. They may also be obtained through the post if a Postal Order for 7*s.* 6*d.*, which should be crossed, *made payable to the Passport Office*, is forwarded with the

application. Postage stamps will not be received in payment.

Foreign Office Passports are granted (1) to natural-born British subjects; (2) to the wives and widows of such persons; and (3) to persons naturalised in the United Kingdom, in the British Dominions or Colonies, or in India.

The wife of an alien is deemed to be an alien.

Passports are granted (1) in the case of natural-born British subjects and persons naturalised in the United Kingdom, upon the production of a Declaration by the applicant in the form printed at the back of the Regulations, verified by a Declaration made by a member or official of any *Banking Firm* established in the United Kingdom, or by any *Mayor, Magistrate, Provost, Justice of the Peace, Minister of Religion, Barrister-at-law, Physician, Surgeon, Solicitor, or Notary Public*, resident in the United Kingdom and being himself a British subject. The applicant's Certificate of Birth and other evidence may also be required. Applicants serving in His Majesty's Forces may have their declarations verified by their Commanding Officers; (2) in the case of children under the age of 16 years requiring a separate Passport, upon production of a Declaration made by the child's parent or guardian in a Form (B), to be obtained upon application to the Passport Office; (3) in the case of persons naturalised in any of the British self-governing Dominions, upon production of a letter of recommendation from the High Commissioner or Agent-General in London of the State concerned. Persons naturalised or ordinarily resident in any of the Crown Colonies must obtain a letter of recommendation from the Colonial Office.

If the applicant for a Passport be a British subject by naturalisation, the Certificate of Naturalisation must be forwarded to the Passport Office with the Declaration or letter of recommendation. British subjects by naturalisation will be described as such in their Passports, which will be issued subject to the necessary qualifications.

British Passports are only available for travel to the countries named thereon; but may be endorsed for additional countries. The possession of a Passport so endorsed does not, however, exempt the holder from compliance with any *Immigration Regulations* in force in British or foreign countries, or from the necessity of obtaining a *visa* where required.

Passports endorsed as valid for the British Empire are also available for travelling to territory under British protection or mandate, not, however, including Palestine or Iraq, for which countries special endorsements must be obtained.

Foreign Office Passports are available for five years from the date of issue, unless otherwise stated. On the expiration of their period of validity they may be renewed for further consecutive periods of one to five years. In no circumstances are they available beyond ten years from the date of issue. Thereafter, or if at any time the Passport contains no further space for visas, application must be made for the issue of a new Passport.

A Passport cannot be issued or renewed by the Foreign Office on behalf of a person already abroad; such person should apply, in a foreign country, to the nearest British Mission or Consulate, or, within the British Empire, to the nearest Passport issuing authority.

Persons resident in the Irish Free State should make application for their Passports to the Passport Department, Ministry of External Affairs, Dublin.

CERTIFICATION OF PHOTOGRAPHS.

Note.—It is essential that one of the two photographs of the applicant (and wife, if to be included on the Passport) should be certified on the back as follows:—

"I certify this to be a true photograph of *Mr.* / *Mrs.* ..... / *Miss*

Signature and Qualification of Recommender.

Date.....

PAWNBROKERS' REGULATIONS.

For the TICKET on goods pledged for 10*s.* or less .. .. ½*d.*

On goods pledged for more than 10*s.* ..... 1*d.*

For INTEREST on pledges not exceeding 40*s.*, for every 2*s.* or part of 2*s.*, per month..... ½*d.*

And after the first month any time not exceeding 14 days to be charged as half a month.

Note.—In addition to the above charge, an additional charge of ½*d.* for each 5*s.* or part of 5*s.* lent is authorized (*Pawnbrokers' Act*, 1922).

On pledges exceeding 40*s.*, for every half-crown or part of half a crown per month ½*d.*

FORFEITURE.—Pledges for 10*s.* and under must be redeemed within twelve calendar months and seven days from the date of pledging. After that they become the property of the pawnbroker.

Pledges above 10*s.*, if not redeemed within twelve calendar months and seven days from the day of pledging, may be sold by auction by the pawnbroker, but may be redeemed at any time before the day of sale.

Within three years after sale the pawner may inspect the account of the sale in the pawnbroker's books on payment of one penny, and receive any surplus produced by the sale. Should there be a deficit, the pawner, or the person producing the ticket, is liable to pay the deficiency. Any deficit on sale of one pledge may be set off by the pawnbroker against surplus on another.

If any pledge is destroyed or damaged by fire, the pawnbroker will be bound to pay the value of the pledge after deducting the amount of the loan and profit—*i.e.*, the loan and profit and 25 per cent. on the amount of the loan.

If any ticket is lost, mislaid, or stolen, the pawner should at once apply to the pawnbroker for a form of declaration to be made before a magistrate, or the pawnbroker will be bound to deliver the pledge to any person who produces the ticket to him and claims to redeem the same.

When the loan is 5*s.* or under, the charge on form of declaration is one halfpenny; when the loan is above 5*s.*, one penny.

SPECIAL CONTRACTS.—A pawnbroker may make a special contract with a pawner in respect of a pledge on which the pawnbroker makes a loan of above 40*s.*, provided always that—

(1.) The pawnbroker at the time of the pawning shall deliver to the pawner a special contract pawn-ticket, signed by the pawnbroker.

(2.) The duplicate of the special contract pawn ticket shall be signed by the pawner.

The pawnbroker may also charge:—For ticket profit per calendar month, for storage of the pledge, and payment to inspect account of sale such sums and rates as may be agreed upon at the time of making the contract.

After the first calendar month any time not exceeding fourteen days will be charged as half

month, and any time exceeding fourteen days and not more than one month as one month.

The charge for storage of the pledge will be per calendar month, or any part of a month, in addition to the charges above mentioned.

Pledges may be pawned under special contract for a period of not less than three months.

In all other respects pledges under special contract are subjected to the same rules as to sale by auction, inspection of account of sale, payment of surplus produced by sale, and loss of ticket, as are set forth above in the case of ordinary pledges for more than 10*s*.

VACCINATION.

The parent of every child born in England must within six months after the birth of the child, or the person having custody of a child must within six months after receiving it, have the child vaccinated by a registered private medical practitioner or by the Public Vaccinator for the district. If the vaccination is performed by a private medical practitioner a certificate in the form prescribed by the Vaccination Order, 1898, of successful vaccination must be sent to the Registrar of Births within seven days. The Public Vaccinator is required on the request of the parent or guardian of a child to visit the home of the child and vaccinate it free of charge with glycerinated calf lymph or with such other lymph as may be issued by the Local Government Board at the option of the parent. If a child is not vaccinated within 4 months of its birth, the Public Vaccinator is required to give 24 hours' notice to the parent and to visit the home of the child and offer to vaccinate it. No parent or other person will be liable to any penalty under the Vaccination Acts if within four months from the birth he makes a statutory declaration before a commissioner for oaths or one justice of the peace that he conscientiously believes that vaccination would be prejudicial to the health of the child, and within seven days thereafter delivers the statutory declaration (which requires no stamp) to the Vaccination Officer for the district. A conscientious objector can thus escape all penalties, but a person who does not obtain a certificate, or make the declaration, will still be liable to penalties for not having a child vaccinated, and by the Vaccination Order, 1898, issued under the Vaccination Act, 1898, by the Local Government Board, the due vaccination of every child not exempted is secured by a very complete system of registration, and in future the Vaccination Officers will be able to undertake prosecutions without directions from Boards of Guardians, and the Boards will have no power to prevent such prosecutions. [See also Vaccination Order, 1907.]

WILLS.

Reasons for Making a Will.—Every man having a wife and family should make his will. However small his estate, it is an imperative duty in most cases, and is safer in every case, to protect the interest of the survivors by a will, and by the appointment of one or more trustworthy persons to carry his wishes into effect. When persons die intestate, having foolishly put off making a will until it is too late, their negligence may deprive those for whom they were most anxious to provide. To make a will is more important now than ever, because the old canons of descent in the case of an intestacy have been repealed. A summary of the new law will be found on p. 256. Negligence, or unreasoning dislike to making a will, becomes an irreparable crime against those who have the first claim to protection. The help of a lawyer in making a will is not in every case essential, but it is always advisable, particularly where there is a desire on a testator's part to provide for his property being "settled" as it is called—*e.g.*, the income being paid to his widow for her life, or until remarriage, and on her death or remarriage the capital being divided among his children equally. The tying-up or postponing the enjoyment of income or capital requires the skill of a practised lawyer. Assuming that a lawyer is not employed, a person having resolved to make a will must not regard it as a light matter, to be got rid of in a few minutes, like writing a letter, but one demanding the most serious attention. It is only after a person is dead, and cannot explain his meaning, that his will can be open to dispute. It is the more necessary, therefore, to express what is meant in language of the utmost clearness, avoiding the use of any word or expression that seems to admit of another meaning than the one intended. The lawyers have a maxim that the unforeseen (*i.e.*, the event not provided for) always happens. It is better to be prolix than to leave the smallest room for doubt or uncertainty, although the same name or word be repeated over and over again. Sounding phrases are entirely out of place. Avoid the use of "legal terms," such as "heirs" and "issue," when the same thing may be expressed in plain language. If in writing the will a mistake be made, it is better to rewrite the whole. Before a will is executed, that is, *signed by the testator in presence of two witnesses*, an alteration may be made by striking through the words with a pen, but opposite to such alteration the testator and witnesses should write their names or place their initials. Never scratch out a word with a knife or other instrument, and no alteration *of any kind whatever* must be made after the will is executed. If the testator afterwards wishes to change the disposition of his estate, it is better to make a new will, revoking the old one, or to add a codicil to the first, which must be duly executed and attested in the same manner as the original will. *A will should be written in ink and very legibly on a single sheet of paper.* Although, of course, forms of wills must vary to suit different cases, the following directions may be found useful to those who, in cases of emergency, are called upon to draw up wills, either for themselves or others:—

Testator or Testatrix.—The person who makes the will is the testator, or if the will-maker be a woman, the testatrix.

Estate.—By this word is to be understood property of all kinds, both real and personal. Real property includes tithes and advowsons, as well as freehold land and houses; while personal property includes debts due, arrears of rents, money, leasehold property, house furniture, goods, assurance policies, stock in public companies, and the like.

Residuary Legatees.—It is well in all cases to leave to some person or persons "the residue of my estate and effects," although it may be thought that the whole of the property has been disposed of in legacies already mentioned in the will. It should be remembered that a will operates on property acquired after it has been made.

To Begin a Will.—A form in which a will may be commenced is:—"This is the last will of

me, Thomas Smith, of Vine Cottage, Silver Street, Reading, in the county of Berks."

TO END A WILL.—After disposing of the property, the will may be ended as follows:—"And I hereby appoint the said —— sole (or joint) executor(s) of this my Will, and I revoke all former wills and codicils. Dated this —— day of ——, 19—."

EXECUTION OF A WILL.—The testator should sign his name at the foot or end of the will, in presence of two witnesses, who will immediately sign their names in his and in each other's presence. A person who has been left a legacy or share of residue in the will, or whose wife or husband has been left a legacy, should not be an attesting witness. Their attestation would be good, but they would forfeit the legacy. It is better that a person named as executor should not be a witness. Husband and wife may both be witnesses, provided neither is a legatee. If a solicitor be appointed executor, it is lawful to direct that his ordinary fees and charges shall be paid; but in this case he (as an interested party) must not be a witness to the will.

ATTESTING EXECUTION.—Opposite to or beneath the testator's signature should be written the attestation clause. The following form of attestation will be found sufficient:—

Signed by the testator [or testatrix, as the case may be], in the presence of us, both present at the same time who in his [or her] presence and in the presence of each other have hereunto set our names as witnesses. THOMAS SMITH [Signature of Testator.]

William Jones, of Vine Cottage, Silver Street, Reading, Tailor. Henry Morgan, of North Street, Reading, Esq.

It is desirable that the witnesses should be fully described, as they may possibly be wanted at some future time. If the testator should be too ill to sign, even by a mark, another person may sign the testator's name to the will for him, in his presence and by his direction, and in this case it should be shown that the testator knew the contents of the document. The attestation clause should therefore be worded: "Signed by Thomas Brown, by the direction and in the presence of the testator, Thomas Smith, in the joint presence of us, who thereupon signed our names in his presence and in the presence of each other, the will having been first read over to the testator, who appeared fully to understand the same." If the testator be blind the will should be read aloud to him in the presence of the witnesses, and the fact mentioned in the attestation clause. If by inadvertence the testator should have signed his will without the witnesses being present, then the attestation should be:—"The testator acknowledged his signature already made as his signature to his last will and testament, in the joint presence," &c. Any omission in the observance of these details causes delay and expense, and sometimes great difficulty is experienced in procuring an affidavit by one of the attesting witnesses before the will can be admitted to Probate.

CODICIL.—When any change is required to be made in the disposition of property as stated in the will, the change should be embodied in a codicil. A codicil should begin:—"This is a codicil to the will of me, Thomas Smith, of Vine Cottage, Silver Street, Reading, in the county of Berks, the said will bearing date," &c. A codicil must be dated at the end, and signed and witnessed with exactly the same formalities as the will.

EXECUTORS.—It is usual to appoint two executors, although one is sufficient. The name and address of each executor should be given in full, as follows:—"I appoint John Jones, of number twenty-one, London Street, Ipswich, and Edward Matthews, of number seventeen, Market Street, Lincoln, executors of this my will." An executor may be a legatee. Thus a child or wife to whom the whole or a portion of the estate is left may be appointed sole executor, or one of two executors. The addresses of the executors are not necessary; but it is desirable, here as elsewhere, to avoid ambiguity or vagueness.

APPOINTMENT OF TRUSTEES.—The form of appointment of executors will also serve when the estate is left in care of trustees, except that the persons should be designated "executors and trustees." The Public Trustee may be appointed executor or trustee of a will. *See* PUBLIC TRUSTEE, *post*.

TRUSTS OF THE WILL.—When the estate is wholly for the children, the will may read, after the appointment of the executors and trustees:—"I give and devise all my estate and effects, real and personal, of which I may die possessed or entitled to, unto the said John Jones and Edward Matthews, upon trust in equal shares for all or any my children or child living at my death who being sons or a son attain the age of 21 years or being daughters or a daughter attain that age or marry. And for all or any the children or child living at my death, who being male attain the age of 21 years or being female attain that age or marry of any child of mine who dies in my lifetime leaving children or a child living at my death, such last-mentioned children or child to take the share or shares which their parent would have taken if living at my death, and so that no grandchild of mine shall take whose parent is living and capable of taking." Where the widow is to have a life-interest use the following words: "upon trust for my wife during her life [or during her widowhood], and after her death [or second marriage, which first happens] upon trust in equal shares for all or any my children or child" &c. as before. The words in square brackets will only be used where the widow is to lose her interest if she marries again.

TESTAMENTARY CAPACITY.—A minor cannot make a will. A married woman (married since January 1, 1883) may dispose by will of any real or personal property as her separate property as if she were a *feme sole* (Married Women's Property Act, 1882, s. 1 (1)). As to the powers of a woman married before that date it is advisable to consult a solicitor.

REVOCATION.—A will is revoked by a subsequent will (but only so far as such subsequent will operates as a virtual revocation, as by making other provisions inconsistent with the previous will; for this reason a will should always have a clause revoking previous testamentary dispositions), or by burning, tearing, or otherwise destroying the same. It is not sufficient to obliterate the will with a pen. Marriage in every case acts as the revocation of a will, unless, in the case of a will made on or after Jan. 1, 1926, it is expressed to have been made in contemplation of marriage (Law of Property Act, 1925, s. 177) so that after marriage the old will should be re acknowledged, or a new one made.

LAPSED LEGACIES.—If a legatee die in the lifetime of the testator, the legacy or share of residue lapses and falls into the residue, excepting only in cases where the legatee is a child or "other issue" of the testator and leaves issue living at the testator's death, and the will does not provide for the class of children or issue being ascertained at some period other than the death of the testator. For instance, if a share of residue is left to "all my children living at my wife's death," the share of a child who died in the wife's lifetime would lapse even though the child should leave issue.

TO ONE PERSON ABSOLUTELY.—When it is the intention to leave all the property to one person, as for instance a wife or child, the will may read:—"I devise and bequeath all my estate and effects, real and personal, which I may die possessed of or entitled to, unto my wife Mary Smith, absolutely."

TO CHILDREN UNDER AGE.—When estates are left wholly or in part to children under the age of 21 years, trustees should be appointed to hold the property in trust for those to whom it will ultimately belong. The trustees will have power to apply the annual income for their maintenance. A wife may be appointed a trustee, or may be sole trustee. It is also usual to appoint the executors or some near relative, guardians of children under age. By the Guardianship of Infants Act, 1886, the mother of a child, if she survives the father, becomes the guardian of such child, either alone, if no guardian is appointed, or jointly with any guardian appointed by the father.

ALL PROPERTY TO BE INVESTED.—Executors and trustees may be empowered to sell and dispose of an estate, and after the payment of all just debts and expenses to invest the remainder. For this purpose the section headed "Trust Investments" should be consulted.

The stringency of the law as to the due execution of wills is only relaxed in favour of sailors and soldiers while on service. The law of wills is mostly contained in the Wills Act, 1 Vict. c. 27.

DUTIES OF EXECUTORS.—After the death of the testator, the duties of the executor may be stated briefly as follows:—The first duty of the executors, or of one of them, is to see that the funeral takes place in a suitable and becoming way; then to make lists or schedules of the debts and the assets or property. For purposes of duty it is necessary to estimate the value of the real and personal property left, or get it valued. Under the Finance Act, 1894, duties are charged on *all* property in which the testator had a life interest, even though the property may not have been under his personal control. The executor must take the will to the Probate Registry, Somerset House, or to the Probate Registry of the district in which the testator had a fixed place of abode, or to a solicitor, and prove the will; to collect all the property of the deceased and pay all his just debts, and before distributing the estate, if it be a large one, it is necessary in order to relieve the executors from personal liability to duly advertise in certain London and local newspapers for all claims against the estate to be sent in before a specified date. Pay the legacy or succession duty. Dispose of the residue of the property as directed in the will. By the Land Transfer Act, 1897, all the testator's real estate becomes vested in the executors, who hold the same as trustees for the persons beneficially entitled under the will or otherwise, and such persons can only acquire a title to the estate through the executors, after payment of all charges and liabilities to which the same is subject. Executors are not obliged to act, neither is it necessary that all the executors should act: one alone is competent to prove a will and carry out its provisions. In small estates, probate and letters of administration may be obtained through an Inland Revenue Office.

ADMINISTRATORS.—If an executor has not been appointed in the will, or if the executor be dead, or does not wish to act, the residuary legatee nearest of kin to the deceased, or a legatee under the will, is entitled to act and administer the will, and is called administrator.

WHERE TO FIND A PROVED WILL.

To find a will proved before Jan. 1, 1858, the date on which the Court of Probate Act, 1857 (20 & 21 Vict. c. 77), came into operation, it is best to search first—if the testator was a man of substance—the index to the wills proved in the Prerogative Court of Canterbury, which is kept at Somerset House. Failing this, the will is probably to be found in the registry of the district in which it was proved. The wills proved prior to 1858 were all distributed among the district registries when these institutions came into existence. This is the only broad rule which can be laid down to guide a searcher. To find a will proved since 1858 is a far simpler task. It must have been proved either at the Principal Registry at Somerset House, or in the registry of the district in which the testator lived. In the former case the original will itself is carefully preserved at Somerset House, the copy of which probate has been granted is in the hands of the executors who proved the will, and another copy for Parliament is bound up in a folio volume of wills made by testators of that initial and date; the indices to these volumes fill a room of considerable size at Somerset House, where the indices may be examined and any will read on payment of a search fee of one shilling. In the latter case, the original will, proved in the District Registry, is there kept, and may be seen or a *copy* obtained, but a copy is sent to and filed at Somerset House, where also it may be seen. A general index of grants, both probate and administrations, is prepared and printed annually in lexicographical form, and may be seen at either the Principal or a District Registry. This index is usually ready by about June or July of the following year. The reader may not copy any part of the will except the names and addresses of the executors and the date and private number of the will. If he desires a copy, he can order one to be made, for which he will pay according to the length of the will, at the rate of sixpence a folio (ninety words) for an ordinary copy, and ninepence a folio for a certified copy, which, with a shilling stamp impressed thereon, can be produced and read in any court of law. The 40 District Probate Registries established by the Act of 1857 are at:—Bangor, Birmingham, Blandford, Bodmin, Bristol, Bury St. Edmunds, Canterbury, Carlisle, Carmarthen, Chester, Chichester, Derby, Durham, Exeter, Gloucester, Hereford, Ipswich, Lancaster, Leicester, Lewes, Litchfield, Lincoln, Liverpool, Llandaff, Manchester, Newcastle-upon-Tyne, Northampton, Norwich, Nottingham, Oxford, Peterborough, St. Asaph, Salisbury, Shrewsbury, Taunton, Wakefield, Wells, Winchester, Worcester, York.

SAFE CUSTODY OF WILLS.

There is a depository for the safe custody of the Wills of *living persons* at Somerset House. A will may be deposited through the Registrar of a District Registry, who will transmit the will to London in a registered letter on receiving a fee of 10*s.* for the deposit, of 2*s.* 6*d.* for entering a minute thereof, and 2*s.* for filing the affidavit which is required. A will once deposited will not be given up to anybody, but must remain in the registry until the testator dies, unless he goes to the registry with the original minute of deposit and other proof of his identity, and destroys his will in the presence of the Registrar. (*See also* PUBLIC TRUSTEE, *post.*)

PROBATE OF WILLS.

OBTAINING PROBATE OR ADMINISTRATION WITHOUT THE AID OF A SOLICITOR.

The entrance to the office for personal applications is in the south-east corner of the Quadrangle of Somerset House, Strand, Room 44. The applicant should bring the registrar's certificate of the death of the deceased, or an official certificate of burial, and the will, if there be one, and full details of the property and debts of the deceased.

If there be no will or no executor be appointed, or the executor will not act, two sureties must also attend and enter into a bond for the faithful administration of the estate, unless the whole personal estate does not exceed £50, or the husband is the applicant, when one surety only will be required.

The scale of probate duty as at present in force will be found in detail under "Estate Duty."

In no case can any correspondence be entered into; nor can an interview be given to any agent. The business of the department can be transacted only with the applicant in person.

Where the deceased resided within the district of one of the "District Probate Registries" (*q.v.*) application may be made at that registry instead of at Somerset House.

Where the whole real and personal estate, without the deduction of debts or funeral expenses, does not exceed £500, application may be made at one of the Inland Revenue Offices in the suburbs and many principal towns throughout the country.

Where the deceased has left no will, and the whole personal estate does not exceed £100, and the widow resides at more than three miles from any Probate Registry, application may be made to the Registrar of the County Court.

Scotland.—"Confirmation" is the Scottish equivalent of Probate. That is obtained in the Sheriff Court of the County in which the deceased was domiciled at the date of his death or where he had no fixed domicile or died abroad, in the commissariat of Edinburgh. Executors are either "nominate" or "dative." An Executor nominate is one nominated by the deceased in his will. An Executor dative is one appointed by the Court (*x*) in the case of intestacy or (*z*) where the deceased had failed to name an executor in his will. In the former case the deceased's next-of-kin are all entitled to be declared executors dative. An inventory of the deceased's estate and a schedule of debts, together with an affidavit, must be given up. If the deceased had personal property in England or Ireland it is shown in the inventory, and then the confirmation is produced in the principal Court of Probate in England or Ireland. It is then sealed in such Courts and has the effect of probate or letters of administration in England or Ireland. In estates under £500 confirmation is obtained at reduced fees.

SCOTS LAW OF WILLS.

The only formalities required by the Law of Scotland as regards due execution of a will are for purposes of authentication. A will must be in writing (except that a person may leave a legacy verbally if the amount of that legacy does not exceed 100 Scots (£8 6*s.* 8*d.* sterling). A will may be either (1) *holograph, i.e.*, written by the testator himself, in which case no witnesses are necessary; (2) *tested*, which means that it is signed in presence of two witnesses. It is not necessary that these witnesses should sign in presence of one another, or even that they should see the testator signing so long as the testator acknowledges his signature to the witnesses. If the testator cannot write, his will may be authenticated by a notary and two witnesses. A parish minister may act as a notary for the purpose of subscribing a will in his own parish. Wills are registered for execution purposes in the Books of the County in which the deceased died domiciled, and in the Books of Council and Session, H.M. General Register House, Edinburgh, for preservation. The original deed may be inspected in the General Register House on payment of a small fee. A certified official copy may be obtained from either register on payment of stamp duties and writing fees.

TRUST FUNDS AND INVESTMENTS.

By the Trustee Act, 1925 (which comes into force on Jan. 1, 1926), a trustee may invest trust funds in (*a*) any parliamentary stocks or Government securities of the United Kingdom; (*b*) on real or heritable securities of the United Kingdom; (*c*) in stock of the Bank of England or Ireland; (*d*) in India 7, 5½, 4½, 3½, 3 and 2½ per cent. stock or other stock issued by the Secretary of State for India charged on Indian revenue; (*e*) in securities the interest of which is guaranteed by Parliament; (*f*) in Consolidated Stock of the Metropolitan Board of Works, or of the London County Council, or Debenture Stock of the Receiver of Police, or Metropolitan Water Stock; (*g*) in Debenture, Guaranteed or Preference Stock of any railway in the United Kingdom incorporated by special Act, and having paid a dividend of not less than 3 per cent. on its Ordinary Stock for 10 years; (*h*) in United Kingdom Railway Stock when the railway is leased in perpetuity to any railway such as that mentioned in (*g*) *supra*; (*i*) in Debenture Stock in Indian Railways; (*j*) in "B" annuities of the Eastern Bengal, East Indian, the Scinde, Punjaub and Delhi, Great Indian Peninsula and Madras Railways, and in Deferred Annuities in the register of holders of Class D Annuities comprised in the register Class C of the East Indian Railway Company; (*k*) in the stock of any Indian railway upon which a fixed or minimum dividend is guaranteed by the Indian Government, or upon the capital of which the interest is so guaranteed; (*l*) in the Debenture or Preference Stock of any Water Company supplying water for profit, and incorporated by special Act or Royal Charter, which has paid a dividend of not less than 5 per cent. on Ordinary Stock for 10 years; (*m*) in the nominal or Inscribed Stock of any Municipal Borough in the United King-

dom having a population of more than 50,000, or of any County Council; (*o*) in the Nominal or Inscribed Stock of any commissions supplying water by statute, and having power to levy rates over an area embracing not fewer than 50,000 persons, provided the rates for 10 years have not exceeded 80 per cent. of the amount authorised to be levied; (*o*) in Stocks mentioned in the Colonial Stock Act, 1900; (*p*) in local bonds issued under the Housing (Additional Powers) Act, 1919; (*q*) in any Stock or Securities issued in respect of any Government loan in Northern Ireland; (*r*) in Stocks, &c., authorised for the investment of cash under the control of the Court. All such investments may be varied. As regards railway investments, the L. & N.E. Ry., the S.Ry., the L.M. & S. Ry., and the G.W. Ry., are to be treated as if they were a company which had in each of the ten years before amalgamation paid a dividend of not less than 3 per cent. on its Ordinary Stock. All the Stocks above mentioned may be purchased, although they are redeemable, and the price exceeds the redemption value; but as to those mentioned in paragraphs (*g*), (*i*), (*k*), (*l*), (*m*), (*o*), (*p*) and (*q*), *supra*, if any of them is liable to be redeemed at par or at some other fixed rate, a trustee may not purchase (*a*) at a price exceeding 15 per cent. above par or such other fixed rate; nor (*b*) if the stock is liable to be so redeemed as aforesaid within 15 years of the date of purchase at a price exceeding its redemption value. §§ 3 to 11 of the same Act contain various important provisions as to the rights of trustees in the matter of investing trust monies.

The Rule of the Supreme Court, 1888, authorises investment in:—Consols, War Loan Exchequer Bills, Bank Stock, India 3½, 3 and 2½ per cent., Indian Railway Guaranteed Stock, Colonial Government Stock, guaranteed by the Imperial Government, Metropolitan Consolidated Stock, 3½, 3 and 2½ per cent. Various London County Consolidated Stock, Corporation of London Debenture Stock, Debenture, Preference, Guaranteed, or Rent-charge Stocks of railways in Great Britain or Ireland having for ten years next before the date of investment paid a dividend on Ordinary Stock or Shares and in like Stocks if guaranteed by Railway Companies of the same description and in Nominal Debentures or Nominal Debenture Stock under the Local Loans Act, 1875, or under the Isle of Man Loans Act, 1880, provided such Stocks are not liable to redemption within fifteen years from the date of investment. A complete list of all such stock will be found in the *Annual Practice*.

The Trusts Amendment Act, 1884 (*Scotland only*), excludes Irish real or heritable Securities or Stocks, and British Railway contingent Preference and Waterworks Stocks; admits all Railway Debenture Stocks and Guaranteed Stocks of railways that have paid Ordinary Dividends for the past ten years, and all Municipal Loans, and East India Stocks, and registered Colonial Stocks if approved by Court of Session.

The Colonial Stock Act, 1900, permits Trustees, both English and Scottish, to invest in certain Colonial Stocks registered in the United Kingdom which the Treasury publishes a list of in the London and Edinburgh Gazettes, but subject to the clause as to Redeemable Stocks in the Trustee Act, 1893.

The Housing (Additional Powers) Act, 1919, adds to the investments mentioned in Sec. 1 of the Act of 1893. (*a*) Stock issued under the provision of the Act of 1919, and (*b*) Mortgages secured on the Rates of certain Corporations and other authorities under an Act of Parliament.

THE PUBLIC TRUSTEE.

This is a Government Office (opened in 1908) by means of which the State acts as Executor and as Trustee under a Will, or as Trustee under a Settlement, whether new or old, and in other capacities of a like nature. The public demand for the services of the Public Trustee is well maintained. The value of the trusts accepted up to March 31, 1926, was £247,791,424.

The facts of any trust, new or old, in which it is desired that the Public Trustee should act may be brought to his notice by letter or by personal interview. Upon his assenting to act, his appointment is effected in the same simple way as in that of a private trustee, or he can be appointed by an Order of the Court. He can act solely or jointly with others.

In the case of a Will about to be made, all that the testator need say is, "I appoint the Public Trustee executor and trustee of this my Will"; or the appointment may be a joint one with friends or relations. In the case of a Will already made, the appointment of the Public Trustee can be effected by means of a codicil. Executors who have obtained probate can transfer their duties to him under an Order of the Court. He can also act as Administrator with, or without, the Will annexed.

The Public Trustee being a permanent trustee, the expense of fresh appointments is saved. His integrity is guaranteed by the State, while the public demand for his services should ensure a valuable experience and skill in the execution of his office; and a wide knowledge in the work of investment.

The Public Trustee is not, as such, limited in his powers of investment to trustee securities, but, like a private trustee, he is bound by such powers of investment as may be given him in the Will or trust instrument under which he acts. He makes a point of giving the personal attention of himself or of his senior officials to the personal details of any trust. The statutory rules require that strict secrecy shall be observed in respect of all matters dealt with in the Department. Accounts of every trust, in simple form, are furnished to the beneficiaries as required.

The Public Trustee Act provides that the fees to be charged shall be arranged from time to time so as to produce an annual amount sufficient to discharge the salaries and other expenses of the Department and no more. A profit is not intended. An important Committee of Investigation, presided over by Sir George Murray, G.C.B., was appointed by the Lord Chancellor in April, 1919, to inquire into the organisation of the Office and any alteration which might be required in the scale of fees.

An interview with the Public Trustee or with any of his senior officers can be arranged at any time by letter or telephone.

A pamphlet giving full particulars and details of the fees can be obtained free of cost upon application to the Office of the Public Trustee, Kingsway, W.C. 2 (*tel.*, Holborn 2,400), or at any Post Office.

A branch office has been opened in Northern Assurance Buildings, Albert Square, Manchester.

THE Administration of Estates Act, 1925, which came into force on Jan. 1, 1926, makes certain important changes in the law of descent where a person dies intestate. The relevant provisions of the Act are not easy for a lawyer to understand, much less a layman.

According to the Editors of *Law Notes* in their admirable *Guide to the New Property Statutes*: "The existing rules as to descent of realty are swept away, and subject to certain exceptions the same law is made to apply to real and personal estate without distinction . . . The Statutes of Distribution equally with the Inheritance Act are thrown on the legislative scrapheap. Husband and wife are placed upon a footing of equality, and so are father and mother, and grandfather and grandmother respectively. A mother gets back the old priority over brothers and sisters which she lost in 1685. Whole blood takes priority over half-blood . . . Kindred more remote than first cousins and their issue are excluded from participation. Representation of deceased persons by their issue is allowed through all degrees. To save the cost of taking out letters of administration to the estates of infants, the beneficiaries only take absolutely vested interests at twenty-one or marriage."

It is to be observed that the new Act only applies to England and Wales. But as all the former Acts upon which the Table of Descent set out at p. 416 of the 1925 Edition of the Almanack were founded are absolutely repealed, it is presumed that the Governments of Northern and Southern Ireland have been left to legislate for themselves in the matter.

The following is an attempt to summarise the material sections of the Act:—

By s. 45 all existing modes, rules and canons of descent, *e.g.*, gavelkind, borough English, tenancy by the curtesy, dower and free bench, are abolished. By s. 46 residuary estate is distributed in the manner or is to be held on the trusts following, namely:

Intestate leaving Husband or Wife (with or without children).—Surviving spouse takes personal chattels (*e.g.*, carriages, horses, motors, domestic animals, plate, jewellery, &c., *but not* chattels, &c., used for business purposes nor money or securities for money). In addition the residuary estate stands charged with £1,000 payable to the surviving spouse free of duty with interest at 5 per cent. from date of death (s. 46 (1) (i)). Subject to this, the residuary estate is held on trust for the surviving spouse if the intestate leaves no issue. If the intestate leaves issue, *half* the residue is held upon trust for the surviving spouse during life, and thereafter on statutory trusts for the issue, the other *half* being held on statutory trusts for the issue. If those trusts fail or determine in the lifetime of the surviving spouse (as, *e.g.*, by the death of a child), then this second half is held on trust for the surviving spouse. (s. 46 (1) (i) (*a*) (*b*)).

Intestate leaving Issue but no Husband or Wife.—In this case residue is held on statutory trusts for the issue (s. 46 (1) (ii)).

Intestate leaving no Issue, but both Parents.—Subject to the interest of the surviving spouse, residue to be held in trust for father and mother in equal shares absolutely (s. 46 (1) (iii.)). It will be seen that in this case the father and mother will not take until the death of the surviving spouse.

Intestate leaving no Issue, but one Parent.—Subject to the interest of the surviving spouse, residue to be held in trust for surviving parent absolutely (s. 46 (1) (iv)).

None of the above Relations, but other Relations.—Subject to the rights of a surviving spouse, the relations are entitled in the following order: (*a*) Brothers and sisters of the whole blood; (*b*) Brothers and sisters of the half-blood; (*c*) Grandparents in equal shares; (*d*) Uncles and aunts being whole brothers or sisters of a parent of the intestate; (*e*) Uncles and aunts being half brothers or sisters of a parent of the intestate. (Note: Excepting case (*c*) the property is held on statutory trusts. As to the rights of "issue" of brothers, uncles, &c., see "*Statutory Trust for Persons other than Issue*," *infra*.)

No Husband or Wife, and no relations more distant than those above mentioned.—The Crown or the Duchy takes as *bona vacantia*; but may provide for persons for whom the testator might have been reasonably expected to provide.

Statutory Trusts for Issue.—By s. 47 of the Act, property is to be held in trust in equal shares for children living at the death of the intestate who attain twenty-one or marry under that age. It is also held on similar trusts for all the issue living at the death who attain twenty-one or marry under that age of any child of the intestate who predeceases the intestate. Thus a nephew or niece of the intestate whose father was dead at the date of the death of the intestate would take his father's share. Money advanced to a child of the intestate for his advancement will be taken into account in settling his share.

Statutory Trust for Persons other than Issue.—When the residuary estate devolves on a class of relations other than the intestate's issue it is to be held on trusts similar to those for issues, but without the hotchpot clause. "For example," write the Editors of *Law Notes*, "if the intestate left no issue and no parent, but brothers and sisters, nephews and nieces and great-nephews and great-nieces, the persons entitled would be the brothers and sisters and any nephews and nieces alive at the intestate's death who were children of a deceased brother or sister, and any grand-nephews and grand-nieces then alive who were the children of a nephew or niece then dead who was the child of a brother or sister of the intestate then dead."

Redemption of Interest of surviving Spouse.—The personal representatives of the intestate may purchase or redeem the life interest of the surviving spouse by paying the capital value, and may raise the money for the purpose on the security of the rest of the residuary estate other than the chattels. They may also mortgage that residue to raise the £1,000 to which the surviving spouse is absolutely entitled.

Partial Intestacy.—Where a person dies leaving a will effectively disposing of part of his property, the Act applies as respects the part of his property not so disposed of, subject to the provisions contained in the will and subject to certain modifications which are to be found in s. 49 of the Act.

The "residuary estate" above mentioned includes real and personal estate, that is to say, every beneficial interest of the intestate in real and personal estate which he could, if of full age and capacity, have disposed of by his will. Reference to a child living at the death of any person includes a child or issue *en ventre sa mère* at the death.

I.—MOVABLES.

In each instance it is supposed there are no nearer relations than those named.

By the Intestate Husband's Estate (Scotland) Act, 1911, the widow of a man dying intestate and without issue is entitled to the whole estate both heritable and movable if under £500 in value; if over that amount she takes £500 out of the heritable and movable estate rateably before any division is made, and after that the share in the remainder to which she was entitled before the passing of the Act.

If the Intestate die, leaving	*His representatives take in the proportions following:—*
Widow only	Half to widow, half to next of kin, or if none, then to the Crown.
Husband only	Half to husband, half to wife's next of kin.
Widow or husband, and child or children by one or more marriages	One-third to widow or husband; one-third to children surviving deceased *equally*; one-third to surviving children *per capita** and issue of predeceasing children *per stirpes.**
Widow and father	Half to widow, half to father.
Widow and mother, no father	Half to widow, one-half to mother.
Widow, brothers or sisters	Half to widow, half equally amongst brothers and sisters whether of the whole or half blood consanguinean. If a deceased brother or sister has left issue, such issue take amongst them their deceased parent's share.
Widow, mother, nephews or nieces	Half to widow, one-half to mother.
Father and mother	Whole to father
Father, mother, brothers and sisters	Half to father; half to brothers and sisters equally.
Father and mother and their grandchildren	Half to father; half to grandchildren equally *per stirpes.**
Father, brothers and sisters	One-half to father, one-half equally amongst brothers and sisters.
Mother, brothers and sisters	Mother one-half, brothers and sisters one-half equally.
Mother, but no other kin	Whole to mother.
Child, children or grandchildren by deceased children	Amongst children in equal shares, the grandchildren by deceased children taking amongst them their deceased parent's share.
Brothers or sisters and nephews or nieces	Amongst brothers or sisters in equal shares, the children of deceased brothers or sisters taking amongst them their deceased parent's share.
Brother or sister and grandfather	All to brother or sister.
Brother or sister and uncles or aunts	All to brother or sister.
Grandfather, no nearer relation	All to grandfather.
Father's father and mother's mother	All to father's father.
Grandmother, uncles and aunts	All to uncle and aunts, if paternal.
Great-grandfather, uncles and aunts	All to uncles and aunts, if paternal; if not, then to paternal great-grandfather.
Uncles and aunts	All equally.
Uncle and deceased uncle's child	All to uncle.
Uncle by mother's side, and deceased uncle or aunt's child	Child of deceased paternal uncle or aunt takes to exclusion of maternal uncle.
Aunts, nephew and niece	Nephew and niece.
Cousins	Equally *per capita.**
Nephew by brother, and nephew by half-sister	All to nephew by brother.

NOTE A.—Illegitimate children do not succeed to their father or mother as heirs in intestacy.

NOTE B.—In Scotland, a lease on intestacy and in the absence of any destination descends to the heir-at-law.

NOTE C.—When a person dies intestate leaving heritable estate as well as movables, the heir to the heritage, if he is also one of the next-of-kin, is not entitled to any of the movables if he takes the heritage. He may, however, "collate" the heritage, *i.e.*, share it with the other next-of-kin and thus get an equal share of the mixed estate.

* *Per capita* means by the head; *per stirpes* means inheriting through a parent deceased. Movables taken *per capita* divide into as many shares as there are children. Where representatives of a deceased parent take *per stirpes* they take equally amongst them the share that would have fallen to the deceased had he or she survived.

II.—HERITAGE.

Table of Succession to heritable property in Scotland on intestacy and in the absence of any destination in the property writs, other than "to heirs and successors."

In each instance it is supposed there are no nearer relations than those named.

If Intestate die leaving	*Heritage would descend to:—*
(1) Wife only; no blood relations.	One-third to wife for life; rest to Crown as *ultimus haeres*.
(2) Wife and child or children, and children of a deceased child...	One-third to wife for life. Fee to eldest son or his heir male. If no son then to daughters equally. The eldest son of a deceased daughter taking his mother's place.
(3) Wife and father	One-third to wife for life, rest to father.
(4) Wife and mother	One-third to wife for life. Fee to nearest heir male.
(5) Wife, brother, or sister, and children of a deceased brother or sister	One-third to wife for life. Fee to immediate younger brother and his heir male; if none, then to immediate elder brother.
(6) Wife, mother, nephews and nieces	One-third to wife for life; rest to nephew (eldest) or nieces equally if brother left no son. See No. 2.
(7) Wife, mother, brother, sisters and nieces (children of deceased brothers and sisters)...	One-third to wife for life; rest to younger brother and his heirs. If the only heirs are nieces they will take equally. If no younger brother then to immediate elder brother and his heirs in the same way. If sisters but no brothers the sisters take equally, and if the sisters have predeceased leaving only daughters they succeed equally.
(8) No wife or child or issue of a deceased child	To brother as in (5) whom failing to lineal ancestor paternal and his heirs.
(9) Children by one or more wives and the issue of deceased children	All to eldest son or his issue. If no male issue then to female issue as in (2).
(10) Husband and child or children	Liferent of whole to husband. Fee to eldest son.
(11) Mother, but no wife, child or issue of a child, father, brother, sister, nephew or niece or more distant descendants of father	Nearest paternal collateral (uncle or his heirs). If none, then to grandfather and his heirs
(12) Mother and brothers and sisters	All to younger brother whom failing to immediate elder brother.
(13) Mother and sisters	All to sisters equally.
(14) Father and brothers and sisters	Fee as in (5).
(15) Child and grandchild by deceased child	(*See* No. 2.) "Rest to eldest son or his issue," under head, "Wife and child," etc.
(16) Brother and grandfather	All to brother.
(17) Brother's grandson, and brother or sister's daughter	All to great-nephew, if grandson of brother (conforming to Nos. 2 and 7). All to brother's daughter, if child of eldest brother.
(18) Brother and two aunts	Brother, all.
(19) Brother and wife	One-third to wife for life; rest to brother.
(20) Grandfather (no nearer).....	All to grandfather.
(21) Father's father and mother's mother	All to father's father.
(22) Grandmother and uncle, or aunt on father's side (no nearer)	All to uncle or aunt.
(23) Uncle and deceased uncle's child	If deceased uncle was younger brother, then to child. If both brothers older than intestate, then to the younger of them or his heir male.
(24) Uncle by mother's side, and deceased uncle's or aunt's child	Child of deceased uncle on father's side, or (if none) child of deceased aunt on father's side,
(25) Two aunts, nephew and niece, children of deceased brother	Nephew.
(26) Uncle or aunt's children, and brother's grandchildren through a son	Brother's grandson, or if granddaughters between, then equally (conforming to Nos. 2 and 7).
(27) Nephew by brother, and nephew by half-sister.	Nephew by brother.
(28) Nephew by deceased brother, and nephews and nieces by deceased sister	All to eldest nephew, son of deceased brother.

NOTE.—In Scotland succession to heritage on intestacy NEVER ascends to the mother and her relations. Even the mother's own estate, after vesting in her son or daughter, never ascends to the maternal line again.

SOLICITORS' CHARGES.

These are now usually regulated in conveyancing and non-contentious business by the Solicitors' Remuneration Act, 1881, and the Scale thereunder, but the Act allows an option to a solicitor of declining to adopt it. It chiefly relates to sales, purchases, and mortgages, and is based upon the value of the property or amount of the money involved. Besides this, it is legal for a client to make a bargain beforehand for a fixed sum. The amount coming to the solicitor, whether under Scale or agreement, is intended to cover the services of himself and his clerks, while it is, of course, exclusive of actual outlay for stamps, &c. On purchase or mortgage money exceeding £300 and not exceeding £1,000, the Scale charge for each party's solicitor is 1½ per cent.; this does not apply to sales by auction. Where a negotiation fee is chargeable, in addition, by the vendor's, purchaser's, or mortgagee's (not mortgagor's) solicitor, the Scale charge on sums exceeding £300 and not exceeding £3,000 is 1 per cent. It should be noted that if the solicitor *negotiates* the purchase or mortgage, he is entitled to an additional fee of substantial amount under the Scale referred to. *Charges are now subject to an increase of 33⅓ per cent.*

Scotland.—Solicitors' fees for Conveyancing and General business are regulated by a joint table approved by the different societies of Law Agents (Solicitors). Fees for litigation are regulated by the Court of Session. The tables of fees are published in The "Parliament House Book" and in "The Scottish Law Directory." When a solicitor sues for payment of a professional account it is remitted to the Auditor of the Court for taxation of his charges.

MEDICAL FEES.

The following are the charges usually made by *General Practitioners*:—

General Practitioners.	Rental (of Patient's House).			
	£10 to £25.	£25 to £50.	£50 to £100	
Ordinary Visit	2s. to 7s. 6d.	5s. to 10s. 6d.	7s. 6d. to 15s.	
Night Visit	Double an ordinary visit.			
Mileage beyond two miles from Home	2s. 6d.	3s.	4s.	
Detention per ½ hour	2s. to 7s. 6d.	5s. to 10s. 6d.	7s. 6d. to 15s.	
Letters of Advice	Same charge as for an ordinary visit.			
Attendce. on servants	5s.	5s.	5s. to 7s. 6d.	
Midwifery	2½ Gs.	2½ to 4½ Gs.	4½ to 7½ Gs.	
Adminstrng. Chlfrm.	2s.	2½ Gs.	3 Gs.	
Consultants.				
Advice or Visit alone	2 Gs	2 Gs.	2 Gs.	
Advice or Visit with another Practitioner	1½ Gs.	2½ to 3 Gs.	2½ to 3 Gs.	
Mileage beyond two miles from Home	2s.	2s.	2s.	

Special visits—*i.e.*, of which due notice has not been given before the practitioner starts on his daily round, are charged at the rate of a visit and a half. Patients calling upon the doctor are charged at the same rate as if visited by him.

When the ordinary medical attendant is called upon to meet another in consultation, he is entitled to charge double his ordinary fee. When he himself is called in in consultation he is entitled to the minimum fee.

When more members of one family are ill at the same time, half a fee is charged for each beyond the first.

In midwifery cases the fee generally covers all charges for visits, &c., if all goes well, but if the illness be protracted, or if any special operation has to be performed, there is an extra charge.

If attendance on servants is paid for by employer, or if *he* send for the doctor, the charge is the same as to himself.

Certificates of health are to be charged for same as visits, except where special investigation is needed, as in certificates for lunacy, insurance offices, &c., when the charge may be from half a guinea to two guineas.

Vaccination is usually charged for according to the number of visits required.

Medical bills are commonly rendered once or twice a year.

STOCKBROKERS' CHARGES.

The Rules and Regulations drawn up by the London Stock Exchange "Committee for General Purposes" are very voluminous and technical. The customary scale of brokerage is 2s. 6d. per £100 on Home or Foreign Government stocks, 5s. per £100 on Indian, Colonial and American dollar stocks, and 10s. per £100 on British Railway registered stocks. On shares not exceeding 50s. the brokerage is 6d. per share; not exceeding £7 10s., 1s. per share; £10, 1s. 3d.; £15, 1s. 6d.; £20, 2s.; £25, 2s. 6d.; exceeding £25, the brokerage is 10s. per £100 of the money.

ACCOUNTANTS' CHARGES.

The following scale of fees is generally applicable, but for special work fees are usually a matter of negotiation:—

Company Audits.—Fee fixed by Shareholders in General Meeting.

Preparing Balance Sheets, Investigating Accounts, &c.—Principals' time, per day of seven hours, 5 to 10 Gs. Managing Clerks (if Chartered Accountants), 3 to 5 Gs.; (not Chartered Accountants), 1½ to 2½ Gs.; other Clerks, 1 G. and upwards. If at a distance from the office or outside the United Kingdom, hotel and travelling expenses will be charged.

Receivers, Liquidators and Trustees in Bankruptcy.—Usually by percentage on realisation of assets and dividends paid.

Voluntary Liquidators.—Usually fixed by the Company in General Meeting.

ARCHITECTS.

Fees on New Works.—For taking the Client's instructions, preparing sketch design, making approximate estimate of cost by cubic measurement, or otherwise, preparing drawings and specifications for the purpose of estimates, obtaining tenders, advising on tenders and in preparation of contract, selecting and instructing of consultants, furnishing to the Contractor one copy of the drawings and specification and such other details as are necessary for the proper carrying out of the works, general supervision as above defined, issuing certificates for payment, and passing and certifying accounts, a percentage on the total cost of all executed works as follows:—

(*a*) If the contract or order exceeds £2,000 the percentage is to be 5 per cent.

(*b*) If the contract or order does not exceed £2,000 the percentage is to be 10 per cent. in the case of works costing £100 graduated to 6 per cent. in the case of works costing £2,000 as the special character of such works may render appropriate.

Alterations and Additions.—A percentage not exceeding twice the amount due for new works of the same cost.

Fittings, Decorations, &c.—In works in which designs for fittings, appointments, decorations, or complex detail or construction are main features, special fees may be charged according to the circumstances, and also for designs for furniture.

Omitted Works.—In addition to the percentage on the total cost of executed works, the Architect is to be paid in respect of all works included in the tender or order, but not executed, two-thirds of the charge which would have been due upon them had they been carried out.

Partial Service.—If the project or part of it be abandoned, or if the services of the Architect cease or are dispensed with before a contract is entered into or order given, the charges in respect of the works abandoned or for which the Architect was employed (as the case may be) are as follows :—

(*a*) For making approximate estimate of cost by cubic measurement, or otherwise, one-fourth of the percentage on the estimated cost of such works.

(*b*) For making approximate estimate of cost by cubic measurement, or otherwise, and preparing drawings and particulars sufficient to enable quantities to be prepared or a tender obtained, two-thirds of the percentage on the estimated cost of such works.

Instalments.—On a contract being entered into or order given for the works the Architect shall be entitled to an instalment of two-thirds of the charge calculated on the total amount of the contract or order, and no part of such payment shall be reclaimable from the Architect in the event of the subsequent abandonment of the works. The remainder of the Architect's remuneration shall be payable by instalments from time to time as the work proceeds.

Work Executed with Old Materials, &c.—In all cases where work is executed wholly or in part with old materials, or where material, labour or carriage is provided by the Client, the percentage shall be calculated as if the works had been executed throughout by a Contractor, and with new material.

Services Not Included in Percentage.—The foregoing percentages do not cover the following services, for which, and for any other services not covered by any payment herein provided for, additional charges may be made in accordance with the amount of work involved :—

Advising as to the selection and suitability of site. Negotiations relating to the site or building. Surveying the site or building and taking levels, and making surveys, measurements, and plans of existing buildings.

The preparation of further sketch designs necessitated by a material alteration in, or addition to the Client's instructions, or altering the working drawings and specification in consequence thereof prior to the commencement of the works. Altering drawings, or preparing new drawings, and other services involved in consequence of variations or additions desired by the Client after the commencement of the works. Making extra drawings for the Client's or Contractors' use, and making drawings for and negotiations with ground landlords, adjoining owners, public authorities, or others, and making applications for licences and consents

Making arrangements in respect of party walls and rights of light and other easements, reservations or restrictions. Services in connection with litigation or arbitration. Services consequent upon or resulting from the death or bankruptcy of Contractors or the failure or neglect of Contractors from any cause whatever to carry out the works in accordance with the contract or order or consequent upon the fraud or negligence of the Clerk of Works. Services in connection with fire, flood, or tempest during the execution of the works, and services in connection with the planning of grounds or gardens.

Housing Schemes and Laying Out Estates.—The fees are those approved by the Ministry of Health, the Board of Agriculture and Fisheries, and the Scottish Board of Health.

Approval of Lessee's Plans.—For approving plans submitted by a lessee and for inspecting the work during its progress so far as may be necessary to ensure the conditions being fulfilled, and certifying for lease when required, the charge is as follows :—

For each £100 or part of £100 of the total cost up to £500, 2½ per cent. (minimum fee, £3 3s.).

For each £100 or part of £100 from £500 to £5,000, 1¼ per cent.

For each £100 or part of £100 above £5,000, 1 guinea per cent.

Litigation and Arbitration.—For qualifying to give evidence, settling proofs, conferences with Solicitors and Counsel, attendances in Court or before Arbitrators or other tribunals, and for other services in connection with litigation and arbitration the charges are based upon the time occupied and the professional standing of the Architect.

Land Surveying and Levelling.—For surveying and making a plan of a town, village, street or road, estate or grounds, or any part thereof, for taking levels, setting out streets or roads, and for other services in connection with land not otherwise specifically provided for, the charges are by time in accordance with Clause 21.

Sanitary Surveys.—For inspecting, reporting and advising on the sanitary condition of premises, the charge is by time in accordance with Clause 21, the minimum fee being £3 3s., in addition to the cost of assistance and appliances.

Expenses.—The above-mentioned fees are, in all cases, exclusive of the cost of copies of documents, lithography, travelling and hotel expenses, and all other disbursements, which are to be charged in addition.

QUANTITY SURVEYORS.

I.—Architectural Work.

Note.—In cases where any of the materials used in construction are supplied by the building owner the percentage charge is based upon the estimated or actual value thereof.

Lump Sum Contracts.

(*a*) Taking out and preparing Bills of Quantities :—2½ per cent. upon the estimated cost of the work up to £5,000; 2 per cent. above £5,000.

(*b*) Pricing out estimates :—½ per cent.

(*c*) Measuring and making up account of variations upon contracts including pricing :—2½ per cent. upon the amount of the gross additions, and 1½ per cent. upon the amount of the gross omissions.

(*d*) Preparing approximate estimates :—½ per cent. upon the estimated cost.

(*e*) Surveying work in progress, taking particulars, and reporting for Interim Certificates :—½ per cent. upon the amount of the valuation.

(*f*) Taking particulars on site and writing specifications for works of alterations or repair, including supervision if required :—7½ per cent. on the amount expended or alternatively a charge based upon the time involved.

Schedule Contracts.

(*a*) Preparing, pricing and agreeing a schedule of prices :—½ per cent. upon the cost of the work.

(*b*) Measuring, bringing to account and valuing work done :—2½ per cent. upon the gross amount of the account.

II.—ENGINEERING WORK.

Lump Sum and Schedule Contracts.

Percentage charges half those for architectural work but the same scale in respect of charges based upon time.

III.—LITIGATION AND ARBITRATION.

For qualifying to give evidence, settling proofs, conferences with solicitors and counsel, attendance in courts or before arbitrators or other tribunals, and for other services in connexion, the charge is based upon the time involved, with a minimum of 5 guineas per day.

The above charges are exclusive of the cost of printing, lithography, and fair copies of accounts, and in all cases travelling and other out-of-pocket expenses are payable in addition to the fees.

CONSULTING ENGINEERS.

On *Constructional Work* the payment is usually an agreed fee or a commission (which includes the necessary drawings, &c.) of 5 per cent. on the cost of the works where the contract exceeds £5,000 and 7½ to 10 per cent. where the amount does not exceed £5,000.

For *Quantities and Accounts* (the services which in architectural work would not be covered by the Architect's fee but would be Quantity Surveyor's work) the usual charge is 1½ to 2 per cent. where the amount exceeds £5,000 and 2 to 2½ per cent. on amounts below £5,000.

AUCTIONEERS, SURVEYORS AND ESTATE AGENTS.

1. Sales by Auction.

Freehold, Leasehold, and Copyhold Properties, including the preparation of particulars, and advising as to reserves :—On the first £300, 5 per cent. ; on the next £4,700, 2½ per cent. ; on the residue, 1½ per cent.

In addition to the above charges :—On amounts paid by the purchaser for *Chattels, Fixtures, Fittings, Trade Stocks*, and other *Movable Effects, Timber*, and *Tenant-right* under the conditions of sale, in addition to the purchase-money of the property :—5 per cent. on £500, and 2½ per cent. on residue, to include inventory and valuation.

Sale before Auction.

After issue of advertisements, the same scale as by auction.

Non-Sale.

Charge equivalent to one-fourth of the commission which would have been earned on a sale up to £5,000 calculated on the reserve price, to include valuation for reserves ; on larger amounts by arrangement.

Sale after Auction.

In the event of the property being sold within three months after the auction, the charges for non-sale would merge into the ordinary commission then payable.

Furniture, Trade Stocks, and Chattels, on the Vendor's Premises.—5 per cent. on the amount realised, exclusive of preparation of catalogues.

Plant and Machinery.—5 per cent. on the amount realised, exclusive of preparation of catalogues.

Live and Dead Farming Stock (except Horses and Pedigree Cattle).—2½ per cent. on live stock, and 5 per cent. on dead stock, on the amount realised.

Horses and Pedigree Cattle.—5 per cent. on the amount realised.

On Lots referred to in the last four paragraphs, reserved or bought in by or on behalf of the vendor.—One half the commission on sale, calculated on the amount of reserve or buying-in price.

2. Private Treaty Sales.

Freehold and Copyhold Estates and Houses, and Ground Leases.—On the first £300, 5 per cent. ; on the next £4,700, 2½ per cent. ; on the residue, 1½ per cent. ; and a commission, in addition, on the amount paid for *Chattels, Fixtures, Fittings, Furniture, Trade Stocks*, and other *Movable Effects, Timber, and Tenant-right*, of 5 per cent. up to £500, and 2½ per cent. on the residue, to include inventory and valuation.

3. Purchases.

Freehold, Copyhold, or Leasehold Property.—One-half of the scale for sale by private treaty, calculated upon the amount of the purchase-money, but including inspection, advising as to value, and negotiating or bidding. If no purchase is effected, the usual scale for valuation should be charged : one guinea per cent. on first £1,000 ; half a guinea on next £9,000 ; and a quarter of a guinea per cent. beyond on the value of the property. Minimum fee, £5 5s.

4. Lettings.

Business Premises, Unfurnished Houses, Flats, &c., or on Disposing of all Leases (other than Ground Leases) by assignment or otherwise.—If the annual value be £100 or less 5 per cent. on one year's rent, where the term is for one year or less, and 7½ per cent. on one year's rent where the term is for more than one year. If the annual value be over £100 the above scale shall apply to the first £100 and on the excess rental over that amount, where the term is for three years or less, 5 per cent. on one year's rent ; where the term is for more than three years, 7½ per cent. on one year's rent ; in the case of *leases requiring the lessee to repair the demised premises* the commission is 10 per cent. on one year's rent, whatever the term. Upon the premium or consideration (in all cases), 5 per cent. up to £1,000, and 2½ per cent. on the residue ; and the commission on any sum obtained for fixtures, furniture, or effects of any kind, of 5 per cent. up to £500, and 2½ per cent. on the residue. In the case of a progressive rent the commission is based on the average rent receivable. When a property, which an agent has been instructed to let or sell, is let by him, and the tenant afterwards purchases, the commission for selling, less the commission already paid on the letting, will then become payable.

For negotiating the Renting of Unfurnished Houses or Flats, excluding Survey or Valuation.—Half the commission payable for a letting.

On Letting Furnished Houses or Flats in Town or Country, or Shootings, including Collection of Rent.—5 per cent. on the first year's rental, and 2½ per cent. for the remainder of the term.

For negotiating the Renting of Furnished Houses or Flats, excluding Survey or Valuation.—Half the commission payable for a letting.

For Making or Checking Inventories of Furniture and Effects.—A minimum fee of two guineas per day, exclusive of expenses.

On Letting Land on Building Lease.—One year's ground rent on first £50; three quarters ditto on next £50; half ditto on next £900; quarter ditto on residue.

5. Collections or Receiverships.

10 per cent. upon gross rental of weekly property; 5 per cent. upon gross rental of other property or tithes; 7½ per cent. upon the gross rental for the management and collection of rents on agricultural estates; 2½ to 5 per cent. on ground rents, according to the amount of the rents and the number of collections.

6. Laying Out or Development of Estates.

For Road Construction, 5 per cent. upon the outlay, exclusive of expenses.

7. Valuations.

1. *Valuation of Freehold, Copyhold, or Leasehold Properties.*—A guinea per cent. on the first £1,000; half a guinea per cent. on the next £9,000; and a quarter of a guinea per cent. beyond on the value of the property, subject to a minimum fee of five guineas.

2. *Of Property taken under Compulsory Powers.*—The charge is on Ryde's Scale. The fee is exclusive of five guineas per day for attendances. Plans and disbursements extra.

3. *Valuing for Annual Rental.*—(*a*) *Agricultural Property*—7½ guineas per cent. up to £250, 5 guineas per cent. on the next £250, and 2½ guineas per cent. beyond. (*b*) *Business and Residential Property*—5 guineas per cent. up to £300, and 2½ guineas per cent. beyond. Minimum fee 5 guineas.

4. *Valuation of Furniture, Fixtures, and Effects.*—5 per cent. up to £500, and 2½ per cent. on the residue.

5. *Valuation of Plant, Machinery, and Trade Stocks.*—5 per cent. on first £100, and 2½ per cent. on the residue.

6. *Valuation of Live and Dead Farming Stock.*—5 guineas per cent. on first £100, and 2½ guineas per cent. on the residue. *Valuation of Tenant-Right.*—5 guineas per cent. on first £100, 2½ guineas per cent. on next £900 and 2½ guineas per cent on residue. *For Settling Dilapidations.*—5 guineas per cent. on the amount of the settlement.

7. *Valuation of Hotel and Public House Fixture, Fittings, and Contents.*—5 guineas per cent. on the amount of the valuation as settled.

8. *Valuation for Probate and Estate Duty Purposes.*—(*a*) *Freehold, Copyhold, and Leasehold Property.*—One guinea per cent. on the first £1,000, half a guinea per cent. on the next £4,000, and one quarter-guinea per cent. on the remainder. Minimum fee, £5 5s. on each property.

(*b*) *Of Furniture and Effects.*—5 guineas per cent. on the first £100, and 2½ guineas per cent. on the next £400, and 1½ guineas per cent. of the remainder of the amount of valuation, to include inventory. Minimum fee, £5 5s.

9. *Valuations for Rating purposes and Assessment Appeals.*—Graduated scale based on Gross Assessment, ranging from 5 guineas for £100 to 30 guineas for a gross assessment of £2,000, after which 1 guinea is added for every additional £100 up to £5,000; above £5,000 a charge of 1¼ per cent. Additional charges are made for attendances before Assessment Committees or Quarter Sessions.

10. *Preparing Specification of Dilapidations and settling the amount if required.*—5 guineas per cent. on the amount. Minimum fee, £5 5s.

11. *Marking, Valuation and Sale of Timber and Underwood.*—5 guineas per cent. on amount realised. When valuing only, 5 guineas per cent. on first £500, and 2½ guineas per cent. on the residue.

Where one Valuer acts between both parties the minimum charge shall be scale and a half, divisible between both parties; where two Agents are co-operating at the request of the owner, the Commission shall be at the rate of a scale and a quarter.

THE COST OF THE GREAT WAR.

The Bankers' Trust Company of New York issued the following estimate in 1924:—

Nation.	Total Expenditure. £
British Empire	13,577,900,000
Great Britain	11,076,000,000
Canada-Nfld.	762,700,000
Australia	476,700,000
New Zealand	234,400,000
South Africa	159,000,000
India	687,100,000
Other Parts	182,000,000
Belgium	411,800,000
France	7,962,200,000
Greece	115,100,000
Italy	4,432,700,000
Japan	419,100,000
Portugal	235,300,000
Rumania	308,800,000
Russia	5,312,700,000
Serbia	119,000,000
United States	8,105,000,000
Total, Allies	£40,963,600,000
Austria-Hungary	4,068,400,000
Bulgaria	261,000,000
Germany	10,341,100,000
Turkey	451,800,000
Total	£15,122,300,000
Grand Total	£56,086,900,000

Relative Cost of the Great War.

A table was also published showing the relative cost of the Great War to certain of the Nations which took part therein:—

Nation.	Per Capita. £	National Wealth. Per cent.
Great Britain	524·85	34·49
France	280·20	19·36
Italy	124·59	20·59
Russia	44·01	13·11
U.S.A.	176·91	8·67
Austria-Hungary	108·76	18·13
Germany	292·57	24·71

THE BOARD OF ADMIRALTY, Whitehall, S.W. 1.

First Lord of the Admiralty, Rt. Hon. William Clive Bridgeman, M.P. *(with house)* £4,500
Naval Secretary, Rear-Adm. Frank Larken, C.B., C.M.G. £1,985
Private Secretaries, T. Fry; H. V. Markham, M.C.
First Sea Lord and Chief of the Naval Staff, Admiral of the Fleet Earl Beatty, G.C.B., O.M., G.C.V.O., D.S.O., D.C.L., LL.D. ..... *(with house)* *£2,835
Naval Assistant, Capt. S. R. Bailey, D.S.O.
Secretary, Paym.-Capt. Frank T. Spickernell, C.B., D.S.O.
Second Sea Lord and Chief of Naval Personnel, Vice-Adm. Hon. Sir Hubert George Brand, K.C.M.G., K.C.V.O., C.B. *£1,890
Naval Assistant, Capt. R. C. Dalglish.
Extra Naval Assistant, Engineer-Rear-Adm. William Rattey, C.B., O.B.E.
Secretary, Paym.-Com. L. N. Sampson, M.V.O., O.B.E.

Secretary, Paym.-Com. R. C. Jerram, D.S.O.
Fourth Sea Lord and Chief of Supplies and Transport, Rear-Adm. John Donald Kelly, C.B. *£1,890
Secretary, Paym.-Com. Arthur F. Strickland.
Deputy Chief of the Naval Staff, Vice-Adm. Sir Frederick Lawrence Field, K.C.B., K.C.M.G. *£1,890
Secretary, Paym.-Com. F. L. Horsey, O.B.E., D.S.C.
Assistant Chief of the Naval Staff, Rear-Adm. Frederic Charles Dreyer, C.B., C.B.E. *£1 890
Secretary, Paym.-Lieut. Com. A. C. M. Edmonds, O.B.E.
Civil Lord, Earl Stanhope, D.S.O., M.C. £1,000
Private Secretary, H. N. Morrison.
Parliamentary and Financial Secretary, J. C. C. Davidson, C.H., C.B., M.P. £2,000
Private Secretary, A. E. Gloyn-Cox.
Do. (Parliamentary),
Permanent Secretary, Sir Oswyn Alexander Ruthven Murray, K.C.B. £3,000
Private Secretary, A. S. Le Maitre, M.C.
Judge-Advocate of the Fleet, C. M. Pitman.
Deputy Judge Advocate, Capt. H. W. E. Manisty, C.B., C.M.G.

The Secretary's Department.

Deputy Secretary, Sir Charles Walker, K.C.B. ..£2,200
Principal Assistant Secretaries, Sir V. W. Baddeley, K.C.B., £1,700; A. Flint, C.B. ....£1,200 to £1,500
Assistant Secretaries, J. S. Barnes, O.B.E., H. Eastwood, C. W. Loveridge, P. E. Marrack, O.B.E., S. H. Phillips, S. H. Plummer, W. A. T. Shorto, C.B.E. £1,000 to £1,200
Principals, J. A. C. Champion, O.B.E., G. F. Cotton, M.V.O., M.B.E., C. B. Coxwell, O.B.E., H. Crombie, M.B.E., G. Dunn, T. Fry, W. H. Hancock, M.B.E., E. Lee, N. Macleod, C. G. Madin, O.B.E., W. A. Medrow, M.B.E., C. Perham, A. H. M. Robertson, E. Sawers, R. Walton .....£700 to £900
Assistant Principals, R. E. Boucher, J. Lawson, A. S. Le Maitre, M.C., H. V. Markham, M.C., H. N. Morrison; E. A. Seal; D. P. Walsh ..£300 to £500
Librarian, W. G. Perrin, O.B.E. .....£400 to £600
Principal Lady Superintendent, Miss E. Bass, O.B.E. £300 to £400

Divisions of the Naval Staff.

Naval Operations, Capt. F. F. Rose, D.S.O.
Plans, Capt. W. A. Egerton, C.M.G.
Naval Intelligence, Rear-Adm. W. W. Fisher, C.B., C.V.O. *(tempy.)*.
Trade Division, Capt. R. A. S. Hill.
Gunnery, Capt. H. J. S. Brownrigg, D.S.O.
Torpedo, Capt. C. St. C. Cameron, C.B.E.
Training and Staff Duties, Capt. S. J. Meyrick.
Naval Air Section, Capt. T. F. P. Calvert, D.S.O.
Tactical Section, Capt. A. H. Taylor, O.B.E.

The Hydrographic Department.

Hydrographer of the Navy, Capt. H. P. Douglas, C.M.G., A.D.C.
Assist. ditto, Capt. J. D. Nares, D.S.O.
Chief Civil Asst., W. E. Llewellyn, O.B.E. £550 to £700
Director of Navigation, Capt. A. G. Norman, C.M.G.
Superintendent of Charts, Com. F. E. B. Haselfoot, D.S.O.
Supt. of Sailing Directions, Capt. (ret.) B. O. M. Davy.
Supt. of Tidal Work, Commr. (ret.) H. D. Warburg.

Mobilisation Department.

Director, Rear-Adm. R. N. Bax, C.B.
Assist do., Capt. M. K. Horton, D.S.O

Naval Recruiting Department.

55 Whitehall, S.W. 1.
Director, Lt.-Col. A. G. Little, C.M.G., R.M.
Asst. and Deputy do. Maj. G. H. Littleton, R.M.

Physical Training and Sports Department.

Director, Capt. W. T. R. Ford.
Asst. do., Lt.-Comdr. D. J. Claris.

The Medical Director-General of the Navy.

Director-General, Surgeon-Vice-Adm. Sir Joseph Chambers, K.C.B., C.M.G., M.D. £2,363
Dep. do., Surg.-Rear-Adm. R. St. G. S. Bond, C.B., M.B.
Assistants to the Director-General, Surg.-Capt. E. E. Fletcher, O.B.E., Surg.-Commanders A. T. Rivers, F. L. Smith, G. L. Buckeridge, J. L. Priston, M.B.

The Paymaster Director-General.

Director-General, Paymaster Rear-Adm. B. C. Allen, C.B., M.V.O.
Deputy do., Paymaster-Capt. R. A. Jinkin, O.B.E.

The Chaplain of the Fleet.

Royal Naval College, Greenwich, S.E. 10.
Chaplain of the Fleet, Ven. Archdeacon Robert McKew, C.B.E., D.D., K.H.C. £1,468

Education Department.

Adviser on Education, A. P. McMullen, M.A.
Deputy Inspector of Naval Schools, Instructor-Capt. T. Slatur, B.A.
Deputy Superintendent of Naval Examinations, Instr.-Capt. J. Camp, B.A.

Royal Marine Office.

54 Victoria Street, S.W. 1.

The Royal Marines were first raised in 1664 and were administered by the Military Authorities. Since 1755 they have been administered by the Admiralty. They are organized in three Divisions (Chatham, Portsmouth and Plymouth) with a recruit depôt at Deal.

Adjutant-General, Lt.-Gen. A. R. Hamilton Hutchison, C.B., C.M.G., D.S.O. £1,985
Assist. do., Lt.-Col. R. V. T. Ford, C.B.E.
Deputy-Assist. Adjt.-General, Maj. H. C. Pope.

Naval Construction Department.

Director, Sir William J. Berry, K.C.B. £2,500
Director of Warship Production, E. A. J. Pearce, C.B.E. .....£1,200 to £1,500
Deputy Director of Naval Construction, C. F. Munday, C.B. .....£1,200 to £1,500
Assistant Directors, A. W. Johns, C.B.E., W. H. Carter, E. L. Attwood, O.B.E. .....£1,000 to £1,200
Supt. of Admiralty Experiment Works, M. P. Payne £775 to £925

* In addition to naval half-pay.

Chief Constructors, F. Bryant, O.B.E., C. E. Goodyear, O.B.E., S. E. Boyland, O.B.E., A. W. A. Ohlett, M.B.E., C. H. Croxford, O.B.E., F. Goodyear, M.B.E. £775 to £925

Engineer-in-Chief's Department.

Engineer-in-Chief of the Fleet, Eng.-Vice-Adm. Sir R. B. Dixon, K.C.B., D.Eng. £2,363
Deputy do., Eng.-Rear-Adm. W. M. Whayman, C.B., C.B.E.
Assist. Engineers-in-Chief, Eng.-Rear-Adm. L. J. Watson, O.B.E.; Eng.-Capt. R. Beeman, C.M.G.

Electrical Engineering Department.

Director, W. McClelland, C.B., O.B.E., M.I.E.E. ..£2,500
Asst. do., A. D. Constable, O.B.E., M.I.E.E.; J. McCaffery, O.B.E., A.M.I.E.E.; E. T. Williams, O.B.E., M.I.E.E. ..... £900 to £1,100

Naval Ordnance Department.

Director, Capt. C. M. Forbes, D.S.O.
Deputy Director, Capt. C. A. Scott.
Asst. Director, Capt. F. T. B. Tower, O.B.E.
Engineer Inspectors, Eng.-Rear-Adm. Henry Wall, C.M.G., Eng.-Comms. B. Harvey, G. W. Bodell, J. D. Shurrock, J. L. Deacon, Eng.-Lieuts. E. Watson, D.S.O., M. R. Marshall.
Chief Inspector, Commr. L. E. H. Llewellyn (*ret.*).

Armament Supply Department.

Chief Superintendent, Capt. H. R. Norbury, C.B. (*ret.*) £1,200 to £1,500
Superintendents, R. W. Wharhirst, A. McFarlane, O.B.E. ..... £850 to £1,000

Torpedoes and Mining Department.

Director, Capt. A. H. Walker, O.B.E.
Deputy do., Capt. L. F. Potter.

Naval Equipment Department.

Director, Rear-Adm. H. W. Parker, C.B., C.M.G. £1,985
Asst. Director, Capt. H. D. Hamilton.

Compass Department.

Ditton Park, Langley, Bucks.
Director, Capt. Frank O. Creagh-Osborne, C.B. (*ret.*). £850 to £1,000

Dockyards Department.

Director, Vice-Admiral (ret.) Brian H. F. Barttolot, C.B., M.V.O. £1,500
Deputy Director, John Rogers, O.B.E. £1,200
Assistant Directors, Eng.-Capt. I. E. S. Roberts, J. S. Pringle, O.B.E.
Chief Constructor, N. J. McDermaid, O.B.E. £775 to £925

Signal Department.

Director, Capt. J. F. Somerville, D.S.O.

Dockyard Expense Accounts Department.

54 Victoria Street, S.W. 1.
Director, F. W. W. Burrell, O.B.E. ..... £1,000 to £1,200
Asst. do., J. H. Jeffery ..... £850 to £1,000

Naval Store Department.

Director, J. W. L. Oliver, C.B., C.B.E. ..£1,200 to £1,500
Deputy Director, A. E. Cocks, O.B.E. £1,000 to £1,200
Assistant Directors, W. Gick, C.B.E., R. J. Hall; B. J. Wilson, O.B.E. (*acting*) ..... £850 to £1,000
Principal Technical Assistant, W. L. Coles.

Victualling Department.

Director, J. W. H. Culling, C.B.E. ....£1,000 to £1,200
Assistant Director, W. E. Clayton, O.B.E. £850 to £1,000

The Civil Engineer-in-Chief's Department.

Civil Engineer-in-Chief. L. H. Savile, C.B., M.Inst.C.E., A.I.N.A. £2,000
Deputy Civil Engineers-in-Chief, E. M. Barton, O.B.E., M.I.C.E., T. B. Hunter, O.B.E., M.Inst.C.E. £1,300
Assistant Civil Engineer-in-Chief, J. R. Sivess, M.Inst.C.E. £1,000 to £1,200
Superintending Civil Engineers, A. J. Luke, O.B.E., M.I.C.E., F. Clark, M.I.C.E. (*acting*) ....£750 to £950
Chief Surveyor, H. H. Skipper, M.B.E., F.S.I. £800 to £1,000
Chief Surveyor of Lands, H. W. Basden-Smith, M.I.C.E. £700 to £900

Greenwich Hospital Department.

14 Buckingham Gate, S.W. 1.

The total estimated income of Greenwich Hospital for 1924 25 is £249,327, as compared with £247,820 for 1923-24. The total estimated expenditure is £248,477, as against £247,281 in the previous year, leaving a surplus income of £850. Of the total figure it is estimated that £138,798 will be spent on Greenwich Hospital pensions to seamen and marines, including Greenwich Hospital Canada pensions, pensions to widows and the education of children, and £62,737 will be devoted to the Royal Hospital School.
Director, A. W. Smallwood, C.B.E. £1,200
Clerk in Charge, A. W. J. Davies, M.B.E.

*Contract and Purchase Department.

Director of Contracts, W. St. D. Jenkins, C.B., C.B.E. £1,200 to £1,500
Deputy Director, G. B. Cobb ..... £1,000 to £1,200
Assistant Directors, P. Dale Bussell, O.B.E., F. F. Fisher, O.B.E., E. C. Jubb, O.B.E., W. H. Judson. £850 to £1,000

Professional Accountancy Division.

Principal Accountant, F. W. Papworth, O.B.E., F.S.A.A. £850 to £1,000

The Accountant-General's Department.

Pelorus.—Pioneer.

Weymouth.—Yarmouth, Dartmouth, Weymouth.

§ When *H.M.S. Nelson* and *Rodney* are completed for sea, *H.M.S. Ajax, Centurion, King George V.* and *Thunderer* will be scrapped under the Washington Pact.

Monitors.

Erebus, Lord Clive, Terror, Gorgon (8,000 tons); Marshal Soult (6,670 tons), 2 15-inch guns; Medea (540 tons), Melpomene (335 tons), Medusa (355 tons), Minerva (355 tons).

Torpedo-Boat Destroyers.

Built 172. *Building* 2.

Fleet Air Arm.

Aircraft Carriers, Furious, Argus, Pegasus, Ark Royal, Hermes, Eagle, Courageous, Glorious.

Aircraft (Home Waters), 4 Fighter Flights; 3 Spotter Flights; 2 Spotter Reconnaissance Flights; 2 Torpedo Flights. (*Foreign Stations*), 2 Fighter, 1 Spotter, 3 Spotter Reconnaissance and 1 Torpedo.

Typical Ships.

Type.	Tons.	Main Armament.
Nelson (building)	35,000	8 15-inch
Queen Elizabeth (1915-16)	27,500	8 15-inch
Royal Sovereign (1916-17)	26,750	8 15-inch
King George V. (1912-13)	23,000	10 13·5-inch
Orion (1912)	22,500	10 13·5-inch
Iron Duke (1914)	25,500	10 13·5-inch
Battle Cruisers.		
Hood (1920)	41,200	8 15-inch
Tiger (1914)	28,500	8 13·5-inch
Renown (1916)	26,500	6 15-inch
Cruisers.		
Kent (building)	18,600	4 15-inch
Birmingham (building)	9,750	7 7·5-inch
Adelaide (1922)	5,560	9 6-inch
Arethusa (1914)	3,520	2 6-inch
"*3 E*" (building)	7,550	7 6-inch
"*D*" (1918-22)	4,650	6 6-inch
Carlisle (1918-22)	4,190	5 6-inch
Ceres (1917-18)	4,190	5 6-inch
Caledon (1917)	4,120	5 6-inch
Centaur (1916)	3,750	5 6-inch
Cambrian (1915-16)	3,750	4 6-inch
Caroline (1915)	3,750	4 6-inch
Chatham (1912-14)	5,400	8 6-inch
Pelorus (1897-1900)	2,135	8 4-inch
Weymouth (1911-12)	5,250	8 6-inch

Flotilla Leaders.

Scott Class.—Bruce, Campbell, Douglas, Mackay, Malcolm, Montrose, Stuart.

Shakespeare Class.—Broke, Keppel, Shakespeare, Spenser, Wallace.

Kempenfelt Class.—Abdiel, Anzac, Grenville, Nimrod, Saumerez, Seymour.

Submarines.—*Built* 56. *Building* 10

Sloops, various, 34.

Coastal Motor Boats, 6.

River Gunboats, 12 large (2 6-inch guns); 6 small.

NAVAL CASUALTIES IN THE WAR.

Casualties to all ranks of Royal Navy and Royal Naval Reserve, including Mercantile Marine Reserve while serving in H.M. ships and merchant ships, but excluding casualties of the Royal Naval Division and British Mercantile Marine losses:—

	Officers.	Men.
Killed in action or died of wounds	2,074	20,735
Died	400	11,433
Wounded in action	549	3,961
Injured	256	392
Missing	—	2
Prisoners of War	211	824
Interned	51	170
Total	3,541	37,517

WARSHIP LOSSES IN THE WAR.

Allies.....803,000 displacement tons.

Enemy (*excluding* Scapa Flow).....415,000 displacement tons.

j 27 projected but not yet authorized. (Excludes 2nd class submarines, of which it is proposed to lay down 3 or 4 each year.)
k 3 projected but not yet authorized.
l 8 projected but not yet authorized.
m Including 8 projected but not yet authorized.
n Combined minelayers and minesweepers.

AGE LIMIT FOR WARSHIPS.

The age limits for vessels is counted from the date of completion, and in the case of British vessels the formula that one year's war service is equivalent to two years' peace service has been applied in the case of Cruisers, Destroyers, and Submarines:—

Battleships	20 years
Battle cruisers	20 ,,
Aircraft carriers	20 ,,
Cruisers	15 ,,
Destroyers	12 ,,
Submarines	10 ,,
Coastal Motor Boats	10 ,,
Other vessels	20 ,,

TRADE AND NAVAL PROTECTION.

In the House of Commons the Parliamentary Secretary of the Admiralty (Mr. C. G. Ammon, M.P.) stated that the aggregate value of the trade of the British Empire east of Africa was £1,100,000,000 in 1922, and the cost of maintenance of British squadrons (including ships of the Dominions' Navies) in Eastern waters and in the Pacific was £3,542,000 in 1922.

COST OF WARSHIPS.

The cost of a battleship of the latest type, inclusive of torpedoes, ammunition, &c., is approximately £7,000,000. Of this about £3,200,000 is due to labour and £3,100,000 to material, the remainder being due to profit and to establishment charges, such as rent, rates, light, power, maintenance, &c. The cost of a battle cruiser similar to *H.M.S. Hood* would be about £6,000,000, of which approximately £3,700,000 is due to labour and £1,800,000 due to material. The corresponding figures for a modern light cruiser are £2,000,000, £900,000, and £600,000; for a modern destroyer, £325,000, £145,000, £98,000; and for a modern submarine, £400,000, £180,000, £120,000.

ORDER OF WAR MEDALS.

THE Army Council has given instructions that stars and medals approved for service during the Great War will be worn in the following order:—1914 Star or 1914–15 Star; British War Medal; Mercantile Marine War Medal; Victory Medal; Territorial Force War Medal; India General Service Medal (for operations against Afghanistan, 1919).

THE ARMIES OF THE WORLD.

Country.	System.	Peace Strength.	Estimated War Strength.
Argentina	Militia	30,000	100,000 to 300,000

U.S.A.	Voluntary	145,000	...
Yugo-Slavia	Compulsory	127,000	...

STRENGTH OF THE BRITISH ARMY.

	All Ranks. 1926-7.
Regimental Troops (exclusive of India)	142,432
do. do. (Indian Establishment)	61,543
Colonial and Native Indian	3,426
Army Reserve	96,000
Supplementary, do.	23,151
Militia	—
Channel Islands Militia	1,325
Malta and Bermuda, do.	1,437
Territorial Army	186,093
O.T.C. (Officers and Permanent Staff)	1,245
Total	516,652

The corresponding total for 1925-6 was 520,948.

THE MILITIA.

In 1907 the "Old Constitutional Force" known as the "Militia" was transformed into the "Special Reserve," but the following Militia units were retained:—The Bermuda Militia Artillery, the Channel Islands Militia, and the Malta Militia. In 1921 the terms "Special Reserve (and Extra Reserve) Battalions" were abolished, and "Militia" restored, but no appointments are at present made to the force.

Militia in the War.—At the outbreak of the Great War all units were embodied, the majority being included in Defence Schemes. One or two units served abroad, but, generally speaking, the units were employed as training and reinforcing centres for the Armies in the field.

THE TERRITORIAL ARMY.

In 1907 the "Yeomanry" and the "Volunteers" were transferred into the Territorial Force, which included English, Welsh, and Scottish Cavalry; Royal Horse, Royal Field, and Royal Garrison Artillery; Royal Engineers; Infantry; Royal Army Service Corps and Royal Army Medical Corps. In 1921 the title was changed to "Territorial Army."

Territorials in the War.—The strength of the Territorial Force in July, 1914, was about 265,000. During the Great War 310 new units were formed, and there passed through the ranks of the force about 50,000 officers and 1,000,000 other ranks. The Territorial Force suffered total casualties of 27,000 officers and nearly 600,000 other ranks, of which some 6,600 officers and 106,000 other ranks were killed. Among the war honours gained by officers and men of the Territorial Force were 70 Victoria Crosses.

THE KING'S PRIZE.

The King's Prize at Bisley, 1926, was won by *Sergt. A. G. Fulton, late Queen's Westminster Rifles, with a score of 286. In 1925 the winner was A. Smith, late Sapper R.E., with a score of 226.

OFFICIAL END OF THE WAR.

The *Official Termination of the War*, when all Treaties of Peace had been ratified by the respective Governments, was Aug. 31, 1921.

* After a tie with Lt. R. B. Hughes, R.A. (T.F.)

THE METEOROLOGICAL OFFICE.

The control is vested in a Director and Committee appointed by the Air Council. The *Gassiot Committee* of the Royal Society is an Advisory Committee for geophysical subjects. The work of the Office includes:—The collection and discussion of meteorological observations from oceans and land areas all over the world; the maintenance of a number of stations for daily telegraphic reports upon which gale warnings and forecasts are based; the maintenance of observatories for the study of weather, with which are associated other geophysical subjects; and the maintenance of stations in various parts of the country for the supply of meteorological information and other requirements of aircraft. The responsibility for the work of the *British Rainfall Organisation* was transferred to the Meteorological Office in July, 1919.

Chairman of Meteorological Committee, The Under Secretary of State for Air.

Director of Meteorological Office, G. C. Simpson, C.B., C.M.G., LL.D., D.Sc., F.R.S. £1,200

Assistant Directors, R. G. K. Lempfert, C.B.E., M.A., F.Inst.P.; Lt.-Col. E. Gold, D.S.O., F.R.S.; F. J. W. Whipple, M.A., F.Inst.P.

Superintendents, E. G. Bilham, B.Sc. (*Instruments*); Capt. L. A. Brooke Smith, R.D., R.N.R. (*Marine*); C. E. P. Brooks, M.Sc. (*General Climatology*); D. Brunt, M.A. (*Army*); R. Corless, O.B.E., M.A. (*British Climatology and British Rainfall Organisation*); J. S. Dines, M.A. (*Forecast*); Capt. F. Entwistle, B.Sc. (*Aviation*); Com. L. G. Garbett, R.N. (*Navy*); M. A. Giblett, M.Sc. (*Airships*); Maj. A. H. R. Goldie, M.A. (*Scotland*); J. S. Owens, M.D., A.M.I.C.E. (*Advisory Committee on Atmospheric Pollution*).

Chief Clerk, H. L. B. Tarrant.

Superintendents of Observatories.

Central (*Kew*), F. J. W. Whipple, M.A.

Magnetic (*Eskdalemuir*), Maj. A. H. R. Goldie, M.A.

Western (*Valencia, Co. Kerry*), C. D. Stewart, B.Sc.

RELIGIONS AND LANGUAGES OF THE BRITISH ISLES.

The inhabitants of Great Britain and Ireland are almost entirely Christians, the exceptions being about 300,000 Jews and a small number of non-Christian immigrants. In England the Church of England (with an Episcopal form of Government), and in Scotland the Church of Scotland (with a Presbyterian form of Government), are the "Established Religions." The Church was disestablished in Ireland in 1869, and in Wales in 1920. There has been no religious census since 1851, but many of the religious bodies publish estimates of membership, the *Church of England* having 2,444,500 communicants in England at Easter 1924, the *Roman Catholic Church* claiming 2,000,000 members in England and Wales, 600,000 in Scotland, and 3,242,670 in Ireland (1924). The language of the people is English, with a large proportion of Welsh-speaking people in Wales, many of whom are bi-lingual. Attempts are being made to revive the Gaelic language in the Irish Free State. Gaelic is still spoken in the Highlands and Islands of Scotland, there being 10,314 persons speaking Gaelic only, and 151,159 speaking Gaelic and English at the Census of 1921.

THE CHURCH ASSEMBLY.

8, Dean's Yard, Westminster, S.W. 1.

(Hours 10 to 5.)

THE CHURCH ASSEMBLY (or "National Assembly of the Church of England") was established in 1920, "to deliberate on all matters concerning the Church of England and to make provision in respect thereof." The Assembly consists of three Houses, composed of Bishops, Clergy, and Laity respectively. The first two Houses consist of the Convocations of Canterbury and York, of which the respective Upper Houses form the *House of Bishops*, and the respective Lower Houses the *House of Clergy*; the *House of Laity* comprises representatives of the Laity of the Provinces of Canterbury and York, elected every five years by the Lay members of the Diocesan Conferences, which consist of representatives elected by members of the Church of England on a roll prepared in each parish.

The *Church Assembly* is free to discuss any proposal concerning the Church of England, and to make provision in respect of such matters, but where this includes Parliamentary sanction for any alteration contemplated, this authority is to be sought in the manner prescribed by the *Church of England Assembly (Powers) Act*, 1919, often referred to as the "Enabling Act." It is specially provided that any innovation touching doctrinal formulæ, or the services or ceremonies of the Church, or the administration of the Sacraments or sacred rites thereof, must be debated and voted upon by each of the three Houses sitting separately, and must then be either accepted or rejected by the Assembly in the terms in which it is finally proposed by the House of Bishops. It is further laid down that the Assembly or any of the three Houses may debate and formulate its judgment by resolution upon any matter concerning the Church, or otherwise of religious or public interest, but the Assembly may not issue any statement purporting to define the doctrine of the Church on any question of theology. None of the powers belonging to the Convocations of Canterbury and York is to be diminished or derogated by the Assembly, which is also prohibited from exercising any power or performing any function distinctively belonging to the Bishops by right of their episcopal office.

Parochial affairs are managed by Parochial Church Meetings of parishioners who are members of the Church of England and by Church Councils elected by such meetings.

Central Board of Finance.—Receipts in 1925 amounted to £121,414, of which sum Diocesan contributions amounted to £100,830. Below are the principal items of expenditure:—

Training: Ex-Service and civilian	£25,950
Religious education	16,896
Special purposes, including Japanese Church Relief Fund	920
Missionary Council	3,148
Pensions Committee	960
Investment of Gifts to Capital	7,521
Clergy Pensions	47,000
General Administration: Convocations, Church Assembly, Central Board, Organisation, &c., committees	19,019
Total expenditure	£121,414
Total receipts	121,414

General Statistics.—The number of baptisms in 1924 was 490,647, the Easter communicants in the various English Dioceses numbered 2,444,483. The total gross income of 12,932 incumbents was £6,307,943, including £194,888 contributed as Easter offerings. The stipends of the assistant clergy were £1,057,319. The amount of voluntary parochial contributions in the 38 dioceses of England was £6,986,056, and the total from all sources £9,532,742.

Sessions of the Church Assembly in 1927.—Feb. 7 to 11; July 4 to 8; Nov. 14 to 18.

MEASURES PASSED BY THE ASSEMBLY.

(*Date of Royal Assent is shown in brackets.*)

Convocations of the Clergy, 1920 (Dec. 23, 1920); *Parochial Church Councils (Powers)*, 1921 (July 1, 1921); *Ecclesiastical Commissioners*, 1921 (July 28, 1921); *Union of Benefices*, 1921 (Aug. 17, 1921); *Representation of the Laity (Amendment)*, 1922 (April 12, 1922); *Pluralities Act*, 1838 (*Amendment*), 1922; *Revised Tables of Lessons*, 1922 (Aug. 4, 1922); *Benefices Act*, 1898 (*Amendment*), 1923; *Bishopric of Blackburn*, 1923; *Diocese of Southwell (Division)* 1923; *Ecclesiastical Dilapidations*, 1923; *Union of Benefices*, 1923 (July 14, 1924); *Diocese of Winchester (Division)*, 1923 (Aug. 1, 1924); *Interpretation*, 1925 (May 28, 1925); *Bishopric of Leicester*, 1925 (July 31, 1925); *Diocesan Boards of Finance*, 1925 (Dec. 22, 1925); *Rural Deaneries of Pontefract and Hemsworth*, 1926; *Bristlington Parishes (Transfer)*, 1926 (March 26, 1926); *Parish of Manchester Division Act*, 1850 (*Amendment*), 1926 (April 29, 1926); *First Fruits and Tenths*, 1926 (July 15, 1926); *Ecclesiastical Commissioners*, 1926 (July 15, 1926); *Clergy Pensions*, 1926 (August 4, 1926).

OFFICERS OF THE ASSEMBLY.

Registrar, A. V. Hudson, Minster Yard, York.

DIOCESES OF THE CHURCH OF ENGLAND.

*The sums appended to the various offices are the full incomes derivable from the estates and revenues of the Church. The Deans and Chapters of certain Dioceses (marked * in the following pages) preferred several years ago to retain in lieu of fixed annual money payments, estates estimated at that time to produce the same annual income.*

MISSIONARY STATISTICS.

The *World Missionary Atlas* (March 1925) gave the following statistics with regard to the numbers at work in various mission fields :—

From	Men. Clerical.	Men. Lay.	Men. Total.	Unmarried Women.	Total
Great Britain	2,058	947	3,005	2,593	5,598
U.S. and Canada	3,723	1,963	5,676	4,793	10,469
Other Countries	1,515	407	1,922	1,116	3,038
Total	7,286	3,317	10,603	8,502	19,105

The income of the Societies concerned was stated at £15,000,000 for the year 1925, to which total Great Britain contributed approximately £3,000,000 and the U.S. approximately £9,750,000, and the total number of the Christian community was returned at approximately 8,500,000. These figures are exclusive of the work of the *Roman Catholic Missions*, which had 8,617 European priests and 4,095 native priests in various mission fields in 1923, in addition to 4,018 lay helpers and 24,102 sisters. The number of Roman Catholics in the various fields was stated at, approximately, 13,000,000.

St. Patrick's National Cathedral, Dublin.

Dean and Ordinary, Very Rev. Hugh Jackson Lawlor, D.D., Litt.D.

GENERAL SYNOD,

Consisting of House of Bishops (13) and House of Representatives (viz., 208 clerical and 416 lay).

Honorary Secretaries, Ven. C. K. Irwin, B.D ; Very Rev. H. B. Kennedy, B.D. ; J. A. Maconchy and Major E. H. C. Wellesley.

Secretary to the Representative Church Body (incorporated 1870), A. F. Maude, 52 St. Stephen's Green E., Dublin ; *Asst. Sec.* Canon R. A. Kernan, B.D.

By the Act of Union, 1800, the Church of Ireland was united with the Church of England, the Sovereign, as one of its members, being supreme governor on earth. By the Act of 1869 this union was severed, and on Jan. 1, 1871, the Church of Ireland resumed her independent position. The Act of 1869 not only disestablished the Irish Church, but also took away her endowments, nothing being left but the right to the life services of the Annuitant Bishops and Clergy (which were commuted for a capital sum), the right to claim churches in use for divine service, the right to buy the See and Glebe Houses (with garden and curtilage), and £500,000 in lieu of private endowments.

The supreme governing body of the Church of Ireland is the General Synod, which meets annually.

Subject to the General Synod are 23 *Diocesan Synods*, which are assisted by smaller elected bodies called Diocesan Councils.

The Bishop of the Diocese is chosen by the clerical and lay members of the *Diocesan Synod*. The Primate is chosen by the House of Bishops from amongst their own number.

The incumbent of the Parish is appointed by a *Board of Nomination*, consisting of 7 persons, viz. :—The Bishop, 3 diocesan nominators (2 clerical and 1 lay) appointed by the Diocesan Synod, and 3 parochial nominators (lay) appointed by the registered vestrymen of the parish.

The financial trustees of the Church are the Representative Body, composed of the Archbishops and Bishops, 13 clergymen and 26 laymen, chosen by the Diocesan Synods, with 13 co-opted members (clerical or lay). This body holds the property of the Church, and administers its funds, subject to the General Synod.

The first property it held was the capital sum £7,581,075, representing the life annuities of the Bishops and Clergy paid over as commutation money by the Church Commissioners, and also £500,000 compensation for private endowments. The commutation capital on Dec. 31, 1925, was only £54,517, charged with annuities to 17 annuitants. The funds, however, in the custody of the Representative Body amounted in all to £10,224,372, made up of *Commutation* £54,517 *Private Endowments* £342,470, *Parochial Sustentation* £6,878,589, *Episcopal Sustentation* £571,989, *General Synod Funds* £647,609, and *Miscellaneous purposes* £1,729,198.

Since 1869 members of the Church have paid in to the Representative Body a total sum of £9,739,329. The interest of the Diocesan and Parochial Sustentation and other Funds is approximately £345,371. The total amount of *assessment* for stipend paid by parishes, 1925, was £112,458, and the total amount paid for *stipends* under Diocesan Schemes was £335,349.

The number of members of the Church of Ireland, by the Census of 1911, was 575,489, or 13·1 per cent. of the entire population.

Churches, Mission Stations, &c., 423. Parsonages, 209. Clergy, 315. Communicants, 60,286.

THE CHURCH OF SCOTLAND by law established is Presbyterian in constitution, and is governed by Kirk Sessions, Presbyteries, Synods, and the General Assembly, which consists of both clerical and lay representatives from each of the Presbyteries, and also from the Universities and lay representatives from the Royal Burghs. It is presided over by a Moderator (chosen annually by the Assembly), to whom His Majesty the King has granted precedence in Scotland, during his term of office, next after the Lord Chancellor of Great Britain. The Sovereign is represented by a Lord High Commissioner (appointed each year by the Crown), who receives the sum of £2,000 towards his expenses. The country, for Church purposes, is divided into 16 Synods and 84 Presbyteries, and there are about 1,800 ministers and licentiates engaged in ministerial and other work. The Church membership exceeds the aggregate of all the other Presbyterian bodies, and is estimated at about half the whole population of Scotland; the number of communicants on the roll (Dec. 31, 1925) was 762,774. The sum of £771,362 was raised in 1925 for church and missionary purposes. Within the last 80 years considerably over 500 chapels, at a cost for stipends and supplementary endowments of over £2,450,000, have been endowed and erected into parishes *quoad sacra*. The parish churches number 1,470. There are in addition 245 churches and mission stations, in all of which worship is regularly conducted.

Until 1560 the Church of Scotland was Roman Catholic, but in that year the Scots Parliament abolished the jurisdiction of the Pope, proscribed the Mass, and ratified a Confession of Faith drawn up by John Knox and other divines. In it all essential articles of the ancient creeds of the Church were adhered to. Ceremonies were declared to be temporary in their nature, and should be altered when they began to foster superstition. Presbytery was settled in 1590. The restoration of the rights of the Bishops, civil and ecclesiastical, was, however, sanctioned by the General Assembly of 1610, and three Scottish Bishops were in that year consecrated in London. Further innovations by King James VI. alarmed the people, and the attempt of Charles I. to impose on the Church a Book of Canons and a Liturgy was met by the *National Covenant* and the restoration of Presbyterian forms, which culminated in the *Westminster Confession of Faith* in 1646. At the Restoration the Church again became Episcopal, but in 1690 the Scottish Parliament re-established Presbyterianism. By the Treaty of Union between England and Scotland (ratified by the English Parliament 6 Anne c. ii.) the Church of Scotland was secured in its Presbyterian form of government, and the very first official act of a sovereign of the British Empire on his *accession* is to take an oath to maintain inviolably this settlement. In 1921 Parliament passed the *Church of Scotland Act*, 1921, to declare the lawfulness of certain articles declaratory of the constitution of the Church of Scotland. The articles have been framed with a view to facilitating union among Presbyterian Churches in Scotland. A committee, appointed by the Secretary for Scotland (under the Presidency of Viscount Haldane), enquired into the question of endowments, following upon which the Church of Scotland (Property and Endowments Bill) was introduced and was passed into law (15 and 16 Geo. V. c. 133) in 1925. The primary purpose of this legislative measure was to transfer to and vest in the Church of Scotland General Trustees, incorporated under the Church of Scotland (General Trustees) Order Confirmation Act 1921, the whole properties and endowments belonging to the Church for behoof the latter.

LORD HIGH COMMISSIONER, The Earl of Elgin and Kincardine, C.M.G., Holyrood Palace, Edinburgh.

MODERATOR (1926), Right Rev. J. D. MacCallum, D.D.

Principal Clerk, Very Rev. J. A. McClymont, C.B.E., D.D.

Interim Depute Clerk, J. A. S. Millar, M.V.O., W.S.

Procurator, William Chree, K.C., LL.D.

Agent and Chairman of General Trustees, J. A. S. Millar, M.V.O., W.S., 20 Castle St., Edinburgh.

Parliamentary Solicitor, A. H. Spens, London.

OTHER PRESBYTERIAN CHURCHES.

(1) *The United Free Church of Scotland*, by rearrangement of the Synods and Presbyteries, has 12 Synods and 63 Presbyteries, and 2 Continental Presbyteries. The Supreme Court is the General Assembly, which meets the third week of May every year at the same time as that of the Established Church and of the remanent Free Church of Scotland. In the year ending Dec. 31, 1925, there were 1,455 congregations and 44 preaching stations. The total membership was 536,407, and there were 2,028 Sunday Schools, with 190,230 scholars and 24,853 teachers. In 15 Foreign Mission Fields there are 433 European Mission Agents (and in addition 186 missionaries' wives, many of whom are doing mission work in the various fields) and 5,985 native pastors, evangelists, and teachers, including in both cases those of the Women's Foreign Mission. The amount raised on the field in 1924 was £258,793. The income of the Church at the close of last financial year 1925 amounted to £1,560,924.—*Moderator* (1926-7), Rev. G. H. Morrison, D.D.—*Offices*, 121 George Street, Edinburgh; and 232 St. Vincent Street, Glasgow.

(2) *The Presbyterian Church in Ireland*.—The largest of the Presbyterian churches in Ireland consists of 35 presbyteries, 610 ministers, 559 congregations, with 109,224 communicants, 93,482 families, 7,858 Sabbath-school teachers, and 103,649 scholars. During the 12 months ended Dec. 31, 1925, this branch contributed by congregational effort £368,535 for religious, charitable, and missionary purposes. The total income for the period for all purposes was £468,074.—*Moderator*, Rt. Rev. R. K. Hanna, M.A. *General Secretary*, Rev. W. J. Lowe, D.D., Church House, Belfast. *Junior General Secretary*, Rev. W. A. Watson, M.A., B.D.

(3) *The Presbyterian Church of England* has 14 presbyteries, 351 congregations, 6 preaching stations, and 85,109 members. It has a Theological College (Westminster College, Cambridge), and supports 84 missionaries abroad, including 41 women. In 1925 the amount raised for all purposes was £342,140.—*Moderator* (1926-7), Rev. David Fyffe. *Gen. Sec.*, Rev. W. Lewis Robertson, M.A. *Fin. Sec.*, Percy Graham. *Church Offices*: 15 Russell Square, W.C. 1. *Publications Office*: 21 Warwick Lane, Paternoster Row, E.C. 4.

THE METHODIST CHURCHES.

UNDER the general designation of METHODISTS are included all those religious bodies which owe their existence, directly or indirectly, to the efforts of the Revds. John and Charles Wesley. The most numerous and influential of them are—

WESLEYAN METHODISTS.

1. *Wesleyan Methodists*, the original body founded in 1739 by these two brothers. The first *Conference*, consisting of six clergymen and four laymen, was held in 1744. Since then the growth of Methodism has been great, its present adherents being given as 32,000,000. The latest statistics are: Ministers, 57,647; local preachers, 95,695; members and probationers, 10,690,701; Sunday schools, 94,571; officers and teachers, 982,684; scholars, 10,386,134; churches and other preaching places, 101,164. The conference is now composed in its Representative Session of 300 ministers and 300 laymen, with a ministerial president and secretary at its head, elected year by year. The Wesleyans are governed primarily by the Conference, secondarily by the Synods, which are semi-annual meetings of the ministers and selected laymen in each district, over which a chairman is appointed by the Conference, and thirdly by quarterly meetings of the ministers and lay officers of each circuit. The authority of both these last meetings is subordinate to the Conference, which has the supreme legislative and judicial power in Methodism.—*Pres.*, Rev. W. Russell Maltby, D.D.; *Sec.*, Rev. Thomas Kirkup.

THE PRIMITIVE METHODISTS.

2. *The Primitive Methodists*, who sprang up in Staffordshire, in 1810, under the leadership of Hugh Bourne and William Clowes. Owing to the excesses attending certain outdoor services called "camp meetings," the Wesleyan Conference prohibited the continuance of the practice. Bourne and Clowes refused to comply with this decision, and were in consequence expelled. They and their sympathisers banded together in a new body, with enlarged powers for the laity. Next to the Wesleyans they are the most numerous and the most democratic of all the denominations which have arisen out of the Methodist movement.—*President*, Rev. A. L. Humphries, M.A.

THE UNITED METHODIST CHURCH.

3. *The United Methodist Church* was formed by the Union in 1907 of three denominations of Methodists which hitherto had been separate from and independent of each other. These were:—

The Methodist New Connexion, which owed its origin in 1797 to the Rev. Alexander Kilham, one of the early itinerating Wesleyan preachers. He demanded that the members of the societies, and not the Conference, should be constituted the source of all power in Methodism; and that the Conference should consist of lay as well as ministerial members, all of whom should be elected by the members of the various societies as their delegates. He was expelled by the Conference, and at once founded a new community.

The Bible Christians, founded in 1815 by William O'Bryan, a Wesleyan lay preacher in Cornwall. They existed mainly in the West of England.

The United Methodist Free Churches, which was itself an amalgamation of three different secessions—the Protestant Methodists, formed in 1828; the Wesleyan Methodist Association, which sprang out of a controversy in 1834, concerning the need for a trained ministry; and the Wesleyan Reform Association, founded in 1849, during a great agitation. A strong opposition to the leading Wesleyan officials was organised, which found expression in Conference debates, but more strongly in anonymous and bitter pamphlets, which were widely circulated. On suspicion of being the authors and circulators of these pamphlets three ministers were expelled. They found so many sympathisers that over 100,000 members seceded to found a new denomination.

An Act of Parliament was secured in 1907 to authorise the union of these three denominations into one, to be called the United Methodist Church, and to provide for the government of the Church by a Conference consisting of an equal number of ministers and laymen, elected by districts. The act of union took place in London on September 17, 1907, when the first united Conference was held. About 700 delegates were present. A deed was adopted and signed, declaring the terms of union, defining the constitution and doctrinal tenets, and containing provisions for government and discipline.—*President*, Rev. Henry James; *Secretary*, Mr. Harry Harris.

INDEPENDENT METHODISTS.

4. *Independent Methodists.*—This body is Congregational in its organisation, with an unpaid Ministry. Its first Conference was held in 1805.

WESLEYAN REFORM UNION.

5. This Union is Methodist in doctrine, Congregational in government, with, if any church desires it, a paid ministry. It is the remnant of the original reformers who seceded from Wesleyan Methodism in 1849. The adherents are mainly in the Midland counties.—*President*, Mr. W. H. Vaughan.

RE-UNION.

A scheme for the re-union of the Wesleyan Methodists, the Primitive Methodists and the United Methodist Churches has been approved by all three Conferences. The Wesleyan Methodists have referred it to the Provincial Synods for further consideration and approval. If the scheme be adopted, as seems probable, an Enabling Bill in Parliament will be necessary.

The number of Members is for the United Kingdom; of Chapel and Scholars, Great Britain only.	Ministers	Lay Preachrs.	Members	On Probation.	Chapels.	Sunday Scholars.
Wesleyan Methodists	2,682	19,453	522,342	24,290	8,591	830,318
Primitive Methodists	1,089	13,636	219,335	....	4,367	389,923
United Methodist Church	714	4,708	142,151	6,440	2,221	246,832
Independent Methodists	382	....	10,531	370	165	24,611
Wesleyan Reform Union	26	484	8,499	204	286	22,633

The CALVINISTIC METHODIST OR PRESBYTERIAN CHURCH OF WALES is the only Church of purely Welsh origin, and embraces a very large section of the Welsh-speaking population. Its form of government being Presbyterian, it is in federation with the Presbyterian Church of England, the United Free Church of Scotland, and the Presbyterian Church of Ireland. It is also a constituent of the Pan-Presbyterian Council or Alliance. It has foreign missions in Assam, India, and in Brittany. Churches in Assam, 1,381; communicants, 76,765; adherents (including communicants), 81,480.

In 1925 the body numbered—churches, 1,487; chapels and other buildings for Sunday-school branches, 1,771; ministers and preachers, 1,156; elders, 7,259; communicants, 189,323; on probation, 1,630; Sunday-school teachers and officers, 24,064; teachers and scholars, 183,846; adherents (including communicants), 315,296.

Contributions in aid of the Ministry in 1925, £208,048. For various religious purposes (including the ministry), £499,608.

One of the features of the Welsh churches is the Sunday-school, which is attended by adults as well as children; the vernacular is the language used generally in these schools. The English branch of the Church has 375 chapels and preaching stations, with 35,669 communicants and 88,426 adherents (including communicants). All the rest are Welsh.

Moderator (South Wales) Synod, Rev. Philip Jones, Pontypridd; *(North Wales)* Mr. O. Robyns Owen, Pwllheli.

Moderator of General Assembly, Rev. R. J. Rees, M.A., Cardiff.

Statistical Secretaries, Rev. Richard Thomas, B.A., Bontnewydd, and Mr. J. J. Jeremy, Carmarthen.

THE INDEPENDENTS AND THE BAPTISTS.

The INDEPENDENTS, or CONGREGATIONALISTS, are the most ancient community of Dissenters. In 1831 the majority of their churches were formed into the Congregational Union of England and Wales, incorporated in 1902, and in 1920 nine districts were formed, each under a Moderator. There are 51 county and other Associations in England and Wales, with 4,701 churches and preaching stations containing 1,727,442 sittings; the number of ministers in the British Isles is 3,062. *Chairman of the Congregational Union of England and Wales*, 1926–27, Rev. F.W. Newland, M.A.; 1927-28, J. C. Meggitt, J.P. *Secretary*, Rev. Sidney M. Berry, D.D. *Office and Publication Department*, 22, Memorial Hall, Farringdon Street, E.C.4.

The *Countess of Huntingdon's Connexion*, with 37 chapels and mission stations, is governed by nine trustees assisted by an annual conference of ministers and delegates. *Secretary*, E. Dolby Shelton. *Offices*, 41, Holborn Hall, Gray's Inn Road, W.C. 1.

The BAPTISTS are, in all respects but one, similar to the Congregationalists; they have the same form of Church government, and differ but in one point of practice—viz., the Baptism by immersion of believers only. Like the Congregationalists, they are for the most part grouped in associations of churches, and the majority of these belong to the Baptist Union, which was formed in 1813. In the British Isles there were, in 1924, 4,183 chapels and 2,051 pastors. The members numbered 414,210, Sunday-school teachers 60,612, and Sunday scholars 525,847. In the United States the "members" alone number 8,025,348. *President of the Baptist Union*, 1925–26, Rev. J. H. Rushbrooke, M.A., D.D. *Secretary*, Rev. M. E. Aubrey. *Office*, Baptist Church House, Southampton Row, London, W.C. 1.

The *Strict and Particular Baptists* have about 600 places of worship in England and Wales, and over 20,000 members, with two Foreign mission fields.

MINOR RELIGIOUS DENOMINATIONS.

The chief of the Minor Religious Denominations are the **Unitarians**, with about 350 ministers, 345 chapels and other places of worship. *Gen. Sec.*, Rev. S. H. Mellone, D.Sc., Essex Hall, Essex Street, W.C.2. The **Brethren** (divided into two bodies, "Open" and "Exclusive") number about 80,000, of whom five-eighths belong to the "Open" body. The **Society of Friends (Quakers)** consists of 29,081 members and has 376 places of worship in Great Britain, with 27 places of worship in Ireland and 2,237 members. *Central Offices (Great Britain)*, Friends House, Euston Rd., N.W. 1, *(Ireland)*, 6 Eustace Street, Dublin. The **Churches of Christ** have 14,277 members and 186 churches in the British Isles, with 159 Sunday schools, 1,719 teachers, and 16,811 scholars. The **Church of Christ, Scientist**, has in the British Isles 169 branches of The *First Church of Christ, Scientist*, in Boston, Mass., U.S.A. (*Offices*, Talbot House, Arundel Street, Strand, W.C. 2). The **Moravian Church** (*Offices*, 32 Fetter Lane, E.C.) has in the U.K. 43 congregations and preaching stations, with 3,477 communicants. The **Catholic Apostolic Church** has above 80 churches, including a fine Gothic building in Gordon Square, W.C.; the New Church (**Swedenborgian**), 75 societies, with about 6,700 registered members; the **Latter-Day Saints (Mormons)** have 82 churches. The **Reformed Episcopal Church** originated in the U.S.A. (1873) and uses a revised Prayer Book; it is now working on Evangelical lines in U.S.A., Canada, Great Britain and India. *Presiding Bishop in England*, Rt. Rev. F. Vaughan, D.D., Ch. Ch. Rectory, Harlesden, N.W. 10; *Assist. Bishop*, Rt. Rev. J. Louis Fenn, LL.D., St. Jude's Church, Balham, S.W. 17; *Gen. Sec.*, Rev. J. C. Mages, Ch. Ch. Parsonage, Liscard, Wallasey. The **Old Roman Catholic Church**: *Archbishop in Great Britain*, Most Rev. Bernard Mary Williams, The Edge, Stroud, Glos. The **Greeks** (*Bishop of Western Europe and the United Kingdom*, Metropolitan of Thyatira Germanos (vacant), St. Sophia's Vicarage, Moscow Road, W. 2) have churches in London, Manchester, Liverpool, and Cardiff. The **Armenians** have a church in London (S. Sarkis, Iverna Gardens) and in Manchester (St. Trinity, Upper Brook Street); the **French, Dutch, Swedes, and Swiss** in London, Norwich, and Canterbury; and there is a mosque for **Moslems** in Melrose Road, Southfields.

The Jews. — Among the inhabitants of the United Kingdom are about 300,000 **Jews**, mainly in London and other large towns, who possess 300 synagogues, with about 200 ministers and readers. *Chief Rabbi*, Very Rev. Dr. J. H. Hertz. Chief Rabbi's Office, 4, St. James's Place, Aldgate, E.C.3. The Jews support their own poor. Their number throughout the world is computed at 15,000,000.

In *England* and *Wales* there are 4 Archiepiscopal and 13 Episcopal Sees; in *Scotland* 2 Archiepiscopal and 4 Episcopal Sees; in *Ireland* 4 Archiepiscopal and 24 Episcopal Sees. In the *British Empire* there are 38 Archiepiscopal and 118 Episcopal Sees, with 55 Vicariates and 13 Prefectures.

The *Catholic Directory* of 1926 estimates the Catholic population of England and Wales (1924) at 1,997,280, Scotland 601,304, Ireland (Census figures 1911) 3,242,670. The figures for India (1921) are 2,046,931, Ceylon (1921) 363,986, Canada (1921) 3,383,663, Australian Commonwealth (1921) 1,172,561, New Zealand (1921) 165,577, and Union of South Africa 164,632, the total for the British Empire being 15,176,529; and the Catholic population of the world is estimated at 324,328,408.

ST. PAUL'S CATHEDRAL, City of London, E.C. 4. (1675–1710) cost £747,660. The cross on the dome is 365 ft. above the ground level, the inner cupola 218 ft. above the floor. "Great Paul," in S.W. tower, weighs 17 tons. Organ by Father Smith (enlarged by Willis) in case carved by Grinling Gibbons (who also carved the choir stalls). Nave and transepts free; Fees to the following parts (on week-days only): Library, whispering gallery, and stone gallery, 6*d.*; golden gallery, 1*s.*; crypt, 6*d.*; ball, 1*s.*; total, 3*s.* Service on Sundays at 8, *10.30, *3.15, and *7. Weekdays at 8, *10, 11.15, *4. (*Services are choral). To the S. are remains of the Chapter House and Cloisters of "Old St. Paul's," destroyed by the Fire of London in 1666.

WESTMINSTER ABBEY, near the Houses of Parliament, S.W. 1 (built A.D. 1050–1760).—Open on week-days at 8 a.m. Admission to Royal Chapels by fee of 6*d.*, except on Mondays (open free); wax effigies, 6*d.* Norman undercroft, 3*d.* Open on Sundays for service only: Holy Communion at 8; Morning Prayer and Holy Communion at 10.15. Evening Prayer at 3. Litany and Sermon at 6.30. Daily—Holy Communion at 8 a.m.; School Service at 9.30; choral services at 10 and 3. Chapel of Henry VII., Chapter House, and Cloisters; King Edward the Confessor's shrine, A.D. 1269, tombs of kings (Edward I., Edward III., Henry V., Mary, Queen of Scots, Queen Elizabeth), and many other monuments and objects of interest, especially the grave of "An Unknown Warrior" at the W. end of Nave (1920), and Poets' Corner. The Coronation Chair encloses the "Stone of Scone," brought from Scotland by Edward I. in 1297. The Chapel of the Pyx is open on Tuesday and Saturday.

SOUTHWARK CATHEDRAL, south side of the Thames, S.E. 1.—Mainly 13th century. Known as St. Mary Overie previous to 1540. Open 7.30 a.m. to 6 p.m., free. Sunday services, 7.30, 8, and 11 a.m. (choral) and 6.30 p.m. (choral). Week-days: 7.30, 8, and 5 p.m. (choral). The tomb of John Gower (1330–1408) is between the Bunyan and Chaucer memorial windows, in the N. aisle; the altar screen (erected 1520) has been partly restored. The Early English Lady Chapel (behind the choir) is the scene of the Consistory Courts of the reign of Mary (Gardiner and Bonner).

ALL HALLOWS, Barking-by-the-Tower, E.C. 3.—15th century church, containing a very fine series of brass effigies; Jacobean pulpit with Sussex ironwork and font cover ascribed to Grinling Gibbons; crypt of earlier church rediscovered in 1926.

ALL SAINTS, Margaret Street, W. 1.—Built by Butterfield in 1859. Anglo-Catholic and noted for its music.

BOW CHURCH (ST. MARY-LE-BOW), Cheapside, E.C. 2.—Rebuilt by Wren with beautiful steeple (222 ft.). 11th century crypt and church open daily (except M.) 10 a.m. to 5 p.m. Since 19th century anyone born within sound of the bells of Bow Church has been designated a "Cockney." The 11th century church was built on stone arches or "bows."

CHRIST CHURCH, GREYFRIARS, E.C. 1.—Rebuilt by Wren. The organ (repaired 1921) is by Renatus Harris, and the marble font is attributed to Grinling Gibbons. Until removal to Horsham (1902) the boys of Christ's Hospital (Blue Coat School), the site of which is now occupied by the G.P.O., attended services at Christ Church and the galleries contain seats with raised benches for the "Grecians." Blue Coat School boys still attend annually on St. Matthew's Day (Sept. 21). "Spital Sermon" is preached at Christ Church at Easter.

CHRIST CHURCH, Victoria Street, Westminster, S.W. 1.—*Vicar*, Rev. P. T. R. R. Kirk, M.A.

GUARDS' CHAPEL, Wellington Barracks (Birdcage Walk, St. James's Pk., S.W. 1).—Chapel redecorated in 1878. Open to visitors Tuesdays, Wednesdays, Thursdays and Fridays, 10 to 12 and 2 to 4. Parade service on Sundays at 11 a.m. (tickets of admission can be obtained on application to the Chaplain, R.M. Chapel, Wellington Barracks); evening service (open to the public, without tickets) at 6 p.m.

HOLY TRINITY, Minories, Aldgate, E. 1.—(Dismantled and now a Sunday school). Contains a mural monument with the arms of the Earls of Dartmouth and of a member of that family (Legge) in which the arms of George Washington are quartered with those of the Legges.

MARYLEBONE CHAPEL, High Street, Marylebone, W. 1.—The former Parish Church of the village of Marylebone (now replaced by St. Marylebone Church), was rebuilt in early 18th century. In the churchyard lie Allan Ramsay (poet), Hoyle (whist), Ferguson (astronomer), Charles Wesley (hymn writer) and his son Samuel Wesley (musician).

ST. ALBAN, Brooke Street, Holborn, E.C. 1.—A brick building by Butterfield (1858). Anglo-Catholic and noted for its music; organ by Willis. *Vicar*, Rev. H. Ross. Services on Sundays: Holy Eucharist at 7 and 8; choral at 9.30; solemn, with sermon, at 11; matins, 10.30; litany, baptisms, and churchings at 2.15; children's service and catechising, 3; evensong at 6.30; frequent mission services. Open daily, 6.45 a.m. to 9 p.m.

ST. ANDREW BY THE WARDROBE, Queen Victoria Street, E.C. 4 (near the site of the King's Wardrobe). Rebuilt by Wren.

ST. ANDREW UNDERSHAFT, St. Mary Axe, Leadenhall Street, E.C. 3.—An early 16th century church, contains a monument of Stow, the London antiquary, and a memorial of Holbein. The organ is by Renatus Harris, the rival of Father Smith.

ST. ANNE'S, Wardour Street, Soho, W. 1.—Built in 17th century and noted for its music. Monument of William Hazlitt in the churchyard.

ST. BARTHOLOMEW'S Priory Church, Smithfield, E.C. 1, the oldest church in London (A.D. 1123).—*Rector*, Rev. W. F. G. Sandwith, M.A. Fine old Norman building, with tomb of the first prior, Rahere. N. transept restored and reopened in June, 1893. Crypt and Lady Chapel open; cloisters opened Dec. 2, 1905. Services daily 12.30 p.m. (except Sat. 11 a.m. and Thurs. 1.15 and 6.30 p.m.); Open free daily (Sundays for service only, 8.15; 11.0; 6.30).

ST. BENET, Paul's Wharf, Upper Thames Street, E.C. 4.—Rebuilt by Wren, 1683; Inigo Jones, 1573–1652, and his father and mother, were buried in former church. St. Benet is the Metropolitan Welch Church.

ST. BRIDE'S CHURCH, Fleet Street, E.C. 4.—Rebuilt by Wren, with beautiful spire (226 ft.). Samuel Richardson, the novelist, is buried in the nave. In the old church Lovelace, Sackville and Wynkyn de Worde were buried, and Samuel Pepys was baptized.

ST. CLEMENT DANES, Strand W.C. 2.—Rebuilt by Wren on site of earlier church assigned to the Danish settlers. The traditional burial place of Harold Harefoot (King Harold I., *see* p. 91) son of Canute. The organ is by Father Smith; the bells are those celebrated in the familiar nursery rhyme "Oranges and Lemons," and the air is among those played on the chimes (since 1920). Owing to the historical association of this church with the kingdom of Denmark, Danish ceremonies are now and then performed there. Dr. Johnson's pew in gallery and monument outside E. end.

ST. CLEMENT'S, Clement's Lane, Lombard Street, E.C. 3.—Rebuilt by Wren, contains handsome carvings on pulpit and font, and some chained books.

ST. DUNSTAN'S IN THE EAST, Idol Lane, Lower Thames Street, E.C. 3.—Rebuilt by Wren with fine tower and spire; rest of church rebuilt, 1817–1821; contains many monuments.

ST. EDMUND, KING AND MARTYR, Lombard Street, E.C. 3.—Rebuilt by Wren, with altar at north end; organ by Renatus Harris. Restored and re-opened 1919, after damage by Air Raid, July 7, 1917.

ST. ETHELBURGA'S, Bishopsgate, E.C. 2. (14th and 15th century).—On April 19, 1607, Henry Hudson (the navigator who gave his name to Hudson's Bay and to the Hudson River), his son John, and his ten sailors took communion in St. Ethelburga's, "purposing to goe to sea foure days after."

ST. GEORGE'S, Hanover Square, W. 1 (18th century; famous for fashionable marriages).—"George Eliot," Mr. Asquith, and Theodore Roosevelt were among those married here.

ST. GEORGE'S, Southwark, S.E.—(Rebuilt 1736) contains the tombs of Bishop Bonner (1497–1569) and Edward Cocker (1631–1675), the author of Cocker's "Arithmetik." (The expression, "according to Cocker," refers to this book.)

ST. GILES'S, Cripplegate, E.C. 2 (14th century). —Contains the graves of John Milton, John Foxe, and Sir Martin Frobisher, the Elizabethan seaman, who attempted to discover a north-west passage to Cathay, and commanded the *Primrose* as vice-admiral to Drake in his expedition to the West Indies.

ST. HELEN'S, Bishopsgate, E.C. 2.—The "Westminster Abbey of the City" from its numerous monuments; building dates from 13th century. Contains a Shakespeare memorial window presented by Mr. William Prentice, an American. In St. Helen's Place the foundations of an earlier church were uncovered during rebuilding operations in 1922.

ST. JAMES'S GARLICKHITHE, Garlick Hill, E.C. 4, has four stained glass windows, one of which was seriously damaged by a bomb by a German air raider on June 13, 1917. It is proposed that the window should not be completely replaced, and that year by year on the anniversary of the outrage the congregation should assemble for a service of thanksgiving for merciful preservation from sudden and violent death. The "Bomb" Sermon will be a modern counterpart of the "Lion" Sermon (*see* St. Katherine Cree, *below*).

ST. JAMES'S, Piccadilly, W. 1.—Built by Wren, with font and wood carvings by Grinling Gibbons. Lord Chesterfield and Lord Chatham were baptized in St. James's.

ST. JOHN'S, St. John's Square, Clerkenwell, E.C. 1.—Built in early 18th century, includes part of the ancient priory of St. John (12th century crypt).

ST. KATHERINE CREE, Leadenhall Street, E.C. 3. Rebuilt in early 17th century and ascribed to Inigo Jones. Contains a catherine wheel E. window, an organ by Father Smith, Archbishop Laud's prayer book and bible, and a monument of Sir Nicholas Throgmorton. The "Lion" sermon is preached here annually before the Lord Mayor and Corporation of London to commemorate the escape of a Lord Mayor (Sir John Gayer) from a lion in Algeria (Oct. 26, 1630).

ST. MAGNUS THE MARTYR, Lower Thames Street, E.C. 3.—Rebuilt by Wren, with steeple (185 feet) and lantern of great beauty, contains the tomb of Miles Coverdale (1488–1568), translator of the Bible, who was rector of St. Magnus (1564–1566) and Bishop of Exeter (1551–1557).

ST. MARGARET, Lothbury, E.C. 2.—Rebuilt by Wren, contains Grinling Gibbons carvings (font, chancel screen, and pulpit).

ST. MARGARET'S, Westminster, S.W. 1.—Founded 11th or 12th century; buildings date from 15th century, with frequent "restorations." The parish church of the Dominions beyond the Seas, and perhaps the most American spot in all London. The window over the western door was put up in 1882, at the cost of Americans, to the memory of Sir Walter Raleigh, who was executed in Old Palace Yard hard by, and whose headless body, and the body of his son Carew, lie in the chancel. The quatrain below is by James Russell Lowell. (*See also* Tower of London.) The Milton window, at the west end of the north aisle, was the gift of Mr. G. W. Childs, of Philadelphia, and bears an inscription by Whittier. Below the window is a tablet to Sir Peter Parker, who sailed the *Menelaus* up the Chesapeake during the war of 1812–14, and was killed while leading a landing party. On the south wall is a memorial window to Phillips Brooks, Bishop of Massachusetts; and over the vestry door is a window erected to Lady Arabella Stuart by an American lady. The church also contains the grave of Elizabeth, daughter of Robert Dinwiddie, Governor of Virginia.

ST. MARGARET PATTENS, Rood Lane, Eastcheap, E.C. 3.—Rebuilt by Wren, with a leaden spire, contains two canopied pews and other curious survivals and relics.

ST. MARY, Aldermanbury, E.C. 2.—Rebuilt by Wren, contains the tomb of Judge Jeffreys and a marble monument to Lieutenant John Smith, "drowned off Staten Island in 1782." John Heminge and Henry Condell (Shakespeare's editors) were buried in the older church.

ST. MARY WOOLNOTH (above the City and South London Tube Station), King William Street and Lombard Street, E.C. 3.—Built by Hawksmoor early 18th century, organ by Father Smith, contains a memorial to Sir Wm. Phipps, Governor of Massachusetts, who died in London in 1695.

ST. MICHAEL PATERNOSTER ROYAL, College Hill, Upper Thames Street, E.C. 4.—Rebuilt after the Fire by Strong (a pupil of Wren's), contains the tomb of "Dick Whittington (*see* p. 540) and a Grinling Gibbons altarpiece.

ST. OLAVE, Hart Street, Mark Lane, E.C. 3.—A 15th century church, which survived the Fire of London, contains the tombs of Samuel Pepys and his wife, and a monument of John Watts, "President of the Council of New York"; also a memorial (formerly in All Hallows Staining) to Monkhouse Davison and Abram Newman, the exporters of the chests of tea which were thrown into Boston Harbour, Dec. 16, 1773. On Trinity Monday the Master and Brethren of Trinity House (*q.v.*) attend service here.

ST. PAUL'S, Covent Garden, W.C. 2.—Built by Inigo Jones. The tombstones round the exterior of the church record the burial places of Samuel Butler (Hudibras), Sir Peter Lely (Painter), Wycherley (Dramatist), Grinling Gibbons (Wood Carver), Dr. Arne ("Rule, Britannia"), and Macklin (Actor).

ST. PETER'S, Cornhill, E.C. 3.—Rebuilt by Wren, contains a carved choir screen also ascribed to him. The organ is by Father Smith.

ST. SEPULCHRE, Holborn, E.C. 1.—Part of this church escaped the Fire (*see* footnote, col. 2). The organ is by Renatus Harris, in a case attributed to Grinling Gibbons. Memorials in the church to Roger Ascham (Queen Elizabeth's tutor) and Capt. John Smith, "sometime Governour of Virginia and Admirall of New England," who would have been put to death but for the intercession of Pocohontas. (Princess Pocohontas is buried in Gravesend, *see* p. 375).

ST. STEPHEN'S, Coleman Street, E.C. 2.—The Rev. John Davenport, who, with other refugees, landed at Boston in 1637, and founded the colony of New Haven, Connecticut, in the following year, was vicar of this church from 1624 to 1633. The colony was composed in part of former residents of this parish. The tablet in the church to Davenport's memory was erected by one of his American descendants.

ST. STEPHEN'S, Walbrook, E.C. 4.—Rebuilt by Wren (and considered, with Bow Church, *q.v.*, and St. Bride's, *q.v.*, one of his greatest successes), contains the tomb of Sir John Vanbrugh (architect and dramatist), and a painting by Benjamin West.

SAVOY CHAPEL, Savoy Street, Strand, W.C. 2 (re-built about 1505, on site of 13th century Savoy Palace, restored after disastrous fire in 1864).—Graves of Gavin Douglas and George Wither, and memorials of D'Oyly Carte, Laurence Irving. Sunday services at 11.15 and 6.

ST. SWITHIN'S CHURCH, St. Swithin's Lane, E.C. 4 (rebuilt by Wren after the Fire of London, but since modernised).—Contains embedded in its external (S.) wall *London Stone*, the militarium from which in Roman times the miles (*milia passuum*) were measured. This stone is mentioned in King Henry VI., Pt. II.

THE TEMPLE CHURCH, south side of Fleet Street, E.C. 4.—The largest of the five remaining round churches in England, the other four being the Churches of the Holy Sepulchre at Cambridge, Northampton, Little Maplestead (Essex), and Ludlow. The Norman church, restored 1840–1845, is open to the public on week-days, 10.30 a.m. to 4 p.m., Saturdays excepted. Organ by Father Smith. Church service (famous music) on Sunday afternoons at 3 without orders; orders for service on Sundays at 11 a.m. may generally be obtained by writing to the Master of the Temple or Under Treasurer, E.C. 4. Service is discontinued in Aug. and Sept. *Master of the Temple*, Rev. W. H. Draper, M.A.

WREN'S CHURCHES.—Many of the *Churches in the City of London were destroyed by the Fire of London (Sept. 2–6, 1666). Fifty of these were rebuilt by Wren during the rebuilding of St. Paul's Cathedral, and many of them contain wood carvings attributed to Grinling Gibbons. The total cost of the fifty churches was £263,786 10*s.* 4½*d.*, the most expensive being St. Mary-le-Bow, £15,460 6*s.* 8¼*d.* (£7,388 8*s.* 7½*d.* for "Bow Tower"), and the cheapest, St. Vedast-Foster (£1,853 15*s.* 6*d.*).

Church of Scotland.

SCOTTISH NATIONAL CHURCH, Crown Court, Russell Street, Covent Garden, W.C. 2. Sundays 11.15 and 6.30. *Minister*, Rev. J. Moffett, B.A.

ST. COLUMBA'S, Pont Street, Belgrave Square, S.W. 1. Sundays 11 and 6.30.

* The City Churches now standing which survived the Fire of London are:—All Hallows, Barking-by-the-Tower; St. Andrew Undershaft; St. Bartholomew the Great; St. Ethelburga, Bishopsgate; St. Giles, Cripplegate; St. Helen, Bishopsgate; St. Katherine Cree; and St. Olave Hart Street. Of St. Sepulchre, Holborn, only the south porch and the tower remain; of All Hallows, Staining, only the tower; St Andrew, Holborn, escaped the Fire, but it was in a ruinous condition at the time and was reconstructed by Wren, the old tower being refaced with Portland stone in 1704.

Congregational.

BRIXTON INDEPENDENT CHURCH, 364 Brixton Road, S.W. 9.—Rev. B. Snell, M.A. Sundays 11 and 6.45; Thursdays at 8 p.m.

CITY TEMPLE, Holborn Viaduct, E.C.1.—Sundays, 11 and 7.—Rev. F. W. Norwood, D.D.

CHRIST CHURCH, Westminster Bridge Road, S.E. 1.—*Pastor,* Rev. William C. Poole, Ph.D. (*Pastor Emeritus,* Rev. F. B. Meyer, D.D). Opened on July 4, 1876, the centenary of American Independence. The Lincoln Tower and Spire, 200 feet high, shows the Stars and Stripes wrought into the stone, and the British lion and the American eagle at the angles of the tower. The cost was largely defrayed by Americans, in gratitude for Dr. Newman Hall's sympathy with the Union during the American Civil War. Sunday services, 11 and 7.

FELLOWSHIP GUILD SERVICES, instituted by Miss Maude Royden and Dr. Percy Dearmer at Kensington Town Hall in March, 1920, and removed in June, 1921, to Eccleston Guildhouse, Eccleston Square, S.W. 1. Sundays, Music and address, 3.30, and service and sermon, 6.30.

HARECOURT CONGREGATIONAL CHURCH, St. Paul's Road, Canonbury, N. 1.—Founded about 1648 in Hare Court, Aldersgate, and removed in 1857 to Canonbury. John Bunyan died at the House of a Deacon of Harecourt, and the communion plate is of the Cromwellian period. *Pastor,* Rev. Robert Anderson. Sundays, 11 and 6.30; Wednesdays, 8.0 p.m.

THE KING'S WEIGH HOUSE, Duke Street, Grosvenor Square, W. 1.—Rev. W. E. Orchard, D.D. Sundays, 11 a.m. and 7 p.m. Thurs. 7.30 p.m.

PILGRIM FATHERS' MEMORIAL CHURCH, New Kent Road, S.E. 1.—The oldest Congregational Church in London (A.D. 1616), was enlarged by American subscribers in 1856.—Sunday Services at 11 and 6.45; Tuesdays at 8.

UNION CHAPEL, Islington.—Sundays, 11 a.m. and 7 p.m.; Wed., 8 p.m. *Minister,* Rev. J. P. Stephens, M.A.

WESTMINSTER CONGREGATIONAL CHURCH, Buckingham Gate, S.W. 1.—Sundays, 11 and 7.

WHITEFIELD'S CENTRAL MISSION (London Congregational Union), Tottenham Court Road, W. 1.—Founded by the Rev. George Whitefield, M.A., in 1756. Institutional Church founded by Rev. C. Silvester Horne, M.A., M.P., in 1903. *Organizing Sec.,* Harry E. Gaze. Sunday Services, 11 and 7. Men's Meetings, 3.15. Thursday Service, 7.30 p.m. Institute and Clubs for young people open daily.

Baptist.

BLOOMSBURY BAPTIST CHURCH, Shaftesbury Avenue, W.C. 2.—*Minister,* Rev. T. Phillips, B.A. Sundays, 11 and 6.30; Wednesdays, 7.30.

METROPOLITAN TABERNACLE, Newington, S.E. 11 (Mr. Spurgeon's, 1861-1892).—Sunday, 11 and 6.30; Thursday, 7.30. *Pastor,* Rev. H. Tydeman Chilvers.

WESTBOURNE PARK, Porchester Rd., Bayswater, W. 2.—*Pastor,* Rev. S. W. Hughes, D.D. Sundays, 11 a.m. and 6.30 p.m. Wednesdays, 7.30 p.m.

Wesleyan.

WESLEY'S CHAPEL, City Road, E.C. 1. "The Cathedral of Wesleyan Methodism." Contains many relics of John and Charles Wesley and other great founders of Methodism. As the "Mother Church of Methodism" visitors attend from all parts of the world.—Sunday morning at 11; evening at 6.30. John Wesley's tomb in graveyard behind chapel. In front is Wesley's House and Museum. *Minister,* Rev. George H. McNeal, M.A., 49 City Road, E.C. 1. Opposite Wesley's Chapel is *Bunhill Fields Burial Ground,* City Road, the burial place of Dr. John Owen (1683), John Bunyan (1688), Daniel Défoe (1731), Dr. Watts (1748), William Blake (1828), and Susannah Wesley (1742). To the west of the cemetery is the *Friends' Burial Ground,* with the grave of George Fox, founder of the Society of Friends.

CENTRAL HALL, Westminster, S.W. 1.—*Sunday Preacher,* Rev. Dinsdale T. Young, D.D.

KINGSWAY HALL, Kingsway and Great Queen Street, W.C. 2.—Sundays at 11, 3.30, and 7.

Roman Catholic.

WESTMINSTER CATHEDRAL, Ashley Place, Westminster, S.W. 1 (close to Victoria Station), built 1895-1903 from the designs of J. F. Bentley (the campanile is 283 feet high).—*Sundays:* Low Masses, 6, 6.30, 7, 7.30, 8, 8.30, 9 (with short Sermon); Capitular High Mass, 10.30; Low Mass with Sermon, 12; Solemn Vespers and Benediction, 3.15; Compline, Sermon and Benediction, 7. *Week-days:* Low Masses, 7, 7.30, 8, 8.30, 9; Capitular High Mass, 10.30; Vespers, Compline and Benediction, 3.15; Matins and Lauds, 6; Sermon and Benediction, 8.15. *Holidays of Obligation:* Low Masses, 6, 6.30, 7, 7.30, 8, 8.30, 9; Capitular High Mass, 10.30; Low Mass, 12; Solemn Vespers, Compline and Benediction, 3.15; Devotions, Sermon and Benediction, 8.15. Church open 6.30 a.m. to 9.30 p.m. Cardinals Wiseman and Manning buried in crypt. Campanile open to public, admission 6d.

ST. GEORGE'S CATHEDRAL, Lambeth Road, S.E. 1.—Built by Pugin 1840-8 (tower not yet built), near Waterloo Station and Lambeth North "Tube." *Sundays:* Low Masses, 7, 8, 9.30 (children), 12 (with short sermon); High Mass, 10.30; Vespers (Sermon and Benediction), 6.30 p.m. *Week-days:* Low Masses, 7, 7.30, 8, 12. Sermon and Benediction on Tuesdays, Thursdays and Fridays at 8.15. *Holidays of Obligation:* Low Masses, 6, 7, 8, 9, 10; High Mass, 11. Vespers and Benediction, 8 p.m. Church open, 6.30–1 and 2.30–9.30.

THE ORATORY, Brompton, S.W. 1.—Sundays: Low Masses, 6.30, 7, 7.30, 8, 8.30, 9, 10; High Mass, 11; Low Mass and Sermon, 12; Vespers, 3.30; Evening Service and Benediction, 7. Weekdays: Low Masses, 6.30, 7, 7.30, 8, 8.30, 10. Evening Service and Sermon daily, 8 (except Saturday). Holidays: High Mass, 11; Low Mass, 12. Thursdays and Saturdays, 4.30, Benediction. Great Day—St. Philip's, 26 May, High Mass, 11; Solemn Vespers, 4.30; Benediction, 8.

Dutch Reformed.

AUSTIN FRIARS, Old Broad Street, E.C. 2.—14th century church, assigned by Edward VI. to Protestant refugees and ultimately to the Dutch; contains many 14th century and later tombs.

Christian Science.

CHRISTIAN SCIENCE.—*First Church of Christ Scientist* (Sloane Terrace, S.W. 1); *Second* (Palace Gardens Terrace, W. 1); *Third* (7 and 8, Curzon Street, Mayfair, W. 1).

Jews.

SPANISH AND PORTUGUESE SYNAGOGUE, Bevis Marks, E.C. 3.—Founded during Commonwealth; present building erected in 1701. The oldest Jewish synagogue in the country.

GREAT SYNAGOGUE, St. James's Place, Duke Street, Aldgate, E.C. 3. — Founded in 1692 (present building 1790).

WEST LONDON SYNAGOGUE, Upper Berkeley Street, W. 2.

I.—Elementary.

Statutes require parents in *England and Wales* to cause their children to receive efficient elementary instruction or to attend school from 5 to 14 years of age; in *Scotland*, to provide efficient education up to 15 years; in *Ireland*, to cause their children to attend school from 6 to 14 years.

In *England and Wales* (1924) there were 20,747 public elementary schools with accommodation for 7,091,928 pupils, and average attendance of 5,031,680; in addition, there were 122 special schools for blind and deaf children, with accommodation for 8,392, and 403 for defective and epileptic children, with accommodation for 32,536. There were (1924) 29,896 certificated college-trained men teachers and 55,472 women, 6,977 certificated not college-trained men teachers and 24,543 women, and 1,975 uncertificated men and 30,203 uncertificated women.

In *Scotland* (1924) there were 2,895 primary schools with accommodation for 870,067, and average attendance of 586,803. There were (1924) 3,679 certificated men teachers and 14,065 women teachers, 3 provisionally certificated and assistant men, and 61 women. The War lessened the number of male teachers which was already diminishing. State grants for pensions on a more liberal scale than formerly are now offered under the Superannuation Act of 1918, by which it is hoped to render the profession more attractive.

Twenty per cent. of the population are of the pupil age. School life is over in the great majority of cases after about seven years of schooling, the minority proceeding to some other kind of day-school. Recent legislation requires Local Authorities in England, Wales and Scotland to make schemes for consideration by the Board of Education to provide suitable practical instruction, to give advanced instruction to those pupils who stay beyond 14, and to improve the facilities towards preparing pupils for higher education and the teaching profession: also nursery-schools for children under five.

Elementary school education includes teaching in practical matters—needlework, drawing, gardening, handicrafts, cookery, &c.—and the sections upon health, medical attendance, physical training, evening play centres, home study, future employment, &c., show that the schools are valuable agencies in child-welfare generally.

II.—Education beyond Elementary.

The Education Act, 1918, has in view powers for compulsory, and therefore free, education of a continuative kind in part-time day schools up to 16 and ultimately 18 years; and implies free secondary education of some type hereafter.

Secondary.

The aims, methods, and instructions are in marked contrast to the comparative simplicity of those in Elementary Education. In all the four countries it is now felt that although technical instruction was the first branch to be promoted by statute, undifferentiated 4-year secondary (intermediate) courses should be gone through before pupils proceed to specialisation for industrial, commercial, &c., employments.

In *England and Wales* (1924) the number of Secondary schools recognised for grant was 1,270, with 8,866 full time men and 9,792 full time women teachers (in addition to 1,863 part time men and women). The full time pupils numbered 42,959 boys and 42,326 girls under 12; 126,914 boys and 109,653 girls between 12 and 16; 16,357 boys and 20,322 girls over 16 a total of 186,230 boys and 172,301 girls. Of these about one-fourth come up from elementary schools with "free places," others with scholarships. Nine-tenths of these schools receive State grants, and nearly one-third are controlled by Local Authorities. Fees are charged to most of the pupils. Of these "efficient" schools about 40 per cent. receive boarders (about 27,000) in varying proportions and drawn in many cases from distant areas. Most of them are endowed or under trusts, and their trust incomes and property form a considerable asset in secondary school finance. The Authorities aim at securing graduate teachers as far as possible. As in Elementary schools, there is a shortage of fully-qualified teachers; but the recent Act for providing Pensions for School Teachers may be expected to make the posts more attractive. The system in *Wales* is much the same as in England, though the schools are under earlier statutory provisions, and are called "Intermediate" in many cases. In Wales there is a Central Welsh Board.

In *Scotland* there are three kinds of courses: "Higher Grade and Intermediate with post-Intermediate." All are under the same Commissioners and Local Authorities as are the Elementary schools. In 1924 there were 101 Intermediate departments with 14,007 attendances, and 249 Secondary, with 70,376 attendances.

Technical.

Technical Education in England and Wales is provided in Evening and similar schools and in Day Technical Classes and Technical Institution Courses (mostly controlled by Local Authorities). State grants are paid on the number of students of whom about one-half are under 17 years of age. The average attendance of a student is about 50 hours per annum. There are also Teachers' Courses, Tutorial Classes, and also Schools of Art, Branch Schools of Art, and Art Classes. In Scotland Technical Education is provided in like manner.

Training.

Training is provided by the State for Elementary School Teachers, of whom 50 per cent. have been trained in Colleges having nearly 13,000 places. Slight progress has been made lately towards providing for the Training of Teachers for Secondary Schools, a small annual State grant being made for the purpose.

Universities.

Many of these institutions now receive annual State grants, mainly in the form of "block" grants paid by the Treasury on the advice of the University Grants Committee. Substantial grants are also received from local Education Authorities in England and Wales. State grants to Irish Institutions were transferred from the Treasury to the Irish Governments as from April, 1922.

In 1924-5 the Professors and Undergraduates were approximately as under:—

Universities.	Professors, &c.	Undergraduates.
England (10)	3,074	32,250
Wales (1)	361	2,750
Scotland (4)	739	10,090
Total (15)	4,174	44,090

THE UNIVERSITY OF OXFORD.

OXFORD UNIVERSITY TERMS 1927.

Hilary, or Lent, Jan. 14 to April 9.
Trinity, April 20 to July 9.
Michaelmas, Oct. 20 to Dec. 17.

UNIVERSITY OFFICERS, &c.

Chancellor, The Viscount Cave, P.C., G.C.M.G., D.C.L., *St. John's* ..... Elect. 1925
High Steward, The Earl of Birkenhead, Hon. D.C.L., *Merton* 1922
Vice-Chancellor, F. W. Pember, D.C.L., Warden of *All Souls* 1926
Proctors, K. N. Bell, M.A., *Balliol*; T. W. Chaundy, M.A., *Ch. Ch.* 1926
Burgesses, Lord Hugh R. H. Cecil, M.A., *Hertford*; Sir C. W. C. Oman, M.A., *All Souls* 1924
Assessor of the Chancellor's Court, A. E. W. Hazel, B.C.L., Principal of *Jesus* 1925
Public Orator, A. B. Poynton, M.A., *Univ.* 1925
Member of the Medical Council of the United Kingdom, A. Thomson, M.A., *Ch. Ch.* 1899
Bodley's Librarian, Arthur Ernest Cowley, D.Litt., *Magdalen* 1919
Sub-Librarians, H. H. E. Craster, D.Litt., *All Souls*, 1918; E. Lobel, M.A., *Queen's* 1919
Keeper of Archives, R. L. Poole, M.A., *Magd.* 1909
Radcliffe Librarian (vacant) 1924
Keeper of the Ashmolean Museum, D. G. Hogarth, D.Litt., *Magdalen* 1908
Keeper of Art Galleries, C. F. Bell, M.A., *Magdalen* 1909
Registrar of the University, E. S. Craig, M.A., *Magdalen* 1924
Assistant Registrar, S. Caldwell, M.A., *Wadham* 1925
Secretary of Faculties, H. M. Margoliouth, M.A., *Oriel* 1925
Radcliffe Observer, H. Knox-Shaw, M.A., *Trin.* 1924
Secretary to the Curators of the University Chest, J. F. Stenning, M.A., *Wadham* ... 1919
Curator of Sheldonian Theatre (vacant) ...
Acting Curator of Schools, G. B. Allen, D.D., Principal of *St. Edmund Hall* 1922
Registrar of the Chancellor's Court, John D. Peel, M.A., *Magd.* 1908
Coroners of the Univ., W. T. Brooks, M.A., *Ch. Ch.*, 1899; F. E. Marshall, M.A., *St. John's* 1908
University Counsel, Albert G. Clauson, K.C., M.A., *St. John's* 1923
Solicitor, John D. Peel, M.A., *Magd.* 1908
Bedels, F. S. Gee, M.A., *Non-Coll., Divinity*; E. Parker, *Law*; C. J. Honey, *Medicine*; G. W. Beesley, *Arts* .....
Organist, G. Edens, Hon. M.A. 1925
Summoner of Preachers, H. M. Lodge, Hon. M.A. 1919
Clerk of the Schools, E. H. Bellamy, Hon. M.A. 1900
Secretary to Delegates of—
Examination of Schools, C. H. Wilkinson, M.A., *Worcester*.
Extra-Mural Studies, Rev. F. E. Hutchinson, M.A., *Trinity* 1919
Local Exams., W. C. Burnet, M.A., *Worcester*.

HOSTELS.

Selwyn College (1882), J. O. F. Murray, D.D., *Mast.*
Non-Collegiate Students (1869), W. S. Thatcher, M.A., *Censor.*

Colleges for Women.

GIRTON COLLEGE.

Mistress, Miss E. H. Major.
Vice-Mistress, Miss H. M. R. Murray.
Bursar, Miss E. M. Allen.
Junior Bursar, Miss P. K. Leveson.
Librarian, Miss E. S. Fegan.
Secretary, Miss M. Clover.

NEWNHAM COLLEGE.

Principal, Miss J. P. Strachey.
Tutors, Miss A. B. Dale; Miss Steele Smith; Miss E. M. Chrystal; Mrs. Palmer.
Bursar, Mrs. Lacy.

THE UNIVERSITY OF LONDON,
South Kensington, S.W. 7. 1836 and 1900.

During the Session 1925-26 the total admissions amounted to 7,577; the number of internal Students in July, 1926, was 9,400.

Visitor, H.M. the King in Council.
Chancellor, Rt. Hon. Earl of Rosebery and Midlothian, K.G., K.T., D.C.L., LL.D., F.B.A., F.R.S.
Vice-Chancellor, Sir William H. Beveridge, K.C.B., LL.D. B.C.L.
Chairman of Convocation, Sidney Luxton Loney, M.A.
Principal Officer, Thomas Franklin Sibly, D.Sc.
Registrars: (*Academic Council*) Edwin Deller, LL.D.; (*External Council*) G. F. Goodchild, M.A.; (*University Extension Board*) J. Lea, M.A.
Financial Officer and Secretary to the Senate, H. Claughton, C.B.E., B.A.
Supt. of Examinations, F. J. Port, LL.B.
Goldsmiths' Librarian, R. A. Rye.
Accountant, Oliver Greenwood, F.S.A.A.

Representative in Parliament, Dr. E. G. G. Little, (1924).
Public Orator, Prof. E. A. Gardner, Litt.D.

THE SENATE.

The Chancellor, The Vice-Chancellor, The Chairman of Convocation. *By the Crown*, Sir William H. Beveridge, Sir F. G. Ogilvie, Prof. Sir Arthur Schuster, Dr. W. C. Unwin. *By Convocation*—(*Divinity*), Rev. Canon J. A. Douglas; (*Arts*), Miss E. C. Higgins, Rev. Dr. J. Scott Lidgett, Dr. A. W. Reed, Miss E. Strudwick, Rev. Dr. H. B. Workman; (*Laws*), His Honour T. B. Napier; (*Music*), C. B. Edgar; (*Medicine*), Dr. E. G. G. Little, M.P.; Dr. R. A. Young; (*Science*), C. W. Crook, G. D. Dunkerley, Dr. C. W. Kimmins, Sir Philip Magnus, Dr. R. H. Pickard, Dr. G. Senter, Sir Josiah C. Stamp. *By Royal College of Physicians*, Dr. J. Fawcett, Sir Wilmot P. Herringham. *By Royal College of Surgeons*, V. Warren Low, Sir Cuthbert S. Wallace, J. Sherren. *Co-opted to represent University College*, Sir Gregory Foster, Sir Andrew Taylor. *Co-opted to represent King's College*, Dr. E. Barker. *By King's College* (*Theological Department*), Rev. Dr. W. R. Matthews. *By Lincoln's Inn*, Hon. Mr. Justice Tomlin. *By Inner Temple*, W. R. Bousfield. *By Middle Temple*, Sir Robert A. McCall. *By Gray's Inn*, Lord Justice Atkin. *By Law Society*, Dr. C. Mackintosh, Sir Arthur C. Peake. *By Corporation of London*, J. R. Pakeman. *By London County Council*, Sir Wm. J. Collins, Sir John Gilbert. *By City and Guilds of London Institute*, Dr. G. N. Pitt. *By the Faculties*—(*Theology*), Rev. Prof. H. T. Andrews; (*Arts*), Prof. H. G. Atkins, Prof. E. A. Gardner, Prof. Harold Edgeworth Butler, M.A., Miss M. J. Tuke; (*Laws*), Prof. H. C. Gutteridge; (*Music*), Sir Hugh P. Allen; (*Medicine*), Lord Dawson of Penn, H. L. Eason, Sir H. J. Waring; (*Science*), Prof. H. B. Baker, Prof. L. N. G. Filon, F. T. S. Hatton, Prof. F. Horton; (*Engineering*), Prof. E. G. Coker; (*Economics*), Prof. Graham Wallas.

Organisation of Teaching.

On January 1, 1907, University College was transferred to the University, of which it now forms an integral part in the Faculties of Arts, Laws, Medicine, Science, Engineering, and Economics. On January 1, 1910, King's College was, in respect of all its Departments except that of Theology, transferred to the University, of which it now forms an integral part, in the Faculties of Arts, Laws, Medicine, Science, Engineering, and Economics. The Theological Department of the College remains a "School of the University" in the Faculty of Theology. Other University Institutions are the Brown Animal Sanatory Institution in Wandsworth Road, Goldsmiths' College at New Cross, the Francis Galton Laboratory for National Eugenics at University College, the Bartlett School of Architecture at University College, and the Institute of Historical Research in Malet Street.

TEACHING STAFF.

The numbers of the "Appointed" and "Recognised" Teachers in the several Faculties are as follows:—

Theology, 1 and 18; *Arts*, 84 and 123; *Laws*, 11 and 16; *Music*, 1 and 26; *Medicine*, 26 and 362; *Science*, 89 and 215; *Engineering*, 12 and 72; *Economics*, 30 and 16.

UNIVERSITY PROFESSORS.

Accountancy and Business Methods (*Cassel*), F. R. M. de Paula, O.B.E., F.C.A.

Anatomy, E. Barclay-Smith, M.D.; J. E. S. Frazer, F.R.C.S.; T. B. Johnston, M.B.; Mrs. Lucas Keene, M.B.; F. G. Parsons, F.R.C.S.; G. Elliot Smith, M.D., F.R.S.; W. Wright, D.Sc.

Anatomy (*Courtauld*), T. Yeates, M.B.

Morbid Anatomy, H. M. Turnbull, D.M.

Applied Mathematics and Mechanics (*Goldsmid*), L. N. G. Filon, T.D., D.Sc., F.R.S.

Arabic, Sir T. W. Arnold, C.I.E., Litt.D., F.B.A.

Archæology (*Yates*), E. A. Gardner, Litt.D.

Architecture, A. E. Richardson, F.R.I.B.A.

Aviation (*Zaharoff*), L. Bairstow, C.B.E., F.R.S.

Bacteriology, J. W. H. Eyre, M.D.; J. C. G. Ledingham, C.M.G., D.Sc., F.R.S.

Bacteriology (*Goldsmiths' Company's*), W. Bulloch, M.D., F.R.S.

Banking and Currency (*Cassel*), T. E. G. Gregory, D.Sc.

Biochemistry, E. C. Dodds, Ph.D.; J. C. Drummond, D.Sc.; A. Harden, D.Sc., F.R.S.

Botany, F. E. Fritch, D.Sc., Ph.D., F.R.S.; R. R. Gates, Ph.D.; Dame Helen C. I. Gwynne-Vaughan, D.B.E., D.Sc.

Botany (*Hildred Carlile*), W. Neilson-Jones, M.A.

Botany (*Quain*), F. W. Oliver, D.Sc., F.R.S.

Chemistry, A. J. Allmand, M.C., D.Sc.; C. S. Gibson, O.B.E., M.Sc.; T. S. Moore, M.A.; J. R. Partington, M.B.E., D.Sc.; R. H. Aders Plimmer, D.Sc.; C. K. Tinkler, D.Sc.; W. B. Tuck, D.Sc.

Chemistry (*Daniell*), S. Smiles, O.B.E., D.Sc., F.R.S.

Chemistry (*General*), F. G. Donnan, C.B.E., D.Sc., F.R.S.

Chemistry (*Organic*), J. Norman Collie, D.Sc., F.R.S.

Chinese, J. P. Bruce, D.Lit.

Classics, J. H. Sleeman, M.A.; J. A. K. Thomson, M.A.

Commerce, A. J. Sargent, M.A.

Commercial and Industrial Law (*Cassel*), H. C. Gutteridge, LL.D.

Comparative Law (*Quain*), J. E. G. de Montmorency, LL.B.

Constitutional Law, J. H. Morgan, M.A., K.C.

Dutch History and Institutions, Pieter Geyl, Lit.D.

Education, C. L. Burt, D.Sc; T. P. Nunn, D.Sc.; J. D. Wilson, M.A.

Egyptology (*Edwards*), Sir Flinders Petrie, D.C.L., F.B.A., F.R.S.

Embryology, J. P. Hill, D.Sc., F.R.S.

Engineering, W. E. Dalby, B.Sc., F.R.S.

Chemical Engineering (*Ramsay Memorial*), E. C. Williams, M.Sc.

Civil Engineering, A. H. Jameson, M.Sc., M.I.C.E.

Civil and Mechanical Engineering, E. G. Coker, D.Sc., F.R.S.; E. H. Lamb, D.Sc., M.Sc.

Electrical Engineering, W. C. Clinton, B.Sc.; J. T. MacGregor-Morris, M.I.E.E.

Do. (*Siemens*), Ernest Wilson, M.I.E.E.

Mechanical Engineering, G. Cook, D.Sc.

Municipal Engineering (*Chadwick*), M. T. M. Ormsby, F.R.C.Sc.

English Bibliography, A. W. Pollard, C.B., D.Litt.

English Lang. and Literature, Sir I. Gollancz, Litt.D., F.B.A.; J. R. A. Nicoll, M.A.

Do. (*Quain*), R. W. Chambers, D.Lit.

English Lang. and Med. Literature, P. G. Thomas, Litt.D.

English Law, E. Jenks, D.C.L.

English Literature (*Hildred Carlile*), Miss C.F.E. Spurgeon, Litt.D.

Ethnology, C. G. Seligman, M.D., F.R.S.

Eugenics (*Galton*), Karl Pearson, LL.D., F.R.S.

Fine Art (*Slade*), Henry Tonks, F.R.C.S.

French and Romance Philology (*Fielden*), L. M. Brandin, Ph.D.

French Lang. and Literature, D. Saurat, D.-ÈS-L.; F. J. Tanquerey, D.-ÈS-L.

French Literature, F. Y. Eccles, M.A.

Geography, L. R. Jones, M.C., Ph.d.; L. W. Lyde, M.A.; J. F. Unstead, D.Sc.

Geology, W. T. Gordon, D.Sc., F.R.S.E.

Geology (*Yates-Goldsmid*), E. J. Garwood, Sc.D., F.R.S.

German, H. G. Atkins, D.Lit.; R. C. Priebsch, Ph.D.; J. G. Robertson, Ph.D.

Greek, M. T. Smiley, M.A.

Helminthology, R. T. Leiper, D.Sc., F.R.S.

History, Miss Hilda Johnstone, M.A.; Miss C. A. J. Skeel, D.Lit.

Central European History (*Masaryk*), R. W. Seton-Watson, D.Litt.

Economic History, (vacant).

English History, A. F. Pollard, Litt.D., F.B.A.

History & Culture of British Dominions in Asia, &c., H. H. Dodwell, M.A.

History of Art, C. T. Borenius, Ph.D.

Imperial History (*Rhodes*), A. P. Newton, D.Lit.

International History (*Stevenson*), A. J. Toynbee, B.A.

Medieval History, F. J. C. Hearnshaw, LL.D.

Modern History, J. D. Mackie, M.C., M.A.

Modern French History and Institutions, Paul Vaucher, L-ÈS-L.

Modern Greek & Byzantine History, &c. (*Koraes*), F. H. Marshall, M.A.

International Relations (*Cassel*), P. J. N. Baker, M.A.

Italian, E. G. Gardner, Litt. D., F.B.A.

Latin, H. E. Butler, M.A.

Latin (*Hildred Carlile*), H. Williamson, M.A.

Logic & Scientific Method, A. Wolf, D.Lit.

Mathematics (*Astor*), G. B. Jeffery, D.Sc., F.R.S.

Mathematics, B. B. Baker, D.Sc.; H. Hilton, D.Sc.; A. E. Jolliffe, M.A.; S. A. F. White, M.A.

Medicine, T. R. Elliott, C.B.E., D.S.O., M.D., F.R.S.; A. W. M. Ellis, O.B.E., M.D.; F. R. Fraser, M.D.; F. S. Langmead, M.D.; H. MacLean, M.D.

Music (*King Edward*), P. C. Buck, Mus. Doc., M.A.

Mycology, E. S. Salmon.

Obstetric Medicine, F. J. Browne, M.D.

Obstetrics and Gynæcology, Miss A. L. McIlroy, O.B.E., M.D.

Old Testament Studies (*Samuel Davidson*), Rev. G. H. Box, D.D.

Pathology, Sir F. W. Andrewes, O.B.E., M.D., F.R.S.; J. H. Dible, M.B.; L. S. Dudgeon, C.M.G., C.B.E., F.R.C.P.; J. McIntosh, M.D.

Pathology (*Graham*), A. E. Boycott, D.M., F.R.S.

Pathology (*Dunn*), Adrian Stokes, D.S.O., O.B.E., M.D.

Experimental Pathology, C. J. Martin, C.M.G., D.Sc., F.R.S.; Sir Almroth E. Wright, K.B.E., C.B., M.D., F.R.S

Persian, Sir Denison Ross, C.I.E., Ph.D.

Pharmaceutics, H. G. Greenish, D.-ès-Sc., F.I.C.

Pharmacology, E. B. Verney, M.B.

Philosophy, H. Wildon Carr, D.Litt.

Philosophy of Mind and Logic (*Grote*), C. E. Spearman, Ph.D., F.R.S.
Phonetics, Daniel Jones, M.A.
Physics, A. Griffiths, D.Sc. ; F. L. Hopwood, D.Sc. ; F. Horton, D.Sc., F.R.S. ; C. H. Lees, D.Sc., F.R.S. ; A. W. Porter, D.Sc., F.R.S. ; O. W. Richardson, D.Sc., F.R.S.
Physics (*Hildred Carlile*), W. Wilson, D.Sc., F.R.S.
Physics (*Joel*) S. Russ, D.Sc.
Physics (*Quain*), (vacant).
Do. (*Wheatstone*), E. V. Appleton, D.Sc.
Physiology, B. J. Collingwood, O.B.E., M.D. ; J. S. Edkins, Sc.D. ; A. V. Hill, O.B.E., Sc.D., F.R.S. ; R. J. S. McDowall, D.Sc. ; J. Mellanby, M.D. ; V. H. Mottram, M.A. ; M.S. Pembrey, M.D., F.R.S. ; H. E. Roaf, M.D. ; S. Vincent, M.D.
Physiology (*Jodrell*), C. A. Lovatt Evans, D.Sc., F.R.S.
Physiology (*Sophia Jex-Blake*), Miss W. C. Cullis, O.B.E., D.Sc.
Political Economy, H. S. Foxwell, M.A., F.B.A.
Political Science, H. J. Laski, M.A.
Portuguese Language, Literature and History (*Camoens*), Edgar Prestage, D.Litt
Public Administration, Rt. Hon. Sidney J. Webb, LL.B., M.P.
Russian Language, Literature and History, Sir Bernard Pares, K.B.E., M.A.
Sanskrit, R. L. Turner, M.C., M.A.
Sculpture, (vacant).
Sociology (*Martin White*), L. T. Hobhouse, D.Litt., F.B.A. ; E. A. Westermarck, Ph.D., LL.D.
Statistics, A. L. Bowley, Sc.D., F.B.A.
Surgery, C. C. Choyce, C.M.G., C.B.E., M.D. ; G. E. Gask, C.M.G., D.S.O., F.R.C.S. ; C. A. Pannett, M.D.
Swahili and the Bantu Languages, Miss Alice Werner, L.L.A.
Town Planning, S. D. Adshead, M.A., F.R.I.B.A.
Veterinary Pathology and Bacteriology, Sir John McFadyean, LL.D., F.R.S.E.
Zoology, C. L. Boulenger, D.Sc. ; J. S. Huxley, M.A.
Zoology and Comparative Anatomy (*Jodrell*), D. M. S. Watson, M.Sc., F.R.S.

UNIVERSITY COLLEGE, Gower Street, W.C. 1.
Chairman of Committee, Viscount Chelmsford.
Provost, Sir Gregory Foster.
The College comprises the Faculties of Arts, Laws, Medical Sciences, Engineering and Economics, and the following Special Schools :—The Bartlett School of Architecture (incl. Department of Town Planning), the Slade School of Fine Art (Drawing, Painting and Sculpture), and the School of Librarianship.

KING'S COLLEGE, Strand, W.C. 2.
Chairman of Delegacy, Viscount Hambleden.
Principal, Ernest Barker, LL.D.
The College comprises the Faculties of Arts, Laws, Medicine, Science, Engineering and Economics.

KING'S COLLEGE FOR WOMEN.
Household and Social Science Department, Campden Hill Road, W. 8.
Dean, Helene Reynard, M.A.

GOLDSMITHS' COLLEGE, New Cross, S.E. 14.
Warden, T. Raymont, M.A.

SCHOOLS OF THE UNIVERSITY.
In the Faculty of Theology :—
Hackney and New College.
Hampstead, N.W. 3 (Congregational).
Principal, Rev. A. E. Garvie, D.D.
Regent's Park College, N.W. 8 (Baptist).
Principal, Rev. H. Wheeler Robinson, M.A.
King's College (Theological Department), Strand, W.C. 2 (Church of England).
Dean, Rev. W. R. Matthews, D.D.
Wesleyan College, Richmond (West. Methodist).
Principal, Rev. W. T. A. Barber, D.D.
St. John's Hall, Highbury (Church of England).
Principal, Rev. T. W. Gilbert, D.D.
Arts, Science, and Engineering :—
East London College, Mile End Road, E. 1.
Principal, John L. S. Hatton, M.A.
Arts and Science :—
Royal Holloway College, Englefield Green.
Principal, Miss Ellen C. Higgins, B.A.
Bedford College for Women, Regent's Park, N.W. 1.
Principal, Miss M. J. Tuke, M.A.
Birkbeck College, Bream's Buildings, E.C. 4. (For evening and part-time students.)
Principal, George Senter, D.Sc.
Arts :—
Westfield College, Hampstead, N.W. 3.
Principal, Miss Eleanor C. Lodge, M.A.
Arts—in Pedagogy only :—
London Day Training College, Southampton Row, W.C. 1.
Principal, Prof. T. P. Nunn, D.Sc.
Arts—in Oriental Research only :—
School of Oriental Studies, Finsbury Circus, E.C. 2.
Director, Prof. Sir Denison Ross, C.I.E., Ph.D.
Medicine :—
The Medical Schools of certain Hospitals, &c. (*see* pp. 311-12).
Science and Engineering :—
Imperial College of Science and Technology :—
Royal College of Science and Royal School of Mines.
Rector, Sir Thomas H. Holland, K.C.S.I., K.C.I.E., F.R.S.
City and Guilds (*Engineering*) *College.*
Dean, Prof. W. E. Dalby, M.A., F.R.S.,
Science—in Agriculture only :—
South-Eastern Agricultural College, Wye, Kent.
Principal, Robert M. Wilson, B.Sc.
Arts (*in Anthropology, History, Sociology and Geography only*), *Laws and Economics and Political Science :—*
London School of Economics and Political Science, Houghton Street, Aldwych, W.C. 2.
Director, Sir William H. Beveridge, K.C.B., B.C.L.

THE UNIVERSITY OF DURHAM, 1832.
Chancellor, The Earl of Durham, K.G.
Vice-Chancellor, Percy John Heawood, M.A.
Proctors, Rev. H. Ellershaw, M.A. ; H. J. Hutchens, D.S.O., M.A.
Registrar, H. G. Theodosius, M.A.
Librarian, E. V. Stocks, M.A.
Hon. Director of Observatory, Harold Thomson, M.Sc., F.R.A.S.
Observer, Frank Sargent, F.R.A.S.
UNIVERSITY COLLEGE, Durham.
Master, Rev. Henry Ellershaw, M.A.
HATFIELD COLLEGE, Durham.
Master, Arthur Robinson, D.C.L.
ST. CHAD'S COLLEGE, Durham.
Principal, Rev. S. R. P. Moulsdale, B.D.
ST. JOHN'S COLLEGE, Durham.
Principal, Rev. C. S. Wallis, M.A.
ST. MARY'S COLLEGE, Durham.
Principal, Miss R. E. D. Donaldson, M.A.
BEDE COLLEGE, Durham.
Principal, Rev. E. F. Braley, M.A.

ST. HILD'S COLLEGE, Durham.
Principal, Miss E. C. Christopher, M.A.

NEVILLE'S CROSS COLLEGE, Durham.
Principal, Miss Z. G. D. May, M.A.

NON-COLLEGIATE STUDENTS.
Censor, Rev. N. D. Coleman, M.A.

HOME STUDENTS (Women).
Censor, Kathleen Lambley, M.A.

COLLEGE OF MEDICINE, Newcastle.
President, Sir David Drummond, C.B.E., M.D.

ARMSTRONG COLLEGE, Newcastle.
Principal, Sir Theodore Morison, K.C.S.I., K.C.I.E., C.B.E., D.C.L.

THE VICTORIA UNIVERSITY OF MANCHESTER. (£2,000.)

Founded 1850; re-organised 1880 and 1903.
Chancellor, The Earl of Crawford and Balcarres, K.T., LL.D.
Vice-Chancellor, Walter H. Moberly; D.S.O., Litt.D.
Registrar, Norman Smith, D.Sc.
Director of Extra-Mural Studies, H. P. Turner, M.A.
Bursar, Sydney Chaffers, M.A.
Adviser to Women Students, Phyllis E. Crump, M.A.
Chairman of Convocation, A. E. G. Chorlton, LL.B.
Clerk of Convocation, Rev. T. M. Gribbin, M.A.
Tutor and Sec., Faculty of Arts, J. A. Petch, M.A.
Tutor and Sec., Faculty of Science, J. E. Myers, O.B.E., D.Sc.
Tutor and Sec., Faculty of Medicine, A. C. Kelly, M.B.
TRAINING DEPARTMENT (for Men and Women).
Professor and Director of Dept., H. Bompas Smith, M.A.

HALLS OF RESIDENCE.
